MISCELLANEOUS.

For the Sentinel.

MISCELLANEOUS ENIGMA.

I am composed of 26 letters:

My 6, 23, 10, 7, 6, 22, 23, 15, is a lady's name;
My 17, 22, 26, 12, 4, was a beloved Emperor of Rome;
My 2, 6, 13, 10, is the name of an Indian tribe;
My 26, 5, 15, 9, 24, 4, is an ancient city in Egypt;
My 2, 6, 8, 20, was an American citizen who suffered an ignominious death;
My 21, 3, 12, 25, 23, is something often heard;
My 18, 6, 7, 10, 21, 17, 22, 25, 15, is a town in Texas;
My 17, 19, 22, 18, 11, 8, 22, can be found in Africa;

My 2, 6, 14, 25, 22, 9, 6, 7, was a great General

My whole is an important question exciting great interest throughout the United States.

Finksburg, Md. J. A. B.

Proof of It.

It has often been charged that the Breckinridge wing of the Democracy favors disunion. The only pretext they desire for inaugurating their traitorous designs is the election of Lincoln. Of course, therefore, they will do all in their power to elect him. The Union-loving men of the State of New York have ascertained that by a complete union of the opposition Lincoln may be defeated in that State, thus insuring a failure to elect him by the people. The Bell and the Douglas men have united. The Breckinridge men refuse to coalesce unless they be given one-half of the State ticket and ten electors. This preposterous demand has been refused, and the onus of the election of Lincoln must rest where it properly belongs—upon the Breckinridge faction.

This course is proof undeniable of the disunion proclivities of the "suicide" faction. If they love the Union they could not let a mere mess of pottage prevent them from doing all in their power to defeat Lincoln.

Grand Lodge of Odd Fellows.

The Grand Lodge of the Independent Order of Odd Fellows installed its officers on the 21st ult., at Nashville, Tenn. In his report the Grand Sire states that the order is generally prosperous. The past year has exhibited a steady and healthful, although not rapid increase in members, resources and influence. While other organizations have been rent asunder, and still greater disasters in the apprehensions of many are looming up in the future, the integrity of the order remains unimpaired and unthreatened, a fact which at once displays a continued fidelity to its high mission, and the extent and solidity of the foundations upon which it is based.

The Grand Secretary's report gives the revenue of the grand lodge for the past year at $18,475, and the appropriations at $17,130.

Defense of the City of Mexico.

Late advices from Mexico state that the most vigorous efforts are being made by Miramon to defend the capital to the last extremity. The church had been called upon to give up the holy plate, to raise money, but the order had not generally been complied with. At last accounts some $63,000 only had thus been raised. The offical report of the defeat of Miramon at Silao shows that the President was utterly routed and lost everything, his personal effects and papers, $70,000 in money, all his artillery and nearly all his army, both officers and men. It is stated that Gen. Nobles, who commands between Jalapa and Garibaldi, was paid $40,000 by the merchants of Mexico to let the late conducta of $400,000 or upwards pass without molestation.

The Crops in Europe.

Very recent accounts from Europe, and especially from the eastern part of it, modify considerably previous reports of the condition of the crops. Although storms and locusts have done much damage in the Russian grain-bearing provinces, there is a strong belief that the crop will turn out to be a good one—Spain will have a large surplus for exportation, and, as most likely, of an excellent quality. The deficiency will be chiefly in the British Islands, Holland, and Germany, but as other crops have not suffered to the same extent as wheat, the demand may not prove so great as many have supposed. From India, vast quantities of rice will be supplied.

The Spread of Revolution.

The intelligence of the fall of the Bourbon dynasty in the two Sicilies is accompanied by rumors of scarcely less importance. An insurrection had broken out in Pesaro, in the Roman territory, and the people had defeated the Papal troops. The advance guards of the Piedmontese army had entered the Marches to preserve order. In Venetia, too, a formidable Garibaldian conspiracy had been discovered. Austria is making immense defensive preparations in her Italian territories.

Important Speech of Senator Seward

At St. Paul, Minnesota, on the 18th, Senator Seward made the great speech of the campaign. He said he looked to the acquisition of British America, Russian America and Spanish America, and prophesied that the time would come when New York would cease to be the Empire State, and Pennsylvania cease to be the Keystone State, as Virginia had already ceased to be the Old Dominion. The New Dominion, the Empire State and Keystone State would be hereafter in the Mississippi valley.

A Democratic Estimate.

Hon. B. F. Perry, of South Carolina, concedes to Bell and Everett, Maryland, Virginia, North Carolina, Tennessee, Kentucky, and perhaps Louisiana and Florida. Who is the Hon. B. F. Perry? He is one of the ablest members of the Democratic (Breckinridge) party in South Carolina, and his opinions are entitled to as much weight as are those of any member of the party in that State. Yet the "Constitution" claims Kentucky for Breckinridge by 40,000 majority, and all the South besides! The difference between Mr. Perry and the *Constitution* consists simply in this—that Mr. Perry knows what he is talking about and the *Constitution* does not.

