The Inspection of Nursery Stock.

Unscrupulous nurserymen outside of Maryland have sold stock to growers in the State that ofttimes could not be considered standard, and in many cases it has been found infested with serious pests.

In order to prevent the repetition of such cases all persons securing nursery stock from any nurserymen outside of the State of Maryland are requested to the write Entomologist, at College Park, Maryland, and he will endeavor to have such stock inspected so that all diseased stock found would be destroyed in accordance with the law and the nurserymen held responsible for the loss.

This procedure does not reflect upon the honest nurserymen, but the inspection is to prevent fraud upon our growers by the unscrupulous out-state man. It is, therefore, hoped that all persons securing stock from out-state nurserymen will notify the above state officer so that an inspection can be provided for.

WHEAT is up and showing green and beautiful in a number of Kent fields. The appearance of the cereal this early following the planting is not consided a bad omen for the next season's crop, although many prefer the blades to keep below the ground until after the first snows.

THE United States Government is making an effort to close contracts with the leading tomato packers of the Shore for their pack of the fruit this season. The tomatoes will be used in the Army and Navy, and are selected because of their superior quality and clean methods used in the packing.

Cure For Roup.—In another column will be found the adv. of J. S. Vandegrift's cure for chicken roup. Mr. J. W. Boggs, of Crumpton, says he would not be without this medicine, and Mrs. Seney, of near Centreville, is equally enthusiastic in its praise.
