Better Service To You

We don't want you to think of the KENT COUNTY SAVINGS BANK just as a place to deposit your money, although of course we are glad to have you keep as large a balance with us as possible.

It is our desire to render our patrons every service and accommodation that can reasonably be expected of us.

The Burroughs Bookkeeping Machine, which we have just added to our equipment, makes it possible for us to give you better service than ever before in the handling of your account.

By the machine method, your account is kept in balance all the time. If, as sometimes happens, you want a statement of your balance in a hurry, we can give it to you, including today's checks and deposits, in less than ten minutes.

A neatly printed statement made out on the Burroughs goes to each depositor. The statement shows all checks and deposits and gives the balance of your account to date, taking the place of the tedious and unsatisfactory plan of calling in and balancing pass books.

The machine affords absolute protection against errors in figure handling. It can't make a mistake. You can always be sure that your machine-figured balance is correct.

The increased speed, accuracy and protection of this mechanical bookkeeping system, added to our thorough knowledge of good, cons stent banking and business methods, make it possible for us to offer you an improved service that is equal to that furnished by the country's most progressive banks.

Powermaker

As simple as A B C—as strong as iron and the best grade steel can make it—more easily handled than any other piece of farm machinery — less wearing on your car and tires than an ordinary 25-mile-an-hour spin—and capable of more work per day than six good men—that is the

OWERMAKER

It weighs only 110 pounds and can be handled easily by one man.

Your car and a POWERMAKER give you a portable power plant for all kinds of farm work.

The cost is low. Think of it—with your Car and the Powermaker you have an outfit that will do any job up to 10-horse power.

The price of the POWER MAKER is only

$37.50

We sold one the day it was demonstrated to us. Our own opinion is that it is the most practical tool that has yet been devised to be used with a car to furnish power for other work.

Don't wait until the day you wish to use it, as our supply is limited and we expect the first lot to go quick.
