WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOUSIGNONT, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

His boil vanishes when mother applies Continental Ointment. The sure treatment for cuts, bites, bruises, burns, scalds, sunburn, eczema, sore throat, sore gums, etc.

INSURE YOUR PROPERTY
—IN—
The Mutual Fire Insurance Co.
OF KENT COUNTY.

During the past 13 years it has paid to its policy holders for fire losses $80,000.

During the same period it has returned to them in settlement of policies $65,000.

Has now to their credit over $70,000.

The books of the company show that at the present the savings from insurance when policy was taken out in the years mentioned below to be as follows:

1896.....Savings from 50 to 55%
1899.....Savings from 50 to 60%
1900.....Savings from 45 to 50%
1905.....Savings from 60 to 65%

Last year the cost of insurance was only about one-half of payments made.

Applications for INSURANCE can be made to

The Beautiful And Imposing Kent County Savings Bank Completed And Open For Business—An Ornament to the Town And a Credit to the Institution And Builder.

Thursday, September 1, 1910, the magnificent new Kent County Savings Bank was turned over to the institution's officials and opened to the public for business. The completion of the building has been anxiously awaited for some weeks and will be warmly welcomed to an appreciative community.

The new structure is of brick and Indiana limestone front and is a handsome example of classic architecture in the Roman Doric style, embodying all the elements of dignity, security and solidity. It is a modern one-story bank building of the semi-fireproof type; that is to say, those parts of the building that are most likely to endanger the building by fire are protected with fireproof construction of the reinforced concrete system, with a frontage of 27.4 and a depth of 64.8 feet.

The building is constructed of dressed granite, Indiana limestone, brick, steel and concrete. The entire front is faced with selected Indiana dressed limestone, except the entrance steps, lamp blocks and base to the building, which are of dressed granite. The side walls faced with gray brick and trimmed with stone to harmonize with the front.

The bank is entered through a handsome and spacious and carved stone entrance, protected by a pair of massive sliding doors 3½ inches thick, enriched with ornamental wrought iron grilles, having a plate glass door hinged back of them. Two very handsome iron lamp posts, with large glass ball tops, flank the entrance on either side, back of which on the massive stone piers are fastened two bronze tablets each bearing the name of the KENT COUNTY SAVINGS BANK.

The floor of the public space is of large marble laid out in geometrical patterns. The counter screen is unusually striking with its finely proportioned paneled columns dividing the tellers' windows, which is filled in with ornamental wrought iron grilles, supported on a base of paneled quartered oak of pronounced grain; the deal plates at the tellers' windows are of finely polished Verde Antique marble.

There is a paneled quartered oak wainscoat all around the walls of the public space, supported on a base of polished Verde Antique marble. Two heavy plate glass check shelves, supported on ornamental wrought iron brackets, are conveniently located in the public space for the use of the patrons.

To the right of the tellers' windows, and accessible to the public, is the cashier's room, enclosed with panel oak and plate glass screen to match in character the counter screen, which it adjoins. This room is also wainscoted with quartered oak.

At a distance of about fourteen feet back of the counter screen and directly in front of the main entrance is located the vault, a formidable structure of concrete, heavily reinforced with three rows of burglar-proof steel. The walls, floor and roof are constructed in the same manner, and represents a construction that is recognized by vault engineers as the highest type of vault building and absolutely impregnable to cracksmen. The vault is equipped with handsome burglar-proof doors with time lock, compressor system, and heavy crane hinge. The vault is 7x8 feet inside and lined with heavy burglar-proof steel. There will be safe deposit boxes on the inside of the vault for the use of patrons.

As a further safeguard to the funds of the bank, a strong burglar-proof chest is placed in the money compartment; steel filing shelves will be placed in the vault. The floor is finished with vitrified tile and the walls and ceiling painted in colors to harmonize with the interior color scheme of the bank, the whole presenting a vault equipment as secure and complete as any vault in the State.

Back of the vault, separated by a wide passage, is the large and commodious Directors' Room, fitted up in selected quartered oak, with panel wainscoting all around the room and a well-proportioned plaster cornice at the intersection of the walls and ceiling; a handsome mantel, with Verde Antique tile hearth and facings decorate the west wall of this room. The directors' table and chairs were made to order from designs by the architect, thereby insuring perfect harmony throughout, while the furnishings of oriental green rugs and portiers or curtains complete the whole in a most elegant manner. Adjoining the directors' room is a finely appointed hat and coat room for the directors, having a door leading to the lavatory. This room is fitted with the most modern plumbing, all exposed piping being of brass nickel plated. The floor is tiled as well as the side walls.

Over the directors' room in the mezzanine story is another large room separated from the main banking room by a beautiful partition of quartered oak columns with art stained glass panels between which is presented a striking and interesting background to the large banking room.

Special attention has been given by the architect to the spacing and size of the windows to insure a perfect lighting and ventilating scheme. The coloring of the side walls and ceiling also being carefully studied to not only give a perfect harmony of color but a treatment that will be restful and pleasant to the eyes; the ceiling of the bank is twenty feet high and enriched with ornamental plaster beams dividing the large ceiling into well-proportioned panels.

The New Fall Models of The "Housewife" Corset Are Ready - - - $1.00

Better than ever—we have learned to put into these corsets even more than the big dollar's worth which we have been giving.

Housewife Corsets are the best all-round corsets made—equally adaptable for dress or working corsets.

The ordinary dress corset is **not** a good working corset--it is too stiff and it is very likely to bind under the arms.

The "Housewife" is built to avoid this. It is firmly but flexibly boned--and it is cut low under the arms, giving absolute freedom while sweeping, dusting or performing other household duties. It requires no "breaking in"--from the first moment you put it on it is as comfortable as an old corset, and yet its lines are so graceful that your best suit or costume will look its best when worn over a "Housewife."

Fall models in fine coutil—white or drab—double boned—with hose supporters attached—all sizes from 18 to 30.

$1.00—and it will outwear two pairs of the average dollar corset.

WE Prepay freight on all orders of $5.00 or over, within a radius of 200 miles from Baltimore ::
