The Kent News.

SATURDAY . . . . SEPT. 27, 1873.

IN SEPTEMBER.

B. K. WEEKS.

Feathery clouds are few and fair,
Thistledown is on the air;
Rippling sunshine on the lake,
Wild grapes scent the sunny brake;
Dizzy songs the crickets sing,
Wild bees wander murmuring;
Butterflies float in a dream,
Over all the swallows gleam;
Here and yonder, high and low,
Golden-rod and sun-flowers glow;
Here and there a maple flushes,
Sumach reddens, woodbine blushes.
Purple asters bloom and thrive,
I am glad to be alive!

—*Aldine for September.*

VARIETIES.

Philip Smaeker, of St. Clair county, Illinois, has fourteen children. Blessed are the P. Smaekers.

Such invigorating mornings! One finds himself all dressed and his breakfast eaten before he knows he's up.

Reason is progressive; instinct stationary. Five thousand years have added no improvement to the hive of the bee or the house of the beaver.

Three scruples make one dram, and if people would only indulge in the scruples first, they would take fewer drams.

A Red Bank, N. J., farmer boasts that his hens lay eggs that can't be beat. That farmer ought to be taken into custardy.

A "honeymoon car" is now run on the Pacific Railway for the purpose of bridal parties.

Sally is a pretty waiter girl at our restaurant, and the other day, no desert being forthcoming, Baize wished to know if the landlord expected him to make a desert of Sa(ha)ra.

The residence occupied by the first Napoleon, on the Island of Elba, will be bought, it is said, by the French Government for 400,000 francs.

The subject of impressions at first sight was being talked over in a family circle, when the mother of the family said, "I always form an idea of a person on first sight, and generally find it correct." "Mamma," said her youthful son. "Well, my dear, what is it?" "I want to know what your opinion of me was when you first saw me."

THE DEADLY EFFECTS OF ABSINTHE.—During the session of the Medical Congress at Lyons, one day was set apart for the study of alcoholic stimulants. On that occasion the physician of the St. Anne Asylum, Dr. Magnan, comparing the chemical action of alcohol and absinthe on man, drew the conclusion that the former acts more slowly, gradually provoking delirium and digestive derangement, while absinthe rapidly results in epilepsy. Then producing a couple of dogs, he treated one with alcohol and the other with essence of absinthe, this latter being the active principle of the absinthe liquor which is commonly drank. The alcoholized brute could not stand up, because sleepy and stupid, and when set on his legs trembled in an inert mass; the other dog experienced at once frightful attacks of epilepsy. Analogous effects are produced in mankind.

FIVE STEPS TO THE GALLOWS.—A man had committed murder, was tried, found guilty, and condemned to be hanged. A few days before his execution, he drew upon the walls of his prison a gallows with five steps leading to it.

On the first step he wrote, *Disobedience to parents.*

On the second step, *Sabbath breaking.*

On the third step, *Gambling and Drunkenness.*

On the fourth step, *Murder.*

The poor fellow doubtless wrote the history of many a wasted and lost life.

"No doubt of it," says Captain Hunter. "Thousands and tens of thousands are ruined every year in a similar way. I believe that drunkenness ruins more than anything else. That was one of the steps to the gallows which this prisoner had painted; and it made me think of a question and answer of which I once heard:

"What's whiskey bringing?" inquired a large dealer in that article.

"Bringing men to the gallows, and women and children to want," was the reply of a bystander.

Pretty good answer, that, though not exactly the one that I wanted. If there is a more wasteful practice in the world than liquor drinking we dont know what is is. It wastes the grain of which it is made; it wastes the mind and body of the drinker; It wastes the property of himself and family, and his neighborhood; and finally, wastes and ruins the soul.—There is no economy in it in any way or shape.

ZACHARY TAYLOR'S TOMB.—Between five and six miles from the city, on an obscure neighborhood road, a quarter of a mile from the Brownsboro' road, rests the remains of the 12th President of the United States—Zachary Taylor. The grave is situated in the northeast corner of the Taylor farm, and it is mortifying to relate that it is in a sadly neglected condition, underbrush, weeds and ailanthus trees rendering it very difficult of access. No monument has ever been erected to General Taylor's memory. The remains lie there in a plain vault built in the side of a hill, with a marble slab over the door bearing the inscription:

Z. TAYLOR:
BORN NOVEMBER 24, 1784,
DIED JULY 9, 1850.

The place does indeed appear forgotten. A stone wall encloses the little graveyard, and a rusty and unused iron gate frowns upon the visitor. It evidently has not been opened for years. Colonel Richard Taylor is buried to the right of General Taylor. An obelisk eighteen feet high is erected over his grave, bearing the inscription: "Colonel Richard Taylor, a soldier of the Revolutionary war, and a native of Orange county, Virginia, born April 3, 1741; died January 19, 1827."

Colonel Taylor came into this State while his son Zachary was an infant and settled on the plantation where he is now buried.—*Louisville Courier-Journal.*

Reward for Merit and Progress.

At the World's Fair, London, 1862, and the Exposition Universelle, Paris, 1867, the highest premiums were awarded to the Wheeler & Wilson Manufacturing Company. It now appears from the table dispatches that at the World's Exposition, Vienna, 1873, this enterprising Company has been awarded the *Grand Medal for Progress, the Grand Medal for merit*, and is the *only Sewing Machine Company recommended by the International Jury for the Grand Diploma of Honor.—N. Y. Commercial.*

DR. BULL'S Cough Syrup is offered with the fullest confidence in its efficacy. It has been thoroughly tested, and maintains the good reputation it has justly acquired. This Syrup is prepared from a highly esteemed receipt for alleviating Bronchial Affections, Asthma Coughs and Colds.

IMPORTANT to FARMERS!

The Great Fertilizers!

WHANN'S
Raw Bone Super Phosphate

FARMERS who are about purchasing Fertilizers for seeding their WHEAT should by all means use

WHANN'S
RAW BONE SUPER PHOSPHATE,

which for the past thirteen years has met with unexampled success on this important crop.

WHANN'S RAW BONE SUPER PHOSPHATE is not a mere temporary stimulant, but an active and lasting manure, showing its beneficial effects throughout several seasons. It produces large crops of Wheat and a great yield of clover.

Farmers who have been disappointed in the use of other Fertilizers are invited to give WHANN'S a trial alongside of any manure in the market.

The following testimonials from two well known Farmers in this neighborhood, will be appreciated:

LYNCH'S STATION, KENT CO., MD., July 31, 1873.
Messrs. Walton, Whann & Co.,
Gentlemen:—I have used Whann's Raw Bone Super Phosphate on my wheat for the past two years. I am exceedingly well pleased with its action and regard it as an excellent article.
Yours, respectfully,
JAMES A. ROSEBERRY.

CHESTERTOWN, KENT COUNTY, MD., Nov. 23, 1872.
Messrs. Walton, Whann & Co.,
Gentlemen:—I have been using Whann's Raw Bone Super Phosphate on my Farms near Chestertown for seven or eight years, and while I have made changes in some other Fertilizers, *Whann's has given me so much satisfaction that I have continued its use.* I believe it to be a permanent improver of the land while it is prompt and reliable in its action on crops. Yours, truly, S. LECATES.

To WHEAT GROWERS

"Excelsior,"
1873. 1873.

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 lbs. of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmers, combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones.

"EXCELSIOR"

is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity however small, per acre, and it is the opinion of many close calculating Farmers, after 14 years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced unscrupulous parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their *worthless* compounds.

Farmers should see that every Bag is branded as above, with the ANALYSIS and OUR NAME in RED LETTERS. All others are Counterfeits.
