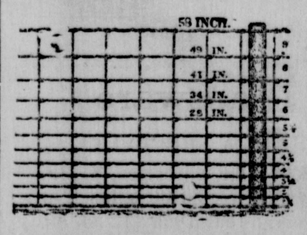
THE OLD RELIABLE

American

WOVEN WIRE

Fence

THE HINGE JOINT—Makes it possible for the fence to withstand sudden and severe pressure from contact with animals or otherwise, without bending the stays, the fence springing back to place the instant pressure is removed. It constitutes the most secure, lasting and efficient lock and without waste of material. Has broad surface connection with horizontal bars, which connection makes sidewise slipping of the stays next to impossible. Very materially aides adjustability, the fence readily conforming to the ground surface regardless of grade.



Tension curves are placed six inches apart in all horizontal bars, adding largely to the natural elasticity of the steel. Rendering the fence self-adjusting under varying conditions, such as contraction and expansion due to changes of temperature, hot and cold weather, climbing, sudden pressure and other strains.

Years of experience in the manufacture of American fence, attended with enormous sales, have demonstrated beyond question that we have this problem figured right and that the tension curve, with the hinge joint feature, keeps the fence right under all circumstances, every day of the year, and as long as the posts stand in position.

We can accommodate you with Field, Garden or Poultry Fence in many styles. Also, barb and smooth galvanized wire. We carry the largest stock of fence in the county.

NEWS OF THE COURT.

Cases Being Tried Day And Night—The Grand Jury Does Very Efficient Work.

State vs. Simon Chase, for the larceny of one bushel of wheat from Thomas Faulkner was on trial at the hour of the NEWS going to press last Friday. Jury trial. Beck for State, Vickers for defense, verdict guilty and sentenced to one year in Maryland penitentiary.

State vs. Thomas Quigley for stealing team from Thomas Maslin. Court trial verdict guilty and sentenced to six months in county jail. Beck for State; Vickers for defense.

State vs. Edgar White for assault on Thomas Chambers. Verdict guilty and fined $25 and costs. Beck for State; Wickes for defense.

SATURDAY.

Case of state vs. Belle Dent for violation of local option law, verdict guilty. Fined $100 and costs or six months in House of correction. Beck for State; Vickers for defense.

State vs. Walter Dent for violation of local option law. Verdict guilty in three cases. Fined $500 and costs or 12 months in House of Correction, in each case. Beck for State; Vickers for desense.

MONDAY.

The case of Mrs. Annie T. Hayes vs. Dr. S. E. Ford proved to be an interesting case and a hard fought one. It seems that Dr. Ford rented the house on High street from Mrs. Baker and during his tenancy put therein bath room fixtures the expense of same to be taken out of the rent. Before the rent had amounted to cost of fixtures the house was sold to J. C. Davis and by him to Mrs. Annie T. Hayes in fee simple. The case was tried before the Court. Barroll for Dr. Ford and Herbert E. Perkins for Mrs. Hayes. Verdict for Mrs. Hayes for $107.94.

TUESDAY.

The Court has been occupied for several days with the Cecil county removed case of Ernest T. Moore vs. P. B. & W. Railroad. This is a case in which a company from the Elkton P. O. S. of A. went to Havre de Grace, gave an entertainment and while waiting for the return train at the depot three of the young men were arrested, placed in the lock-up by the railroad employes and suffered therefrom

They claim damages for false arrest. The Rail Road Co. charged the men with being disorderly. L. Marshall Haines and M. deK. Smith represented the railroad; H. H. Barroll, Omar D. Crothers and W. S. Evans, the plaintiff.

At night another Jury was empanneled and the criminal docket finished. Julia Johnson, charged with violating the local option law, was tried before Jury; Beck for State, Vickers for defense. Upon a plea of guilty the State and Court agreed to suspend sentence and the case was quickly closed. This "suspension of sentence" means that the guilty party may be arrested anytime there may be reasons therefor and a penalty imposed.

Wednesday night the case of Roper & Co. vs. Canning & Mercantile Co., of Kent, was tried. This was a case in which the plaintiffs, of Petersburg, Va., had a contract with defendants for 450 cases of canned goods and claimed $650 for failure to fulfill same. Jury brought in a verdict for plaintiff for $450. S. P. Townshend for Roper & Co., Beck and Beck for defense.

GRAND JURY'S REPORT.

The Grand Jury in their report stated that they had examined 4 constables, 2 bailiffs, 98 witnesses, made 26 presentments and 26 true bills; found the jail clean and well kept and an efficient keeper in charge. They found 8 prisoners and recommend that the 3 insane persons be removed at once to a more fit place, etc.

They warned sellers of "peach cider" that they would be prosecuted, as there were reasons for believing that the stuff was intoxicating.

They recommended a flagman to be placed on Queen street and similar railroad crossings and warned the P. W. B. R. R. against blocking crossings longer than ten or fifteen minutes.

At the hour of going to press the railroad case was in the jury's hands. Court adjourned sine die last night.

Athletic Field For Chestertown.—The suggestion in the NEWS several weeks ago for an athletic field for Chestertown has given rise to several excellent suggestions. Dr. John L. Wethered, a brother of Mrs. Hope H. Barroll, and a former athlete of Chestertown, is now on a visit here from his home out West where he has taken active interest in the play grounds of some of the up-to-date Western towns. Dr. Wethered suggests that as the town will soon own the grounds near the pump house that would make an excellent playground and it could be drained and graded to make a fine baseball, tennis and foot-ball field, and it i so convenient to every part of the town and so many different streets that the idea is worthy to be considered thoughtfully. A good plan would be to form an Athletic Association and ask the ladies of the town for their assistance. We are sure the Ladies' Improvement Association would render everything in their power to this project which would not only give the youth a long felt want but would beautify this section of the town. We hope this matter will be further agitated and that practical results will be obtained.
