Mr. Slidell's Bill for the Acquisition of Cuba.

The bill introduced in the United States Senate, on Monday, by Mr. Slidell, to facilitate the acquisition of Cuba, is, in substance, as follows:

Whereas Cuba geographically possesses a commanding influence over the large and annually increasing trade, foreign and coastwise, of the Mississippi valley; and whereas the Island in its present colonial condition must continue a source of injury and annoyance endangering the friendly relations between Spain and the United States by the aggressions of its local authority upon American commerce and citizens, for which tardy redress can only be had by a circuitous demand upon Spain; and whereas, in the opinion of Congress, and in accordance with the views of the President, as the last means of settling the existing and removing future difficulties, it is expedient that negotiation for the purchase of the Island should be renewed; therefore resolved, that $30,000,000 be placed in the President's hands for expenditures, either from cash in the treasury or that it be borrowed on 5 per cent. bonds of $1,000 each, redeemable in from twelve to twenty years.

Spanish Poverty.

Our latest foreign papers have the following item under the head of Spain:

"The budget was brought forward on the 15th. The expenses amount to 178,000,000 reals. The receipts are estimated at 179,000,000 reals."

Here is a country living within its income, which, as in the case of an individual, is generally supposed to be a respectable condition. England cannot show a good national account; and our "budget" is decidedly inferior.—And yet we are told continually about "pauperized Spain," the exactions of her church and the crushing burden of her civil taxation. Our President seems to suppose that if anything will induce her to part with Cuba, it will be the money in this time of her need, and he wishes a portion of it put into his hands at once, as if the sight of it would be a temptation too strong to resist.—It would look much better for the Administration to put our own national accounts into as good a shape as those of Spain, before we make any serious calculations upon the strength of her poverty.

Murder of a Whole Family.

The Memphis Appeal says that Mr. Moore, and his wife and mother, were brutally murdered on Christmas night, in McNair county, Tenn. The old lady was not quite dead when the dead was discovered, but was unable to give any clue to the murderer, only that it was not done by negroes. There was great excitement in the neighborhood, and several arrests were made, but the parties were discharged. There were two children of Mr. Moore uninjured; the youngest, an infant, being nearly frozen when discovered.

English Ignorance of American Politics.

Among other startling facts which one of our English cotemporaries brings forward to prove the demoralizing effect of universal suffrage is the grave statement, that when General Taylor was elected President, he removed all the democratic lamp-lighters in New York.—This has been going the rounds of the English press for some weeks. We shall probably hear soon that he turned out all the clerks in the dry goods stores in Broadway.

Twenty-Eight Men Starved to Death.

The immediate destruction of life and property was not the only result of the fearful explosion of the magazine at Havanna, on the 29th of September. On the 23d ult. the bodies of twenty-eight men were dug from under the ruins, who had probably died from starvation, although there were soldiers enough in and around the city, to have turned every stone within a day after the occurrence of the accident.

One of the Papers.

A new paper called the News, has just been started at Grand Haven, Wis. The editor, in his salutatory, speaking of the future course of the paper, says:

"It will advocate the principles of that party of which Jefferson was the founder, of which James Buchanan is, *to-day* the representative, and Stephen A. Douglas the able exponent."

Suicide.

Henry F. Pinner, a respectable young man, formerly of Baltimore, committed suicide in Winchester, Va., on Saturday last, by blowing his brains out with a pistol. He was only 22 years of age, and well educated, and his parents, who reside in Prussia, are said to be wealthy. The cause of his suicide, it is believed, was some trifling business affair, which deeply affected his sensitive nature.

☞ A man by the name of Wade was killed a few days since, at Stewartsville, in DeKalb county, Mo. He was on a visit to that place, where he met five men who had previously threatened to kill him. They broke up a buggy belonging to him, and on remonstrating, one fellow fired at him with a rifle, killing him instantly. The murderers dispersed, but they were all arrested afterwards, and there was some probability of their being lynched.

☞ The new Cent, ordered by the Secretary of the Treasury, is now in circulation. The obverse presents an ideal head of America; the drooping plume of a North American Indian. The head is intended as an illustration "Liberty." The reverse is a plain laurel wreath enclosing the words ONE CENT, weight 72 grains or three-twentieths of a troy ounce—eighty-per cent. copper and twelve per cent. nickel.

