E. A. Jones, M. D.
Deputy State Health Officer

Concern Felt By Jones Over Meritt System

Continued from back page

which placed the position of custodian of public buildings at Annapolis under the classified service.

Governor O'Conor said that when he made the appointment he had "no idea" the position was under the Merit System. No record of Governor Ritchie's executive order was at Annapolis when he filled the position, he said.

Asked whether he contends that he has a right to fill the post, regardless of whether it is in the classified service, Governor O'Conor said he was taking no position on it.

The Governor announced recently that Francis Petrott, Secretary of State, had asked the Attorney General's office for a legal ruling on the question, and that an opinion would be given shortly. The Attorney General's office said such a request had been made several weeks ago, but that it understood the request had been rescinded. No opinion will be given unless the Governor specifically asks for it, it was said.

Governor O'Conor said there has been sometalk about a test suit being instituted shortly by one of the parties. He pointed out if such a suit were filed, there would be no need for an opinion from the Attorney General's office.

HITCHHIKING OYSTER FOUND AT CRISFIELD

Crisfield — Edward Lewis reports catching a six-inch crab with a two-inch oyster attached to its shell, riding around and feeding where the crab fed. Ordinarily, oysters stay home and wait for currents in the water to bring food.

One of the crab's claws, rubbing the oyster shell while it fed and moved, had worn the shell to a pearl-like brilliance.

MARRIAGE, OVER YEAR AGO, IS ANNOUNCED

Federalsburg — The marriage of Miss Jane Marie Stewart and William Thomas Kelley hasuntil the recent announcement. been announced by the bride's parents, Mr. and Mrs. William E. Stewart of Choptank. The ceremony, preformed July 16, 1938, at Elkton, was kept secret

ORDER HAMMERMILL BOND Typewriter Paper from us. It is the best known paper for typewriting, pen and pencil work, and carbon copies. We have it in attractive orange colored boxes.

LEDNUM'S

Announce the installation of the very latest development in modern Horology—the first, we believe, in this section—**FRICTION JEWELING**, as developed by Swartchild. Its use enables us to install new jewels in your watch to replace cracked or broken ones, by the same method used by the leading watch factories of the world.

LEDNUM'S offer you the three latest developments in modern **WATCH REPAIR**—at no increase in price:—

Friction Jeweling
Electric Watch Timing
Electric Watch Cleaning

—the only firm so equipped in this section.

CAMBRIDGE MARYLAND

AUTOS . . . like Humans can be either **Lazy** or full of **Vim** and **Pep**

How is your car performing in this hot weather? Is it acting lazy and balky as though all tired out? Like a horse that's off its feed? Then chances are that the gasoline you're using is a heavy-duty gas designed for rough winter work that boils out its power in hot weather. We suggest you try a tankful of the gas that knows no season.
