FAIRLEE NEWS.

lence—Surprises—The Sick—Roads, etc.

rief is very hard to bear when it falls on one like a flash of lightning from a ar sky. I am well aware that phrases condolence can never comfort in any t degree; yet in heart-felt earnest let y to the relatives and friends of the enior of the "KENT NEWS," Mr. James immer, that I was deeply pained to ar of the sudden and unexpected demise this exemplary man. I will not dwell n this dark side of the picture, but rather look to its brighter aspect in the hope that he has gone to a happier sphere. I trust you may be divinely comforted and be roused from your grief by claims of duty to those whose welfare demands your care and attention.

There is a great deal of sickness in our community, Mr. J. A. Greenwood has been housed for several days with a very severe cold.

Capt. James Middleton at Fairlee landing, was taken quite sick last week, and it is rumored that he has the typhoid fever. He is under the medical treatment of Dr. J. H. Hessey, a physician who has always been very successful with this type of disease.

Mr. Geo. W. Bramble was both threatened with the pneumonia, and has been quite sick, but under Dr. Thomas B. Willson's treatment, his ailment yielded and he is much better.

Mr. G. E. Noland, Tolchester, has been quite sick with about the same trouble, but Dr. Hines has apout straightened him again, and he is able to be around.

Floyd Ward, son of Mr. F. H. Ward, has been a little sufferer for several days with fever caused by inaction of the liver.

Mrs. James Kendall is on the sick list, in fact, you scarcely hear any one say that they are well; and no wonder when we think of the variable weather, but he who ruleth "doeth all things well."

Social surprise parties, one and two a week are still popular among us. About 30 young and old folk took possession of Mr. A. M. Kendall's home lately and made things lively by games, music &c. All seemed to have a good time. On last Wednesday evening week, Mr. and Mrs. J. Thos. Blackiston's home was invaded by about 50; all bent upon having a good time and such a time was most assurdly enjoyed. The host and hostess did everything in their power for the entertainment of all present. A grand collation of cake and ice-cream was served about 11 o'clock. On Friday evening week a masquerade surprise was tendered Mr. Richard Smyth and his family. A grand time was enjoyed. Imagine the surprise when so many strangers put in their appearance, their faces being made unfamiliar by disguise.

Mr. Malcolm Shuster who moved into our community about Christmas, from Delaware, has secured a lucrative position near Philadelphia, and he will remove his family to his new sphere of labor.

Rev. Mr. Welch, pastor at Masseys, preached a thoughtful sermon at Salem, last Sunday, Rev. J. H. Geoghagan filled his pulpit for him.

A minstrel troupe was to have given a performance here last Monday evening. They claimed that a black man's money was as good as any other, and desired to bring the whites and blacks together to see the performance, the consequence—they didn't give the entertainment. Those who intended to have gone and were hindered by the desired contamination will have more to spend at the coming festival and supper for the benefit of St. James Church. This is for a good purpose, and I assert that all who will may enjoy a good supper, at a nominal figure and after supper spend a pleasant evening socially and in eating ice-cream, cake, &c.

We in this village, as I said a few weeks ago can boast of good roads, and those lying out for a mile or more are all in repair, there is on the road leading to town beginning at Mr. Wm. Cleaver's lane and of a mile, which is below the level of fields 5 feet or more in some places, which was nicely rounded and put in order last year, but it cannot be kept so unless it is gravelled or shelled. It was partly gravelled some years ago, but by repair it has to be worked well below the surface, and if we cut down to this gravel, and if it isn't for it I don't know how much further down we would go. I think our commissioner will see to it. WEST END.

The Courts.

Orphans' Court, Feb. 17, 1891. Letters administration upon the estate of Mary E. Hepbrou and Lewis S. Hepbron, were granted to Hope H. Barroll. James S. Harris, administrator of James A. Moffett, passed his first and final administration account, and filed release from Mattie Moffett. Wm. H. Bowers, executor of Wm. L. Bowers, passed his second administration and first dividend account. Wm. T. Miller and Jeremiah Miller, administrators of John A. Milier, deceased, filed releases from Sarah R. Wood, M. O. Miller and Wm. T. Miller. Sarah E. and G. Irvin Barwick, administrators of John Barwick, filed an inventory of the personal estate of their decedent.