☞ During the past year there have been issued from the United States Stamp Agency in Philadelphia 38,107,300 one cent stamps, 136,626,400 three cent stamps, 414,440 five cents stamps, 1,714,250 ten cent stamps, and 1,411,760 twelve cent stamps. The total issue for 1858, was 180,274,158, vs. 1857 the number of stamps issued was 168,494,240. Increase in 1858, 11,779,910.

☞ The wife of Mr. Julia Brown, of East Orange, N. J., was found dead on Wednesday morning last, sitting in a chair. She was up in the evening that she had found was cold, indicating that she had been dead some hours.

Lynch Law in England.

The London (Eng.) Times, of the 28d ult., states that on the preceeding day, at Reading, a woman named Mary Newell, was found guilty of the murder of her illegitimate child, and sentenced to death. William Francis, the seducer of the unfortunate girl, admitted in his evidence that he had refused to give her shelter after she had walked with her child a distance of eight miles to see him. At the conclusion of the trial he was attacked by a large crowd of laborers, who ducked him, plunged him into a ditch, where they kept him for a quarter of an hour, tore off his clothing and otherwise maltreated him. His life was saved by the police, with great difficulty.

Railroad Iron.

It is stated that several contracts have been made for nearly 100,000 tons of railroad iron, deliverable during the next 15 months, and mostly for roads in the South and South West, where the prosperity of the cotton planters in large crops, and high prices has stimulated railroad enterprise. Of this quantity 17,000 tons is stated to be for the Mobile and Ohio road, 13,000 for the Galveston and Houston, and 7000 for the Mississippi Central.

A burglar was shot in St Louis on Tuesday night by a pistol trap so attached to a strong box containing a carpenter from whose shop tools had been several times taken, that when the burglar attempted to open the shutter he pulled the trigger and shot himself.

A free negro man, in the employ of John F. Willis, Esq., of Easton, Md., was shot on Monday night last, by some unknown person. One ball entered his back and another the calf of his leg.

☞ Bela Squires, a widower, married Mary Cromane, a widow, a few days since, in Hartford, Conn. They commence their matrimonial engagement with 29 children.

James McMahon was hung at Newark, New Jersey, on Wednesday, for the murder of his sister, on the night of September 19, 1858.

☞ The most clocks manufactured in the world are turned off annually by the small State of Connecticut. Most of them, too, run elegantly.

☞ A young, handsome, and hitherto respectable, married lady, of Buffalo, was recently arrested for public intoxication, and sent up for thirty days.

☞ Lord Macaulay has announced that he will confine himself in future to his closet as a historian, and take no further part in public life.

☞ Emanuel Nogle and another man, charged with killing a man in Harford county, Md., named Kirk, have been held in $1,000 each for trial.

☞ On the 1st instant Thomas Moore died in Ohio county, Va., aged 104 years.

☞ FOREMOST among the various remedies for rheumatisms, is *Foutz's Mixture*. We say, "Try it, all ye who suffer, and we think, you will have cause to bless the day when you became acquainted with Foutz's great external remedy."

Rats, Roaches, Bugs, Insects, &c.

What the Devil! Mr. Editor, I ask, am I, or my house, to be overrun with Roaches, Rats, &c.?

Dear Sir:—Your Exterminator has done me at least Fifty Dollars worth of good. My house was overrun with Roaches, but since I have used your Exterminator, I have not seen but very few indeed. Yours, &c.,

REAPING AND MOWING MACHINE,
PATENTED BY
GEO. E. CHENOWETH,
MARCH, 1858.

THIS Machine differs from all others now in use. It is an *Adjustable Cam* Machine, weighing less than 700 lbs.; has very little friction and scarcely any side draft, while it equals any other Machine in strength and durability. It has but one Cog Wheel, and no Crank about it; is very simple in its construction, light of draft, requiring only two horses to work it. It cuts a clear swath of 5½ feet, and will mow as well in wet weather as in dry.

