Superstitions in the Moon.

The Tyrolese cure freckles by washing them at night with water in which the moon shines. In the Harz Mountains and Silesia, the remedy for goiters is to turn one's face to the increasing moon three evenings running, then take a stone, silently touching the swelling with it, and throw it over the left shoulder. Meier quotes a Swabian charm for toothache. When the crescent moon appears for the first time, the sufferer must gaze at it steadfastly and repeat thrice: "I see the moon with two points; my teeth shall neither shoot nor ache until I see the moon with three points." Crabs caught during full moon, and then burned alive and ground to powder, cure hydrophobia. Of course, the moon assists at all deeds of sorcery, such as casting magic bullets, the manufacture of a divining-rod, and the like. The following receipt for avenging one's self on one's enemies is given in Kuhn in Westphalia: "When the new moon falls on Tuesday, go out before daybreak to a stake selected beforehand, turn to the east and say, 'Stick, I grasp thee in the name of the Trinity.' Take thy knife and say, 'Stick, I cut thee in the name of the Trinity, that thou mayest obey me and chastise any one I mention.' Then peel the stock in two places to enable thee to carve these words, Abia, obia, sabia. Lay a smock-frock on the threshold and strike it hard with the stick, at the same time naming the person who is to be beaten. Though he may be many miles away, he will suffer as much as if he were on the spot." The ancient Greeks and Romans considered the moon to be a protection against the evil eye, and they hung small moons made of metal round their necks as amulets. Even the wives and horses of the Romans wore them. The custom has not yet disappeared in Italy and the East. Some years ago Neapolitan ladies used to wear small silver half-moons on their arms, a preservative against epilepsy, which popular belief has always been connected with the evil eye. The talismanic crescent has ever been the badge of Islam, and it still glitters on the minarets.—*Year Round.*

HOW ELECTIONS ARE CONDUCTED IN FRANCE.—A correspondent of the London *Times*, writing from Bordeaux, France, gives the following description of how elections are conducted in that country:

"The process is perfectly simple and neat. Electors walk into the Matrie as men go on 'change, and at the gate the friends of the candidate or his agents offer a plain white paper, with the candidate's name. In the hall where the votes are taken the mayor and his bureau, without any civil or military guard, sit with the ballot-box before them. The elector offers his numbered elector's ticket, the mayor tears off a corner of it, calls out the registered number, (which is then crossed off by his secretaries,) takes from the elector the white voting paper folded, and drops it into the urn. In this way long files in queue pass on in one even stream, and the process goes on with immense rapidity. The law forbids the presiding officer to take a voting paper open or in any way marked outwardly; no armed force is permitted in the voting shall; the ballot-box has a double key, and must be opened immediately upon the close of the poll. Electors have the right to be present without any interruption from the moment the box is first locked up, after examination, until the final counting out of the voting papers in it, and, in practice, the whole process goes on under the eyes of the public. The only possible falsification of the process, even in very benighted districts, involves a plain breach of law under the eyes of the electors, and, since the new Chamber will in any case have a republican majority, which will be the sole judge of all the disputed elections, and every elector has an absolute right of objection, if the voting is anywhere improperly maneuvered it can only be in places where there is not a single republican elector who has the spirit to enter a protest."

JUDGE DAVIS AND THE COMMISSION.—The Washington correspondent of the New Orleans *Democrat* in a recent letter says: "Some days ago I was conversing with a prominent Illinois democrat, who is intimate with Judge Davis. He told me some rather interesting things, which, though they belong to history, have a certain bearing upon important matters now pending in your midst. He said that Judge Davis would have done precisely what Bradley did had he been chosen to the electoral commission. 'The judge,' said my informant, held, in his private conversations at that time, that the commission could not inquire beyond the prima facie certificates without completely subverting the constitutional rights of the States; that while he believes that the votes as they came out of the ballot-box elected the Tilden electors beyond question, yet the only authorities of the State which Congress or the commission could constitutionally or legally take cognizance of had certified otherwise; that if fraud had been committed, of which there was do doubt, it was for the people of Louisiana, through their courts and juries, to find it out and punish it; but that Congress, or a commission created by Congress, could not make a grand jury of itself to investigate alleged crimes against the law of any State.

