SATURDAY MORNING, FEB. 7, 1914

EDITORIAL NOTES.

President Wilson, by an executive order, dated Tuesday and made public at the White House thatnight, removed all restrictions against the exportation of munitions of war into Mexico from the United States, placing the contending elements on a basis of equality with respect to the purchase of arms and supplies in this country. Now the Federals have no advantage of the Constitutionalists, and the latter claim they will soon put Mexico's dictator out of business.

You young men, or middle aged men, or old men had best take note of the signs of the times, and make up your minds to the fact that in this day and generation it is your drink or your job. You may compromise with your conscience, or laugh at the oracular temperance orator, but you cannot fool the man with your job in his hand.—Ex.

As an apple-producing region Maryland, West Virginia, Virginia, Pennsylvania and Delaware will soon rival New York State, according to the officers of the Eastern Frnit Growers' Association, who last Wednesday appeared before the Interstate Commerce Commission to ask for a readjustment of freight rates on fruit.

The proposed legislation to prevent liquor shipments into the local option territory of the Eastern Shore meets with practically unanimous approval. To allow shipments is to foster the speakeasy and everybody wants the speakeasy knocked out.

Mayor Preston, of Baltimore, Representative Linthicum and others appeared before the House Committee on Public Buildings and Grounds and asked that the appropriation for the immigration station at Baltimore be increased to $600,000.

Congressman A. Mitchell Palmer, of Pennsylvania, will become a candidate for the United States Senate. Congressman Palmer is one of the most vigorous champions of Democratic policies among the younger members of Congress.

One of the committees to which Senator Lee of Maryland has been assigned is that of banking and currency. This is one of the important assignments.

Senator Lee, although a new member of the higher branch of Congress, has added much to the interest in discussion in the Senate, He is at home in legislative hall.

We fear that farmers, and others, who are "getting together" in order to say what they want in the way of legislation, are doing so rather late.—Ex.

Bull Moose Republicans will this year nominate a full ticket in Delaware and the fight in that State will be a tri-angular one.

The Democratic members of the House of Representatives have decided that the woman's suffrage question should be settled by the States.

"Next to religion, music is the greatest factor in the uplift of humanity." This has became an accepted maxim.

News Notes From Washington.

With the passing of Senator Shelby Moore Cullum there is broken one of the very, very few remaining links that bind the present to the ante-bellum period of public life. Senator Cullum was a notable figure in Washington. From 1865 he was in the lower or upper branch of Congress until 1913.

A measure which, if passed by Congress and is signed by the President, will be of vital interest to the thousands of employes of the Bureau of Animal Industry scattered throughout the country, especially in meat packing centers or vicinity, is the bill which has been introduced by Representative C. O. Lobeck, of Nebraska, providing for a reclassification of the salaries of these employes.

The most important building on a farm is the home and the most important room in the farm home is the kitchen. This is a conclusion reached by the experts in the Department of Agriculture who are charged with the duty of making a careful and conscientious study of farm life.

"Investigations of prisons, insane asylums, and houses of correction seem to prove the fact," say, they "that the conditions which account for the existence of these institutions are often found in inadequate and unhappy farm homes. Better farm homes are needed. Pleasant and comfortable farm homes tend to hold families together. But the cheerless, unlovable and insanitary houses drive boys and girls to the cities."

It is the judgment of the investigation of farm life that the average farm home has failed to share in the improvements that are every day being made on the farm.

Farm women of a century ago with their open fires and log houses were better off than is the farm woman of today, it is declared. No attention has been paid to comfort or economy of the farmer's wife's labor.

* * * *

About 400,000 prairie dogs have been destroyed in the Cochetopa and the Pike National Forests of Colorado and the Tusayan and Coconino forests of Arizona, according to a report recently made by the Biological Survey of the Agricultural Department.

It is estimated that the amount of forage that rodents feed upon would be sufficient to feed about 15,500 sheep or about 1,800 cattle which would be valued at about $150,000. The cost of exterminating these pests of the prairies was about $12,000.

Scientific and Successful Farming.

From the Easton Star-Democrat.

When the impression gains credence that a man is doing "scientific" farming it becomes a foregone conclusion in the hands of the majority of agriculturists that failure is looming in the future and that "the end is near." The very words "scientific farming" are a trespass sign which have the efficacy of a hoodo so far as most farmers are concerned. But the fact remains that there is not a farmer who is making money who is not more of a "scientific farmer" than he was ten years ago. Every bit of information he picks up and utilizes is scientific information or it is no good whatsoever. At the Galloway Farms the practical and the scientific are blended into a goodly brew. Mr. Junkin does not go conterwise to the laws of nature as reveaied to students. This were to invite destruction. Thus far he is a scientific farmer. Thus far and no further.

Harmony and Justice is Attained.

From the New York Times.

There is a corollary and a counterpart to this fair, wise and just programme of Government policy and remedial legislation. It is that the mouth of the pestilent demagogue shall be shut, that there shall be an end to the attainment of political ambition through the harassing of corporations. The blackguards and blatherskites of politics have made their living by ztirring up hatred against the corporations, against bankers, against business. The wonderful success of Mr. Wilson in carrying great projects of legislation through Congress, and the sagacity and the justice of his present recommendations have removed all cause and all reason for these assaults. "The antagonism between business and Government is over," says the President in his message.

Catholic Conventions This Year.

