UNION TICKET.

FOR PRESIDENT:
Hon. JOHN BELL,
OF TENNESSEE.

FOR VICE PRESIDENT:
Hon. EDWARD EVERETT,
OF MASSACHUSETTS

☞ *Blank Recognizances* of all kinds, new forms, just printed, and for sale at this Office.

Prospects of the Union Party.

Every day the prospects of the Union Party grow more cheering; every day the skies grow brighter above us; every day there seems to be better and stronger hope that fanatical extremists, whether of the North or of the South, will fail in their treasonable designs—will fail to destroy the wonderful legacy of our forefathers. Demagogues are trembling at the threatened destruction of their selfish schemes; and are preparing to "gnaw a file, and fly unto the mountains of Hepsidam," so soon as the inevitable Bell of November shall ring the knell of all their hopes.

Patriots in all parts of the Union have earnestly investigated the chances for BELL and EVERETT, and they have compared notes. The result of this comparison is cheering beyond belief. Even the most skeptical locofocos begin to admit that the victory will be ours. The cloud, no bigger than a man's hand, has waxed greater and greater, until it has overspread the land, and gives hope of refreshing rain to cleanse away all impurities.

The following figures show the well grounded hopes of the Union Party. The calculation has been made after patient, thorough, and unbiased investigation and comparison; and we see no reason to doubt the truthfulness of the conclusion arrived at. In the Southern States, Bell, Breckinridge and Douglas are estimated to stand as follows:

For Bell—Delaware, 3; Maryland, 8; Virginia, 15; North Carolina, 8; Georgia, 10; Alabama, 9; Louisiana, 6; Kentucky, 12; Tennessee, 12—total, 83.

For Breckinridge—Mississippi, 7; South Carolina, 8—total, 15.

For Douglas—Missouri, 9; California, 4—total, 13.

And Florida, 3; Arkansas, 4; and Texas, 4—total 11—are conceded to be doubtful. If the Union spirit goes on as bravely as now, there is every hope that we shall carry Mississippi, Missouri, Florida, Texas and Arkansas; thus giving us 110 of the Southern electoral votes—leaving but 43 votes to be obtained at the North to ensure the triumphant election of Bell and Everett by a large majority.

We have already spoken of the bright hope of obtaining the requisite number of Northern electoral votes. But if we fail to secure enough, we are sure of enough to throw the election into the House, with BELL second on the ticket; in which event there can be no doubt that either he or EVERETT will be President.

This proves that the contest is now solely between BELL and LINCOLN. There is not the ghost of a chance for any other candidate. In such an emergency, the course of duty left to all national conservatives is plain as day. They must vote for Bell and Everett, if they desire the defeat of Lincoln.

☞ A writer, describing the universal popularity of the Ex-Governor among his fellow citizens of Auburn, says: "If Gov. Seward had received the Republican nomination for President at Chicago, I do not believe there would have been one hundred votes cast against him in the city of his home residence, where there is a population of about 10,000 souls. His popularity is universal. He is beloved by all classes of people, irrespective of partizan predilections. * * * * * *"

The defeat of Seward was a sad blow to republican enthusiasm in this country.—It was its last blow, and it is now so dead that the breath of a thousand men, dressed all in Lincoln green, cannot infuse life into it. There is scarcely a Lincoln flag or flagstaff to be seen in Auburn. Their wide awake efforts have proved like efforts to galvanize the dead—one spasm and they fall back into an everlasting sleep. The old men won't counsel; the rich men won't plank down their little dollars; the young men won't work, and the young women have but few smiles or encouraging and inspiring glances to bestow upon the few active Lincolnites in Auburn.

Barn Burned.

The barn of Adam Hoover, at Finksburg, this County, was destroyed by fire on Sunday night last, together with all its contents, comprising in part about 500 bushels wheat, a large quantity of hay, &c. We have not been able to learn the amount of loss, or whether there was insurance on the property. It is supposed to have been the work of an incendiary.—This is the second time, Mr. Hoover has been burnt out within a few years.

