PROCEEDINGS OF THE MAYOR AND CITY COUNCIL

Seventeen citizens of Westminster appeared before the Mayor and City Council at their regular monthly meeting on Monday evening and united in a request that immediate steps be taken to enforce the law limiting the speed rate of vehicles of all kinds on the city streets. It is a notorious fact that not the slightest regard for this law has been shown for several years, and it is not an unusual circumstance to witness motor-cycles flying through the town at a fifty-mile clip, or more, and automobiles at as high as thirty or forty miles, thus endangering the safety and lives of citizens. And speeding has not been the only abuse. Cutting short around corners of the streets, running in the middle or to the wrong side of the streets, opening wide the cut-offs of the mufflers and making prolonged and unseemly noises at all hours of the day or night, are some of the things that the authorities are requested to correct. Horses and horse vehicles are included. And the mayor and councilmen have decided to take up the matter in good earnest and enforce the law against all transgressors. Some of the gentlemen who waited upon them admitted that they had not always observed the limit, with their machines, but all pledged compliance hereafter and a willingness to pay the penalty, if at any time they shall violate the city ordinance on the subject.

The public, therefore is to be notified of the purpose of the authorities and due warning to be given and if anybody transgresses it will be with eyes wide open to the consequences. Automobilists and motorcyclists will also be notified that they must not leave their machines at a standstill heading in the wrong direction on the streets.

The citizens who laid the matter before the mayor and council on Monday night are Charles E. Goodwin, Dr. J. S. Myers, Charles B. Hunter, E. Oliver Grimes, Jr., Eli J Butler, Dr. H. M. Fitzhugh, John T. Anders, Harvey A. Stone, M. Theodore Yeiser, Walter Grumbine, John E. Stonesifer, Atlee W. Wampler, H. P. Gorsuch, H. H. Harbaugh, Morris Mitten, I. Scott Jordan and Milton P. Myers.

At the meeting where this action transpired a committee, composed of Mayor Walsh and Councilmen Davis and Koontz, was appointed to confer with Mr. Ennis, of the Western Maryland Railroad, with the view of having some action taken to improve the railroad street, which is the property of the railroad company and which is in bad condition. Co-operation of the company and the city authorities is desirable in the matter.

Mr. Joseph S. Shriver requested the mayor and council to have curb and gutters laid on Willis street between his premises and Center street, and require the sidewalks to be paved.

Other business transacted was of routine character.

The War In Europe

Some Fighting on Land and Sea No Great Battle Yet

Germany Has Invaded Belgium In Violation of Treaty Stipulations

This Drew England Into the Contest and She Declared War Against Germany, Monday Night

Italy, Though Threatened By Germany, Remains Neutral

The Countries at War are Russia, France, England, Belgium, and Servia, Against Germany, and Austria-Hungary

Only Fighting of Consequence Yet, is Taking Place at Liege, Belgium

News of the titanic struggle between the warring nations of Europe is necessarily meager and unreliable. There is absolutely nothing from the military movements between Russia, Germany and Austria. Only naval events and Germany's attempted invasion of France have been reported. On land Germany, finding the French frontier, strongly guarded at the points at which her armies entered that country in 1870, determined to pass through Luxemburg and Belgium, in violation of her treaty with England to observe the neutrality of both. The Grand Ducy of Luxemburg was helpless to resist, but little Belgium is fighting valiantly against her invaders, though probably vainly. At the fortified city of Liege assaults were repulsed with severe loss to the assailants. The effort to capture the city, however, has been renewed, a couple of fortifications have fallen and a dearly bought German victory may have been already achieved. A couple of regiments of German Uhlans, which entered France early in the week were, it is said, literally cut to pieces by the fire of machine guns.

Aviation is playing an important part on both sides. A couple of Zeppelin dirigible balloons have been destroyed for the Germans and French and Belgian aviators have also been killed and their machines wrecked.

On sea the Germans have suffered the loss of a few minor vessels of war and the English have captured a number of German ships engaged in commerce. Reports this morning are that English and German war fleets were fighting in the North sea, with the British having the advantage. But all reports must be taken with much caution. If the war continues all these movements on land and sea are but preliminary to the greatest battles in the world's history, which are yet to come.

President Wilson has offered his services as mediator between the warring nations, but that was purely perfunctory action, without the remotest prospect of its acceptance by any of the nations at war.

MR. SEABROOK HONORED

At the Maryland State Camp of the Patriotic Order Sons of America which met in Baltimore on Tuesday and Wednesday last, Rev. W. L. Seabrook, of this city, was unanimously chosen president, without opposition. This order which was established in 1847 is becoming one of the most important and influential in the United States, having about 10,000 members in Maryland, of whom about 1,000 belong to camps in Carroll county. The order will take part in the fraternal parade on September 9th, during the Star Spangled Banner Centennial, and has been honored by being assigned to the first place in the second division. Mr. Seabrook is ex-officio chairman of the committee having this work in charge. In about 15 minutes more than half the funds necessary for the erection of both memorials was pledged on the floor of the camp.

Trax, Secretary of the State League, assisted by members of the County League, where all suffragists and their friends will find a welcome. On Saturday the 15th, "Suffrage Day," it is hoped that every member of the League in Carroll county will try to be present. A number expect to go from Westminster and any one wishing to join the party can obtain information in regard to transportation from either Mrs. O. D. Gilbert or Miss M. B. Shellman. SHAKESPEARIAN COMEDY PART OF CHAUTAUQUA PROGRAM

Shakespeare's "Twelfth Night" will be played here by the College Players Chautauqua Week, August 28th to September 3rd. The rare old comedy will be played with all the simplicity of the age for which it was written. No scenery will be used, except the ordinary soft colorings of the Chautauqua tent.

The College Players, is a company of young college people selected for their natural talent, and coached by Miriam Lee Earley-Lippincott, a famous coach for spectacular campus plays. Ten people make up the company which will play at eighty Chautauquas this summer.

The presentation of drama is only one side of Chautauqua. During Chautauqua Week there will be twelve lectures, twelve concerts and seven other events, classified for want of a better term, as entertainments. The College Players come under the latter classification, and yet their performances cannot be justly called pure entertainment. Shakespearian plays and their interpretation are a part of every education.

REUNION OF THE CHURCHES OF GOD AT PEN-MAR AUGUST 13, 1914.

The following program will be rendered: Address of welcome, Rev. I. A. McDonald, D. D., Shippensburg, Pa.; oration by the Rev. W. H. Guyer, D. D., president of Findlay College, Findlay, Ohio.
