The American Sentinel.
WESTMINSTER:
THURSDAY, APRIL 2, 1868.

FOR PRESIDENT:
GENERAL ULYSSES S. GRANT.
Subject to the decision of the Republican National Convention.

A PROPOSITION TO SUBSCRIBERS

The Campaign having commenced it is our desire to increase our subscription list at once. We therefore make the following offer: To any subscriber sending us the names of *five* new subscribers with the *cash*, $7.50, we will give a credit of one year on his subscription; or to any one not a subscriber, sending us *five* new subscribers with the *cash*, we will send a copy of the *Sentinel* one year for nothing.

WHAT WE WANT.

That which the Republican party needs most in Maryland is thorough reorganization, a clear and emphatic platform of principles, and a combination of the different elements of the party. When a division took place in the Convention in Baltimore, we saw in it nothing more than a fight between two factions, who, while they all agreed on Grant as the right man for the Presidency, differed on other questions, the principle one of which was the prominence of one or the other of two City cliques. We endorsed the action of our delegates as right, yet we could not help but think, when we looked back to proceedings previous to the meeting of the State Convention, that the bolters were not altogether in the wrong, but that there was some wrong on both sides.—There has been a call for another State Convention, to meet in Baltimore on the 6th of May, the object of which is to fully reorganize and re-establish the party on a firm basis. This call is addressed to all Republicans without reference to the late division in the Baltimore Convention.—Now, if another Convention will heal the breeches made by the last one and will bring together the discordant elements of our party, we are most emphatically in favor of it. We don't care a penny whether Judge Bond or the Hon. John A. J. Cresswell goes into the Cabinet or the Vice Presidency, or any other position under the incoming administration, but we do care about having a party working for principle, and right, and justice, in spite of all the offices in the gift of the people. We repeat that if harmony in the party can be accomplished by another Convention, let us have it. The Boonsboro *Odd Fellow* in speaking of this matter says:

Whilst this senseless quarrel is going on, the people are groaning under a Rebel Constitution, anti-Republican in its form and spirit, and that was conceived in infamy and brought forth in Revolution—in utter violation of the old Constitution of the State. Two Hundred Thousand of the citizens of Maryland are without any representation whatever, and Forty Thousand are wholly disfranchised. These constitute the only true loyal elements of the State. Shall we submit to these Rebel outrages without so much as a protest? It is the duty of Congress to see that every State in the Union has a Republican form of Government. Let us look to this matter, and leave all *impossibilities* to take care of themselves.

CONGRESS.

The question of the admission of Alabama has been again under discussion. The tax bill has finally passed both Houses. Among other reductions of tax on different articles, the tax on petroleum is reduced fifty per cent.

In the Senate, Mr. Cattell advocated his bill supplementary to the act to provide a National currency secured by a pledge of United States bonds. It prohibits any national bank in any of the redemption cities from paying any interest on the deposits of any other national bank and prohibits any officer or agent of the Government from receiving any consideration for deposits of public moneys, and prescribes penalties for violation of its provisions. Mr. Cameron opposed the measure as one calculated to place the country banks completely at the mercy of the city banks.

In the House of Representatives on motion of Hon. Francis Thomas, the Committee on Claims was directed to inquire into the expediency of devising means of ascertaining the amounts of claims due to loyal citizens by the United States Government, and to provide for the payment of the same by a grant of public lands to the several claimants, the value of the land to be estimated at $1.25 per acre.

THE Impeachment, having been postponed last week, in order to allow the President five days to prepare for trial, came up again on Monday. Gen. Butler made the opening address after which the Court went into the examination of witnesses. Gen Butler's speech was an able and brilliant effort, in which the indictment of the House and the evidence on which a conviction is demanded, was thoroughly presented.

THE President vetoed the Bill passed by Congress relative to appeals to the Supreme Court. On Thursday last the U. S. Senate passed the Bill over the President's veto by a vote of 33 to 9, and on Friday the House of Representatives passed it over the veto by a vote of 112 to 34.

THE LEGISLATURE.

The Senate have passed a large number of bills, mostly of a local character, and including among them the bill appropriating $20,000 for the relief of the South, the House bill requiring agents of foreign insurance companies to pay a license of $400 for each campany they represent, and the bill to prevent incompetent persons from practicing the business of druggists.

Bills were passed creating a commission of five lawyers to codify the laws of this state, an act that will involve considerable expenditure of the public money; authorizing the mayor and City Council of Baltimore to issue bonds to the amount of $1,000,000 for the erection of a City Hall; increasing the number of free scholarships in the State appropriations to the Baltimore Female College; appropriating $10,000 to the Faculty of Physic of the Maryland University; to provide for the publication of the laws in the German language in Baltimore city; granting donations to academies and schools in Wicomico and Anne Arundle counties; with other appropriations of various sums from the State Treasury. The bill making a State donation to former slave owners on account of their former slaves enlisting in the army of the Union was rejected, owing to the present depleted condition of the finances of the State, or the rejection of the bounty broker's bill. The House bill creating the office of Coroner of Baltimore city, with a salary of $2,000 per annum, and a Clerk whose salary is not fixed, was passed.