☞ Counterfeit $5 notes, on the Citizens' Bank of Baltimore, are in circulation, and may be detected from the following description: Large medallions on each lower corner; figure 5 in each upper corner, and large figure 5 in the centre. The face of the note is shaded red, very unlike the genuine. The Citizens' Bank is one of the few institutions in Baltimore that has not adopted new plates, whereby they would be better protected from counterfeits.

☞ A week or two since we noticed that a gentleman in Ohio owned a calf which weighed when 9 months and 20 days old, 804 pounds. A friend at St. Joseph, Mo., writes us that Chester Palmer, of Oniliad, December sold to A. M. Saxton, a bull calf that weighed at 19 months of age, 994 pounds, after being driven six miles in a deep snow. The calf is still owned by Mr. Saxton, for which he paid $600; is now 18 months old and beautiful as a picture.

Requiescat in Pace.

The New York Herald thus chronicles the demise of the Democratic party: "Let all whom it may concern tremble and weep; but as for the Democratic party, that is past praying for. It is already smashed. It died at Charleston, was buried at Baltimore, and its remains have been since taken up and scattered to the four winds of heaven."

☞ The Abolition National Convention met at Syracuse on the 29th, and nominated the following presidential ticket:—For President of the United States—Gerrit Smith, of New York. For Vice President—Samuel McFarland, of Penna. For Electors at large—Frederick Douglass and Chas Hammond.

☞ The Union Guard says, in reply to numerous inquiries by letter, we are happy to state that the prospects of the Union party continue to improve in every quarter of the Union. Since the publication of the last number of the Guard, there has been an advance in Union stock of at least ten per cent.

☞ Among the Court proceedings of Baltimore County Circuit Court in session at Towsontown on Thursday of last week, we find that the case of the State vs. Wm. Howard, indicted for assault with intent to murder Joseph Barber, was on affidavit, removed to Carroll county.

☞ A revision of the census of Westminster as taken by the Corporation assessors exhibits a population of 1,064, the males numbering 466, females 501, male and female colored 97, and 205 families.—The population of the town in 1850 was 884, being an increase of 180.

☞ The U. S. Agricultural Fair commences at Cincinnati on Wednesday next, and closes on the 20th. The premium list amounts to $20,000 in cash and medals.

☞ John C. Breckinridge is beaten in his own precinct, in his own city, in his own county, in his own district, and in his own State!

☞ The Pike's Peak Express arrived at St. Joseph on the 30th, bringing $23,000 in gold dust, but no news of interest.

☞ There are 39,623 voters in Baltimore.

Douglas Meeting.

A large and enthusiastic meeting of the friends of Douglas and Johnson was held at the Court House in this place on Monday last. It was surprisingly large even to those who participated in getting it up, while it struck dismay to the disunion Breckinridge wing of the fraction of the Democratic party.

On motion, Upton Scott was called to the Chair, and Hanson T. Webb, and Somerset R. Waters, Vice Presidents, William Fisher and Wm Scott Roberts, chosen to act as Secretaries.

The Court House was crowded to suffocation and the greatest interest manifested to hear the gentlemen selected to address the meeting.

Dr John S. Given, of Baltimore county, appeared in the meeting and was loudly called for. He made a forcible and eloquent appeal to the divided Democracy to come up to the work manfully and with their armor buckled on fight for Douglas and Johnson, the regular nominees of the Democratic party—that they were fighting for principles, and not men—that they were trying to sustain, foster and perpetuate the time honored principles of the Democratic party, and that it was time that all Democrats should see the true position of the relative candidates purporting to be nominated according to the part usages of the party. He was particularly severe upon James Buchanan and his administration, and ended with an earnest appeal to the Douglas men to stand by their guns, and not be chased from them by the guerilla warfare practiced by James Buchanan and his horde of office seekers. It was frequently applauded, in a most enthusiastic manner.

