Ice Cream Company With Capital Of $150,000 Formed

Zile--Neuman Company Takes Over Business Of Arthur M. Zile.

Will Enlarge Business In Westminster.

The ice cream business, like every other business, progresses rapidly, and in order to be up to the minute in every branch of business, from both commercial and sanitary stand points, Mr. Arthur M. Zile, a large ice cream manufacturer of this city, and the Neuman Ice Cream Co., of York, Pa., one of the largest and wealthiest ice cream manufacturers of the East, have organized the Zile—Neuman Company of Westminster, with a capital of one hundred and fifty thousand dollars and the new company has taken over the factory and dwelling of Mr. Zile on E. Main street, this city.

Mr. Arthur M. Zile, who will manage the company here, is one of the most practical ice cream manufacturers in this state, having devoted nearly 20 years to the study of the business. The rapid growth of Mr. Zile's business in this city during the five years he has been conducting the same speaks for itself as to his energy and ability. He has proven to be one of the most public spirited citizens of this city, and we feel quite sure that under his management the new company will become one of the leading industries of this city.

Messrs. Edward W. Neuman and James W. Neuman, sole owners of the large Neuman Ice Cream Company of York, Pa., are leaders in their business, and their entry into the ice cream business in this territory with Mr. Zile, all three of whom are experts in the business, will be a decided boon to this community.

The amount of capital to be invested and the personal supervision of the business by these gentlemen can mean nothing but success. The necessary capital will be furnished by the gentlemen interested and no one will be asked to subscribe to the capital stock of the company, a very unusual thing in this community.

CARROLL POMONA GRANGE

The Patrons of Husbandry of Carroll County held their first quarterly meeting for this year in the Odd Fellows Hall last Saturday. The meeting was well attended, especially by Grangers who have access to hard roads. The morning session was used to clear the desk of considerable business.

The afternoon session was given over to the lecturer who brought up a number of interesting questions of interest to all farmers of Carroll.

The Clean Milk Campaign was discussed from all angles. The fact that the City Department of Health has the figures to show that three hundred children under two years of age died last summer from disease caused by milk of high bacteria count, should not all be laid at the door of the producer, but to all who have anything to do with milk. The mother who does not take proper care of the baby's bottle may cause more trouble than the dairyman producing milk under ordinary farm conditions. The dairymen are urged to use methods advised by the Dairy Specialists of University of Maryland in order to get a clean milk of low bacteria count in the hands of the transportation companies and hold them responsible for delivering a good product to the dealer; and he in return to the consumer.

The question of a County Bond issue for schools for the country was heartily approved by all present providing it carried a referendum. A bond issue is only just to all tax payers as it places some of the burden of the building of the school houses upon those who get the advantage of using them.

The Grangers have always stood for Law and Order. The following resolution was read, and after consideration was passed:

The National Order of Patrons of Husbandry has always stood for law enforcement and respect for constituted authority, and at the annual meeting last December in Pittsburgh it reaffirmed its position on these questions and made this subject one to be especially emphasized during 1924.

The members of the Pomona Grange of Carroll County in session at Westminster this 1st day of March desire to endorse this action of the National Grange on this subject.

Ours is a government of laws and our security and success as a nation rests upon a strict and impartial enforcement of the laws against all offenders whether high officials or the most obscure citizen.

Therefore we express the hope that all who are guilty of practicing fraud in the "oil scandal" cases will be punished, regardless of their party connections or their social or official stations.

BILL TO REDUCE TARIFF ON EGGS

Do the poultrymen want the tariff on eggs reduced? Representative Weller of New York has introduced a bill to reduce the tariff on eggs as follows:

Whole shell eggs from 8c to 2c per dz.
Whole egg yolks from 6 to 2c per lb.
Dried eggs from 18 to 10c per lb.

Another bill is being introduced in the senate putting eggs on the free list.

There will be a meeting of the Carroll County Poultry Association Monday, March 10th, at 8 o'clock at Richardson Brothers, for the purpose of passing some resolution to send our Congressman and senate urging them to oppose this Bill.

Every poultryman knows that eggs are cheap enough, he also knows if the tariff is reduced on eggs or put on the free list his margin of profit is gone. Then are fou going to raise poultry for sport or stop? It is up to you to choose and now is the time to act. If you are willing to sell eggs for less money pass this opportunity, if not come to the meeting March 10th.

Another thought the poultrymen might be interested in is that it is time wasted for this association to pass such a resolution with only a few present. It is your duty to be there and to notify other poultrymen of this important meeting.

Another Bond Issue Proposed Taxpayers, Wake Up.

The Sentinel has been informed credibly that a bill directing the County Commissioners of Carroll county to issue bonds to the amount of $700,000, the proceeds of which are to be used to build school houses in this county, is being prepared to be introduced in the present legislature. The proponents of the bill do not intend to let the taxpayers vote on the question, but hope to pass the bill which will compel the County Commissioners to float the bonds.

