GROVER & BAKER'S

ELASTIC STICH

Family Sewing Machine.

Were Awarded the Highest Premiums at all the State Fairs.

They are superior to all others for the following reasons:

1st. They sew direct from the spools and require no rewinding of thread.

2d. They are more easily understood and less liable to get out of order than any other Machine.

3d. They are capable of executing *perfectly*, a much greater variety of work than any other machine.

4th. The stitch made by these machines is much more firm, elastic and durable, (especially upon articles which require to be washed and ironed.) and retains its plumpness and beauty until the clothing is entirely worn out.

Unlike the lock or shuttle-stitch machine these fasten both ends of the seam by their own operation, and will neither open, run or ravel, but remains firm and durable.

6th. By a slight change of adjustment, it executes the most beautiful embroidery and ornamental work.

7th. There is certainly a great advantage in buying from a permanent party, rather than a traveling Agent, who has no abiding place, and the time you most desire to see them for information or instruction

THEY ARE NOT.

From 8 years constant use of the G. & B. M., I am prepared to say I would have no other for general family use. Therefore I invite any one to come and examine and try the machines before purchasing elsewhere.

"Good evening, Miss Ellie, what causes you to look so pleasant?" "Why, I have just returned from FREANER'S Ice Cream and Mineral Water Saloon. I have had a saucer of his Excelsior Ice Cream, and a glass of sparkling Ice Cream Soda. Try it and my word for it, and will look as pleasant. Oh! Mollie, he has the most grand assortment of Confections in all its branches, in the city, and I feel confident that all who give him a call shall be pleased, for he is so clever and accomodating that the most fastidious can be satisfied."

"Yes, Ellie, I have heard of his Saloon being highly spoken of as keeping the most varied assortment of Confections, in connection with his Excelsior Ice Cream and sparkling Mineral Water.

THE FERTILIZER!

For Maryand Lands.

BAUGH'S

Raw Bone Phosphate.

Containing 53 per cent. of Phosph. of Lime, and 4.05 " Ammonia

IT should be borne in mind that the Phosphate of Lime in this article being obtained exclusively from RAW BONE, and a TRUE BIRD GUANO, there is no part of it INOPERATIVE, as in the case of SUPER PHOSPHATE, made from MINERAL GUANOS, but being entirely soluble in the soil, continues to impart its fertilizing qualities to the crops for years

The remarkable success which has attended its use in Maryland and parts of Virginia, is a sufficient guarantee to induce those who have not tried it to do so

The Grain Crop in the State where this Fertilizer has been applied is supposed to have been increased from 25 to 50 per cent by its use while for Tobacco and Grass Lands its success has been equally decided

The price in Baltimore is uniform with the manufacturer's factory price

Phœnix Coach Factory,

Woodsboro', Fred'k Co., Md.

THOMAS & ADAMS

HAVING greatly enlarged their business by the renting of the stand formerly occupied by the Green Brothers, respectfully inform the people of Frederick county, that they are manufacturing at their extensive Coach Factory, in Woodsboro', Frederick county, Md., all kinds of vehicles in their line, such as

CARRIAGES, BUGGIES, ROCKAWAYS, PHŒTONS, SULKIES, PEDLAR WAGONS, SPRING WAGONS, &c.

They employ none but the most skillful workmen, and use nothing but the very best material in the manufacture of their work, which cannot be surpassed in neatness and durability in the county.

Having had an experience of a number of years in the business, we are confident of being able to satisfy those who may be pleased to patronize us, therefore invite all those who are in need of anything in our line to give us a call and examine our stock of Vehicles before purchasing elsewhere

FOR SALE OR RENT.

THE subscriber will sell his farm, (late Dr. Eichelberger's) containing 26¾ acres, lying in the south east corner of the Emmittsburg district, and bounded on the east by the Monocacy river, about 4 miles from Mount St. Mary's College. A county road runs east and west, dividing it about equally. It is an attractive place in a good and beautiful neighborhood, surrounded by churches, schools, mills and stores, and the proposed route of the Western Maryland Railroad within two miles. There are on this tract from 100 to 120 acres of

PRIME TIMBER

The remainder is arable, its natural quality of soil inferior to none in the neighborhood, and watered by never failing springs running through every field, except one.