It took a Premium at the State Agricultural Fair; also, at the Maryland Institute, where, after a trial in the field, before the judges, it was awarded the highest honor, a Gold Medal.

At Col. Dymock's Hotel, Westminster, on Friday and Saturday morning, the 21st and 22nd lost.

The Farmers of the County are invited to examine the Machine.

TRUSTEE'S SALE.

BY Virtue of an Order passed by the Hon. MADISON NELSON, Circuit Judge for the Third Judicial Circuit of the State of Maryland, the undersigned, as Trustee of SAMUEL B. EPPLEY, an Insolvent Debtor, will offer at Public Sale, on the premises, on

Tuesday the 15th of February, 1859,

at 1 o'clock, P. M., that Valuable

MILL PROPERTY,

called the "NEWARK MILLS," and the lands thereto attached, containing

80 ACRES, 1 ROOD, 23 PER. OF LAND,

more or less. These Mills are situated in Frederick County, on Linganore Creek, three and a half miles South East of Liberty, and about five and a half from Monrovia Depot, on the Baltimore and Ohio Railroad.

This Land is of first quality Limestone, blue Slate and bottom land, very productive and in a high state of cultivation, having recently been heavily limed. About ten acres of the Tract are in Thriving Timber. The Improvements are a large four-story

Flouring & Merchant

MILL,

lower story of stone, thirty feet square. The subscriber has a new work, with two Water Wheels, and running two pair of Burrs, and one pair of Choppers. The Mill is in thorough repair and good running order for Merchant and Country work. There is also

A SAW MILL,

attached. The water-power is sufficient to do sawing and grinding at the same time, and is protected by a substantial stone dam. There is also a large two-story

DWELLING,

part Stone and part Weatherboarded, with Stone Back building; a small

BANK BARN,

near House Stable, new Carriage House, new Hog and Corn House, with stowage for two hundred barrels of corn, a new Wood House, Smoke House, Spring House, with a never failing Spring of pure water, and running spring water in every field. Also,

A LIME KILN,

in good order, with an inexhaustible supply of Limestone near to the Kiln; a

THRIVING ORCHARD

of choice Apple Trees, and a variety of other Fruit Trees, on the premises.

This property is situated in a fine grain growing country, and has the advantage of access by good public roads, with Churches, Schools, Blacksmith shop, &c., convenient. The neighborhood is very healthy, and remarkable for its good society. The Linganore is a never failing stream flowing from Limestone springs.

☞ N. B.—The growing Wheat Crop is excepted from the sale.

Terms of Sale as prescribed by the Court.—One third of the purchase money to be paid on the day of sale; the residue of the purchase money in two equal annual payments from the day of sale, the purchaser giving notes with approved security, bearing interest from the day of sale.

☞ Persons wishing to purchase, can view the premises, by calling on Mr. Samuel B Eppley, residing thereon, or obtain further information on application to the subscriber, in person, or by letter through the Post Office, at Walkersville, Frederick Co., Md.

FOUTZ'S
Celebrated Horse & Cattle
POWDERS.

THESE Powders have proved, after a trial of several years, to be superior to any other preparation of the kind in use. The chief superiority of these Powders arises from the fact that they are composed of Medicines that have Laxative, Tonic and Purifying properties.—The Laxative eject crudities from the Stomach and Intestines—the Tonic gives strength to the system of the Horse—and the Purifying medicines contained in them cleanse the blood and lay the foundation for a healthy and vigorous Circulation. The use of them improves the wind, strengthens the appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.—These Powders are not intended, as most Powders are, to bloat the animal, so as to give him the appearance of being fat when not really so—but, to remove the disease.

These Powders act throughout the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distemper, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c. These Powders, if used two or three times a week through the Winter and Spring, your Horses will never get the Lung Fever, Colic or Bots. A few doses of these Powders will remove the worst Cough on any Horse.—Were owners of Horses to feed them a few of these Powders every year, they might save the lives of many valuable Horses.

MILCH COWS.

The properties this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. In fattening Cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

HOGS.

In all diseases of Swine, as Coughs, Ulcers in the Lungs and Liver, &c., by putting from half a paper to a paper of these Powders in a barrel of Swill, the above diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented.
