The Kent News.

A Family Newspaper: Devoted to Literature, Agriculture, Politics, General News, and Advertising.

VOL. 27.—No. 32. CHESTERTOWN, SATURDAY, DECEMBER 1, 1866. WHOLE No. 1374.

While the Days are Going By.

There are lonely hearts to cherish
While the days are going by;
There are many souls who perish
While the days are going by.
If a smile we can renew,
As our journey we pursue,
Oh! the good we all may do,
While the days are going by!

There is no time for idle scorning
While the days are going by;
Let our face be like the morning
While the days are going by.
Oh! the world is full of sighs,
Full of sad and weeping eyes;
Help your fallen brothers rise,
While the days are going by.

As the loving links that bind us,
While the days are going by,
One by one we leave behind us
While the days are going by.
But the seeds of good we sow
Both in shade and shine will grow,
And will keep our hearts aglow,
While the days are going by.

DANGER OF UNBROKEN PROSPERITY.

A uniform prosperity, more than anything else, tends to engender or foster those dispositions which are inconsistent with either the true knowledge of ourselves, or our due subjection to God. If pride, hardness of heart, contempt of others not so happy as ourselves, or scant sympathy with them, be not the effect, (and they too often are) inordinate love and misestimate of the present and gradual oblivion of the future, except to presume that it will be *like* the present, take too ready possession of the soul. There are, accordingly, few who can so enjoy long continued prosperity as not to be sensibly the worse for it. A few may be observed, indeed, of two opposite classes, who enjoy it to the last; the one, those who seem past learning lessons of adversity, and who are allowed to "spread as a green bay tree;" and the other, those who, being "taught of God," have learned them so well, are so skilled to use the world without abusing it, and so daily mindful by whose donation all blessings are given, and by what tenure of homage to the supreme Lord they are alone held that they do not seem in any appreciable degree injured by them. These God seems to permit to walk through life in almost unclouded sunshine; not indeed, without some trials, yet with few, and none of them what we should call great and signal reverses; with little experience of the "ups and downs of life," as people say. But there are few of us who do not deed, and who do not get, the lessons which adversity must teach us; and of the generality it may be said, they are never more in danger than when they have been long prosperous.—*Henry Rogers.*

A SALUTARY THOUGHT.—When I was a young man there lived in our immediate neighborhood a farmer who was usually reported to be a very liberal man and uncommonly upright in his dealings. When he had any of the produce of his farm to dispose of, he made it an invariable rule to give good measures—rather more than would be required of him. One of his friends observing him frequently doing so questioned him as to why he did it; he told him he gave too much and said it would be to his disadvantage. Now, dear reader, mark the answer of this excellent man:—"God has permitted me but one journey through the world, and when I am gone I cannot return to rectify mistakes."

Think of this. There is but one journey through life.

METHOD OF COMPUTING INTEREST.—A new method of computing interest on any number of dollars, at six per cent., appears very simple. Multiply any given number of dollars by the number of days of interest desired,—separate the right-hand figure and divide by six; the result is the true interest of such sum for such number of days, at six per cent. This rule is so simple and so true, according to all business usage, that every banker, merchant, or business man should post it up for reference and use. There being no such thing as a fraction in it, there is scarcely any liability to error or mistake. By no other mathematical process can the desired information be obtained with so few figures.

COLORADO.—There is in Colorado a strong movement in opposition to the admission of that Territory to the Union at present. By the Denver Gazette it appears that the "anti-State executive committee" have called a Territorial mass meeting in Denver, on November 24th, "to consider what action may be necessary to thoroughly inform the Congress of the United States as to the inability of the people of Colorada to defray the expenses of a State government at present, and of the opposition to the admission which it is believed is felt by a vast majority throughout the Territory."

Dr. Horwitz, the Chief of the Naval Bureau of Medicine and Surgery, has prepared some valuable statistics, showing the naval casualties of battle during the war. The totals show that there were 3,910 wounded, 308 drowned in battle, and 546 scalded in battle—in all 4,674. The deaths in the naval service were: 495 from gunshot fractures, 1,309 from gunshot flesh wounds, and 273 from incidental casualties, while 95 died in rebel prisons—making the total number of deaths 2,272. There were discharged from the naval service as disabled 550 from casualties of war, and 431 from incidental casualties—981 in all.

IMPEACHMENT.

The hastily-declared proposition to impeach President Johnson at the next session of Congress meets with but little favor at the hands of both the radical and conservative press of the Republicans in this vicinity, and we must therefore take it for granted that the public sentiment of New England will never endorse a measure so dangerous to the peace of the country. The Boston *Transcript*, the most Radical paper of this State, takes decided grounds against such a step, and declares that those persons who urge impeachment are not the wisest Republicans nor the safest guides of public sentiment. The Boston Daily Advertiser, Boston Traveller, Springfield Republican, and Newburyport Herald, as well as many of the Republican journals of Maine and Vermont, have also expressed themselves as opposed to the measure, so that the opponents of the President, in this section of the country at least, would seem to be very far from being unanimous on the subject; and if we take into consideration the fact that those who first broached the matter say little or nothing about it just now, and the additional fact that the central and western States are more conservative than New England, we think it may be safely predicted that the project will fall through, and that its friends in the next Congress will only represent a very small minority, if in fact it finds any one possessed of sufficient courage, in opposition to public sentiment, to draw the bill.