County commissioners met on Tuesday with full board present. Sundry citizens 2d district presented petition to cut down hills on road from Morgan's creek schoolhouse to Perkins' hill, and T. J. Shallcross and J. A. Groves were appointed committee to examine said hills. Petitions of sundry citizens, heretofore filed, to condemn Green Lane as a public road and condemn landing on Rock Hall creek was considered, and R. B. Willson, W. M. Miller, and Charles C. Wood appointed examiners thereon. Delgates to Immigration Convention held in Baltimore yesterday, were appointed as follows: 1st district, Samuel Cacy and J. Thomas Pennington; 2d district, Eugene M. Bonwell and Alday Clements; 3d district, Thomas Gale and Dr. J. H. Hessey; 4th district, Wm. B. Usilton and Jas. H. Baker; 5th district, R. Bennett Willson. Upon

COLLEGE NEWS.

An Acceptable Gift—Interesting Discussions Sunday—Averages of the Students.

CHESTERTOWN, Feb. 17, 1891.

DR. C. W. REID:—Dear Sir: During a recent visit to St. Mary's county, in this State, I was much interested in the history and traditions of St. Mary's City where the first settlement was made and where the colonial government was first established. The spot is one of rare natural beauty, and the people of the county cherish and venerate the memories which cluster around it. There is a very old mulberry tree standing there which tradition says is an outgrowth of the parent tree under whose shade Father White recited the Litany of the Cross at the founding of the city which now lives only in name.

I procured a block of wood from this tree which I have had fashioned into an inkstand, which I wish to present to the college library and which I hope will serve as a visible memorial to the students of the ancient and honorable history of their native State. Yours truly, J. A. PEARCE.

The above mentioned block is beautifully polished and carved, forming a base upon which rests the reclining figure of an oxidized silver dog, around which is playing a little child. The head of the dog is fixed on a hinge, and when thrown back discloses the well for the ink. Mr. Pearce through these columns will accept the thanks of professors and students, and he can be assured that the gift will be appreciated not only for its great historical value, but also for the sake of the distinguished donor.

The meeting of the Young Men's Christian Association on Sunday was very entertaining. The young men conducted the exercises and instead of the regular meeting they discussed some practical questions. Perhaps no theme so much interests the young men as that of Sunday observance. The following questions were discussed:

Is it right to publish, sell or read Sunday newspapers?

Is is right to walk or drive for pleasure on Sunday?

Is it right to sell milk or keep cheese and butter factories open on Sunday?

Is it right to read novels or study on Sunday?

Is it right to cook and eat warm meals on Sunday?

Does God require the same standard of a moral man as he does of a Christian?

These questions were taken up and briefly discussed, the students taking a lively interest in the discussion. Dr. Reid conducted the exercises and would frequently state some thought in connection with the question that would draw the young men on. The Dr. would always require a reason for every expression. No opinion would be entertained unless a reason could be given. Dr. Reid is never at a loss for a reason for his stand upon any question and he does not object to the students attacking his position. The young men too seemed to have the courage of their convictions and frequently assailed the points advanced by the Dr. These discussions are prolific of good, because they set before the young men these important subjects in a new and interesting light.

We give below the averages for the month ending Jan. 30th: W. F. Porter leads the Senior class, with 94.4; B. F. Perkins, the Junior, with 97.1; and E. A. Robinson, the Sophomore, with an average of 94.5. The following Freshmen made an average of 85 or over 85: Norman Perkins, 94.5; C. C. Brown, Jr., 93.3; John T. Morris, 92.7; Arthur M. Merritt, 91.2; Harry G. Simpers, 89.4; Whittier C. Copper, 88.4; Robt. J. Nicholson, 86; Joseph H. Kendall, 85.9; W. E. Butler, 85.9; Thomas W. Perkins, 85.2; Harry W. Catlin, 85; A. C. Leaverton, 85. The following in Preparatory Department made over 80: Jas. B. Noble, 96; H. E. Perkins, 95.8; Norman Cameron, 93.9; R. J. S. Bullock, 92.9; W. E. Hill, 91.8; David B. Ford, 90.7; Wm. Ford, Jr., 90.5; Wm. B. Willis, 89.2; Spencer Hurtt, 88.8; Wm. J. Grason, 88.4; Wm. A. Bell, 87.9; Geo. T. Waters, 87.5; J. F. Houston, 86.8; Lenox Catlin, 86.7; W. Tarbutton, 86; Carole C. Perkins, 84.6; A. Hurlock, 84.5; Geo. P. Hendrickson, 83.6; J. Westcott, 83.4; Chas. T. Turner, 83.4; Paul B. Graham, 82.8.