In the House of Delegates a bill was passed appropriating $500,000 in aid of works of internal improvement in St. Mary's, Charles and Calvert counties.—All the other counties of the State and city of Baltimore, besides being taxed to pay for the support of the public schools of the counties named, and their own also, have to contribute this $500,000 by taxation for "internal improvements." The bill exempting from operation of the Sunday law those persons who observe Saturday was rejected for want of a constitutional majority. The bill changing the law relative to the sale of liquor on Sunday was also rejected.

THE KU KLUX KLAN is the name of a secret organization which has made its appearance in Tennessee. Its principal object seems to be the persecution of loyal men and negroes, and for the reestablishment of rebel rule in that State.

HON. Francis Thomas has written a letter to the Cumberland *Civ. & Telegraph*, in favor of a State Convention for the reorganization of the republican party in this State.

THE President has had a quarrel with Jerry Black, one of his council in the impeachment trial. Black declares that he will not act as counsel.

The Church Corporation Bill.

The following important bill passed the Legislature.

Section 1. *Be it enacted by the General Assembly of Maryland*, That additional sections shall be added to article 26, code of public general laws, entitled "corporations," sub-title "religious corporations," to come in at the end of said article, and to be numbered as sections 102 and 103, to read as follows:

102. A majority of the white male members of any church or religious society in the State, whose estate may be vested to trustees, shall have power to change said trustees by appointing others in their stead, at a public meeting of the white male members of said church or religious society above the age of 21 years, called by any five or more members thereof, after giving notice for four weeks to all said members, either by written notice set up for four weeks prior to the day of meeting at the church door, or the place of public worship of the congregation where such election is to be held.

103. The trustees so elected at such meeting shall, by virtue of their election, be invested with all the property and right which had previously vested in the trustees so superceeded.

Section 2. *And be it further enacted*, That all acts in conflict with the above sections be, and are hereby, repealed, and this act shall take effect from and after its passage.

☞The demonstration in honor of the officers of the Bremen steamship Baltimore, was one of the most imposing displays that has ever taken place in our city. The military were out in strong force, the number of cavalry being a marked feature, and all looked and marched well. The officers of the steamer, as they passed along the route, everywhere densely crowded, were warmly cheered, and a platoon of German sailors that followed, fine, hardy-looking fellows, met with a characteristic reception which they warmly reciprocated. The civic part of the procession was also quite large, the battalion of policemen and the Fire Department, and the strong array of mounted butchers being the most attractive points in this part of the long array. The line occupied one hour and ten minutes in passing *The American* office. The mass of spectators along the route was wonderful, the whole population of the city apparently being congregated on the sidewalks, in the windows and on the roofs of the houses.

The banquet at night was a less pleasant affair, but not through any fault of the gentleman who got it up for the purpose of doing honor to the guests of the city. A splendid feast was prepared, the room handsomely decorated, and prominent gentlemen were appointed to respond to the toasts. Unfortunately there was among those present, some who so far forgot not only what was due to the strangers present, but also what was due to decorum as to make the occasion one of such unseemly riot and disturbance, as to call at one time for the interference of the police. But a portion of the toasts were read, and the gentlemen called on to respond had to speak amidst a noise and confusion that rendered the hearing of their remarks possibly only to a few of those present. The merchants who got up the banquet were deeply chagrined at these untoward events, and apologized therefore to the guests to whom they had hoped to give an evening of pleasant social enjoyment.—*American.*

☞It will be noticed that, while Senator Wade scrupulously refrains from voting, Senator Patterson, the son-in-law of the accused, votes every time. The virtuous indignation designed for the interested parties who take part in the trial can there find a proper object on which to vent itself.

INTERESTING TO TAX PAYERS.—The Copperhead Legislature at Annapolis have squandered the people's money with a recklessness totally unparalleled.

They have passed a bill appropriating $300,000 to pay for the militia,

$300,000 of an over-taxed people's money to pay for the dandy militia.

$300,000 to buy gray jackets, brass buttons, and muskets and artillery.

Enough money to establish on a firm basis the public schools of every county in the State.

$300,000 to TOM SWANN's awkward squad, while the treasury is empty.

$20,000 for the use of the "Ladies Southern Industrial Society!"

Thousands upon thousands of dollars to pay for removing rebel dead to be placed within the enclosures of the Antietam Cemetery.

$5,000 for T. Swann's portrait, while the people are pressed to the ground by taxation.

$5,000 made a present to P. F THOMAS when the State cannot pay her honest debts, and has to oppress her citizens with taxation.

All this money spent and yet no adequate provision made for the education of the children of the poor.

The State is bankrupt.

Taxes will be increased.

