REPUBLICAN CANDIDATE FOR CONGRESS,

HON. WILLIAM B. BAKER,

OF HARFORD COUNTY.

In the leading editorial in its issue of July 15, 1910, the Democratic Advocate in speaking of its party said:

"Another thing that the leaders have omitted to do is to lay down a positive policy to guide the party in event of victory. A source of our weakness, heretofore, has been that the Democratic party was simply a party of opposition as it told the people only in general terms its proposed policy."

The prosperity of the farmer is the hope of the nation.

Take care of the home market and the home market will take care of the farmers.

How about the increase tax for the roads we have not seen and on the hogs we have consumed?

We appeal to all fair minded citizens to go to the polls on Tuesday next and cast their ballots for William B. Baker for Congress.

Five dollars for five hours work is a pretty stiff price to pay men to assess property, including your hogs and chickens kept for family consumption.

The Republican policy of protection to American industries, creates a home market for the farmers. Why destroy "the goose that lays the golden egg?"

The Republican party brought the farmers out of the wilderness of low prices and increased mortgage debts and now the Democrats are trying to put them back.

Hon. William B. Baker is the father of rural free delivery of mail in Carroll, the first county in the United States to enjoy the blessings of the system. Farmers, remember this on election day.

A vote for Hon. William B. Baker means the continuance of the present "good times" for our farmers. "Good times" for the farmers mean "good times" for the towns and villages of Carroll county.

By "industries" we thrive; but while Baltimore city is seeking new industries to help build up the city and thereby create a greater home market for the produce of the farms of Carroll county, Senator Rayner is preaching the doctrine of destruction to American industries.

The Democratic assessors are even assessing hogs which are intended for family use. After the hogs have been killed and consumed, which they will be before the taxes for 1911 are due, we suppose the tax collector will keep on collecting taxes on them—or rather their ghosts.

"Increase in taxation in state and county affairs means taking more toil and the products of toil to pay the tax bill.—*The Democratic Advocate* of October 24th, 1896.

Samuel Gompers of the American Federation of Labor went to Europe a low tariff advocate and came back a pronounced protectionist. When asked about his trip he said: "Living is cheap to the wage-worker of Europe only because he does without what in America soon becomes a necessity to him—food in good quantity and quality, presentable clothes among his aspiring fellow-workmen and their families, and a comfortably furnished home in quarters responding to his awakened desire for equality with his American neighbors, and in general a large and free life." He adds: "If the immigrant to this country is willing to continue living here at the same level at which he was obliged to accept in his native land, he can find it here for the same money. Money wages in America in many trades are double those paid abroad."

This is the testimony of a man who has been a Democrat ever since he was naturalized.

SOME TESTIMONY FROM THE OTHER SIDE.

During the campaign about to close we have endeavored to present to the farmers of this county the true situation as we have been able to see it. This paper has been, is now, and will, in the future, be devoted to the best interest of the farmers and tax-payers of this county. Upon the farmers' prosperity depends the prosperity of the towns and villages of this county, because this is a strictly rural county and its towns and villages are absolutely dependent upon the farmers for their maintenance. The Democratic party, by its advocacy of a low tariff, and by the adoption of one while in power from 1892 to 1896, brought about a condition among the farmers of this county which was simply deplorable. The price of farm produce and of farms was reduced, the merchants of our towns and villages were compelled to accept the notes of our farmers and these notes afterwards found their way into the hands of brokers and lawyers who promptly forced the farmers into bankruptcy. In the year 1896, after two years under Democratic Wilson tariff law, the conditions existing among the farmers of this county were almost unbearable. Young men left the farms and the old men, unable to any further fight against such adverse circumstances, either sold out, or were sold out by their creditors.

We do not make these statements on mere hearsay or guess work. We lived through the hard times brought on by the last Democratic administration and this paper felt the effects of them as well as any other industry in the county.

We realize that our farmers, who will, on election day, as a jury, pass upon the issues of the campaign, may desire to hear some evidence which will at least tend to prove what we have charged, to be true. We also realize that the statements in writing made by a party to the cause, through its official organ, ought to be and is accepted by the court and jury as binding upon the party. We, therefore, offer the following statements found in *The Democratic Advocate*, the official organ of the Democratic party in this county, for the purpose of showing that after the Wilson tariff law had been in force for over two years the prices of farms and farm produce had been reduced and that the mortgage debt of the county was increasing.

Democratic Advocate editorial August 1st, 1896.

"Facts That Cannot Be Denied."

"That mortgages are multiplying.
That public debts are increasing.
That most of the railroads are bankrupt.
That prices of farms have greatly fallen.
That the prices of farm products have fallen fully one-half.
That tramps are numerous."

The editor on the same day quotes the following from the Baltimore *Sun* and comments on it:

"A remark often made by politicians when urging farmers and others to try their schemes of debaseing the currency is this: "The situation couldn't be worse." But in this they are mistaken. The financial and industrial situation, bad as it is, could be a great deal worse.—*Baltimore Sun.*

"Yes the situation could be a little worse. There are a few more farms to be mortgaged and labor could be further oppressed by reducing the number of days they are given employment. At the present prices of farm products there is not much hope of the principal of debts being paid, and not all debtors are able to pay all of the interest. All other interests depend upon agriculture. When it is depressed manufactures and commerce are depressed. When agriculture is prosperous, manufactures and commerce are prosperous."

Democratic Advocate editorial of September 5th, 1896.