W. F. Porter leads the Senior class with a general average for the session of five months, of 87.9; B. F. Perkins, the Juniors, with 94.5, and E. A. Robinson the Sophomores, with 96.4. The following Freshmen made a general average of above 85: John T. Morris, 91.3; Norman Perkins, 90.2; C. C. Brown, 89.7; Arthur Merritt, 89.3. And the following in the Preparatory made above 80: J. B. Noble, 96.1; R. J. S. Bullock, 90.1; Norman Cameron, 89.5; H. E. Perkins, 87.5; S. Hurtt, 87; Lenox Catlin, 86.7; W. Tarbutton, 84.9; David B. Ford, 84.5; W. J. Grason, 82,2, and W. E. Hill, 81.7. Carl Westcott in the Freshman class made an average of 85.2 for month and of 86.6 for the term.

AN exchange says: Any man can take a home paper. It is the cheapest thing he can buy. It instrvcts you and broadens your views. It interests you and your wife and educates your children. It comes to you every week, rain or shine, calm or storm, bringing you the news of the busy world. No matter what happens, it enters your door as a welcome friend, full of sunshine, cheer and interest. It opens the door of the great world and puts you face to face with its people and its great events. It shortens the long summer days and it enlivens the long winter nights. It is your adviser, your gossip and your friend. No man is just to his children who does not give them the local paper to read. No man is good to himself or wife who does not take a first-class newspaper, [yet there are able people living who will not take the home paper because the printer wants a living price for it, but will borrow it from his neighbor and read its contents, and then pay for a city paper that is full of sensation stories, murders, &c., for his family to read.]

A NOTED WEDDING.—John Jacob Astor, of the wealthiest family in America, was married Tuesday to Miss Ava L. Willing, of the oldest family in America and one noted for its beautiful women. The decorations cost $20,000 and the presents are valued at $2,000,000. One of the most valuable was that presented by the father of the groom, a completely furnished house on Fith avenue, New York. The tiara of diamonds; which was the groom's gift to the bride, is probably unsurpased by any in America. The elder Mr. Astor's gift to his daughter-in-law was a double bow knot of diamonds, from which is hanging a huge emerald and a diamond necklace and [illegible] of diamonds and sapphires four [illegible]. The present of the groom's [illegible] diamond stars, each as [illegible], enclosed in massive [illegible] eight silver dishes, [illegible] long, modelled after [illegible] will take a long [illegible] which costs [illegible] her in service.

ROCK HALL NEWS.

He Had a Long Walk—Death's Work—Port News—New Firm—Peaches, etc.

On Sunday last, allured by the beautiful spring like weather, a dashing and gallant widower in the hey day of life mounted his prancing steed and away he rode to the beautiful vicinity of Fairlee, where abideth her for whom much adoration is by him expressed. Meeting with no obstruction or hinderance, he soon arrived; on alighting he was forthwith ushered into the presence of his lady; so joyous was the greeting, and the conversation that followed, that the horse who performed so great a part in bringing about so much joy, was forgotten until a late hour, when, on going out, what was his dismay, but to find the noble steed loosed! In vain he tried to bring him head to the wind; having no other alternative, he bade a hasty good bye, and placed himself in the road to retrace the eight or nine miles afoot, as best he could. On nearing the road that lead to his home, he being occupied in pleasant reveries no doubt, mistook the Swan Point road for the home road, and went several miles out of his way. Becoming weary and alarmed, he began to think that something was wrong; still he went on, hoping to find some point of recognition, until he struck the bridge on Tavern creek, when with joy and sadness combined, he once more turned right about face, and retraced his way, finally reaching home weary and sore. We hope this experience of Arthur—— (heigho, we came near letting the cat out of the bag) will be profitable to him in the future, in observing the old adage (sure bind is sure find.)