☞The Lynchburg *Virginian* contains the following extract from a private letter from Missouri:

THE PROSPECT IN MISSOURI.—We have been permitted access to a private letter, written by a citizen of Missouri to a prominent gentlemen in this city.—In this letter we are assured that very many national Democrats in that State have joined the Union party, and will support Bell and Everett. The correspondent aforesaid is engaged in canvassing a portion of Missouri, in the interest of the Bell and Everett men, and has excellent opportunities for ascertaining the state of public sentiment. We have no doubt whatever that Missouri will vote for the Union cause in November.

Destructive Fires in the Old World.

On the 27th of August, at Gotha, the castle of Friedenstein was discovered to be in flames, and had to be battered down with cannon. The castle contained a church, with a vaulted burial place for royal persons, a theatre, halls of session for the holding of councils, a museum, with a library of 200,000 volumes, a cabinet of coins, a collection of pictures and prints, a cabinet of art, a collection of objects in natural history, a Chinese collection, and another of casts from antique statues.

A supplement to the Impartial, of Smyrna, of August 29, publishes an account of a terrible conflagration which had taken place in that city. No less than 700 houses have fallen a prey to the flames.

The Universalist Denomination

The *Universalist Register* for 1861, gives the following statistics of that denomination:

"One General Convention; 1 Historical Society; 1 General Reform Association; a Convention for the Southern States; 22 State Conventions, with 15 State organizations for various purposes; 87 Associations, with 9 associations for various purposes; 1276 churches, or societies, 969 meeting houses, 10 seminaries, 17 periodicals and 692 preachers."

State Cattle Show.

The thirteenth annual exhibition of the Maryland State Agricultural Society, will be held at the show grounds in the City of Baltimore, commencing on the 30th of October, and terminating on the 2d of November. This exhibition may reasonably be expected to be a great improvement upon former ones. The improvement of our stock and farming implements incident to the emulation excited by former shows, and the practical information gathered by those controlling them, give assurance that the forthcoming show will be an exhibition of more than ordinary brilliancy.

The Fowler Defalcation.—In New York the Fowler Post-office defalcation is up before the U. S. District Court, the plaintiffs being George Law and Gustavus A. Conover *vs.* the United States, and seventeen issues have been agreed upon to be tried. These issues relate chiefly to the questions of the knowledge of Law and Conover, bondmen of Fowler, of his being a defaulter at the time of giving the bond.

Sudden Death in Carlisle.

On Tuesday Maj. E. L. Ege, a prominent citizen of Carlisle, Pa., died very suddenly. At supper time he took his seat at the table (at Patton's hotel) and commenced conversation with the boarders about him. After taking a sip or two of tea, his head fell forward, on his breast, and in three or four minutes he was a corpse.

Letter from Amos Kendall.

The New York Times published a letter written in reply to the Hon. James L. Orr's secession letter, by the Hon. Amos Kendall. Mr. K. denounces all attempts to break up the Union as treasonable, and declares that they must and will be put down if necessary by force.

☞Douglas' recent speeches have taken out the little bit of wind remaining in the sails of the Disunionists.—His unequivocal declaration, that he will support Lincoln, if constitutionally elected, and will assist him in using all means to prevent the Seceders from breaking up the Government, just as Jackson did in 1832, kills the Secession movement all over the South.

☞A man in stopping his paper writes, "I think fokes doant ort spent thare munny on papers, my father never did and evry boddy sed he wos the smartest man in the kountree, and had got the intellygentist famely of bouys that ever dug taters."

A Long Ride by Rail.—There is now a continuous chain of railroads from Bangor to New Orleans, composed of eighteen independent roads, costing in the aggregate, for 2,344 miles of road $50,364,084, or nearly one-tenth of the whole railway system in the United States.

☞Mr. Isaac Waddis, stone mason, died on the 13th ult. at Hagerstown, of tetanus, or lock-jaw, produced by a nail entering his foot.

From Texas.

A letter from Belton, Texas, has the following:

Gen. Houston has withdrawn, and the entire press that supported him will at once launch out for Bell and Everett. Not less than nineteen papers will hoist their names in ten days. A number of the people who have been for Breckinridge have announced themselves for Bell. Their names float high here on a fine flag. You will soon have good news from Texas.

Barns Destroyed by Fire.

On the 10th ult., the barn of Joseph Funk, on the Cavetown pike, Washington county, Md., was set on fire and destroyed, with 250 bushels of wheat and other property; loss $1,600—insurance $900. On the same day the barn of R. Lemon, opposite Williamsport, in Berkeley county, Va., was also set on fire and destroyed, with 1,000 bushels of wheat, 600 of rye and 50 tons of hay, involving a loss of $4,000. The barn of Jacob Fakle, in Washington county, Md., which was consumed on the 10th ult., was insured for $300. As these fires were all caused by incendiaries, much alarm prevails in that section of country.

