YOU CAN RAISE 100% OF CHICKENS HATCHED

PRAISE WHERE PRAISE IS DUE.

"I have been most successful with my incubator chickens this year, having raised 100 per cent. of chickens hatched. In former years I was only able to raise about 40 to 50 per cent. Then I fed them on home products, but this year I am feeding Bolgiano's "Square Deal" Foods entirely, and attribute my success to your nicely balanced foods. My hatches were made with one of your Buckeye Incubators. I tell you this because I believe in giving praise where praise is due."—Written on September 26th, 1911, by Miss Lulu Thomas, of Pearsons, St. Mary's county, Md.)

Don't Worry ..Be Happy..

"MONEY TALKS," and when it is in our bank it keeps saying, "Don't worry, I'm here." The more money you have in the bank the louder it talks. Educate your children in banking and money matters as well as in books. The best way to teach them is to let them have an account with us. The Women and the Bank Account have been separated too long. The best place for them to get together is at the Kent County Savings Bank. We will cheerfully explain any points you do not understand. SEED TIME AND HARVEST. Harvest follows seed time. Likewise, riches follow the opening of a savings account. Have you one with us at 3 per cent. compounded every 6 months? Come in and make a deposit and get one of our interest savings books. A NEST EGG. You young men, sometimes misfortune may overtake you in money matters. Then it is that the good sized "Nest Egg" in the savings account comes in handy. Those of you who have never made an effort to save are invited to come and see what we can do for you. THE KENT COUNTY SAVINGS BANK. We make an earnest effort to accommodate all classes; a bank where all may feel at home; a place where those of moderate means may expect the same treatment as those more favorably situated. STOCKING BANK AND COFFEE POT BANK! Sixty years ago! What a difference in methods! Then the hard-earned dollars were put in a leather bag or an old coffee pot and hid under the hearthstone or cellar floor. Confident that this bank fully meets the public's needs, we tender its services to all who believe in keeping on the safe side.

Read the unbiased Government opinion of Buick cars, copied from the Phila. Inquirer:

GOVERNMENT APPROVAL OF THE BUICK CAR

Last week a model 28 Buick motor car was delivered to Colonel Spencer Cosby, of the Department of War at Washington to be used by the inspector of public buildings and grounds on his daily trips.

The government invited all the leading manufacturers of cars priced from $900 to $2000 to submit a car in competition to a committee of mechanical experts. The cars were driven to the designated place and the drivers dismissed. The examination was then made with no representative of any of the cars present. Motor for motor, shaft for shaft, bolt for bolt, the cars were compared, tested appraised by the government experts. One by one the cars were eliminated until but one remained. It was the Buick. Of the seventeen or eighteen cars submitted the Buick alone stood the rigid tests of of quality and construction upon which the examination was based. This car was at once turned over to the government for immidiate service.

This is not the first time the Buick has been selected for government use. Last fall when an appropriation of $250,000 was made for experiment on road construction the Buick was the car used to drive over the various road surfaces that were laid and tested.—Philadelphia Inquirer, January 14, 1912.