Friend Charlie who is a first rate huckster, as well as a practical farmer, it is reported has a new potatoe on the market, which he claims has a seed similar to the pumpkin, parties buying them of course are anxious to see the seed, on cutting one open, they fail to find any seed, Charlie politely tells them it is the next one, claiming that they sometimes dry out.

Bro. John and his energetic frow, are to have an opposition in the milk business. Mr. Stephens, it is said, will soon ship about 25 calves to market, he will then start a milk line, which will take in Rock Hall vicinity. While John may feel sorry, the dyspeptics and lovers of the fluid will rejoice, because of the reduction of the tariff.

The oystermen after having been given permission to use the patent tongs, find them not so remunerating as they had hoped, for the simple reason that there are very few oysters in the water, beyond the depth of the old style tongs, the dredgers having scooped them in long ago.

We thought it enough for our worthy M. D., to draw unto himself the custom of former physicians, but think it rough when he reaches out and draws in the drug shop also. Come now brother, be content with what you have, and divide up on last Tuesday nights profits.

The peach predictor is around, and as usual is doing all he can to discourage the farmers, fearing the frost or cold weather will not kill them, they now predict the yellows will also! what timid mortals we are; always borrowing trouble, before there are indications of trouble ahead.

Jack, the celebrated marksman of North Rock Hall, is meeting with much success in the line of canine shooting. Ben must take second place now as Jack can hit everytime.

The schooner Marie Westcott, belonging to Earle R. Strong and commanded by Capt. James Dolan, which blew ashore on Wickes' Beach, Chester river, Tuesday night, Feb. 10, was floated off the following day, with very little trouble, and no damage done to the vessel.

Grim monster death has again broken into the ranks of the citizens of South Rock Hall, and selected for his victim Mr. Thos. S. Coleman who has been sick for about three months.

Prof. Sullivan with his minstrels has struck this place twice during the past week, he was greeted with a crowded house on each occasion, he thinks this the grandest village in his travels, money being more plentiful than any other place at which he has exhibited.

The pungy Joe Bilmyer, Capt. Charles Stevens, left Messrs. Geo. E. Leary and Son's lumber mills at Grey's Inn Creek, Wednesday, Feb. 11, for Baltimore, with a load of walnut timber. It is to be shipped from Baltimore to Germany.

BISHOP J. N. FITZGERALD is a warm advocate of the admission of women to membership in the General Conference. "Let us have," says he in a recent letter, "equal rights in fact as well as in theory. Let us open every door to women. That she is competent to be president is evident, from the fact that she grandly rules as queen."

BALTIMORE MARKET.—The Baltimore papers of yesterday quote as follows:

WHEAT—Longberry, good to prime, 99c@$1.08.
CORN—White and Yellow, 60@61c.
OATS—48@51½c.

MARRIED.

MONEY TO LOAN!

OWNERS OF REAL ESTATE in need of money, should examine the plan of loans of the "CHESTER LOAN ASSOCIATION," of Chestertown, Maryland, which loans money on mortgage security at six per cent. per annum, and accepts payments of both principal and interest in weekly, monthly, quarterly, semi-annual or annual instalments in advance as may best suit the convenience of the borrower.—The easiest way to pay a debt, is in frequent small payments as the money happens to be in hand, and the business methods of this association are worth examination by Farmers, Merchants, Mechanics and others who are in debt and desire to pay off, or who wish to purchase a home at a cash price and pay for the same in easy instalments.

It also offers all the advantages of a SAVINGS BANK, where deposits may be made weekly or monthly in sums of fifty cents and upward, which has in the past paid nearly six per cent. interest to the depositor. For further particulars consult in person or by letter HARRY RICKEY, SEC'Y, CHESTERTOWN, MD.

