SATURDAY.....DEC. 25, 1880.

Teach Your Boys.

Teach them that a true lady may be found in calico quite as frequently as in velvet.

Teach them that a common school education with common sense, is better than a college education without it.

Teach them that one good honest trade, well mastered, is worth a dozen beggarly professions.

Teach them that honesty is the best policy; that it is better to be poor than to be rich on the profits of crooked whiskey, and point your precept by the examples of those who are now suffering the torments of the damned.

Teach them to respect their elders and themselves.

Teach them that, as they expect to be men some day, they cannot too soon learn to protect the weak ones.

Teach them by your own example that smoking in moderation, though the least of vices to which men are heirs, is disgusting to others and hurtful to themselves.

Teach them that to wear patched clothes is no disgrace, but to wear a black eye is.

Teach them that God is no respecter of the sex; and that when he gave the seventh commandment he meant it for them as well as their sisters.

Teach them that by indulging their depraved appetites in the worst form of dissipation they are not fitting themselves to become the husbands of pure girls.—*Baltimorean.*

ABLE-BODIED LOAFERS.—"Every winter," says the New York *Sun*, "hundreds of able-bodied men, as capable of doing a full day's work as anybody, are supported in our charitable institutions. They live in idleness and grow fat. Of course their support comes out of the taxpayers." Some of these are professional tramps, who go into the country in the summer and return to the cities in winter. When barns and hayracks are too cold for them to lodge in comfortably they resume their winter quarters in stationhouses, jails and almshouses, securing food and warmth at the public expense and refusing to do a stroke of work in return. The Maryland House of Correction has thinned out this crop of loafers to some extent, but there are still far too many of them. Last week one of our police captains was surprised to hear that that the oyster business was suffering because the dredgers cannot get hands. "Why I had forty able-bodied men at my station-house last night," he said. This class of people are a sad burthen upon the community. They consume a large proportion of what ought to be more strictly devoted to promoting the health and comfort of the really deserving poor. They crowd our charities with their own hulking bodies and those of their offspring, born in vice and brought up in idleness, thus teaching the people to misrust the efficacy of real benevolence and charity. Nobody should be deprived of the benefit of our institutions who is entitled to them and in need, but all others should be carefully excluded from them, and especially should the class of strong, hearty men who are too lazy to work, be severely eliminated. —*Baltimore Sun.*

A GRAND TIMBER SECTION.—Among the undeveloped resources of the Pacific slope may be mentioned the timber lands of Washington Territory. These lands, 20,000,000 acres, border on Puget Sound, and are traversed by fine logging streams. The timber, principally pine and fir, is equal to any which grows elsewhere, the soil from which it springs being of great depth and richness, and kept moist by a rainfall which continues during ten months of the year. One stick is represented to have been hewn which was 124 feet long, squaring 12 inches at the small end, and without sap. The average height of the trees is 200 feet, while many stand 300 feet tall, measuring 12 feet through at the butt. It is to be hoped that better care will be taken of this magnificent belt of forest than has been taken of the timber lands of Maine and Michigan. This territory has also 11,000,000 acres of grazing prairie, where a nutritious bunch grass keeps green five-sixths of the year, and 5,000,000 acres of wheat lands, which yield from 30 to 80 bushels per acre. The catch of salmon last year was 40,000,000 pounds. Who would care to go to the frost-nipped, wind-swept lands of Monitoba when he can settle in Washington Territory, where it rains as much as it does in Ireland, while the influence of high latitude and frost is quelled by the balmy touches of the Kuro Siwo current—the gulf Stream of the Pacific?

"MAY I leave a few tracts?" asked a traveling quack doctor of a lady who responded to his knock. "Leave some tracts! Certainly you may," said she, looking at him beningly over her specs, "leave them with the heel towards the house, if you please."

HORACE GREELEY said that of the thousands he lent the most he ever received was a five dollar note inclosed in a letter, and upon tracing out the writer of the letter he found that it came from a lunatic in the Utica Asylum who never owed him a cent.

WHAT baby would think it worth his while to go through the wear and tear of growing up if he knew he were to become a freight brakeman or a druggist clerk?

YOUNG clergyman at a clerical meeting: "I merely throw out the idea." Old minister: "Well, I think that is the best thing you can do with it."

MEN are like pins. One with a little head may be just as smart as one with a big head.—*Agents' Herald.*

A WESTERN paper heads an article, "A lunatic escapes and marries a widow." Escaped, eh? We should say he got caught.

THE WORLD for 1881.

THE WORLD for 1881 will be the best and cheapest newspaper published in the English tongue on either side of the Atlantic.

