**What *is* a Branch House?**

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get ***better*** meat ***cheaper*** to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

***Your*** meat dealer comes ***here*** to buy your meat for ***you***—unless someone else can treat him better then we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

What is the difference between an OCULIST and an OPTOMETRIST?

The Oculist treats diseased eyes and fits glasses according to the laws of optics. The Pptometrist uses the same means for detecting any disease, but does not treat, but refers to the Oculist or family Physician. The Optometrist fits glasses according to the laws of optics just the same as the Oculist, but with out drugs or drops.

**Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.**

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that at times I could not be on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at four o'clock, do my housework, then go to a factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. ANNA METERIANO, 36 West 10th St., Peru, Ind.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.
