Bubbling with comedy--yet fraught with pathos. You will find it the ultimate of the comedy drama. A picture of tenderness, laughs and thrills.

THE BILLBOARD in reviewing "Molly 'O" when presented in New York says: "Molly O" is a bromide of joy. The big picture came to town tonight and won New York by a greater plurality than was accorded Mayor Hylan in tho recent election. The packed theatre resembled the Peace Conference, with as unanimous agreement as to the tremendous success scored by Comedienne Mabel Normand."

Think What It Means

One man or boy can do in two days with a Fordson as much as a man can do in 6 days with three mules. Fuel cost per day $2.25. Overhead cost per year—for fuel, repairs and depreciation—not to exceed overhead cost of 2 mules.

Are The Results Worth Comparing?

COST OF 3 MULES, $600		COST OF TRACTOR, $395	
Operating Cost of 3 Mules per Year		Operating Cost of Tractor per Year	
Feed and medicine 40c per day each 365 days (not including attention)	$438.00	Fuel and oil—25 days	$62 50
Depreciation, 10% .	60.00	Depreciation . .	50.00
Interest on Mules .	36.00	Repairs for year .	50.00
	$534.00	Interest	24.00
			$186.50

Operating costs for the next 12 months will determine the profit made by you. The fellow who realizes greater production at reduced costs will make some money, and the one who follows the lines of grandfathers will begin to think.

Over $200,000 Fordsons are in the field to-day. Ask any owner which is cheaper—mules or Fordson. A $395 Fordson against 9 mules and three men per day. Is there any real comparison for economy?
