1918 CHAUTAUQUA A BIG SUCCESS

Attendance Large and Lectures Interesting and Instructive. Music Enjoyed By Audiences

PRESIDENT ENDORSES CHAUTAUQUA

In this year 1918, when so many other demands have been made upon the people for aids and helps for the Government in time of war, it was a question often asked whetehr Chautauqua ought to be held again. President Woodrow Wilson answered the question for the Nation by appealing to the managers of the movement to continue the work as an aid to the National Council of Defense.

The Chautauqua Association of Pennsylvania, of which Paul Pearson of Swathmore College, is the Manager and Director. has been coming to Westminster for one week each year since 1912. It ought to be a matter of pride to the citizens of Carroll county that this movement has been fostered and supported by so many Guarantors each year.

This year there have been smaller groups of musicians than formerly but the lectures have been timelv and perhaps better than ever before ringing with patriotic support of the Government in all its efforts to win the World War. In no other way is it possible to bring to the people in each community visited such lectures, music and teaching for the small sum of two dollars as the Chautauqua offers. Westminster is rightly proud of its citizen Guarantors, whose financial guarantee makes Chautauqua possible. So far no Guarantor has ever been called upon here to pay one cent, thanks to the excellent work of the local committee. We hope that the Chautauqua will be brought back to Westminster for 1919, when it will be worth even more than this year, if the World War shall last so long.

Westminster has very few citizens who oppose the coming of Chautauqua each year to our town and these persons, who of course do not attend the sessions and but seldom aid in buying a ticket, furnish the "humorous side' to the sessions, such worthless not having been there them selves and not knowing what they are talking about, proceed "to tell you all about it", a hearsay method of recital that greatly amuses the regular patrons. Chautauqua will reach more and more of these grouches each year thereby making them more agreeable and better informed citizens.

Report Of Results Of War Savxings Stamp Campaign To August 15, 1918.

After the utmost care and patience in gathering up the tangled skein of sales and pledges of War Savings and Thrift Stamps in Carroll county, from the different district leaders, secured through the help and co-operation of the Council of Defense, I beg to submit the following report:-

Westminster,	91,767	125,000
	Sales and	
District	Pledges	Apportionment
Taneytown,	26,625	63,000
Uniontown,	34,000	48,000
Myers	50,000	38,000
Woolery's	15,000	45,000
Freedom,	39,261	45,000
Manchester,	35000	60,000
Westminster	91,767	125,000
Hampstead	35,000	35,000
Franklin	10,000	25,000
Middleburg	13,000	25,000
New Windsor	10,000	40,000
Union Bridge	15,000	40,000
Mt. Airy	33,000	30,000
Totals	$427,653	$654,000

In addition to the above amounts which were subscribed through the various district leaders, banks and committees, the post offices of the county report sales to date to the amount of $104,589.50.

This added o the total given above would make a grand total for the county to date of sales and pledges of $532,242.50 as against a total apportionment of $679,000.

While there is manifestly some duplication of accounts in this aggregate sum, it is felt that this is not far from correct and represents closly what has been done.

Although the intense campaign has closed, the sale of stamps will continue until December 31 and the public generally are urged to buy during the balance of the year as liberally as possible. If this is done Carroll county will easily go over the top and maintain her good record.

Respectfully submitted
John H. Cunningham,
County Director.

Under the 18-45 draft act persons may be given deferred classification when engaged "in occupation or employment, including agriculture. which can be established as necessary to the military establishment or the maintenance of the national interest."

KITCHEN POLICE

Kitchen police is all "kitchen" and no "police." The only thing about as M. P. that would be useful in connection with kitchen police would be his club with which potatoes could be mashed in a steel helmet.

One of the duties of kitchen police is to hold spuds in custody and keep suspicious eggs under surveillance.

Kitchen policemen do not wear stars until after they have risen to the rank of brigadier general.

One good thing about the establishment run by the kitchen police is that its menu consists of considerably more than bread and water.

T. K. P.s should be commended on the fact that they never demand your bread ticket.

Kitchen police are not the kind of police that break up poker games, but they make an "awful cleaning" once in a while when luck is coming their way.

The German prisoners of war were not arrested by the kitchen police.

A buck private peeling spuds in his undershirt is the kitchen police's equivalent for a plain clothes man.

