
THIS HOARD WOULD HAVE DOUBLED IN VALUE—

Deposited in this bank at 4 per cent interest, the hoarded money which has been lying idle for years would have doubled in value instead of merely accumulating dust and cobwebs.

Happily not many persons today actually hoard money with the belief that it is safe from theft or accident.

Money need not be buried in old walls or cellars to be hoarded. It is **hoarded** money if it is idle money, useless money.

The safest way to make your money work for you and the community is to deposit it in the bank, where it is safe, draws interest, and helps build up the local community, thus enhancing the value of your property.

Our officails are business executives and can help to make your money work more profitably for you. Consult them without obligation.

Use the Latest Telephone Directory

It is important that you ALWAYS REFER TO THE LATEST ISSUE OF THE TELEPHONE DIRECTORY WHEN MAKING A CALL. A wrong number delays the caller, annoys the person called and retards the service.

ONLY THE NEWEST DIRECTORY SHOULD BE KEPT BY THE TELEPHONE. This will prevent the calling of wrong numbers by consulting an out-of-date edition. If the old directory is not collected, it should be destroyed.

If you should require another copy of the latest directory because of the loss or destruction of the one originally delivered, please telephone our Business Office and ONE WILL BE SENT PROMPTLY.

It will help your service and prevent delay and annoyance if these simple suggestions are observed.