Col. Wm. P. Maulsby, Elector at Large for the Western Shore of the State in the Douglas and Johnson ticket appeared, and was greeted with a round of applause. He commenced by remarking that from this stand exactly twenty years ago (he believed to the very day) he addressed a meeting of the Democracy of Carroll County upon the political issues of the then pending canvass—that his own sense of propriety impelled him to make some apology to a people with whom he has professionally been so intimately connected—that he was here after a lapse of twenty years, if possible with increased interest—with a more profound sense of the duty devolving upon him in this canvass—that he was honored to a great extent by the confidence of a large class of his fellow citizens of all political parties in his profession, and that with however much feeling apparently he may uphold the principles of his party upon the street, his own sense of propriety has withheld him from participating in public discussions in the County. He then proceeded to state his reason for voting for Douglas and Johnson, and why he was an Elector in this campaign. He reviewed the past history of the Democratic party from 1792 up to the present time, and remarked that the year 1860 presented for the first time in its history the spectacle of a dismembered, bleeding, divided party—that it was a sad, a mournful spectacle to behold.

He spoke for three hours in the most forcible and eloquent manner. At times he seemed to outdo all his former efforts in oratory, and kept the audience enchanted.

Our space forbids us to enlarge upon his remarks. They were presented with great force, and upon the question, who is the regular nominee of the Democratic party, certainly conclusive to our mind.

At five o'clock the meeting adjourned until eight o'clock, when Mr. Maulsby concluded with a proposition started prior to the adjournment, to wit: That the object of the Breckinridge party, if not directly, indirectly looked to a dissolution of the Union, and that it was well known that many of those most active in securing his nomination were at the time out and out disunionists.

The meeting at night was well attended, and evinced the deep interest of the friends of the Little Giant a determination to stand by their man. The meeting was composed of many of the most influential Democrats of the County, working energetic active men, who carry with them no inconsiderable power. The fact is patent here, that the Breckinridge disunion nomination is losing adherents every day, and are growing smaller and beautifully less by degrees—that by the 6th of November, if Douglas gains as he has done for the past two or three weeks, the Editor of the Democrat (the mouth piece of the Buchanan Dynasty,) and his coadjutors, the fed off of the disunionists will not be left with a corporal's guard. They will not have friends enough to sing a requiem for their candidate as he goes quietly to rest in the bead waters of Salt River.

☞ A British officer writing from Teheran, Persia, to the "London Times," remarks—"A Cathartic Pill, manufactured by "an American Chemist," (DR. J. C. AYER, of Lowell Mass.,) has cured the Shah, of a Liver Complaint that threatened his life. This simple fact, as might be expected, renders the Americans immensely popular here, while we English are overlooked." Medical men in Europe, as made the discoveries which he employs, and thus it is in everything; we do the labor, then the mousing Americans put their mark on it and take the reward. Doctor Ayer is idolized by the Court and its retainers here, which will doubtless be reflected to him on a gold snuff-box, or diamond-hilted sword, while not the name even of Davy, Christich or Brodie—the great lights by which he shines, is known."—*New York Sunday Paper.*

Suicide of a County Woman.

Lydia Brisco, colored, wife of Abraham Ireland, residing in this District, committed suicide on Sabbath night last by swallowing laudanum. She was worthless and habited to drinking. She was seen by a little boy to take the poison early in the evening whilst her husband had gone to a meeting. When he returned she was lying under a bed, where he left her, and in the morning found her a corpse. A jury of inquest was held by J. Henry Hoppe, Esq., which rendered a verdict of death by taking poison. Messrs. John M. Yingling, Alfred Troxel, Emi. Gernand, David Zepp, John Kuhn, Jos. Stout, Jacob Zacharias, Wm. Heiner, Jas. H. Jones, Wm. Devilbiss, Edward Devilbiss, Wm. Lockard, composed the jury.

A Great Medicine for Females.

