DOES KENT COUNTY WANT TO BE LEFT OUT?

Does old Kent want the records of her boys in the Army and Navy left out of the Maryland History?

The Maryland History is being written now.

Many of the boys of the other counties of the State have given the records of their war service to the historical committee.

"Kent County is far behind."

A new Historical Committee has just been formed in Kent.

We want the name of every boy who went into the war from this county to be written in this history.

The History will be published soon.

Will your name be there?

If your children or grandchildren look over this history and your name is not there, they will be ashamed and say my father or grandfather was a slacker. You owe it to your family to write your war service in this book.

We want the names of all the men and women, who stayed at home, and worked hard for the war, to go in this history also.

Think about what you did to help win the war.

We will call on you for this.

HISTORICAL COMMITTEE.
