FRIDAY, SEPTEMBER 2, 1910.

REPUBLICAN CANDIDATE FOR CONGRESS,

HON. WILLIAM B. BAKER,

OF HARFORD COUNTY.

In the leading editorial in its issue of July 15, 1910, the Democratic Advocate in speaking of its party says :

"Another thing that the leaders have omitted to do is to lay down a positive policy to guide the party in event of victory. A source of our weakness, heretofore, has been that the Democratic party was simply a party of opposition as it told the people only in general terms its proposed policy."

The whole of Main street must be repaired. Don't stop until the job is completed.

Baltimore is $708,000 short in erection of fire and school houses. Evidently the Board of Estimates is not very good on estimating.

Don't waste the water. Low water often becomes impure and impure water creates typhoid fever. Lawn sprinkling is not a necessity and consumes a great deal of water.

When the improvement of Main street is completed the automobile drivers will have to be watched. The smoothness of the bed of the street will be mighty tempting.

The Democratic party has no platform; it is only watching the Republican party build up the country and hopes to get a few offices in case the latter party nominates some unpopular candidates.

A party of opposition is a good thing to have, but when it does nothing but find fault with what is being done instead of advocating measures which tend to build up the country, its usefullness ceases.

It is with a great deal of satisfaction we place the name of the Hon. William B. Baker, the Republican candidate for Congress, at the head of this column. He has represented this district in Congress and has a record—of which we will speak a little later on—of which he and his friends should feel proud. He is a representative business man and thoroughly understands the needs of the people of the district.

The Democrats are deriving a little hope of success at the polls this fall from what they "think" is a division in the Republican party. How sorely they are to be disappointed will appear a little later on.

The Republican party is nothing if not progressive. It is now pointing the way just as it has done for the past fifty years, and what, to the Democrats, seems to be a division is only the leaven working within the party in order to present a solid front at the coming election.

Mr. Justice James W. Gerard of the New York Supreme Court, who has been mentioned as Democratic nominee for Governor of New York, when asked if he thought the Democratic party should be reorganized said:

"No, it does not need to reorganize, but it needs to offer something to the public. You can't have a platform on words only. What we need in the Democratic party is a little more Christianity, so that every time a man is elected to office everyone else in the party won't bark at him."—Balto. Morning Sun, Aug. 30, 1910.

A low tariff means idle workmen. Idle workmen means less consumption of farm produce. Less consumption of farm produce means lower prices for farm products and low prices of farm products means hard times for the farmers. The Democratic party persuaded you to give them a chance to run the government and you farmers remember the results. If you learned nothing from 46 cent wheat, $1.25 corn, and an army of unemployed, called Coxy's Army, then listen to the cry of the low tariff Democrats. If, on the other hand, you wish a continuation of the prosperous times you have enjoyed since 1897, vote for the Republican nominee for Congress.

The Democratic party is always harping about the right of the consumer just as if the latter belonged to a distinct class.

Every human being is a consumer, and when you strike at the manufacturer, the farmer, the business man, the professional man, or the unskilled laborer, you are striking at a consumer. When you lessen the wages, profits or fees of any class of persons you lessen consumption and when you decrease consumption you lower the prices of all goods consumed; and when you lower the prices of the goods consumed you bring on hard times. Cheap goods means lower wages and low wages means uncollectible store bills, etc.

THE COUNTY DEBT.

Under the caption of "The School Debt" the Democratic Advocate, in its leading editorial of last week, attempts to answer our criticism of the Democratic party cry of "out of debt." It is no reply at all and shows the utter absurdity of the claim made by the Democratic party of this county.

The editorial is full of misstatements. Take, for instance, the statement that the School Commissioners owed $25,000 in 1900 and the debt was funded and bonds issued. If that statement is correct then why is it the debt is still $22,000 when $1,000 per annum was to be paid on the principal? We know very well how the debt was created but we have never seen any statement explaining the same.

We know that many years ago the then Republican Board of School Commissioners turned over to a Democratic school board the sum of $75,000 in ground rents and other interest bearing securities; and we know that that Democratic school board had no more than gotten into office than it began to waste the money. At that time the school commissioners were elected by the people and during the campaign every Democratic member of the board had promised a school house to every one who asked for it. As soon as they got in office they proceeded to fulfill their promises by building cheap frame school houses all over the country, and by the end of their term of office the $75,000 was gone. In a very few years those frame school houses had to be replaced with new ones and in order to satisfy the ever increasing demands all later boards of school commissioners have been compelled to borrow money.

We have no complaint to make about the debt, because what cannot be cured must be endured, but we do object to saddling the same on the school board. The latter needs money for increased school facilities, for the payment of better salaries to its present teachers and for more teachers in the lower grades of the schools. The statement in the editorial that the present financial condition of the county is due to the efforts of the Democratic party is entirely in keeping with all of its past "self praise" but does not answer the query as to why the school debt has not been paid by the County Commissioners.

Every one knows why the certificates of indebtedness issued by the County Commissioners have been paid off while the children and school teachers of the county have been pleading for better treatment. The children are too young to vote and many of the school teachers cannot.

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run down, or under strain of any kind, take Electric Bitters, the matchless, tonic medicine. Mrs. J. E. IN MEMORIAM.

BRANDENBURG.—In sad but sweet remembrance of our darling little son, Nelson E. Brandenburg, who died September 1st, 1907, three years ago.

You are not forgotten Nelson darling
Never can your memory fade,
Sweetest thoughts shall ever linger
'Round the grave where you are laid.

Mamma and Papa.

IN MEMORIAM.

In sad and loving remembrance of our dear baby Margaret, infant daughter of Web R. and Goldie I. Reese, who died August 12th, 1910, aged 1 month and 7 days.

We had a little darling once,
She was our joy and pride,
We loved her all perhaps too much,
For soon she slept and died.

Go, little pilgrim, to thy home,
On yonder blissful shore;
We miss thee here, but soon we'll come
Where thou hast gone before.

By her mother and father.

O, how hard we tried to save her!
But our care was all in vain.
Angels came and took her from us,
She is with the Saviour, free from pain.

By her grandparents, G. W. C. and S. C.

Home was a pleasure when you were here
Margaret, Margaret so loving and dear;
None but others who have lost one,
Could our grief and sorrow know.

By her aunt Effie.