Hundreds of stimulants have been invented and sold, purporting to be specific in the various diseases and derangements to which the delicate form of woman render her subject. The result of all these stimulants has been to impart *momentary activity* to the *nervous system*, and false vigor to the *muscles*; but this relief has been succeeded by a depression and prostration greater than before; and the repeated attempts of invalids to build themselves up by these *false remedies*, have finally ended in destroying what little vital organization was left. But in using "*Boerhave's Holland Bitters*," you will find no such disastrous results. It is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Under its influence, *every* nerve and muscle receives new strength and vigor, appetite and sleep return, and finally, perfect health. See advertisement in another column.

☞ Whilst I shall give to Breckinridge and Lane, the nominees of the Baltimore Convention—gentlemen of tried patriotism and sound principles—a hearty and cordial support, *I see no prospect of their election, either by the people or otherwise.—Hon. J. L. Orr, of S. C.*

On motion, a Committee of five was appointed to report permanent officers and business for the Convention: Dr. L. J. Grove, J. H Hoppe, Rev. T Gallaudet, Dr. S. L. Swormstedt, and N. D. Norris, were appointed said Committee.

The congregation was then addressed by Rev. G. Owen, Missionary Secretary of the Maryland Sunday School Union, showing very clearly and forcibly the great importance of more active and energetic efforts in the Sabbath School cause, upon the part of all religious denominations, parents and friends.

The Committee made a partial report, offering the following queries to be discussed by the Convention:

1. What is the best mode for conducting a Sunday School?
2. What is the great leading object of Sunday School teaching?
3. What are some of the requisite qualifications for a good Sunday School teacher?
4. How may we retain the larger youth of both sexes in our Schools?
5. What are some of the reciprocal duties of parents and teachers to the Sunday School?
6. What relation does the Sunday School hold to the Church of God?
7. What claims has the Sunday School upon our patriotism as American citizens?
8. What plans can be suggested for securing the attendance of all the children throughout the County to the Sabbath School?
9. What means can be adopted to supply Sabbath Schools in destitute neighborhoods?
10. What are the best means to give Sabbath Schools religious influence?
11. What means can be brought about to give permanency, system and uniformity throughout the County to Sabbath Schools?

These interrogatories were discussed at some length, when, on motion, the Convention adjourned to meet at 2 o'clock, P. M.

AFTERNOON SESSION.

The discussion of the questions proposed by the Committee was resumed, and a number of hints thrown out, that, if adopted, are well calculated to promote the Sabbath School cause.

A vacancy occurring in the Committee on business and permanent officers, Abraham Weaver, Samuel Harden and H. L. Norris were added to it, who then made the following additional report, viz:

We would recommend the appointment of an executive committee of two from each Election District in the County, whose duty it will be to have the entire supervision of the several Sabbath Schools in their respective Districts, and to advise with the several Superintendents, and use their influence to push forward the various Sabbath School cause.—We would also recommend the adoption of the following resolutions:

1. That this Convention be a permanent organization.
2. That it be known as "The Sabbath School Convention of Carroll County."
3. That the officers be a President, two Vice Presidents, a Secretary, Treasurer, and an Executive Committee of two from each Election District.
4. That at least two sessions be held in each year, 1st January and July, and may be called at the request of the Executive Committee of any three Districts.
5. That we recommend all Superintendents, Parents, and Teachers, to use their best endeavors to foster the Sabbath School cause, as having for its end the good of the whole human family and the salvation of immortal souls.
6. That the Superintendents of each School in the County be requested to read a portion of the word of God, at each session of the School, so as to give them more spirituality.
7. That as we consider singing a beautiful, powerful and edifying part of our School exercises, we would recommend the several Superintendents to increase that part of their devotions.
8. That each Sabbath School in the County be requested to send delegates to this Convention.

President, Jno. K. Longwell.

O, Ye Afflicted!

