LAW OF NEWSPAPERS.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their newspapers, the publisher may continue to send them *until all arrearages are paid.*

3. If subscribers neglect or refuse to take their newspapers from the office or place to which they are directed, they are responsible for them *until they have settled their bills and ordered them discontinued.*

4. The Courts have decided that *refusing to take newspapers from the office, or place where they are sent, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.*

5. The United States Courts have also repeatedly decided that a Postmaster who neglects to give running notice, as required by the Post Office Department, of the neglect or refusal of a person to take from the office newspapers addressed to him, *renders the Postmaster liable to the publisher for the unpaid subscription.*

MISCELLANEOUS.

The Only Way to do It.

If there be any sincerity in the desire, so loudly pronounced, of Democrats, first and above all things to *prevent the election* of Lincoln, there is *one* way very sure and certain, namely: for the supporters of both Breckinridge and of Douglas to unite (under protest, of course, to save the union,) in favor of the Union ticket, and vote for Messrs. BELL and EVERETT. "We," say the patriotic Democrats, "favor first of all, the Constitution and the Union; we are for principle, not men—we are for principle and taking the consequence." Now, we suppose no Democrat that is not insane, imagines that Mr. Breckinridge can be elected by the people; and they *know* he cannot be in the House. So Mr. Douglas may possibly carry two States and every body knows—his own friends cannot deny that he, in the House is nowhere.

It is useless, therefore, so far as either of these men are concerned to hope for their election. Indeed, Mr. Breckinridge shows his good sense and his sense of practical results, by threatening to withdraw from the canvass. So, at least they say. Now, if Democrats are really sincere—if they do not mean, by this twaddle about "disunion upon the election of a Black Republican," the present "crisis," and all such stuff, only a trap for fearful Whigs, and these weak-kneed brethren, who ventured in 1856—they have the best opportunity in the world to show their sincerity, by formally withdrawing their candidates or refusing their support, and going in for JOHN BELL. They say they will have no objection to his election, and they do propose a dissolution of the Union and other dire things, upon that event. They say the election of Mr. Lincoln is the greatest of all possible evils, and would directly tend to disruption, and that, more than any other thing, it is to be avoided.

Gentlemen, if you really mean what you say, there is some one way of accomplishing that result. You cannot expect us to choose between your candidates. We do not know which is the real *national* man. But you can vote for BELL, (under protest, &c.,) without abandoning any principles. Will you do it?

☞ The *Union Guard*, in its last number, says:—Our information from Pennsylvania is of the most encouraging character. The Union party is increasing at a rapid rate, and the influence of the iron and coal interests will undoubtedly be concentrated upon the Union ticket in November. Our friends at the South may rely upon it that, although but few outward manifestations are made by the Union men in Pennsylvania, they are hard at work, and will not fail to render a good account of themselves at the election. The effect of the New York movement will be paralyzing upon the Republicans of Pennsylvania. Without New York, Pennsylvania will avail nothing to the sectional cause.—The loss of New York will most probably ensure the loss of Pennsylvania also; and as goes Pennsylvania, so go New Jersey, Indiana and Illinois. The ranks of the Republicans being broken in the great Central, Middle States, their defeat and annihilation as a party, in November, is inevitable.

An Obscure Candidate

The Chicago *Democrat*, Mr. Lincoln's organ in Illinois, thus sums up the antecedents of the "Rail-Splitter." It will be seen that the chieftain selected by the Black Republicans to meet the great political crisis which they themselves have precipitated, has had really no experience as a statesman, and is at best but an unsuccessful and an obscure backwoods lawyer:

"Mr. Lincoln was in early times a member of the Illinois House of Representatives. He was also a member of the Thirtieth Congress of the United States, being the last two years of Mr. Polk's administration. Beyond this Mr. Lincoln has no official record. He has devoted most of his time to his profession, by which he has been enabled to do but little more than support himself from one year's end to another."

The Vote of New York.

