Manure Spreader Talk

IT IS A FACT that the Manure Spreader is here to stay just as much so as the binder, the farm wagon or the plow. Therefore, it is necessary in the purchase of a Spreader to try and get the best. After carefully going over various makes we believe we present the leader in machines of this kind when we offer the

Corn King

The main frame has two substantial side sills and five cross sills. This material is all air dried which gives it longer life.

The frame is well braced, each cross sill is strengthened by a steel truss rod which acts as a brace in center of sill and prevents sogging.

The apron on the Corn King Spreader is of the return tyre—that is, as it delivers the load to the beater and it folds back under the spreader bed on steel track. When the entire load is fed out it throws itself out of gear and is then returned to the loading position by means of a clutch.

Further information can be had from our Catalogue which is FREE for the asking.

FAIRFIELD'S FEED BLOOD TONIC POWDERED

A SEPARATE PREPARATION FOR HORSE, COW, HOG AND POULTRY

GREATEST KNOWN BLOOD PURIFIERS

The working capacity of any horse can be practically doubled by feeding FAIRFIELD'S BLOOD TONIC for HORSES regularly. It exterminates worms, builds up the health and saves feed.

The farmer that sowed wheat all over his farm and expected to reap a crop of wheat, oats and corn from same, would be more foolish than the man who feeds his horse, cow, hog and poultry from the same package of Condition Powder and expects to get results. The intelligent farmer feeds FAIRFIELD'S, because there is a separate preparation for each kind of animal.

THE FAIRFIELD PREPARATIONS ARE SOLD UNDER WRITTEN GUARANTEE BY

The Kent County Savings Bank

is a vigorous and well established concern, and has perfected an organization that is SAFE, SOUND and SUCCESSFUL.

In the field of liberal and careful banking this institution has had an experience of seventeen years; and from being a pioneer in the matter of paying interest on deposits, it has today become a veteran.

With the confidence born of such a policy we without hesitation solicit your account, feeling satisfied that it will be to your advantage to belong to a progressive bank like this and awake to the possibilities of the future.

We take any amount, large or small, and extend the same courtesy to all.

BOIL YOUR DRINKING WATER.

This is the season of the year when typhoid germs are lurking around, and we advise the boiling of all drinking water, both in the town and county, as a preventative from that source. We also advise our dairymen to make frequent analysis of their milk, and all housekeepers to keep their houses as free of the dangerous house-fly as possible. To our minds it is the house-fly that is more to be feared than anything else in the spread of disease, and we advise everybody to be careful as possible in these extremely warm days.

TO CHESTERTOWN WATER TAKERS

Next Wednesday morning from 7 to 11 o'clock water will be shut off of Chestertown mains on account of repairs. Householders should bear this in mind.
