Diseases of Women and Children Treated With Especial Care. Jan. 30.—1y.

PAINLESS EXTRACTION OF TEETH

(WITHOUT GAS.)

DR. CHARLES BILLINGSLEA,

DENTIST.

HAVING supplied himself with an Apparatus for *Producing Local Anæsthesia,* takes pleasure in informing the citizens of Westminster and the community at large, that he is prepared to use this latest improvement in the extraction of Teeth. The advantage possessed by this Apparatus over all others, is that it *affects only the part operated on.*

He has also the most improved style of Apparatus for manufacturing *pure Gas*—of course all persons calling on him can choose the method they prefer.

All operations in Surgical and Mechanical Dentistry performed in the most approved style and at moderate rates

Office, adjoining his Father's Residence, near Farmers & Mechanics' Bank,

Westminster, Md,

where he may be found at all times when not professionally engaged at the following places, viz:

UNION BRIDGE.—1st Wednesday of every month, remaining until Saturday

NEW WINDSOR.—2nd Wednesday of every month, remaining until Saturday.

UNIONTOWN.—3rd Wednesday of every month, remaining until Friday Evening.

TANEYTOWN—3d Friday of every month, remaining until Wednesday following.

April 11. CHAS. BILLINGSLEA.

Dental Improvements.

DR. BEAN'S

Improved Nitrous Oxide Apparatus

DR. GEO. S. FOUKE,

DENTIST.

Having furnished his office, in Westminster, Md., with one of Dr Bean's Patent Improved Apparatus for the manufacture of perfectly pure

NITROUS OXIDE GAS,

would announce that he will be at all times prepared to administer this popular Anæsthetic for the

Extraction of Teeth without Pain.

Dr FOUKE would invite the attention of the public to his lately Improved ATMOSPHERIC PRESSURE PLATES FOR ARTIFICIAL TEETH. By means of an improved Air-Chamber, the pressure of the atmosphere for holding teeth firmly and securely in the mouth, is more certainly and effectually attained than by any style or form of plate hitherto used by the profession.

The value and excellence of a set of Artificial Teeth are much enhanced by this new and truly philosophical arrangement.

Dr F continues the Practice of Dentistry in all its Branches, and being a *Pioneer Worker in Hard Rubber* for Dental purposes, he is thoroughly experienced in the manufacture of teeth upon the *Vulcanite* base and is prepared to supply this style of work at very moderate rates.

Westminster, Md., June 7 —tf

BALTIMORE LOCK HOSPITAL.

BALTIMORE, MD.

ESTABLISHED AS A REFUGE FROM QUACKERY.

The Only Place Where a Cure Can be Obtained.

DR. JOHNSTON HAS DISCOVERED THE most Certain, Speedy, and only Effectual Remedy in the World for Weakness of the Back or Limbs, Strictures, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach, or Bowels—those Terrible Disorders arising from Solitary Habits of Youth—SECRET and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible,

YOUNG MEN

Especially, who have become the victims Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most excellent talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call upon me with full confidence.

MARRIAGE.

Married Persons, or Young Men contemplating marriage, being aware of Physical weakness, organic debility, deformities, &c., speedily cured

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS.

Immediately Cured and Full Vigor Restored.

This Dreadful Disease—which renders Life miserable and Marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—The system becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Coughs, Consumption, &c.

Office, 7 South Frederick Street,

left-hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

☞ No letters received unless postpaid and containing a stamp to be used on the reply. Persons writing should state age, and send portion of advertisement describing symptoms.

The Doctor's DIPLOMA hangs in his office

DR. JOHNSTON,

Member of the Royal College of Surgeons London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with a derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by improper indulgences and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

THESE are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsy, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption.

MENTALLY.—The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

THOUSANDS of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated; having a singular appearance about the eyes, tough and symptoms of Consumption.

DR JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

By this great and important remedy, Weakness of the Organs is speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope have been immediately relieved. All impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured by Dr Johnston.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons MUST, before contemplating

MARRIAGE,

reflect that a sound mind and body are the most necessary requisitions to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholly reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, rich his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment; or, by the use of that deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affection of the Head, Throat, Nose, Skin, etc., progressing with frightful rapidity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whose bourne no traveller returns.

ENDORSEMENT OF THE PRESS

The many thousands cured at this institution within the last eighteen years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the "Sun" and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

Skin Diseases Speedily Cured

Persons writing should send that portion of the Advertisement which describes Symptoms; also, be particular to enclose a Postage Stamp to be used on the reply and direct in the following manner Dr. J. M. JOHNSTON, of the Baltimore Lock Hospital, Baltimore, Maryland May 23 '67.—

CAUTION.