The mess sergeant is a sort of a kitchen police judge.

The motto of the kitchen police force is "Try to bring home the bacon, never spill the beans, and always know which side your bread is buttered on."

The sum of $4,500,000 was advanced the Baltimore and Ohio Railroad and $169,509 the Western Maryland Railway by the National Railroad Administration out of its $50,000,000 revolving fund in the month of August, Director-General McAdoo announced Monday. This loan runs the total advanced the Baltimore and Ohio up to $13,500,000. The August loan was the first made to the Western Maryland since the railroads were taken over by the Government.

REGISTRATION DAY SEPTEMBER 12

On September 12th every man who has not previously registered for the draft, who is over 18 or under 46 years of age, must register.

Anyone who expects to be out of the County on that day can register before leaving at the office of the local board.

Anyone who, on account of sickness, will be unable to present himself for registration, must have some competent person apply to the local board for a copy of the registration card and for authority to fill this card out. The person applying for the card can then fill it out, have the sick man sign it, and return it to the local board.

Men temporarily in the County, and not able to get home to register, shall report to the local board, where their registration cards will be made out.

Instructions as to answering questions on registration cards will be posted in each registration office, and everyone interested is expected to read these instructions carefully before answering his questions.

The registration offices will be open from 7.00 A. M. to 9.00 P. M.

The registration in each district will take place in the rooms that are used for political registration and election purposes.

A list of the registrars for the various districts follows:

ANOTHER THIEF JAILED

Henry Adams, of this city, aged about 17 years is in jail in default of $100 bail charged with stealing a leather bag belonging to Mr. Wm. Cline, of this city, from the Dennis freight truck which was left in the freight shed on South Center street, this city, Saturday night. Adams has admitted the theft and says he sold the bag, which is worth about $20 and is a fine new one, to Mr. Bradley McHenry of this city, for $1.50. The bag was shipped to Mr. Cline by a Baltimore dealer on Saturday but when the truck arrived here that night he was out of town and instead of leaving it at The Westminster where Mr. Cline boards the driver of the truck took the bag to the freight shed where Adams found it inside of a carton in which it had been packed. A number of articles have been stolen recently from the freight shed and the Adams boy has been under suspicion by State's Attorney Seabrook and the sheriff and his deputies. When arrested by deputy Stem, Adams had in his pockets a number of ladies' handkerchiefs, a large bottle of alcohol and a number of other small articles which the sheriff believes were stolen. Just recently Mr. Charles Reed, clerk to the Board of Education, had a new tire stolen from his auto while it was standing in the same freight shed which is a large stable formerly used by the Central Hotel.

Swap The Flies

After hearing Dr. Geisel lecture on Tuesday evening at the Chautauqua I hope every one will swat flies more earnestly than ever and see the importance of cleaning up breeding places. We can spend our good money and work if they are not carefully cared for. If you have studied the filthy habit of the fly as I have I am sure you would co-operate. I am going to ask you please to report your neighbor's breeding place and your name will not be revealed. We are also going to have our litle fly boys to look the up and report them for something must b edone at once.

Last night this vicinity was blessed with a fine shower of rain.

To Our Subscribers

All Subscriptions must be paid in Advance or Paper Discontinued.

The War Industries Board has ordered all Weekly Papers to reduce the use of paper 15 per cent. on and after September 15th. The order governing the subscriptions of the Weekly Papers is as follows:

"No publisher may continue subscriptions after three months after date of expiration, unles ssubscriptions are renewed and paid for."

This order comes from the Government and must be complied with---there is no alternative.

We hope no subscriber will let his name be taken from the list on account of the order as we want you to have our paper. It is only a case of oversight on the part of the subscriber that he neglects to pay. Please call this week and pay up your back subscription thus helping us to comply with the war order.

Council of Defense Notes

Council of Defense meetings were held at Sykesville on Monday night to organize a Community Council Dr. Daniel Sprecker was elected Chairman of the Community Council newely organized at Sykesville on Monday night at the Council of Defense meeting. Mr. George Melville was elected Chairman of the Community Council at Oakland Mills on Thursday night. Mr. George Mather Rev. Edgar T. Read and Miss Dorothy Elderdice made addresses at each meeting. On Friday night Mr. J. H. Kohler was elected Chairman of the Community Council at Eldersburg, at the Council of Defence meeting there.