The farm will readily admit of division, there being two sets of buildings thereon—each with abundance of fruit, and will be sold entire, or divided, and on terms almost wholly at the option of the buyer. A first class lime kiln of

1000 Bushels Capacity,

was built last year, and a system of liming commenced of 2000 bushels per annum, with a liberal application of bone dust, and other improvements.

If not sold before Dec'r 1st it will be for rent. For further particulars, applicants for purchase are referred to Dorus Groff, Esq., Double Pipe Creek Post Office Carroll Co., or to Josiah Dutterer, merchant adjoining the farm on the west—Gracham Fred'k Co, Post Office or to the undersigned. Those for renting will apply only to the subscriber. Possession given on the. 1st of April next, perhaps sooner if desired.

MERCHANT TAILORS,

THE subscribers have associated themselves in the above business, and taken the well known stand of G. W. T. Harley, on Patrick Street, a few doors East of the City Hotel, where they have opened one of the most extensive GENTLEMEN'S

Furnishing Establishments

that has ever been in the city. They are both practical workmen, having been previously engaged for several years in separate establishments where they believe they have been entirely successful in catering to the public taste. Their former stocks of Goods have been merged into that of Mr. Harley's making the largest assortment of Goods in their line that can be found in the city which they deem unnecessary to enumerate as their assortment is so complete of

Cloths, Cassimeres, Vestings,

and other minor articles common to such establishments, that it would be difficult to make it more so, yet they are constantly receiving new Goods as the requirements of their trade may seem to demand. They flatter themselves that none can fail to be pleased either in the style, quality or price of the Goods as well as in the beauty and elegancy of the Garments, as no pains will be spared to give entire satisfaction in every particular.

Their stock of

TIES, SUSPENDERS,

Half Hose, Handkerchiefs, etc., is very complete.

☞Thankful to the public for the liberal support heretofore extended them, they respectfully solicit a continuance of the same as well from the three former old establishments as from the public at large.

THE GREAT

ZINGARI BITTERS!!

A Sure Preventative of

CHOLERA.

THIS WONDERFUL REMEDY was discovered and introduced some 20 years ago by Dr. S. Cheopsus, an eminent Egyptian Physician.

He had long seen and felt the want of some remedy which would strike at the root of disease and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventative and a curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease, should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination that acts on the secretary organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effect on the organism. This is true not only of cholera, but of nearly all other maladies especially the different forms of fevers.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them.—This bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Typhoid and Typhus fever, Fever and Ague, Nervous Debility, Anamia, Female Irregularities, Dyspepsia, Flatulency, Colic Scrofula, &c.

Price one dollar per quart bottle.

COFFEE.

The Only Coffee that has stood the Test of Trial.

Try it and Judge for Yourselves.

The American Excelsior Coffee

HAS been before the public five years and secured general favor, to the exclusion of almost all others. It is composed of Pure Coffee, Germinated Grain and Saccharine substances. It contains FARINA, over fifty per cent; SUGAR, over 20 per cent. and other nutritious and healthful ingredients.

Read the Certificate of PROFF. AIKEN, Professor of Chemistry and Pharmacy in the University of Md.

Dr. James E. Bacon has made known to me all the materials from which he prepares his AMERICAN EXCELSIOR COFFEE, and this is to certify that none of the ingredients employed are in the slightest degree injurious, but that all are perfectly wholesome and nutritious. While it contains enough of the Coffee berry to retain the flavor, it does not possess the peculiar stimulating power of unmixed coffee, and hence may be used as a safe and pleasant substitute for that in most cases of impaired digestive organs. WM. E. A. AIKEN, M. D.,

Prof. Chem. and Pharm. University of Md.

Baltimore, May 12th, 1862.

There are many invalids and others who cannot use any of the Coffees in their pure state, but who can use them with impunity, by mixing a third or even one-half with Bacon's American Excelsior Coffee. Many Hotel Keepers and the most fastidious Coffee drinkers throughout the country, prefer it in this way. "Try it."

☞CAUTION!☜

There are several parties in this and other cities, who are making an article, which they call the American Excelsior Coffee imitating our style of packing, color of labels, kind of type, and using other methods to deceive the public.

Be sure when purchasing the American Excelsior Coffee, to see that it has the above Certificate of Dr Aiken on it.

Remember to ask for J. E. Bacon & Co's American Excelsior Coffee.
