Personalities in the Senate.

The Buffalo Advertiser recalls to mind that when Mr. Fillmore assumed the duties of the office of President of the Senate, with characteristic independence he informed that body that he should consider it his duty to preserve decorum, and should reverse the rule, which has so long prevailed, that Senators were not to be called to order for words spoken in debate. The Senators were so well pleased with his remarks that they ordered this address to be entered at large on their Journal.

Old Line Whigs.

At a meeting recently held by the "Old Line Whigs" of Florida, the following sensible resolution was adopted:

"That having undiminished confidence in Millard Fillmore, as a Statesman and a Patriot, who has been tried and found faithful to the Constitution, and duly appreciating his high character and distinguished abilities, we will cheerfully support him for the Presidency."

Here is an example worthy of imitation by all disinterested "Old Line Whigs" of Maryland.

The Troubles in Kansas.

A despatch from Washington informs us that Senator Trumbull with the view of a restoration of peace in Kansas, has prepared a bill which will soon be introduced in Congress, proposing the annexation of that Territory to Nebraska, the terms of all the officers of Kansas, and all the laws and supposed laws therein to cease.

Pierce and Brooks.

A despatch from Concord, dated June 5, informs us that effigies of President Pierce and Preston S. Brooks were found hanging in front of the State House, 80 feet from the ground, at the top of the Pierce and King liberty pole of 1852.—An effigy of Col. George was found in another part of the city, bearing the words "The Glorious and Godlike Administration of Pierce."

Unpaid Letters

The Postmaster General has addressed an official despatch to the leading post-offices, instructing the Post Master in each case, that whenever any letter is deposited unpaid, he must send a circular notice to the party addressed, that the said letter is detained for want of pre-payment, and that it will be forwarded on the receipt, in stamps, of the amount due.

Patent Feed Cutter.

The most scientific yet simple Feed Cutter ever introduced in these parts, is now on exhibition at the Union Works, and also in front of the New Bank. This Cutter is eminently deserving the attention of our farmers, and the low price of $10 places it within the reach of the smallest operator.

The Cincinnati Fizzle.

On the seventeenth ballot, Hon. Jas. Buchanan, of Pennsylvania, was nominated by the Cincinnati Convention, as the candidate of the bogus Democracy, for President of the United States; and, on the second ballot, Hon. John C. Breckenridge, of Kentucky, was selected for the Vice Presidency.

Political Sangrado.

Wonder if "Pennsylvania's favorite son" has found out whether he has a drop of Democratic blood in his veins—or not? Also, whether he adheres to his said-to-be determination to "let it out?" Who knows?

Large Sales of Corn.

The Chicago Democrat of Friday last says: Between 220,000 and 400,000 bushels of corn have been sold on 'Change in that city within the past two days.—This will give some idea of the business done in this article in Chicago.

Hangman's Day.

Friday is "hangman's day," a remarkably appropriate day for the Democrats to nominate their candidate for the Presidency. Mr. Buchanan has been an unlucky man all his life, and to crown the whole has been nominated for the Presidency on a Friday.

Railroad Accident.

A sad accident occurred on the Rochester and New York Railroad, on Friday, by a collision. One fireman and one engineer, and a lady passenger were instantly killed. Twenty passengers were also badly injured.

Bad Movement

A great Kansas meeting was held at Worcester, Mass., on the night of the 7th, when a subscription list was opened and some $4,500 were collected on the spot. Numerous volunteers for Kansas offered themselves.

Fatal Accident.

Lawrence M. Cleary was instantly killed at Worcester, Mass., on the 7th, by the premature discharge of a cannon being fired in honor of Buchanan's nomination. Two other petons were badly hurt.

Extraordinary Mortality.

Cattle and horses are said to be dying by hundreds on the American bottom in Illinois, either from some virulent disease which has become epidemic or from some poisonous herbs growing there. The symptoms in all cases have been similar.

Penitentiary Out.

The east wing of the Louisville Penitentiary at Baton Rouge burnt last week, involving a loss of 100,000.—Nine prisoners made their escape.

☞ The Cincinnati Gazette says that one hundred Postmasters attended the Convention, that city last week as delegates.

Declines.

Dr. Simm, who was chosen a candidate for Elector by the American Convention which recently assembled at Frederick, declines serving. The Convention will re-assemble in Hagerstown, on Tuesday, the 23d inst., to supply his place.

Heavy Robbery at Louisville.

A gentleman from New Orleans, stopping at the Galt House, was robbed on the night of the 2d of $4,000.