Even this early, plans are being arranged for Catholic conventions to be held during the year. It has been decided to hold the eleventh annual meeting of the Catholic Educational Association in Atlantic City, N. J., from June 29 to July 3, Bishop McFaul having tendered the Executive Board an invitation to hold the meeting there. He is very much interested in the work of the Association. Cardinal Gibbons has appointed the chairman of the committees that will manage the convention of the American Federation of Catholic Societies to be held in Baltimore in October. The Cardinal himself will serve as general chairman, as chairman of the committee on oratory. He has already arranged to have Archbishop John Ireland, of St. Paul, Minn., and Bishop Patrick J. Donohue, of Wheeling, W. Va., preach the sermons at the Pontifical Mass in the morning and the Solemn Vespers in the evening of the opening day. The Baltimore convention will be an even more notable event than the one at Milwaukee last year, bacause it was for the purpose of honoring Cardinal Gibbons that Baltimore was chosen as the convention city. It is not improbable that all of the American Cardinals will attend.—Catholic Tribune.

ASSIGNEE'S SALE
OF VALUABLE
TOWN PROPERTY

Under and by virtue of a power of sale contained in a mortgage from Mary M. Vosmus to Lizzie G. Redden, dated the 22nd day of May, 1911, which said mortgage has several assignments on same, the last assignment being to Harvey L. Cooper, said mortgage and assignments of record in Liber J. K. S., No. 12, folio 522, etc., one of the Mortgage Record Books for Caroline county, the undersigned, as assignee, will offer and expose at public sale to the highest bidder in front of the Court House door in the town of Denton, Maryland, on

Tuesday, March 3, 1914

between the hours of two and four o'clock p. m., the following described property: All that piece or parcel of land situate, lying and being in the Third Election District of Caroline county, in the town of Denton, and lying on the southeast corner of Second and Randolph streets, beginning for the same at a stake or stone planted on the southeast corner of Second and Randolph streets and running in a southerly direction, parallel with Second street, a distance of 51 feet; thence in an easterly direction 137 feet; thence in a northerly direction, parallel with Second street, 51 feet to Randolph street; thence in a westerly direction 137 feet to the place of beginning, it being the same land conveyed to Mary M. Vosmus by Lizzie G. Redden and husband by deed dated May 22, 1911, and recorded among the Land Records for Caroline county.

The improvements consist of a

7 Room Dwelling

in good repair.

Public Sale
—OF—
Good Work Mules

The Commissioners of Caroline County will sell at public sale in front of the Court House on

Tuesday, February 10,

1914. Sale beginning at one o'clock sharp,

Four Good Work Mules.

The terms will be made known on day of sale.

By order of the County Commissioners,
WM. H. ANDERSON,
Clerk.

Say Mister!
Don't those Apple or Peach Trees of yours need Spraying?

Yes, PLUMS and PEARS, too. Any tree that bears ought to be sprayed.

What? Hate to tackle the job!

Don't blame you, it is a bad job; but I am experienced and equipped for the business, and can probably do the work for you cheaper and better than you can do it yourself.

Let me hear from you at once.

A. G. GELLETLY,
DENTON, MD.

Valuable Advice

Denton citizens should profit by the following statement.

Doan's Kidney Pills were used by this Denton resident.

Their merit was shown—the story told.

Now comes further evidence.

The testimony is confirmed.

The remedy was tested—the results lasted.

Could Denton residents demand stronger proof?

It's Denton testimony. It can be investigated.

L. W. Sparks. printer, Main St., Denton, Md., says; "In a public statement I gave over a year ago, I told how I had been cured of symptoms of kidney complaint by Doan's Kidney Pills. Today I willingly confirm my former words of praise, and can say that the cure has been permanent. I have not suffered from backache or other symptoms of kidney complaint for some time. I am always willing to say a word of praise for Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TOBACCO HABIT CONQUERED IN 3 DAYS

I offer a genuine guaranteed remedy for tobacco or snuff habit. It is mild, inexpensive, strengthening. For either sex. Overcome this peculiar nervous craving for cigarettes, cigars, pipe, chewing tobacco or snuff. Tobacco is poisonous and seriously injures the health in several ways, causing such disorders as nervous dyspepsia, sleeplessness, gas, belching, gnawing or other uncomfortable sensations in stomach; constipation, headache, weak eyes, loss of vigor, red spots on skin, throat irritation, catarrh, asthma, bronchitis, heart failure, lung trouble, melancholy, neurasthenia, impaired memory and will power, impure (poisoned) blood, heartburn, torpid liver, loss of appetite, bad teeth, foul breath, insatiable lack of ambition, weakening and falling out of hair and many other disorders. Nervous breakdown, weakened intellect and INSANITY are often attributed to tobacco habit by eminent medical men. Why continue committing suicide when you can live a really contented life if you only get your body and nerves right? It is unsafe and torturing to attempt to rid yourself of habit by suddenly stopping with will-power—don't do it. Correct method is to eliminate the nicotine poison from system, strengthen the weakened, irritated membranes and nerves and genuinely overcome the craving. Would you like to quickly and easily quit tobacco and regain your manhood? Would you like a thousand times better while feeling always a robust health? My FREE book tells all about the wonderful 5 days Method. Inexpensive, simple. Also Secret Method for conquering habit in another without his knowledge. Full particulars including my Book on Tobacco and Snuff Habit mailed in plain wrapper, free. Address:

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this:

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D.D.D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A 50 cent bottle will start the cure and give you instant relief.

We have made fast friends of more than one family by recommendating this D.D.D. Prescription to a skin sufferer here and there, and we want you to try it now on our positive pay guarantee. D.D.D. Soap keeps the pores clean; ask us.