"You'll never marry again, Susie, you grieve so arter Izic. Was it twic't you fainted, or three times, at the grave?"

"Bless yo' soul, Sary, it was free times I fainted, an' de last time I nebber like to come to."

"Oh, Susie, you'll nebber marry agin, will yer?"

"Bless yo' soul, Frank Dunn axt me 'bout dat before poor Izic died, and I sorter promised to hab him, an' I won't tell a lie!"

GENTLEMEN'S hats, that last year sold for $3 apiece, can now be purchased for $1.50; whereas it still costs a woman from $15 to $50 to go comparatively bareheaded.

A DISEASE known as "bloody murrain" prevails among cattle in Cecil county.

"German Syrup."

No other medicine in the world was ever given such a test of its curative qualities as BOSCHEE'S GERMAN SYRUP. In 8 years two million four hundred thousand small bottles of this medicine was distributed *free of charge* by Druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia and other diseases of throat and lungs, giving the American people undeniable proof that GERMAN SYRUP will cure them. The result has been that Druggists in every town and village in the United States are recommending it to their customers. Go to your Druggist and ask what they know about it.—Sample bottles 10 cts. Regular size 75c. Three doses will relieve any case.

THE buildings of the coming Paris Exhibition in 1878 are the largest and altogether the most extensive yet conceived for such a purpose. The naive of the main building is nearly 2,200 feet long; the vista, which includes the two vestibules, is more than 2,300 feet, and each of the transepts and vestibules more than 1,100 feet. The eight industrial courts are all parallel, and are divided into two series of four each, one series being devoted to the productions of France, and the other to the rest of the exhibiting nations. In the centre of the garden between the two series are two ranges of fine art galleries.

MISS: A word in your ear. The next fine afternoon that you saunter out, buy a box of Glenn's Sulphur Soap. That admirable purifier will remove every one of those pimples which detract so much from your beauty. Sold by all Druggists. There is Youth in every bottle of Hill's Hair Dye. n19-4t.

IN Virginia, when a young lady declines an offer to convey her home, the lover asks permission to sit on the fence and see her go by.

DEAN SWIFT said that the reason a certain university was a learned place was that most persons took some learning there, and so it accumulated.

THOMAS MURPHY AND JOHN R. HALL, Executors of Thomas Murphy,
versus
ERASTUS S. MEAD AND SARAH A. MEAD, his wife.

In the Circuit Court for Kent County, in Equity. November 2, 1877.

THE OBJECT of this suit is to procure a Decree for the sale of certain mortgaged premises in Kent County, State of Maryland, which were on the Eighteenth day of May, in the year Eighteen hundred and seventy-six, mortgaged by the defendants, Erastus S. Mead and Sarah A. Mead, his wife, to Thomas C. Murphy and John R. Hall, executors of Thomas Murphy, deceased. The Bill states that on or about the eighteenth day of May, in the year eighteen hundred and seventy-six, the said Erastus S. Mead and Sarah A. Mead conveyed certain real estate, which is particularly described in the Bill and its accompanying exhibit, unto the said Thomas C. Murphy and John R. Hall, executors of Thomas Murphy, by way of mortgage, to secure the payment of the sum of eleven thousand dollars, with interest from the fourth day of May, in the year eighteen hundred and seventy-six, which was owing from the said Erastus S. Mead and Sarah S. Mead to the said Thos. C. Murphy and John R. Hall, executors, and payable in instalments as specially set forth in said deed; which further provides that in default of payment of any of said instalments of money or the interest thereon, or any part thereof, the whole of said debt shall be immediately due and payable, which default having been made, the said mortgaged premises are liable to be sold for the payment of said debt and interest; and the said Erastus S. Mead and Sarah A. Mead reside out of the State of Maryland.

