AUTOMOBILE TOURS

AND OPEN AIR MEETINGS IN THE INTERESTS RED CROSS WAR FUND CAMPAIGN FOR CARROLL COUNTY

In order to reach all our people and present to them at first hand the needs of the Red Cross the campaign committee has arranged a series of automobile tours and open air meetings with music and stirring addresses, covering every corner of the county and reaching practically every town and vilage.

A strong list of speakers have been engaged and facts and figures that we all ought to hear relating to the war and the Red Cross and our resonsibility, will be presented.

Three groups of cars will leave Westminster at 5 P. M. on the evenings of Friday, May 10, Saturday, May 11, and Monday, May 13. All automobile owners willing to aid the cause are asked to join one or more of these trips on the above dates and lend their presence and enthusiasm to the meetings. It is hoped that in all, several hundred automobiles will take part.

The trips are short, they come after the day's work, thus losing little time and each route has been carefully planned to reach the most important points and travel over the best roads.

Note carefully the one applying to your section or district and arrange to take part in the tour passing through your community. The general direction and oversight of these trips is in charge of Mr. George Mather, chairman of transportation, who will be glad to give any information regarding them. The following is a list of the names of men, who, in accordance with the instructions of the War Department, have been skipped over and placed at the bottom of Class I. They have been given a temporary deferment on account of engagement in agriculture. This does not mean that these men will not be sent to camp. It means that the Government feels that at this time agriculture should be sustained and stimulated. These men are not given deferment for any other reason, and if it comes to the notice of the local board that any one so deferred is not actively and constantly and effectively engaged in planting, cultivating and harvesting crops, he will be regarded as derelict in his agricultural duty, and will be removed from that field and placed in active service at once.

As each man so deferred has to be replaced by another man not engaged in agriculture, it therefore becomes the duty of all citizens to interest themselves in the activities of these men, and to report any who are trifling with their deferment. This list is an addition to that published last week:

Charles Albert Bailey, Lineboro, Md.
Wesley Andrew Pickens, Easley, S. C.