And a Democratic Legislature is an extraordinarily expensive luxury.—*Cic. & Telegraph.*

THE SOUTHERN ELECTIONS.—Advice received from Arkansas at the rooms of Congressional Republican Committee say that the Constitution is ratified by from three to five thousand majority. The District Military Commander extended the time of holding the election several days in consequence of severe storms and high water, which prevented the voters from reaching the polls. One-half of the Radical vote was cast by white men. In the more thickly populated negro counties intimidations were successfully used, it is alleged, to prevent them voting. In one place the Rebels attacked the polls and forced the colored voters to vote against the Constitution under threats of killing them if they did not do so. During the *melee* several negroes were wounded.

Despatches received from Georgia and North Carolina assure the committee that the new Constitutions and Republican State tickets will be carried by large majorities. North Carolina promises a white Republican majority of thirty thousand, and Georgia claims twenty thousand.

THE Cumberland *Civilian*, in an article on Reorganization of the Republican party in this State sets down the following platform, which we endorse. We quote:

Let us act harmoniously together and mark out a new course which shall secure success. Let us establish a platform which shall be broad enough to satisfy and include every loyal man in the State. That platform should be.

IMPEACHMENT—promptly and certainly.

A full endorsement of the Reconstruction plan of Congress.

The establishment of equal and exact laws for all.

The overthrow by legal means of the unjust, tyrannical and anti-republican Constitution which now oppresses the layal people of Maryland.

A careful and economical mode of conducing the State Government.

These are the grounds upon which the party should be based, and every county in the State should send a full and responsible delagation to the Convention to be held for this purpose.

THE Virginia Convention has inserted in the new Constitution a provision declaring that "allegiance to the United States is paramount to allegiance to the State." Of course, the Copperhead members opposed this, as they want the coast clear, as in 1861, to shield themselves from the charge of treason in the future, as in the past, by quoting triumphantly the duty they owe to their "State."

The republicans of Maryland put the same thing into their Convention of 1864; but the Copperheads in 1867 wiped it out. Thus, the Southern States, under Copperhead leadership, are getting back to the old secession ground they all occupied before the War.

In the light of such facts it is pertinent to inquire whether *anything* has been settled by the War, and if so what, if not this doctrine of paramount allegiance to the government of the Union?—*Star & Banner.*

A NEW literary paper is about to be started in Baltimore to be called THE LEADER. It will be Conservative in politics.

AMONG the Periodicals that have recently been established in Baltimore, is one called *Southern Society*, a literary paper which is conducted with considerable ability. It is well printed and presents quite a handsome appearance. As its name implies it is devoted to Southern literature and interests.

THE NORTHERN MONTHLY for April closes its first year, and the editor fairly exults over the great success of the magazine thus far. This success has certainly been earned. At the present day no magazine in the country is so full of life, courage and that *elan* which goes to make a periodical popular. The table of contents for April establishes this fact quite as well as that of any previous number. Mrs. Harriet Prescott Spofford's story, "The Thief in the Night," opens the ball. "The Experience of a Military Missionary in Virginia" follows next in order, and a very able and brilliant paper it is. "A Plea for Good Reading" is good solid reading in itself.—"Forty-Four Guns; a Birth-day Salute," is a spirited poem. Other articles are: "Major-General Kilpatrick," "Stranded, not Wrecked," "Metropolitan Pulpits," and "The Delusions and Decorums of Dress." The last of these is exceedingly well written and pertinent.

ARTHUR'S HOME MAGAZINE for April is before us and we find it filled with interesting reading. Among the articles of interest we note "A new Series of Temperance stories," by the author of "Ten nights in a Bar Room." This Magazine deserves commendation for the manner in which it has stood by the cause of Temperance. There are quite a number of short stories and poems, as well as Virginia F. Townsend's continued story of "The Hollands." A very good number.

A GENERAL HISTORY OF FREEMASONRY IN EUROPE, is the name of a new work on Freemasonry just published. This work was written by Emanuel Rebold, M. D., Past Deputy Grand Orient of France, and translated by J. Fletcher Brennan. This volume is a handsome octavo, containing over 300 pages of reading matter. Peter B. Mikesell is the Agent for this County, and will furnish this work, to any one desiring it, beautifully bound in English Cloth for $4.

BOILS.

Like the volcan, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its *Life Element*, IRON.

THE PERUVIAN SYRUP.

(a protected solution of the Protoxide of Iron) will do this effectually, and give *strength, vigor* and *new life* to the whole system.

Extract of a Letter from REV. RICHARD S. EDES, *of Boston, Mass.*

'For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great.—Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.'

A 32 page Pamphlet sent free. The genuine has "PERUVIAN SYRUP" blown in the glass.

I miss thee dear mother thine image is still,
The deepest impressed on my heart,
And the tablet so faithful in death, must be chill,
Ere a line of that image depart.

Thou wert torn from my side when I treasured thee most,
When my reason could measure thy worth,
Oh, we know but too well that the idol we've lost,
Can ne'er be replaced upon earth.

We will thee mother the orphan's heart,
With all its woes knows best,
What power to soothe and cheer then lies
Within a mother's breast.

But thou art gone! no more we hear
Thy gentle voice's tone,
How oft we turn to meet thee mother;
And find we are alone.

Oh, I never will forget
Thy last sad look at me,
A look that only mother's love
To mother's een could gie.