We have said that New York would elect the Union anti-Lincoln electoral ticket by at least fifty thousand majority, and we thought we were within the bounds of reason in so saying; but we have now to correct our estimate. We did not know, when we made it, that the black republican leaders, wirepullers and managers were going to expose the corruption and rascality of each other to the public, and not only call each other thieves, but prove it and rub it in, as they are now doing. Set down New York as good for one hundred thousand majority now for the Union electoral ticket.

The Millerites.

This melancholy sect of religious expectants, commenced their religious services on Monday, in North Wilbraham, Mass. The sect now numbers 50,000 in the United States and the Canadas, and they gather in camp meeting from nearly every State in the Union. A portion of the brethren look for the Millenium before the last of March, 1861, others are confident that the world will last ten years and two months longer, while others still predict a universal overthrow in about sixteen weeks.

☞ Bell and Everett electoral tickets have been nominated in Wisconsin, Illinois, Indiana and Ohio. The effect of these nominations in Illinois and Indiana, will probably be the defeat of Lincoln in these States, and possibly in Ohio and Wisconsin. In Ohio the Republicans do not claim over 25,000 majority, and about 5,000 in each of the other States named above. With a proper effort, they can all be carried against Lincoln.

☞ Arrangements are already made for the holding of State Conventions, and the nomination of Bell and Everett electors in New Hampshire and Michigan. These will, we believe, complete the whole thirty-three States. There will then be Bell and Everett electoral tickets in every State in the Union. No other party now before the people can present such an evidence of nationality.

A Western Member.

Johnson, barely of age, was elected to the Indiana Legislature. He says:

When I got near Vincennes I began to think what a sorry figure I, a green country lad, would cut in an assembly of the wisdom of the State, and it required all my resolution to keep me from turning back. Somehow or other I managed to get through the swearing process, and sneaked away to a seat from which I hardly ventured to look up until the House adjourned for dinner. On returning to my hotel I was rather gratified to learn that I was to have a room-mate, a brother member, who, as he had made at least six speeches during the forenoon session, I naturally regarded as one of the great men of the House. After dinner he came up to our joint room, and carefully closing the door, pulled out of his pocket an enormous, old-fashioned bull's-eye watch, and handed it to me with this remark:

"Uncle Jake told me, just as I was starting, that I ought to hev a watch, and loaned this, but I don't know how *to screw the thing up*; do you?

I walked into the legislative hall that afternoon with the most unlimited confidence in my ability to discharge all duties incumbent on me as a legislator.

No Small Change.

In the official report of the California mint the following passage occurs, which illustrates one of the singular phases of social life on the Pacific:

"Half dimes, three cent pieces, coppers and nickels are unknown to our commerce, and are almost unknown in our mint, although a few half dimes were once issued, to the great indignation of some people, who consider them a dangerous innovation, as having a tendency to reduce the price of labor and the profits of trade.

☞ The census of 1850 cost $1,362,500, exclusive of printing, or almost six cents for every head enumerated. Its schedules are comprised in nearly one-thousand volumes, and its taking required one million four hundred and forty thousand sheets of blanks, and three thousand two hundred and thirty one assistant marshals.

☞ A deacon residing in Ashtabula county, who was acting in the capacity of a colored porter, called at a shop in Windsor, where they had dry goods, groceries, hardware, notions and sometimes a little whiskey, to sell. The man who owned the store was absent, and his wife officiated as clerk. The deacon passed the time of the day, talked about religion, and finally asked if they had the one thing needful (meaning the Bible.) The lady's answer was: 'No; we are just out; but my husband is going to Cleveland next week and will get a barrel.'

☞ Boys and girls, here is a word for you; get out of bed early in the morning; sing, dance and jump till your eyes are fairly open; do up your chores and morning work with a will, and then be off to school with a light heart and a clear head and you will be happy all the day. The active boy makes the active man, and the slow, moping, listless, lazy man was once the boy who grumbled when he had work to do, or a lesson to learn. Wake up then, and off to school.

☞ A Western editor thus concludes his exciting tale:—"He soon unfolded his sad tale to his friend, and finally consented to live if Henry would give him a chew of tobacco. He returned to the house; and in his haggard countenance, Jane saw his unhappy condition. He never got over it, though. About twenty years after, he fell from a wagon, and his neck was broken, for a sheriff had carelessly slipped a rope around it."

☞ There is not, says the Harrisburg State Sentinel, in the State of Pennsylvania, a single paper supporting the nominees of the secessionists, Breckinridge and Lane, that is not directly or indirectly controlled by the patronage of the federal government. In every case that we can call to mind, the editor either holds office or is under the influence of office holders.

Delaware all Right.

Little Delaware will give a tremendous majority for Bell and Everett.—The editor of the Wilmington Commonwealth says, "Everybody everywhere has gone over to Bell and Everett. We hear nothing but Bell and Everett wherever we go."

☞ The New Orleans papers furnish a list of the losses by the recent great conflagration in that city, which foot up at $368,700, according to the assessment valuation. They say the entire loss cannot be less than half a million of dollars, the larger portion of which will fall on the insurance companies.

A few days since, two lads, sons of Mrs. Remane, residing near Bovina, Miss., quarreled at dinner about a piece of peach pie, and soon got to blows, when the elder of the boys stabbed his brother with a carving knife, killing him instantly.

It is said that when Mr. Douglas was at Rutland, Vt., and just as he was entering the hotel, a large Irish woman rushed up and grabbed him in her arms, and kissed him.

☞ Somebody has written a book on "The art of making people happy without money." We are in excellent condition to be experimented upon!

☞ The wasp attacks the ripest fruit first; so will slander attempt to wound the most honest fame.

Why are the field stars like wicked old men? They scintillate. (Sin till late.)

Why is an orderly schoolmaster like the letter O? He makes lasses into classes.

Numerous cases of Disease of the Genital Organs, some of them of long standing have come under my notice in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness or disarrangements of the functions produced by SELF-ABUSE or EXCESS of venery, I do not know his SUPERIOR in the profession. I have been acquainted with the Author some thirty years and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves. MOFFAT'S
Life Pills and Phœnix Bitters.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the state and acrid kind.

Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of bowels the slimy matter to which these creatures adhere.

ASTHMA and CONSUMPTION, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, he comes hardened, and produces these dreadful diseases.

SCURVY, ULCERS, and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

ECBOLIC ERUPTIONS and BAD COMPLEXIONS, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, and after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a relapse or the disease—a cure by these medicines is permanent.

Try them, be satisfied, and be cured.

BILIOUS FEVERS AND LIVER COMPLAINTS.

GENERAL DEBILITY, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description. King's Evil and Scrofula in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla.

CHESNUT GROVE WHISKEY C.W.

(The Purest Medicinal Agent ever known,) has furnished the community a Stimulant, Pure, Healthful, and Invigorating, at the same time a mild, delicious beverage. It is calculated to do away with the vile drugged stuff that is palmed off on the community, and which is injurious to body and mind. In addition to the certificates beneath, he has received a Diploma from the State Agricultural Society, and additional testimony from Dr. JACKSON, of Boston, who testifies under oath to its absolute purity.

CERTIFICATES.

Philadelphia, September 9, 1858.

We have carefully tested the sample of Chesnut Grove Whiskey which you sent us, and find that it contains none of the poisonous substance known as Fusil Oil, which is the characteristic and injurious ingredient of the Whiskeys in general use.

BOOTH, GARRET & CAMAC,
Analytical Chemists.

New York, Sept-mber 3, 1858.

I have analyzed a sample of Chesnut Grove Whiskey, received from Mr. Charles Wharton, Jr., of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous or deleterious substances. It is an unusually pure and fine flavored quality of Whiskey. JAMES R. CHILTON,
Analytical Chemist.

Boston, March 7, 1859.

I have made a chemical analysis of commercial samples of Chesnut Grove Whiskey, which proves to be free from the heavy Fusil Oils, and perfectly pure and unadulterated. The fine flavor of this Whiskey is derived from the Grain used in manufacturing it.