☞ From the Waynesboro Record, we learn that Prof. Overmyre is about establishing a singing class in Waynesboro. A meeting was to have been held in the Town Hall last week.

☞ Several advertisements received too late will apper next week.

Substantial Evidence

Of the Wonderful Curative Properties of Dr. SWAYNE'S FAMILY MEDICINES.

D. C. Martin, Reedsburg, Wayne county, Ohio, writes: November 2d, 1853. As my supply of your invaluable medicine is exhausted, I wish you to send me a further supply immediately. The wife of D. V. Vanscoyoc, M. D., of this place, has been using your *Compound Syrup of Wild Cherry* and wishes to continue. The Doctor thinks it is the best medicine for Consumption, his wife ever used.

George A. Gardner, Stoystown, Somerset county, Pa., writes: "Your medicines are in great demand here, especially your Sugar Coated Sarsaparilla and Tar Pills, and afford general satisfaction to all who have used them. Your Compound Syrup of Wild Cherry, two bottles, and one box of your pills, cured a child of William Johnson's of this place from her death-bed of Consumption, after the doctors con ider d her a hopeless case. You will please forward me a full supply of all your preparations, without delay, by way of Chambersburg."

Another Remarkable Cure of Scrofula.

Sparta, Caroline County, Va., March, 1854.

Messrs. Bennett & Beers, Richmond. Gentlemen: Your Carter's Spanish Mixture has performed a remarkable cure in the person of a servant man, afflicted with Scrofula in the very worst form. So bad had he become, that his eyes were entirely closed and had been so for more than a year! As a last resort, as everything else had failed, it was resolved to try the mixture. We administered it according to directions, and wonderful to say, a perfect cure has been effected. I am satisfied but no medicine equals Carter's Spanish Mixture as a purifier of the blood. It is creating quite an excitement here, and sells very rapidly. Send another lot by Railroad.

Yours truly, R. S. BROADDUS.

A BOOK FOR EVERY TRUE AMERICAN.

The Great American Battle,

OR The Contest between CHRISTIANITY AND POLITICAL ROMANISM: By Miss *Lucy Ella Carroll*, of Maryland. One Volume 12 mo. Cloth Gilt, Price $1 25; Full Gilt Sides and Edges, Price, $2; containing 336 pages, and *Ten New Portraits on Steel*, of the following distinguished members of the American party: Hon. Millard Fillmore, of New York;

" Andrew Jackson Donelson, of Tenn.;
" Alexander H. H. Stuart, of Virginia;
" Jacob Broom, of Pennsylvania;
" Erastus Brooks, of New York;
" E. B. Bartlett, of Kentucky;
" Edwin O. Perrin, of Tennessee;
" Kenneth Rayner, of North Carolina;

G. D. Prentice, Editor of the Louisville Journal; Miss Anna Ella Carroll, the Authoress.

Plan of the Great American Battle.

This book is designed to arouse the American People to an intelligent insight into the dangers which environ them, from the invasion of Foreign Hierarchy and trained foreign Army, that have assumed to hold the balance of power in our Civil Government until the true American is trampled down, & his rights are invaded every day; and to show that this power has as its complice the National Executive of the country which has moved with a single eye to the glory of the Foreign Despot, to whom it owes its elevation by an American ballot-box! It appeals to the American women to move with the same zeal to arrest our destruction, to drive back our invaders as they manifested in 1776, when a cause no dearer than this brought out their patriot mothers! It shows the dangers and insidious wiles—occult and open—of our adversaries, practised upon the youth of our country committed to their schools! It shows that the principles of the American Party, most unjustly, while they were struggling for political ascendancy, promulgated by Foreigners, forbids foreign aggression; makes the distinction between Protestant and Papal foreigners; gives the origin and progress of the Know Nothing Order; reminds the American people that they were once, and may, by the advice of your excellent Agent in Baltimore, Dr. McKenzie, I tried your Pills. Their effects were slow but sure. By persevering in the use of them I am now entirely well.

Dr. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had clung to me for years. VINCENT SIGDELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy. For Costiveness and Constipation, and as a Dinner pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and partial Blindness, have been cured by the alterative action of these Pills.

Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public Pill, from the disorganizing effects that frequently follow its incautious use. These contain no Mercury or mineral substance whatever.

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues.—Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country in this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful liability of lung disorders, and as they know too many cases of sudden (dead) from her body. The afterwards cured her and our two children of it ago a dozen years. One of our neighbors had it bad, and my wife sent him two bottles of your Pills, which others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely then. Such a medicine as yours, which is actually good and honest, will be prized here.
