AMERICAN SENTINEL.

WESTMINSTER, - MARYLAND.

JOS. D. BROOKS, Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

FRIDAY, JULY 1, 1910.

The whole country is smiling with President Taft.

If the Democratic party really believes it will control the next House of Representatives there is a rude awakening in store for it this fall.

He who laughs last laughs longest and loudest. Our Democratic friends are not laughing very much since the adjournment of Congress.

Representative Champ Clark had better revise his declaration about being speaker of the next House of Representatives. When you want to make a rabbit pot pie first catch the rabbit.

They are after you Senator Smith. Voting for a protective duty on lumber, an article in which you are financially interested, is not in keeping with your present declarations respecting the tariff. The dyed-in-the-wool-low-tariff Democrats will get you, if you don't watch out.

The Mayor requested the citizens to clean the grass from their pavements and gutters. We understand that some have complied with the request while others have apparently ignored it. The city authorities will probably be compelled to resort to some drastic measures before some of our citizens will "sit up and take notice" that the present administration is not trifling.

The gamblers say that all in not lost that is in danger, and that a game in not finished until it has been played out. In the game of politics which will be played this fall our Democratic friends will find out that the Republican party has some pretty "wise guys" among its membership. Our Democratic friends are at present making some very loud and unseemly noises, but then they made a great deal more noise in the Bryan campaign. If noise would elect candidates for national offices the Republicans would have been out of office long ago.

Some of the strongest tributes to President Taft for his signal triumph in securing the fulfilment by Congress of so many of the important pledges of the Republican platform come from leading newspapers in the West, which had given encouragement to the insurgent movement. A few months ago some of these same newspapers were predicting all sorts of dire things for the Taft administration, but when every pledge made by the Republican party had been fulfilled, and that too within the space of a few months, the newspapers found they were in honor bound to give honor to whom honor is due.

Another Democratic dream spoiled.

The Pittsburg Chronicle-Telegraph, in an article on the subject of bird life, states that the shooting of birds by thoughtless people is the cause of the fast disappearance of small birds from the vicinity of our towns and villages.

The shooting of the birds may account for a few, but the vast majority of the birds are devoured by worthless cats. Here, in Westminster, we know that nearly every young robin, before it can fly, is eaten by a cat. The law prohibits the killing of certain birds. If a person keeps a cat which is known to kill the young robins, and other birds, and the owner knows it and aids and abets the cat, is the owner not liable under the law? What is the difference between killing the birds with a shot gun and keeping a cat which destroys them by the wholesale? We destroy worthless dogs, then why not treat worthless cats in the same way?

Don't Abuse Your Town.

In nearly every town you visit you hear some resident say: "Aw, this ain't nothin' but an over grown country village!"

The resident of any town that makes such a statement wears whiskers and boots at heart.

Of course, if your town isn't sporty enough for you, why, you can move—that isn't the town's fault.

If you get too sporty, you'll have to move anyhow.—From "The Neighbors" for April 1910.

DENATURED ALCOHOL.

Largely through the influence of the Grange in all parts of the country the bill passed congress removing the tax from denatured alcohol, thereby placing the commercial value within reach of those who desire to use it for heat, light or power. For lighting purposes it far exceeds kerosene oil in every respect, giving a better, cleaner light, emits no odor, does not smoke or dull the lamp chimney. The manufacturing of it has not progressed as rapidly as many had hoped. Probably the very high price of corn ever since the law became effective has been largely responsible for this. It now seems that the business will develop throughout the central west.

The first denatured alcohol plant to be built west of the Mississippi river is located at Marshalltown, Ia. The outfit consists of seven buildings and will cost completed $140,000. Operating day and night, it will have a capacity of $8,000 gallons of alcohol which will consume 3,200 bushels of corn daily. The output will be pure grain or ethyl alcohol, and the denaturing agent, which must be mixed with it to make it unfit for drinking purposes, will be added as required. A force of twenty men, including four government inspectors, will operate the plant. One of the chief points in favor of plants of this character is that the grain partly spoiled for use as food may be used in the manufacture of the product. Plants properly equipped can also utilize frosted potatoes, fruit, etc.—in fact, any product which has a starchy content.

Mr. Robert Burton, who was associated with Senator Elkins, of West Virginia, in the sale of the city's interest in the Western Maryland Railroad to the Fuller Syndicate in 1902, said that Mr. F. S. Landstreet told him that $360,000 had been demanded of the syndicate if the sale was to be consummated. Senator Elkins remarked to Mr. Burton, he says, that "Baltimore was a city of theives."

The House conferees Saturday yielded on the question in dispute over the Pensions Appropriation bill and the conference report was agreed to by the House. The House wanted to abolish all pension agencies but the one in Washington, but the Senate would not agree. All the present agencies will be retained. The Pension bill carries $156,000,000.

The second session of the Sixty-first Congress closed Saturday night. At the first session, which was an extraordinary one, called by the President for that purpose, the new Tariff law was enacted.

Oil is to be spread on all the roads built under the direct supervision of the State Roads Commission. Chairman Tucker announced Saturday that plans were now being made whereby this work was to be undertaken as soon as reasonable terms could be reached with the oil companies.

The State Board of Health today took up the enforcement of the provisions of the new Pure Food bill, which becomes effective today. Dr. Charles Caspar, Jr., who was recently elected Pure Food and Drug Commissioner has made plans to put the new act in effect, and for which purpose the Legislature has appropriated $15,000.

After a three weeks' trial, in which all the legal ability of the prosecution and the defense was brought into the strongest kind of play, the four machinists—William H. Zimmerman, Hamilton W. Lightner, William B. Shipley and Charles Gruber—tried on the charge of conspiring to dynamite the Mount Clare shops of the Baltimore and Ohio Railroad, were acquitted Saturday in Part 1 of the Criminal Court, of Baltimore. The verdict came as a distinct blow to the State's forces and the detective department of the city.

MARRIED

At the parsonage of St. Paul's Reformed Church, this city, June 26th, 1910, by Rev. C. S. Slagle, D. D., Mr. Ira J. Long, of York, Pa., and Miss Viola M. Luckenbaugh, of Hanover, Pa.

In Memoriam.

GRIMES.-In sad and loving remembrance of Pearly E. Grimes, who died June 30th, 1908.

"Gone but not forgotten."

Keep green, dear God, a grave that lies
Beneath the wide and starry skies;
Keep sweet with sleep and give her rest
Whose hands are folded on her breast,
While peaceful slumber fills her eyes.
By her husband, F. J. Grimes.

Farewell, dear mamma, a sad farewell;
Your loss to us no tongue can tell.
And when on earth we breathe no more,
We'll meet you on the Heavenly shore.
By her children, Helen and Vernon Grimes.