A bonded indebtedness of $700,000 will, before many years, be increased to a million dollars, and the county will never, never get out of debt, or anywhere near it.

It is apparent to anyone that to-day in Maryland there is a group of school officials, and others, who seemed determined to force a huge debt on the taxpayers of the state at large, and on those of Carroll county particularly at whatever cost it may. Few of these propogandists are taxpayers and some of them have come into the state but recently.

A short while ago the voters of Carroll county defeated by a vote of 6 to 1 a proposition to issue bonds to build schools. Nothing, however, seems to daunt the gentlemen behind this new proposition to bond Carroll county to the amount of $700,000 to build school houses.

The Sentinel can do nothing at present but call the attention of the taxpayers to this effort of the school people and it is up to them to be up and doing before it is too late. Call on or write to each member of the Carroll county delegation in the legislature, and urge them to defeat the bill.

A determined fight is being made by Governor Ritchie to keep down the state taxes, but certain people of Carroll county intend, if not stopped, to increase the taxes of the county.

Mr. Taxpayer, it is up to you.

INSPIRE CITIZENSHIP

In connection with the showing of "Columbus," the first of the Chronicles of America subjects at the New Star Theatre, March 20th, it is interesting to note that the motive which inspired these productions was the desire to promote good citizenship. It is the belief of Yale University Press, producers of the "Chronicles of America" films released by Pathe, that citizenship is immensely stimulated by a vivid and intelligent interest in the greatness of one's country's past. The thirty-three Chronicles of America subjects will embody the high spots, so to speak, in the story of American achievement, from the discovery of the New World down to the close of the Civil War. They will show those phases of our past which explain the significance of our present and inspire faith in our future.

Actual human life contains the greatest of all drama, and when that drama revolves around events of world significance, the peak of dramatic interest is achieved. The life and achievements of Christopher Columbus and the relation he bears to every American citizen adds to the entertainment value of "Columbus," directed by Edwin L. Hollywood, with principal roles enacted by Fred Eric, Dolores Cassinelli, Robert Gaillard and others.

SHALL IT BE LAW OR LAWLESSNESS IN WESTMINSTER?

This will be the subject of the discourse at the Methodist Protestant church on Sunday evening. Everybody is invited to be present. This is a matter that concerns everybody in Westminster and if law and order are to prevail it must be by the will of the people. Serious events have occurred recently and are occurring more rapidly all the time. All of Carroll county is being affected by lawlessness.

WOMAN'S CLUB MEETS

"The Shame of American Illiteracy," was the subject for the meeting of the Woman's Club, Tuesday afternoon, February 26th, at the home of Mrs. Frank Mather, Longwell avenue. The quotation, "that education should be an affair of state is not to be denied," is from Plato. Mrs. Shroyer, to whom the paper had been assigned, gave much valuable information upon the subject. When we consider that the United States stands tenth from the top in percentage of illiteracy among the great nations, we are horrified and begin to realize what we are up against. Germany stands at the top. There are, speaking in round numbers, 5,000,000 illiterates in the United States. Of these 1,763,000 are foreign born, the others are the made in America kind. It might be interesting to know that 64,434 of these illiterates live in Maryland. Would it not be well to try the bond issue once more and a more rigidly enforced school attendance law and have it said of Maryland what is said of Finland and Iceland not an illiterate in the state.

Mrs. Billingslea had charge of current events and chose for her subject "Mexico." Historical questions that had been previously used at the college were asked by Mrs. George Mather. Two violin solos by William Mather, Jr., accompanied by Miss Evelyn Mather, were much enjoyed and received a rising vote of thanks.

After the song "America the Beautiful" was sung the club adjourned.

COMPANY "H" TO CAMP AT VIRGINIA BEACH IN AUGUST THIS YEAR

One of the most interesting pieces of news to the members of Company "H" was announced today by Captain Magin, to the effect that information has been received from Brigadier General Milton A. Reckord that the First Regiment, Maryland National Guard, of which Company "H" is a part, will hold its Summer Training Camp this year at Virginia Beach, Va.

The Camp will probably be from August 3rd to the 17th.

This location is used by the Virginia National Guard, as its camp, and is located one mile from the famous summer resort of Virginia Beach on the ocean about 20 miles from Norfolk, Va.

The troops will have a delightful trip down the Chesapeake Bay from Baltimore to Norfolk and enjoy for the first time a camp where they can have ocean bathing.

It is easily accesible to many other points of interest like Hampton Roads, Fortress Monroe, Ocean View, Portsmouth, and Newport News.

The summer camp is always looked forward to by the members of Company "H" as not only a period of training and maneuvers but also as an outing which brings much pleasure. The camp this year at Virginia Beach will be the best that the Maryland National Guard has ever had and arrangements are expected to be made that will provide plenty of sports and sightseeing trips.

Captain Magin states that there are still some vacancies to be filled in Company "H" and advises all young men who are interested to visit the Armory at next drill night or see any of the officers of the Company.
