THE FIRST BOATS VS. SUNDAY SCHOOL.—The Galena (Illinois) *Gazette* relates the following incident: "As the Gate City pulled up to the landing in this city, on Sunday afternoon, the superintendent of a certain Sabbath school was wending his way in the direction of the church. Casting his eye along the wharf he discovered a large crowd of men and boys, and sighed in his heart at the thought that several of his flock might be there, having been attracted by the arrival of the first boat of the season. On reaching the Sabbath school, however, he was delighted to see both teachers and scholars in their accustomed seats, whereupon he acquitted himself of a congratulatory speech, announcing that he was proud to say that not even the first boat of the season had drawn away a single one of his flock. In the twinkling of an eye there was a general stampede for the door, and when that Sunday school superintendent arose from the floor, where he had been violently thrown by the retreating mass, and had collected his thoughts sufficiently to determine in his own mind whether he was himself or some one else, he cast his eyes about the room and, through the partially settled dust, he made the sad discovery that he was alone with several rows of empty benches. His scholars had remained in blissful ignorance of the news until he had given them the cue."

WHAT AN EAR OF CORN WILL YIELD.—An ear of corn has been sent to this office grown in Cleveland, East Tennessee, which measures 10½ inches in circumference in the thickest part of the ear, has 22 rows, with an average of 56 kernels in a row, making 1,232 kernels in all on the ear. The variety is known as the Southern Dent Corn. These 1,232 kernels, planted in the same locality or anywhere within the limestone region of Tennessee or Kentucky, if all germinated and came to perfection, would produce the first year a fraction over 45,000 bushels. —*Turf, Field and Farm.*

FORTY YEARS' EXPERIENCE have tested the virtues of *Dr. Wistar's Balsam of Wild Cherry*, and it is now generally acknowledged to be the *best* remedy extant for pulmonary and lung diseases; embracing the whole range from a slight cold to a settled consumption. Were it not for its *merits*, it would long since have "died, and made no sign."

FROM OHIO.

The women's temperance war now raging in different parts of the country, particularly in the west, with such unparalleled success, recommends for persons who claim whiskey a necessity for medicinal purposes, to use Green's August flower, which contains no intoxicating spirits, and is a gentle laxitive, and a certain cure for Dyspepsia, Liver Complaint, Indigestion, Costiveness, Sour Stomach, Sick Headache, coming up of the food after eating, purifies the Blood and System. Just what is needed in the Spring of the year by everybody Try it. Sold by C. F. STAM & BRO., and THOS. W. WICKES.