FREDERICK FOUNTAIN,

Agent for R. J. BAKER & CO.,

—MANUFACTURERS OF—

HIGH GRADE FERTILIZERS,

BALTIMORE, MARYLAND.

As the season for planting approaches it behooves the farmer to exercise great care in the selection of Fertilizers suitable for their various crops. Special Fertilizers for all crops are claiming general attention; no one Fertilizer will suit every plant. We have Fertilizers suitable for any and all crops. Conscious of the merits of our goods, and gratified, too, for the liberal patronage bestowed upon us in the past, we can, with confidence, offer to our customers and the public generally our carefully prepared brands of

Ammoniated Bone Superphosphates,
Corn and Oat Phosphate, Peach Tree Phosphate,
Asparagus Phosphate, Truck Phosphate,

and in fact anything farmers may want in the form of Fertilizers or Fertilizing Material, we can supply at Bottom Prices. Orders solicited. We do not publish certificates, our goods speak for themselves. Correspondence by mail promptly attended to.

FREDERICK FOUNTAIN, Agt.,
Feb. 14, 1891. Chestertown, Maryland.

THE FRUIT GROWER!

A FEW WORDS TO SENSIBLE PEOPLE.

AS THE WORLD grows older and the people wiser, there is a growing demand for a better and more perfect quality of goods of all kinds. The people today are not content with the manner in which their ancestors fertilized their orchards, but are striving to reach the heights of perfection.

THE PEACH IS of Asiatic origin, was introduced in this country in 1635, and in 1796 the yellows made their first appearance near Philadelphia. Subsequently large orchards were planted for profit, then for years fertilized with barnyard manure, but it was found that in this way the orchards abounded in weeds and insect.

THEN THEY TRIED a Peach Tree Phosphate in which acid was used to make it available; this was also found detrimental, as several years' application of an acidulated goods caused the trees to deteriorate, leaves twist up and turn yellow. Thus was seen the necessity of a non-acid goods, and ground bone was resorted to; this was good, but slow in action.

FINALLY T. R. Hubbard & Son offered O. B. Guano, a natural bird manure found in the West Indies, and introduced here after their senior's return from that place in 1882. This goods is the base of their Fruit Grower. In appearance it is like old Peruvian. In analysis it runs higher than dissolved animal bone. In action has eclipsed all competitors. In sales more than any other Peach Manure.

THEN TAKING into consideration the quality, price, guarantee, our success, satisfied patrons, increased trade, our reputation, together with the fact that you have this season the prospect of a crop, we think further comment from us unnecessary, as a trial will convince you that the goods speak for themselves.

Pomona, Kent Co., Md., Jan. 4, 1891.

MESSRS. T. R. HUBBARD & SON—Gentlemen: The seven consecutive years' use of your FRUIT GROWER has thoroughly convinced me as to its merits. Years ago, when Colonel Wilkins lived, and we farmed together, we used almost everything as a Peach Manure, but your O. B. is the best I ever tried. On the Island Farm, where 14 tons of FRUIT GROWER were used in 1888, on two-year-old trees, we had in 1889 6,000 baskets, on the other farm we only had peaches where the trees had been fed. I invariably have had fruit in the past by fertilizing my trees, and I believe, in order to have fruit, that is the way to do it. Very truly yours, JOHN A. GROVES.

Anne's Hermitage, Q. A. Co., Nov. 11, 1889.

GENTLEMEN:—In the spring of 1887 we had an old orchard which had not been for several years and which the tenant was anxious to dig up. I said, give it another year's trial. We used your Peach Tree Fertilizer, about 225 pounds to the acre. That year the orchard netted us about $1.00 per tree. We had a fair crop and got as high as $3.00 per box for some of them. We used your goods on the same orchard in 1888 and got a very full crop. We used it again last spring, applying about 250 pounds to the acre, and for the third successive year got a fair crop, and the fruit was generally of fine quality. The orchard will be 17 years old next spring, and it now looks healthier and more vigorous than it did five years ago. Very truly,
CASPER G. WOODALL.

We have on file at our office 263 Testimonials and References concerning Fruit Grower. Please call or send for some regular circulars concerning.
