## The American Platform,

*Adopted at the Session of the National Council, February 21, 1856.*

1st. An humble acknowledgement to the Supreme Being for His protecting care vouchsafed to our fathers in their successful Revolutionary struggle, and hitherto manifested to us, their descendants, in the preservation of the liberties, the independence, and the union.

2d. The perpetuation of the Federal Union, as the palladium of our civil and religious liberties, and the only sure bulkwark of American independence.

3d. *Americans shall rule America*, and to this end, *native* born citizen should be selected for all state, Federal and Municipal offices or government employment, in preference to all others; nevertheless,

4th. Persons born of American parents residing temporarily abroad, should be entitled to the rights of native born citizens; but

5th. No person should be selected for political station, (whether of native or foreign birth) who recognises any allegiance or obligation of any description, to any foreign prince, potentate or power, or who refuses to recognise the Federal and State constitutions, (each within its sphere) as paramount to all other laws, as rules of political action.

6th. The unqualified recognition and maintenance of the reserved rights of the several states, and to this end, non-interference by Congress with questions appertaining solely to the individual States, and non intervention by each State with the affairs of any other State.

7th. The recognition of the right of the native-born and natualized citizens of the United States, permanently residing in any Territory thereof, to frame their constitution and laws, and regulate their domestic and social affairs in their own mode, subject only to the provisions of the Federal Constitution, with the privilege of admission into the Union whenever they have the requisite population for one Representative in Congress. *Provided always*, that none but those who are citizens of the United State, under the constitution and laws thereof, and who have a fixed residence in any such Territory, have right to participate in the formation of the constitution, or in the enactment of laws for said Territory or State.

8th. An enforcement of the principle that no State or Territory ought to admit others than citizens of the United States to the right of suffrage or of holding political office.

9th. A change in the laws of naturalization, making a continued residence of twenty-one years of all not hereinbefore provided for, an essensible requisite for citizenship hereafter, and excluding all paupers and persons convicted of crime from landing on our shores; but no interference with the vested rights of foreigners.

10th. Opposition to any union between Church and State; no interference with religious faith, or worship, and no test oaths for office.

11th. Free and thorough investigation into any and all alleged abuses of public functionaries, and a strict economy in public expenditures.

12th. The maintainance and enforcementon of laws constitutionally enacted, until said laws shall be repealed, or shall be declared null and void by competent judicial authority.

13th. Opposition to the reckless and unwise policy of the present administration in the management of our national affairs, and more especially as shown in removing "Americans" (by naturalization) and conservatives in principle, from office, and placing foreigners and ultraists in their places; as shown in a truckling subserviency to the stronger, and an insolent and cowardly bravado towards the weaker powers; as shown in reopening sectional agitation, by the repeal of the Missouri Compromise; as shown in granting to unnatualized foreigners the right of suffrage in Kansas and Nebraska; as shown in the vascillating course on the Kansas and Nebraska question; as shown in the corruptness which pervades some of the departments of the government, as shown in disgracing meritorious naval officers through prejudice or caprice; and as shown in the blundering mismanagement of our foreign relations.

14th. Therefore to remedy, and prevent the continuance of consequences otherwise resulting therefrom, we would build up the "American party" upon the principles hereinbefore stated.

15th. That each State Council shall have authority to amend their several constitutions, so as to abolish the several degrees, and institute the degree of honor, instead of other obligations for membership and admission into the party.

16th. A free and open discussion of all political principles embraced in our platform.

### A Card.

GEO. GREENWOOD.

### ATTENTION FARMERS!
### Guano excelled by 'De Burg

The great advantage De Burgs Super Phosphate has over Guano, is attributed to the large amount of fertilizing matter, Phosphates and Ammonia, which it contains.

It is a settled point with all chemist and scientific farmers that Peruvian Guano only supplies about one half of the phosphates that is required to grow wheat rye, oats, corn, vegetables, &c., and that is the reason that land becomes exhausted and impoverished by its continued application. Whereas De Burgs Super Phosphate supplies more than is required, by the crops, and is quite as effective in its action of inducing early maturity as guano, much more durable and fertilizing to the soil and less volatile.

It is adapted for all crops and all soils, as a proof, we have testimonials from Maland to Georgia, and from *every county in this State*, from every variety of soil, and from gentlemen well known as intelligent farmers—some of whom have tried it for two years on fall and spring crops with pleasing results, in every instance. We name Hon. J. A. Pearce, G. W. T. Perkins, L. M. Strong, J. Urie, W. W. Stephens, Wm. Emory, T. D. C. Ruth, Esqs., and many others.

Francis Cann, Esq. says: "I never had so fine a field of corn as I have at present. The corn and potatoes grown by "De Burg" were much superior in quality and quantity to those grown by No. 1, Peruvian Guano, at the same rate per acre. I think it the best fertilizer I ever tried and cheaper than guano."

Josiah Ringgold, Kent co. says: "I applied De Burg and Peruvian Guano separately, each at the rate of 200 lbs. per acre, on same quality of land in corn, oats and vegetables, and I think where DeBurg was used that my crops were much the best."

Wm. T. Skirven, Esq., Kent co., says: "There was a manifest difference in the growth of the corn where I applied "De Burg" over that which was guanoed.—My wheat sown with "De Burg" looks better than my guanoed wheat."

☞ Every lot we receive is inspected and analyzed by the Chemist to the Md Agricultural Society, who draws samples himself from entire cargo, and rejects all that does not come up to the fixed standard, thereby guaranteeing to the farmer a uniformity not to be found in any guano or other manure.

The best proof of the value of this fertilizer as entertained by the agricultural community is the greatly increased demand for it, which is beyond precedent in any other manure. In consequence of which many imitations have been put upon the market. Farmers should be particular and buy none but "De Burgs Supher Phosphate" and to secure the genuine article, order it direct from us.

Price $43 per 2000 pounds, in 8 bbls.

*KRAUSERS PORTABLE CIDER MILL*

THESE superior Cider Mills can still be furnished, of improved construction and finish. Their grinding apparatus is peculiar and gives them an advantage over all other mills. By the action of two reciprocating pistons the apples are forced up against the teeth of a rapidly revolving cylander and retained till ground to a fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.