WOMEN WHAT ARE YOU GOING TO DO ABOUT IT?

There are eight hundred and twenty-seven Carroll county boys in the service, and as yet, when the U. S. calls for volunteer nurses only eight Carroll county girls have volunteered. How are we going to take care of these boys if they are wounded? Of course these girls who volunteer now, won't be able to go to the front yet awhile, but they will release graduate nurses who can go overseas to take care of our boys. The Red Cross ever since the war began has been enrolling about a thousand nurses a month. Surgeon General Gorgas of the U. S. Army has called upon the American Red Cross to enroll for military service at home and abroad a thousand nurses a week for the next eight weeks. We must have students in the hospitals to take care the place of these nurses--we must not let the sick at home suffer Here is a big opportunity—the kind of opportunity that comes only once in a girl's lifetime; to serve her country. At the same time she is preparing for a vocation that will always enable her to earn her own living. There are some girls who are anxious to go, but their parents object. Are they patriotic in this? Are they not keeping their daughters from a big field of opportunity? A girl well equipped with the training obtained in a hospital will be ready to cope with any future difficulties that may arise after the war is over.

Three new recruits, Miss Mary Clementine Koontz Baust Church, Miss Elizabeth Roberts Birnie, Taneytown and Miss Julia Rebecca Smith, Taneytown, have been added to Carroll's honor roll of nurses since the list last published, making eight recruits in all.

Mrs. O. C. Clemson,
Publicity Chairman.

Crushed Under A Concrete Mixer

Victor M. Brown, who resided on the Washington road, near this city was killed yesterday morning by having his head crushed under a bucket concrete mixer while working on the Baltimore and Washington Boulevard for Messrs. Thomas, Bennett and Hunter, contractors of this city. As soon as the machinery could be lifted from his body Mr. Brown was rushed to St. Agnes Hospital Baltimore. where he died within a very short time. It appears that the concrete mixer had gotten out of fix and the deceased undertook to put it in commission and in order to do so, it became necessary for him to get into the machine or under it. While at work on it a support or something gave way or became disarranged and the machinery fell on him catching his head and crushing it.

Shortly after the accident happened Messrs. W. Frank Thomas and Joseph E. Hunter, of this city, were notified and they left in their autos immediately for the scene for the purpose of instituting a thorough investigation.

The deceased is survived by his widow who is a daughter of Mr. Benjamin Gist, of near this city, and one daughter. He was about 45 years of age and was a hard working, industrious and honest citizen and his many friends were shocked to learn of his tragic death.

The funeral services will be held Sunday at 2 P. M., at Deer Park Church, Smallwood and the interment will be in the adjoining cemetery.

WOMAN KILLS HERSELF

Apparently Jealous of Boarder Who Had Threatened to Leave

Cumberland, Md., September 5.—Becoming jealous, it is believed, because her boarder, Richard Moreland, a Western Maryland Railway brakeman, with whom she had become infatuated, threatened to leave and go elsewhere to live, Mrs. Goldie Kunkle, aged 33, shot herself with a 22 caliber rifle in a little back bedroom of her home here, and fell dead almost at the feet of her lover, who had removed his coat a few seconds before and was standing with his back to her

PREACHERS TO TELL OF Y. M. C. A. WORK

September 22 Will Be Blue Triangle Sunday Throughout Maryland

Sunday, September22, is to be Blue Triangle Sunday throughout all Maryland, and every minister in the state, and every Sunday school superintendent will be asked to tell their congregations and schools on that day what great work is done by the Young Women's Christian Association both in France and other war-ridden countries and in the United States.

The idea of observing a Blue Triangle Sunday originated with Miss Florence E. Wilbur, who recently came to Baltimore to arganize the state in readiness for the big drive for war relief funds which will take place in September and will be participated in by the Young Women's Christian Association, the War Camp Community Service and the American Library Association.

Miss Wilber in a few days will send out letters to every minister and every Sunday school superintendent, calling attention to the wonderful work of the Y. W. C. A. and asking them to make it the subject of either a sermon or a talk.

The Y. W. C. A. is maintaining a corps of workers in Europe and in this country is mobilizing the women and girls, so that the positions made vacant when the next draft calls more than 2,000,000 men to the colors may be filled promptly and efficiently.