This being the case, and quite apparent to the great mass of thinking minds, we think the sooner the matter is dropped altogether in public discussions, the better it will be for the peace and prosperity of the country, especially as its further discussion can now only serve as matter for irritation between the parties represented by the President and Congress.—*Charlestown (Mass.) Advertiser.*

THE RIGHT SPIRIT.—While the political doctors are engaged in trying to concoct one cunning scheme or other for pretended Southern "settlement," the people of the South are more and more letting them alone in their work, and are turning their attention rightly to practical matters of the greatest importance to themselves. The leading agriculturists of Virginia are in convention at Richmond with a view to organize a State society, and extending and improving their productions, securing labor and bringing the largest area of land into cultivation. The dividing up the farms is strongly advocated in leading journals. In North Carolina, also, a State Agricultural Society is to be organized on the 27th instant, at Raleigh, and in New Nrleans a great Mechanics' and Agricultural Fair commenced on the 20th, and will be continued to the 29th. All steamers return pessengers and goods free, even as far north as Cairo and St. Louis; also, as many as twelve railroads, some of which extend into the Northwest. A fine example of religious toleration, also, is shown in the fair, the services of the Roman Catholic officials having been succeeded by those of the Episcopal clergy. The enterprising Southern men are also moving for a more varie dindustry, and seek to manufacture their cotton to a larger extent within the region of its preduction. This is the right spirit, and Northern capital must seek to aid and profit in the work.—*Balt. Sun.*

EMIGRATION TO LIBERIA FROM THE SOUTH.—The American colonization ship Golconda sailed from Charleston, S. C., on Sunday last, with six hundred and fifty colored emigrants for Liberia, principally from South Carolina and Georgia. Among the passengers are Dr. Isaac H. Snowden, who has been residing in Liberia some 15 years, and the Rev. H. W. Erskine, who was taken there when a small boy, by his parents, from Knoxville, Tenn., and after a residence there of 36 years has been on a visit to America. He is now attorney-general of the Republic of Liberia. He takes with him his sister, 70 years old, and her husband, with their children, grand-children, and great-grandchildren. The Rev. John Seys, consul general for the United States government and resident minister at Liberia, who has crossed the ocean sixteen times, also goes out in the Golconda. The emigrants are given free passage, and are supported by the society for six months after their arrival at Liberia, by furnishing them with provisions and a house to live in. Grants of from five to ten acres of land are given, according to the size of the family.

IMMIGRATION TO AMERICA.—It is stated that nearly 2,000 Germans leave Europe every week for the United States on the Bremen and Hamburg steamers. Companies are also being established in Europe to encourage immigration to America among the Danes, Norwegians and Swedes. Let all come who wish to. The United States has myriads of broad acres waiting to be peopled by the surplus population of the old world. With thrift and industry, all who come to America can live happily.

It is stated that a memorial will be presented to Congress from prominent citizens of the South asking for the passage of a general bankrupt law. The devastation of the war and the failure of the cotton and corn crops have almost hopelessly impoverished the cotton States for the present.

PIANOS! PIANOS!
Charles M. Stieff,

GROVER & BAKER
SEWING MACHINE CO.,
181 Baltimore Street,
BALTIMORE.
Buy a good one or none.—Many absolutely worthless sewing-machines are now before the public, to purchase which would result in nought but vexation and disappointment to the owner. A *cheap* sewing-machine generally proves a *dear* bargain. *Grover & Baker's* have stood the test for many years; and but one opinion prevails as to their worth. The advantages they possess for Embroidering, Braiding, Hemming, &c., and their wonderful simplicity renders them the best in use. What other machine will embroider so beautifully, braid so elegantly, hem so faultlessly, quilt so evenly, stitch so accurately, gather so regularly, operate so easily? *None*, we conscientiously affirm.
Send for a Circular with description, prices, &c. Call and examine the machines and work executed by them, at our office,
181 Baltimore street,
ap1-y. 3d door from Light st.

SOLUBLE PACIFIC GUANO.
200 LBS. SOLUBLE PACIFIC GUANO contains 70 lbs. *animal matter*, yielding 7 to 8 lbs. *ammonia.*
Also 80 to 90 lbs. *earthy bone Phosphate of Lime*, 30 lbs. of which are *soluble Phosphate.*
It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.
By reason of its greater *concentration*, we recommend 20 per ct. less by weight to be used per acre, than of any fertilizer costing the same per ton; and no more per acre than of those selling at 20 per ct. more per ton. Hence its *economy.*
This Guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*
JOHN S. REESE & CO.,
GENERAL AGENTS FOR THE SOUTH.
ap28-8m. 71 *South Street, Baltimore.*