"No farmer can raise wheat at 50 cents a bushel and prosper. How can a farmer, then, with a mortgage on his farm, expect to maintain his family and pay off the mortgage?" On the above date farm produce was quoted in the *Advocate* as follows:

Westminster Markets.–Wholesale Prices by E. O. Grimes. Friday, Sept. 4, 1896.

Flour	$5.50@	6.00	Corn Meal	1 15@	.25
Wheat, dry	.56@	.57	Lard	.04@	.06
Rakings	.53@	.55	Potatoes	.15@	.18
Barley	.60@	.60	Sides	.05@	.06
Oats	.15@	.20	Shoulders	.5½@	.05
Corn	.33@	.35	Ham	.11@	.12
Corn in the ear per barrel	1.50@	1.55	Eggs	.09@	.10
Rye	.25@	.28	Rye Straw		8.00

Democratic Advocate editorial of October 10th, 1896.

"Is there a farmer in Carroll who is satisfied with the present condition of affairs? Is there one who is making any money raising wheat at 60 cents a bushel, corn at $1.25 a barrel and potatoes at 25 cents a bushel?"

We have offered the evidence, taken from the files of our Democratic neighbor, to prove that what we have been stating all along during the present campaign is absolutely true, and for the purpose of showing that our Democratic neighbor has a ghost in its closet which it is afraid to let the public see. It will not down. In 1892 the prices under the Republican McKinley law were too high for Democracy. In 1896 the prices were too low for everybody, and the Democratic party was swept out of power. Do you, Mr. Farmer, want Democracy and low prices, or do you want Republicanism, protection and high prices? You made a terrible mistake in 1892. Do you wish to repeat it? It is up to you.

What has become of old "16 to 1" and "Imperialism"?

Farmers Should Take Notice!

The Democratic candidates for Congress in the city of Baltimore districts are making their campaign on the cry of high prices alleged to have been brought about by the Republican party. Mr. J. Charles Linthicum, the Democratic candidate in the 4th district, has sent broad cast over his district a circular which states that the high prices for food stuff has been brought about by the Republican party. The table is as follows:

	1896.	1910.
2 lbs. Salt Pork	$ .10	$ .40
5 lbs. Pork Chops	.50	1.10
5 lbs. Pork Ribs	.30	.75
4 lbs. Smoked Shoulder	.30	.54
2 lbs. Sausage	.15	.35
5 lbs. Lard	.35	.85
5 lbs. Corned Beef	.25	.62
4 lbs. Butter	.60	1.20
2 dozen Eggs	.20	.58
1 lb. Cheese	.12	.25
1 bbl. Flour	3.50	5.65
4 lbs. Chicken	.40	.80
21 lbs. Sugar	1.00	1.16
2 lbs. Steak	.20	.35
5 lbs. Roast Beef	.50	1.00
Totals	$8.47	$15.60

As a Democratic candidate, Mr. Linthicum declares that if he is elected he will vote to revise the tariff on the necessities of life so as to reduce the cost of living. How this is to be accomplished Mr. Linthicum sayeth not. The only way we can think of is to so reduce the tariff on manufactured goods that the home industries will have to either compete with the pauper labor of Europe or shut down. If such a calamity should befall the people of the industrial centers of the country the price of farm produce would, as a matter of course, become much cheaper, because the people engaged in commercial pursuits would have very little, if any, money wherewith to purchase the products of the farm. The same complaint was made by the Democratic party in 1892. It then fooled the people and brought about 46 cent wheat and a Coxey's army. Are you willing to surrender the "real meat" for the "shadow"?

IN MEMORIAM.

HOWARD M. ZILE.

In loving remembrance of my husband and our father who sweetly fell asleep four years ago today November 3rd, 1906.

Though so short his life was characterized by christian graces possessed by few. In early spring he was seized with an illness which, throughout the tedious months, was born with a beautiful resignation and christian fortitude. Several times the weakened constitution rallied, and it was hoped that the disease would be baffled and his life would be spared, but the fatal disease withheld not its hands. All the marvelous devotion of love and the skill of the physician could do were brought to the aid of the sufferer, but the sun set while it was yet day and his spirit took its flight.

As he lived so he died, with an abiding faith in the atoning graces which had made life a grand reality and death but the commencement of a nobler and more beautiful life. Conscious to the last, his latest breath was breathed in an invocation to the dear ones whom he was about leaving to consecrate themselves to God and to breathe out a resignation in Thy will be done.

By his Wife and Children.

The dues are 75c a month, payable quarterly or semi-annually. No assessments.

AID

In the broad sense of the word the Loyal Order of Moose is an AID to its members. If misfortune overtakes a brother, if sickness or accident or business reverses befall him, It Extends The Helping Hand. For him it speaks the "Good Word," contributes to his purse and helps him to overcome difficulties.

Aid and protection at a timely moment are often of incalculable value. It may be that impending moral injury can be averted; that a home can be saved from blight; that honor can be preserved untarnished. Material calamities may be averted if there are those who will reach forth the protecting arm or utter the word of warning. The Loyal Order of Moose is a shield of offense and defense, not only for every brother, but also for those who are near and dear to him. Against all the ills and discouragements to which man is heir, it is a Tower of Protecting Strength.

WHAT THEY ARE

The Order of Moose is not an insurance organization. They are the clan whose blood circulates. Their cardinal virtues are to aid the sick, bury the dead and inject sunshine into dark places. They are not Saints, simply disbursers of practical Christianity. There are no Moose in Potter's Field or County Shroud. They live by the way and lend unto the Lord, for they give unto the poor. Their Mission is to do good. They hold high above all other things, as high as hope's great throbbing star, above the darkness of the tomb, the love of wife and home and friend.
