## STILL 80,000,000 BUSHELS SHORT OF WHEAT NEEDS

In free America, the individual conscience is the supreme Food Controller. That is the democratic way and upon its success or failure depends the Cause of Democracy against the Prussian scheme of things.

Herbert Hoover, using the pulpits of the nation as his mouthpiece, has made appeal for even greater saving and shipment of wheat than has yet been accomplished. At least 30,000,000 bushels more must be shipped by August. His message admits of no misunderstanding. He says:

"It is imperative that all those whose circumstances permit shall abstain from wheat in any form until the next harvest."

And his facts admit of no argument. He says:

"If we are to satisfy the minimum requirements of our Armies and the Allies and the suffering millions in the Allied countries, our consumption of wheat until the next harvest must be reduced to one-third of normal."

The Maryland Food Administrator has naught to do but pass on that appeal to the citizenry of this State, in entire confidence that its loyalty will need no further stimulus to thrift than that unequivocal presentation of the facts. The key-word of Mr. Hoover's message lies in that one word MINIMUM—30,000,000 more bushels separate victory from defeat, life from death. Every man, woman and child with that fact in mind, must see the situation, must heed the clamant need. If habit, selfishness or folly keeps the United States from bridging the gap 'twixt now and harvest, it means this, and this only—that Democracy, the rule of the people, by the people, is wrong, and that Wilhelm, the Murderer, is right. It is squarely up to the citizenry of Maryland to bring in a verdict for or against Prussianism. Flag-waving will not count as a token. Wheat-saving will.

The public eating places of this State have been individually urged to go the limit in abstinence from wheat. Their response has been gratifying—and those who do most deserve most from their constituents. But the wheat that will win must come more from the private homes of this and every other State, where seven-eighths of the nation's foodstuffs are consumed. Food Administrator Baetjer asks every man, woman and child to weigh each word of Mr. Hoover's solemn appeal—and there confidently rests his case.

Are you just a Victory Loafer or a 100 per cent. Wheat Saver?

The Service flag tells of someone in the fight. The question now is who is sending him wheat.

### BRAN MUFFINS.

(Official recipe.)

One egg, one and one-half cups sour milk, two tablespoons molasses, two tablespoons shortening, one teaspoon salt, one cup cornmeal, one cup rye flour, one cup bran, two level teaspoons baking soda, one-half teaspoon baking powder.

### SOUP FROM THE STOCK-POT.

The stock-pot is said to be the foundation of the national wealth of France. The Food Administration has a moving picture out to get American housewives to make use of left-overs and scraps in the same thrifty way. Some are getting for almost nothing delicious soups from their stock-pot. Others are like the small boy who watched this movie while the "heroine" scrubbed some vegetables as if she was about to perform a surgical operation on them and then threw the peelings into her stock-pot along with various bits of food usually wasted. Then he piped out, "What is the lady going to do now, mother, feed the chickens?"

Even mother could hardly believe that the delicious bouillon made from the "chicken feed" was not just one more "movie fake." Those who have adopted the French stock-pot know what wonderful, cheap soup it will yield.

**A war-garden** entered in the Food Administration's $25,000 Produce Contest will protect your home next winter against either a real or artificial food shortage.

**The Ontario Government** has taken over the whole fish catch of Lakes Nipissing and Nepigon, which will be retailed at fifteen cents a pound on a cash-and-carry basis.

**Against food-hoarders** Canada has a punishment of a $1,000 fine and imprisonment. "But," says the Food Controller, "It is a job for patriotic citizens to see that these regulations are carried out." The same sort of duty is incumbent upon victory-seeking Marylanders.

### IS YOUR GARDEN ENTRY IN?

**Fifty-nine** out of sixty-three army car services in the country have also put the ban on wheat and the other force are expected soon to follow suit.

**The War Food Bureau,** Lexington Building, Baltimore, will furnish information on the preparation, canning and dehydrating of food in addition to giving daily demonstrations.

The Maryland Food Administration, 700 Equitable Building, Baltimore, will gladly interpret all food regulations for you as well as supply any other information on matters within its wide jurisdiction. If your query concerns the WIN-THE-WAR PRODUCE CONTEST, add the words "Contest Department" to the above address.