Population of Kansas.

It appears from the new census that the aggregate number of inhabitants of thirty-one counties in Kansas territory is 83,445. Nine counties have as yet failed to be returned. Their population, it is said, cannot be less than 10,000, so that it appears that at least 90,000 people are now living within the boundaries of Kansas.

☞A terrible gale occurred in the Gulf of Mexico on Saturday. Nearly every house in Balize had been carried away. Much damage was done to shipping. The storm was severe also at New Orleans and Mobile. At the latter city the damage by the storm and a fire amounted to $500,000.

Pennsylvania Politics.

A despatch from Harrisburg informs us that the Douglas State Executive committee published a card stating that as much has recently been published on the subject of alleged propositions for fusion in Pennsylvania, the public are informed that the question of fusion has at no time been entertained by that committee.

A New Phase of the Question.

The Eagle, a Michigan paper, stated recently that Hon. John W. Turner of that state, recently announced at a political meeting that "the repeal of the Missouri Compromise was decided upon by Democratic leaders as far back as 1848," and gave as his authority the name of Hon. Lewis Cass, who says, informed him in the winter of 1848-9 that *the Missouri compromise must be repealed, and that it was resolved upon, and would be carried out as soon as a Democratic President was inaugurated.*

☞The *Dispatch*, an old, able and influential journal, published at Washington, N. C., and heretofore neutral in politics, has raised the flag of the Union, and is now devoting all its energies to the success of John Bell and Edward Everett.

☞Elder John Winebrenner, the founder of a denomination styling themselves the Church of God, died at Harrisburg, Pa., after a lingering illness last week. He was a man of considerable ability and indomitable energy, and was held in high esteem by the members of that denomination.

☞Four Breckinridge Electors in North Carolina have declined. Three of them (Haywood, Keen and Bouldin,) have declared for Douglas, and one (Henry W. Miller) for Bell.

The Loudest Bell.

An exchange paper says there is a Bell at Quincy, Mass., which can be heard seven miles, and which weighs 3,012 pounds. To which a Bell paper responds:—

That's nothing; there is a Bell in the constitutional Union party which is being heard all over the Union, and does not weigh over 170 pounds.

Its of no Consequence.—The Philadelphia Press says that Mr. Breckinridge, by his speech, "cannot make his cause better." Well he has one consolation, says Prentice,—he can't make it any worse.

☞An immense quantity of grain is now held in freight-cars on the track of the Central Railroad, near Albany.—One of the trains thus loaded is about a mile in length; and it is sometimes two and three days after a car-load is sold before it can be delivered.

☞Between October 15 and December 17, there will be Government land sales embracing four and three-quarters million acres in Minnesota; one and a quarter million acres in Iowa, and some half a million acres in Kansas.

☞A new Catholic Cathedral is to be erected in Boston at a cost of about $500,000. A lot has been purchased on Washington street for which $57,000 was paid.

☞Herr Blitz selected from the audience a bright little boy to assist him in his experiments. "Sir," said he, "do you think I could put the sovereign which the lady holds into your pocket?"

"No," said the boy, confidently.

"Think not?"

"I know you couldn't."

"Why?"

"Cause the pocket is torn out!"

☞Dr. Holland describes a certain dismal class of people—the grumblers—as "sitting on the north side of the tree of life, a peeling rotten apples with a rusty knife."

Prof. L. Miller's HAIR INVIGORATOR.

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND,

FOR RESTORING GREY HAIR to its original color without dyeing, and preventing the Hair from turning grey.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from *dandruff and other cutaneous diseases*, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is lessening and thinning, it will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a *fresh covering of hair.*

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the *hair from turning gray* until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty *restore it to its original hue*, giving it a dark, glossy appearance. As a preparation for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance, and the great facilities it affords in *dressing the hair*, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a *standard toilet article* which none ought to be without, as the price places it within the reach of all, being

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists' and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the children's Hair inclines to be weak. The use of it lays the foundation for a *good head of hair*, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

Caution.—None genuine without the fac simile LOUIS MILLER being on the outer wrapper, also, L. MILLER'S HAIR INVIGORATOR, N. Y. blown in the glass.

Wholesale Depot, 36 Dey St. and sold by all the principal Merchants and Druggists throughout the world.

Liberal discount to purchasers by the quantity.

I also desire to present to the American Public my

New and Improved Instantaneous LIQUID HAIR DYE

which after years of scientific experimenting I have brought to perfection. It dyes Black or Brown instantly without injury to the Hair or Skin, warranted the best article of the kind in existence.