With new presses surpassing any ever before manufactured even by Hoe & Co.; with new and unequalled typographical and business facilities of all sorts, and with a better organized telegraphic correspondence throughout the world than that of any other American journal, THE WORLD for 1881 will afford its readers daily a complete, condensed & trustworthy record of all current events.

In its Five Minutes with the News of the Day THE WORLD meets and keeps pace with the increasing demands made by rapid transit, the telegraph and the telephone, on the time and attention of business men.

Its daily cable letters from London bring the Old World to the breakfast-tables of the New.

In its Wall Street Gossip and its items for Investors, taken together with its accurate, candid and absolutely impartial Financial Article, THE WORLD daily presents an unrivalled picture not only of the true condition of the multitudinous enterprises in which the adventurous and active people of this country invest their savings, but also of all the fluctuating influences exerted upon those enterprises by the speculations and the speculators of the Stock Exchange.

No man who owns or expect to own an interest in any corporate property can afford to miss for a single day the information daily and exclusively given in the THE WORLD, not only as to the natural and legitimate course of affairs affecting stock values, but also as to the plans, schemes and combinations which are incessantly making and unmaking in and out of Wall street to affect those values. THE WORLD contains also every day the freshest, fullest and most instructive notices of everything new and interesting in the realms of art, of literature and of social life.

It is the accredited organ of the colleges of the Union, and the accuracy and vivacity of its sporting columns, covering all the various forms of athletic amusement which have multiplied among us of late years, commend it to the "rising generation" throughout the country.

As the only metropolitan morning journal published in the English language which maintains an unswerving fidelity to the great enduring principles of the Democratic faith in politics, THE WORLD for 1881 will be found, where for the last five years THE WORLD has been found absolutely loyal to Democratic principles; absolutely independent of all persons, cliques and factions within the Democratic party.

THE WORLD will maintain the cause of the Union against sectionalism in all its forms, the cause of good government against corruption in all its forms, and the cause of the people against monopoly in all its forms.

The Improved WATER Elevator AND Purifier!

AS A WATER ELEVATOR it has these merits: 1st—It is the Simplest Structure for raising water, on the American market. 2, it is easily adjusted to any well or cistern. 3, it is very durable. 4, it works easily. 5. it will NEVER freeze. 6, it is always ready for use and always at its best. 7, it has none of the objections common to pumps. 8, it will make warm water cold.

All who examine this invention admit the above claims, but ask

How Does it Purify Water?

As the inverted cups pass around the Terra Cotta wheel suspended in the chain at the bottom of the Well or Cistern, they are constantly discharging air through the water from the bottom to the top.

This elevator will destroy *Wiggles, Water Bugs and Water Lice*, will make *foul or stagnant water pure*, and will remove all *color, bad taste and smell.* In short, *it will make bad water good, and good water better.*

The undersigned have secured the exclusive right to sell this really valuable Pump in Kent county and they earnestly ask for it a candid and fair examination, confident of its intrinsic merit. One can be seen on exhibition in Chestertown at any time. For circulars address

Send stamp for 20-page Pamphlet of names, and read the evidence!

Among the many prominent citizens of Maryland cured under our treatment we need name but the following: Rev. Dr. D. A. Shermer, Rev. Thos. McCormick, Rev. Prof. Geo. S. Grape, Rev. W. F. Ward, Wm. B. Wilson, (of Wilson, Colston & Co., Bankers.)

Rev. Dr. L. W. BATES, one of the most distinguished ministers of the M. P. Church, wrote and published the following editorially in the *Methodist Protestant:*

"Any in need of his (DR. WORTMAN'S) services may employ him without hesitation. From knowledge of his practice for the past two years, I have no doubt that he will cure nine hundred and ninety-nine cases in every thousand. I speak, not only from personal experience, having been cured by him after twenty-two years of suffering, but also from a knowledge of a host of patients who applied to me as a reference. Out of some twenty-five or thirty cases that came under my observation, through this means, he has not failed in one. L. W. BATES."

DR. SANFORD'S LIVER INVIGORATOR is a Standard Family Remedy for diseases of the Liver, Stomach and Bowels.—It is Purely Vegetable.—It never Debilitates—It is Cathartic and Tonic. TRY IT.

SANFORD'S LIVER INVIGORATOR

To Have Good Health, the Liver must be kept in order; its unhealthy action causes Bilious Attacks, Jaundice, Constipation, Dyspepsia, Headache, Bowel Complaints, Sickness, and other Disorders.

The Liver is the seat of malaria, diseases. The Liver Invigorator protects the system from Miasmatic Influences. It purifies the Blood, Regulates the Bowels, Assists Digestion, and Strengthens the System.

The Liver Invigorator has been used in my practice and by the public for more than 35 years, with unprecedented results.