NOTICE is hereby given to all whom it may concern, that WM. C. GRIMES, of Ladiesburg, Frederick County, Md., has obtained Letters Patent on the well known and Improved Fertilizer, dated August the 12th, 1867, and hereby gives notice to all whom it may concern to refrain from using, making or selling the same as it is the full intention of the owner of the Patent to prosecute to the full extent of the Law, without respect to persons any one for infringement on this right.

WM. C GRIMES.

December 5,—tf.

POETRY.

For the Sentinel.

SING THE OLD SONG, DARLING.

BY SMOKO.

Respectfully inscribed to one who "cannot sing the old songs."

Come sing once again, darling, sing the old song,
You sang in the days long ago,
Pour forth your soul in it, its echoes prolong,
Let your sweet words tenderly flow;
It brings back, my darling, the memories dear,
Of when we first met in the grove,
And I whispered words in your listening ear
That told the first time of my love.

Though months have sped by darling, and years flown past,
It seems not a week since the time
When you said that your lot with mine should be cast.
And laid this dear small hand in mine;
I've tried to be worthy the love that you gave;
That true love so endless and strong,
'T will last till we both go to rest in the grave;
Oh, let it flow forth in your song.

Oh, don't you, my darling, remember the night
We sat on the old rustic seat,
Through the leaves of the elm the silvery light
Of the moon dripped o'er our retreat;
I drank in your song, darling, counted your smiles,
And noted each change in your voice,
And could not but laugh at your innocent wiles,
That made you my darling, my choice.

Then sing the old song, darling, sing once again,
The one that you sang me of yore,
For of all the sweet songs the world may contain,
I know none I love to hear more;
It renews dear moments that past days have blest
And drives away sorrow and pain;
Then resting, my darling, your head on my breast,
Oh, sing the old song once again.

CORRESPONDENCE.

OWINGS' MILLS MD.

ED. SENTINEL.

As the Farmers along the line of the railroad through your County are very generally turning their attention to the profit to be derived from milk sent to Baltimore by rail, I propose making a few remarks that may, perhaps, be a benefit to some of those engaged in this business

I shall confine myself however, to the one important matter of the means to be used by which the milk can be delivered sweet and good, to the consumer.

During the hot summer months, unless great care is taken much loss will result from souring and fermenting—especially the evening milk, as it has to be kept until morning and then the daily yield sent at one time It will be found much the safest to keep the morning and evening milkings separate—never mix them in any kind of weather!

The milk should be cooled as rapidly, and as soon as possible after being taken from the cow, and my principal object in writing this paper is to describe a simple, cheap and efficient device I have had in use for a year past for effecting the object. It is this;

I bought a tub 18 inches in diameter at the top and two feet deep—also, 2¼ ft. of lead pipe, *coated with tin* on the inside, ¾ in bore. The pipe was made in a coil like a still worm 3 in. less in diameter than the tub, the lower end projecting through a hole in the side, at the bottom of the tub, about 2 inches, fitting in a cork driven in the hole and made water tight. The worm reaching to the top of the tub is made fast—a large funnel holding 2 gallons is securely soldered over the upper end and well braced by strips of tin soldered to it and nailed to the tub at various places.

The coil is also provided with tin strips fastened to the tub so as to keep it in such a position as to make a gradual and even descent from top to bottom, and at equal distances from the sides. A small bench is provided for a stand, just high enough for the biggest can to stand under the spout.

When used, fill the tub two thirds full with cool water and then put in broken ice enough to fill up and let it stand 10 minutes.—then pour in the milk in the funnel and when passed through it will be found the temperature is reduced from 98° to 50° at most, If desirable it can be passed through the second time and if plenty of ice is used you can have the milk as low as 32°. This plan is much quicker, less troublesome and much better than cooling in pans or dairy or spring—the milk may with safety be left all night in the cans.

After the milk cooler is used fill the funnel with *cold water,* rinse it round until clean, let it run off and then pass through a half gallon more of *cold water* and it is ready for use again.

It may be well to observe that it would be dangerous to use plain *Lead pipe* for the purpose as in a short time the lactic acid would decompose the lead and make a deadly poison—when coated with tin it is perfectly safe.

The only place in Baltimore, I could find the tin lined lead was at the machine shop opposite the Calvert St. Station in the City—the price I think was 15 cts. per foot.

CHAS. PAINTER.