Forest and Stream Club

The Forest and Stream Club has just returned from their camp on the Monocacy River, Carroll county, Maryland. The location of their Club House is ideal. inasmuch as it lies at the foot of the Blue Ridge Mountains and along a river where the Linganore Tribe of Indians camped many years ago. Certain members of the club picked up many arrow and spear heads which the Indians used.

The chief pleasures of this Club are bass fishing, casting, rifle shooting, etc., and the interest and skill in contests this year was far in excess of other years. The bass fishing was not at all good because of the muddy condition of the river.

This year the Club placed in the Monocacy River seven thousand bass, crappe and Missippi catfish. The results of the contests are as follows:

First Event—Largest Bass.

Little Joe Loving Cup. Won by H. L. Hobby, 1 lb. 10 oz.

Second Event—Largest Bass.

ATTACKS WILSON AND COL. HOUSE

Scathing Speech by Senalor Sherman, of Illinois. Baker and Redfield Too, Come In For Criticism

TEXANS ARE IN THE SADDLE

WASHINGTON SEPTEMBER 3

In a lengthy prepared address Senator Sherman, of Illinois, Republican, made a scathing attack in the Senate today on President Wilson and his administration, and particularly Col. E. M. House, the President's personal friend and adviser.

With ironical references to the President's recent statement that politics is adjourned, the Senator, asserted that, having elected the President "almost single-handed," Colonel House and a coterie of Texas politicians " are in the saddle, and they are doing politics in the same old way."

Under pretense of war powers, he said, the administration is placing control of the country in the hands of a few politicians and labor leaders, to be used relentlessly for the election of party candidates now and a President in 1920.

"I denounce," he added, "a political autocracy covertly engaged in when the nation is in the stress of war in undermining institutional civil liberty."

Colonel House was characterized by Senator Sherman as "this alleged, unelected unofficial assistant president." The Senator gave an analysis of a novel said to have been written by Colonel House, which he describes as an autobiography telling a tale of politics, civil war, love and reform with a meat ax showing how to get rid of the Constitution.

Secretary Baker was referred to as "one who thinks of the war as 3,000 miles away, talks glibly of quantity production of combat airplanes, delays three months the draft law amendment of 1918, opposes universal military training, and says Washington's soldiers at Valley Forge were drunkards and chicken thieves, only to be declared by executive proclamation to be the most capable official that distinguished functionary ever knew."

Regarding Secretary of Commerce Redfield, Senator Sherman said he had made "some sparkling contributions to trade," including the "shocking information that high cost of living was caused by too many delivery wagons; an epic on fish and clams along with a sonnet or two on sheep killing dogs.'

Former Secretary Bryan; the senator declared, resigned when he had "played second fiddle long enough and 'his power for harm had waned.' "

"Politics began there and has never adjourned since in domestic affairs," said Mr. Sherman. "Was there ever a more sordid revelation of selfish, time-serving politics with the first executive office next only to the President shuffled about as plunder to suit partisan ends?"

In criticising Colonel House, Senator Sherman said as personal reprententative envoy of the President while abroad he "exercised unofficial and usurped powers of government," and "his gratuitous advice to settle the U-boat dispute provoked the derision of Germany and the impatience of the Allies."

Declaring the administration seeks even to dictate Republican candidates in Republican states, the senator said "Ford is to be made senator from Michigan by executive order."

Denouncing what he described as Socialistic plans of "A coterie of politicians gilded and plated by a group of theorizing, intolerant intellectuals" Senator Sherman continued.

"Government control is a mere name. As now exercised by this administration, it is the threshold of permanent political ownership and operation.

"On all questions related to labor Gompers is practically president. Burleson controls the physical agencies for communication of thought and McAdoo the railway's and country's finances. Strip off teh mask of alleged government ownership and see behind it the revealed political ownership and control of Gompers, Burleson and McAdoo for partisan purposes, to be used relentlessly to elect party candidates now and in 1920 a president.

"Politics adjourned! Worse, more rampant, rancorous partisan politics never abused the patriotism and generous confidence of a great nation. Against the clandestine partisan politics of this administration, hidden under the thick clouds of war, I raise my voice seasonably in remonstrance."

Under the new draft law men who have reached 18 years but not 46 years must register September 12. This, of course, does not include those already registered under the other laws.