Hear what James T. Davis Esq., ex-Presiding Judge of Monongalia County, Va., says:

Messrs. Fitch & Scott, Agents for R. M. Lemon, Proprietor of Linsey's Improved Blood Searcher:

Gentlemen—I was afflicted with Scrofula for several months, and was so low that I myself and my friends did not think that I could recover. I had been under treatment of medicine by two able physicians for some months, the disease had extended over my side and breast, and had run more than a gallon of matter, when Mr. McCreary, agent for Dr. J. M. Linsey's valuable Improved Blood Searcher, passed through my village and induced me to purchase Three Bottles. I immediately commenced using the medicine. Before I had used one bottle, the discharge from the sores entirely ceased. My appetite improved, and my bowels became regular; and before I used the Three Bottles, I was restored to good health, and have enjoyed good health ever since, which has been some twenty months. I believe it to be a sovereign remedy, and that it will recommend itself upon a trial. I most heartily recommend it to the afflicted.

Given under my hand and seal this 26th day of June, 1860. J. T. Davis.

I, Marshall M. Dent, Clerk of the county Court of Monongalia County, hereby certify that the foregoing is the genuine signature of James T. Davis, Esq., late Presiding Justice of said County. Given under my hand this 27th day of June, 1860.

MARSHALL M. DENT, Clerk.

Earhart, Edward Devilbiss, Wm. Devilbiss, Cyrus D. Stonesifer, J. A. R. McBride, Richard Dell, Worley Y. Clouster, Peter Wolf, John Freed, Jacob Rider, J. Henry Frock.

CORRESPONDENCE.

DOUBLE PIPE CREEK, Sept. 3, 1860.

Friend Gratmaster: I thought a few words in regard to the Double Pipe Creek turn-out, on Saturday last, would not be amiss. The Double Pipe Creek Association held their exhibition in the grove belonging to Mr. Miller, near this place. When we arrived on the ground in the morning we found quite a large crowd of persons assembled which increased until there were not less than 1,200 or 1,500 persons on the ground.—We also found the members of the Association in procession, headed by the Woodsboro' Brass Band, under the marshalship of their worthy President, L. W. Phillips, to whom great credit is due for the excellent manner in which it was gotten up. The young ladies and gentlemen composing the Association exhibited admirable taste in the choice of the different pieces performed, which were applauded by the large assemblage. The stand was handsomely decorated with the Stars and Stripes floating from either side of the rostrum, over which was an arch of evergreens interspersed with flowers woven by the hands of the fair ones connected with the Association. The festivities were kept up until a late hour in the evening, when every person went home fully delighted with the pleasant manner in which the day was spent. SPECTATOR.

MEETING AT LISBON.

MR. EDITOR: We were at a political meeting held at Lisbon, Howard County, on Friday last, where a joint discussion of the political issues of the two Democratic parties, and the Bell party, took place. Washed very able speakers on all sides. The Democrats first occupied the stand, and it was soon manifest that they had a local question, or in other words a family quarrel to settle, (and of all quarrels, they are the worst,) which seemed to be the all-absorbing theme between the two factions, for they devoured each other like cannibals; but to make a long story short, after a tremendous struggle Douglas swallowed Breckinridge, then Bell gulped down Douglas and thus ended the contest; and thus it will end in November, for everything is tending that way. It is self-evident everywhere that Breckinridge speakers put a very small estimate upon the Union; and it would be far better for the nation for Buchanan, his rotten administration, the Breckinridge disunionists and the Lincoln incendiaries, all to go down to oblivion's vale together than to sever the union of these States.

We have a Church that springs up amongst us as if by magic, which was dedicated on last Sabbath by Rev. John Owings, in an able, solemn and impressive manner. The Church will seat some two hundred persons, i. e., with a little contraction of crinoline and dimity.

HUNGARIAN GRASS.

MR. EDITOR: By inserting the following account of my crop of Hungarian Grass, you will greatly oblige me by saving me the trouble of reporting to a number of your readers who saw it growing, and who desired to know its results.

The weight of hay per acre unthreshed was 7,040 pounds, or 3 1/2 tons of 2,240 pounds—and being threshed yielded 27½ bushels of seed. It was sowed on corn stalk fallow, without manure, 23d May, and mowed 27th August. The extremes of wet and dry I think injured the crop to some extent. The land was rich or otherwise without manure the product would not in my opinion, have been remunerating.
