SOUTHERN AGENCY

FOR

McCORMICK'S

Reaping & Mowing Machine

HAVING now the entire control for this section, of this celebrated Machine, I take the opportunity of informing the agricultural community that the most *extensive arrangements* are making to give all an opportunity of procuring one of these long and *thoroughly tried Machines*.

We would caution purchasers to be careful how they are persuaded into taking hold of so important a matter as an *untried Reaping Machine*, while the reputation of McCormick's is so well established throughout the world.

The perfection of a Reaping Machine being obtained only by actual observation of its action in cutting grain, and that period of time being very brief, viz., the Harvest it is obvious that it would require almost a life-time to obtain that object. This has happily been obtained by Mr. McCormick, and he now puts forth a Machine that may be termed perfect.

Notwithstanding the *gross* fabrication of piratical parties—who are indeed making my Machines under an assumed name, with injurious alterations, the following is the Official List of awards to Reaping and Mowing Machines at Paris:

No. 1. Grand Gold Medal of Honor. C. H. McCormick, Chicago, Ill.

No. 2 Medal of Honor, Gold. No Reaper in this list

No 3 First Class Silver Medal. J. H Manny, Illinois.

No 4 Second Class Silver Medal, J. S Wright Chicago, for Atkin's Self-Raker.

See Scientific American of Dec. 15th, 1855 for correctness of above list of awards.

I quote from the Official Report as follows:—"In agriculture, the Sole Grand Medal of Honor was awarded to C. H. McCormick of Chicago, Illinois, United States of America, inventor of the reaping Machine that has operated the best at every trial, and is the type after which all the other Reapers have been made, with different modifications that have not changed the principle of the discovery."

The following article also appeared in the Scientific American of January 12th 1856:—"La Presse, the most extensively circulated newspaper in France, has devoted no less than four columns to a historical sketch and minute description of McCormick's Reaping Machine, with an account of the extraordinary results obtained in the recent trials before the international jury; and it bestows great praise on American inventions generally."

☞ Above I have given a fair and candid statement of the results of the grand French Exhibition of *all* Nations, and in addition to the Scientific American can refer to the leading papers generally of the Union, for the truth of these statements.

It was *Jerome*, (and *not Prince* Napoleon, the President of the French Exhibition) that bought Manny's Machine, while the *Emperor* bought mine, there being but one of mine to be had.

That the public may be on their guard at all times in giving credit to statements of various makers (in some shape or other) of these machines I respectfully ask a comparison of the *above facts* with the *gross misrepresentations* of the manufacturers of the Manny Machine, as contained in the publications that have appeared from them; the article which they pretend to quote from *Le Constitutionale*, being a counterfeit, and never having appeared in that paper. I would also call attention to the fact that the *comments* (!) only, of the editors or proprietor (but not the *awards of the French Exhibition*,) have appeared in the Prairie Farmer owned and conducted by J. S. Wright, maker of "Atkins' Self-Raker."

☞ A *full* supply of *all* the various parts *on hand* and can be supplied at *shortest notice*. To insure being supplied order early.

Price of combined Machine $155.

☞ I take occasion to say—observing numbers of trials advertised and talked of in different parts of the country, the result of which will not give the farmers an opportunity to decide *in season as to their merits*—would remark with view of settling the matter, any Farmer *wanting* a Machine can judge of McCormicks, to be tried on his *own place* and at *my risk*.