IT IS THEREUPON ADJUDGED AND ORDERED, that the complainant by causing a copy of this order to be inserted in some newspaper printed and published in Kent county, Maryland, once in each of three successive weeks before the first day of December, 1877, give notice to the said absent defendants of the object and substance of this bill, and warn them to appear in this Court in person or by solicitor on or before the first day of April, 1878, to answer the premises and show cause if any they have why a decree ought not to pass as prayed.

GALENA MACHINE SHOPS!

Wm. A. Hyland & Co.

WE beg leave to call the attention of the Farmers of Kent and the adjoining counties to our new

COMPETITOR REAPER,

and the many IMPROVEMENTS we have made this year. Our Self-Oiling PITMAN BOX, which will run two hours without stopping to oil; also, case hardened Journals, which we think is a great advantage, preventing the wearing of the Journals, a trouble that all other machines have to contend with. We are now using a Guard with concaved centre, which will PREVENT CHOKING and always present a Sharp Cutting Edge, a thing that must present itself to the farmer at once. Also, a Knife with Steel Back, thereby adding Strength, Lightness and Elasticity; and our PATENT STEEL WIRE DROP, that overcomes all objections to a Dropper, working as well in light as heavy grain, a thing that has been long needed and found at last by us.

We make the Reapers of two sizes, for two and four horses. The four-horse Reaper cuts a Swath of six feet, and will cut from twenty-five to thirty acres of grain per day, and will not work the horses as hard as ordinary farm work. The five foot machine is intended for two horses, and is handled very easily. Farmers, call and see, or write to us and learn what we have for sale.

They are the proprietors of a Corn Sheller with Fan attachment, which with their one and two horse power, will shell and clean seventy-five bushels in one hour, of which fact good reference can be given.

REPAIRING

they do neatly, and all their work is done at reasonable prices, and say to all, encourage home manufacture, or at all events give them a trial.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N. B.—Buy the large cakes and thereby economize. Sold by all Druggists.

"HILL'S HAIR AND WHISKER DYE,"
Black or Brown, 50 Cents.

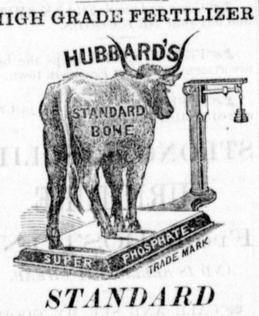
Wheat Seeding!

HIGH GRADE FERTILIZER



STANDARD

Bone Super-Phosphate,

UNEXCELLED

FOR ALL CROPS!

We again offer to the public our *Standard* Phosphate this, our ninth season. It is sold on an increased demand, not only in this State but Delaware, Pennsylvania, N. Jersey and Virginia, and for the last two years it has been extensively used as a *test* side by side of various *higher priced* Phosphates sold in the market, upon Wheat, Corn, and other crops in Kent and Queen Anne's counties, by many of our best farmers, who pronounce it to be equal to any in result, and superior to many, while the price is much less. There are other advantages in favor of the use of our *Standard*, which will be proven on trial.

1st. It is sold at $35 cash per Ton, at the Factory.

2d. It can be easily applied, with safety and profit, upon all crops.

3. It is always guaranteed to be in excellent order for drilling.

4. It is especially adapted to the growth of each and every crop.

5. The Base of the *Standard* is pure animal Bone, of which we invite inspection.

6. Animal Bone is a permanent improver of the soil.

7. Chemistry has enabled us to demonstrate with a degree of certainty that our soils lack principally *Nitrogen, Potash* and Phosphoric-acid, they being the three substances most essential for the profitable growing of crops and the Farmer to buy. Hence

☞ We ask but ONE TRIAL

to convince all of the valuable properties contained in our Phosphate as a CROP PRODUCER, and we pledge ourselves to keep it up to its well known HIGH STANDARD, believing that our success depends entirely upon the QUALITY of our Fertilizer. We refer below to the names of a few Farmers who used our Phosphate on their wheat last Fall, which yielded an abundant Harvest:
