Frank and Edward Jackson, of North East, have given Wingate Post, G. A. R., of that town, a mast to replace the one that fell from the flagstaff in the Grand Army lot in the North East Methodist Cemetery.

Papers, incorporating the Gazette Publishing Company, have been filed in the Clerk's Office, Easton, Md. The incorporators are Aloysius Coll, Harry C. Monroe, A. F. Grace, R. R. Walker, J. F. Clark, and Thomas M. Bartlett. The plant has been purchased of Wilson M. Tylor.

Mrs. Lela Love, wife of Wiley Love, a farmer living near Covena, Ga., says: "I have taken Foley Kidney Pills and find them to be all you claim for them. They gave me almost instant relief when my kidneys were sluggish and inactive. I can cheerfully recommend them to all sufferers from kidney trouble. Sold by C. H. Redden, Denton.

About forty-seven years ago Thomas and M. B. Nichols went blackberrying and made some money, which they prudently saved by placing in a purse and hiding in the wall of their home on Glenwood avenue. They very promptly forgot all about their money until this week, when in tearing down a portion of the old building the purse and money were found. There were two old-style nickels, four 10-cent and two 20-cent paper pieces, known then as "shin plasters."—Star-Democrat.

The "Boy Scout" movement is growing with flattering results and much enthusiasm. This movement which is to interest the boy in wholesome pleasures and enjoyments and to teach him the better and substantial things of indoor and outdoor life, to love nature and to aid them in the right trend of life, deserves the fullest measure and support of parents. It is a nonsectarian movement aimed to keep the boys off the street and out of mischief and to teach him to make life worth while. The "Boy Scout" cannot be too highly appreciated in a community.

Some of the other towns of Sussex county are expecting in a short time to fall in line with Georgetown and Laurel in the passing of ordinances prohibiting the sale of cider. With the advent of local option in that county, old Sussex "apple jack," which was made from the juices of the delicious apples, grown in the orchards of that county, came to an end, for no longer did its distilling prove a profitable business, and now with the passing of ordinances in the different towns that cider cannot be sold, the manufacture of drinks from the apple is fast getting to be a thing of the past from a pecuniary point of view.

Frederica Commissioners have rejected the water main system just finished in that town. They state that the work is defective in addition to being several months later than the franchise granted. The streets have been left in a miserable condition and the people generally are thoroughly disgusted.

Love Point was the mecca Thursday of bank officers and clerks and their wives, sisters and sweethears, three steamers bringing the excursionists from Baltimore and Annapolis to to the Kent Island resort. The occasion was the annual excursion of the Baltimore Chapter, American Institute of Banking, and about 1800 people visited the resort during the day.

Smyrna is to have another County Fair this year on July 2, 3 and 4. This splendid and delightful institution, which was inaugurated several years ago, under the auspices of the club women of Smyrna, and which has been given to large crowds and with much success at every 4th of July occasion, promises to be given this year with just as spicy a program.

Seaford cans more peas every year than are canned at any other place in the world. From a small beginning a few years ago the industry has grown until now there are two large well equipped factories there owned and operated by Greenabaum Brothers and E. C. Ross, giving employment to a large number of people, and during the height of the season run night and day.—Ex.

Two Parrot muzzle-loading cannon used during the Civil War have just been mounted in the Soldiers' Park, Wilmington. Heavy concrete foundations were laid and steel frames placed in them on which the cannon rest. The pieces were painted black One points toward the east and the other toward the south. They were the gift of Eugene duPont, having been in the keeping of the duPont Powder Co. for several years.

The first soft shell crabs of the season were caught in Chester River last week.

By an amendment to its charter, Rising Sun will get $400 a year from Cecil county.

Aberdeen Presbyterians will replace their church with a $20,000 stone structure.

Centreville Council has decided upon a speed limit of ten miles an hour for automobiles.

While operating a corn-cutter on Saturday, Herbert McCleary of Morgnec, cut off his right thumb.

The Wicomico County Fair will be held at Salisbury, Md., August 13, 14 15 and 16, practically the same as last year.

The Old Field Point light, along Elk River, which was carried away by ice last winter, has been rebuilt and relighted.

Commencement at Hurlock.

The commencement exercises of Hurlock High School will begin Sunday morning at 10.30, June 2nd, when the class will assemble at Unity M. P. Church, and listen to the baccalaureate sermon preached by Rev. Wilmer Jaggard, of the Preston M. E. Church.

On Monday evening, June 3rd, the annual declamation contest will take place. The judges have been selected from the faculty of nearby high schools. The contestants represent the junior and senior class of the academic department.

On Tuesday evening, June 4th, the Senior class will entertain the public with the past and present history, and the prophetic future of the class with their class night exercises.

On Wednesday evening, June 5th, the commencement proper will be held in the Washington M. E. Church. The address to the class of graduates will be delivered by Dr. C. T. Wyatt, of Cambridge, Maryland. The class roll and the graduating essays are as follows:

Elsie Leverton Deane, "The Trend of Education."
Oscar Linwood Lewis, "Reliability."
Hubert Cooper Harper, "To be Rather than to Seem."
Mary Edna Hubbard, "Poe, The Maryland Poet."
Helen Marie Smith, "Industrial Education."
Millard Franklin Stevens, "The Ideal Business Man."
Lillian Elizabeth Tubman, "Education for Business."

For Safety on Bay Boats.

The B. C. & A. Ry., was represented at a conference in Washington last week with the Secretary of Commerce and Labor, as to the need of additional life-saving apparatus. It had been suggested that they ought to be required to have equipment for life saving similar to that required on ocean-going steamers. Against this many of them protested strongly. The steamboat officials objected generally to any regulation that would require them to provide more life boats and life rafts. They pointed out that the decks of their vessels are now crowded with such equipment and that to require more would be a hardship. They suggested that an ample supply of life preservers of the Government standard be insisted upon, and they thought this would be sufficient protection.

It is stated that all inland water transportation was carried on within a short distance of land. Vessels traversing Eastern waters have short runs and are nearly always near shore.

The result of the conference will probably be a reclassification of all steam vessels, those going far from land and having long runs being required to provide additional life-saving equipment, while such vessels as the Chesapeak Bay steamers being allowed to go on as at present, except that the inspection made be made more exacting.

Great Shooting.

Alden B. Richardson, of Dover, son of Senator Richardson, won a remarkable match for the Class A challenge cup on the grounds of the DuPont Gun Club Saturday. He successfully defended the trophy. His opponent was J. H. Minnick of Wilmington, who has lately been shooting in great form. Althoug the conditions govering the prize called for two events of twenty-five targets each, it was necessary for each man to shoot at one hundred targets before the event was decided The final score was: Richardson, 98; Minnick, 94.

The contest was a great display of marksmanship throughout. At the end of the first twenty-five Richardson had a straight score and his opponent made 24. At the end of the second twenty-five, conditions were reversed, This made the score: Richardson, 49; Minnick, 49.

In the shoot-off at twenty-five targets the men again tied, each missing one. On the fourth round of twenty-five, Richardson made a straight score and Minnick broke 21. This decided the match.

A CARD

This is to certify that Foley's Honey and Tar Compound does not contain any opiates, any habit forming drugs, or any ingredients that could possibly harm its users. On the contrary, its great healing and soothing qualities make it a real remedy for coughs, colds and irritations of the throat, chest and lungs. The genuine is in a yellow package. Ask for Foley's Honey and Tar Compound and accept no substitute. For sale by C. H. Redden, Denton Md.

45 MILES AN HOUR.

Adolph E. Apel has uncovered another racing marvel. It is a twenty footer, and in a trial covered a straightway course of one mile in one minute and nineteen and one-half seconds. This gives the speedster a total of 45 miles and one-quarter per hour, which is over nine miles faster than the Sand Burr II, which won the world's title in the twenty-foot class last year.

The new boat, which is to be known as the "Sea Rabbit," was ordered by Capt. W. L. Barret, of Cambridge, Md., but it is understood that he is acting for a prominent Philadelphia yachtsman. Builder Apel will not divulge the name of the real owner until he is ready to finally turn it over.—Atlantic City Review.

Civil Service Examination.

An examination for clerk and carrier will be held at the post-office in Cambridge on June 15, 1912. Age limit 18 to 45 years, on the date of the examination. Married women will not be admitted to the examination. This prohibition, however, does not apply to women who are divorced or those who are separated from their husbands and support themselves, but they are eligible for appointment only as clerk.

Applicants must be physically sound and male applicants must be not less than 5 feet 4 inches in height without boots or shoes, and weigh not less than 125 pounds without overcoat or hat.

For application blanks and for full information relative to the examination, qualifications, duties, salaries, vacations, promotion, etc., address immediately, Mr. Alfred Stewart, Secretary, Board of Civil Service Examiners, Post-office, Cambridge, Md.

Rev. J. M. Arters Injured.

As Rev. John M. Arters, of Middlesown, well-known in Smyrna and Greensboro was driving in a wagon a few days ago about three o'clock with a colored boy, going to the creamery, some thoughtless young men began tooting the horn of an automobile standing in front of the Smyrna garage. This frightened the horse and he started to run. The driver might have gotten the animal under control, but the practical jokers kept the tooting up, and the horse, now thoroughly scared, ran away furiously, and, as Mr. Arters attempted to turn him out of the street to prevent his running on to the railroad track, both he and the boy were violently hurled to the ground. Mr. Arters was thrown eight or ten feet, bodily, alighting on the left side, injuring the left hand and lacerating his forehead and face badly. He was knocked senseless, and didn't regain consciousness until after he had been lifted up and conveyed in an automobile to his own residence, undressed and put to bed by the doctor and others. Mr. Arters is a retired Methodist minister, 74 years old, and though severely injured the doctor in attendance expects a recovery unless some internal injury was received by the patient in his fall. He complains of considerable pain in his side. The boy received comparatively little injury and the team continued for about two miles south, where it was found by Mr. McWhorter, who went to hunt it in his automobile.—Smyrna Times.

Record Time Building a Church.

On May 1, on a lot in Spartanburg, S. C., which at dawn had been vacant, the Bethel Methodist Church, a neat edifice with a seating capacity for 800 persons, stood that same night, having been erected, painted, papered, furnished with pews and altar, and equipped with electrical and plumbing fixtures, between the rising and setting of the sun. The feat was performed in the presence of 18,000 persons, while the band played lively airs and moving picture men reeled off thousands of feet of films. One hundred and twenty workmen were engaged in the task of erecting the building. Rev. J. W. Speak invoked the divine blessing on the enterprise at six o'clock a. m. Major A. H. Kirby, eighty-three years old, drove the first nail as the carpenters started. The church was dedicated the same evening. A two weeks' revival followed the dedication exercises.

It is said that the Methodist Episcopal Church builds two new churches every day in the year, and other denominations are equally diligent in church extension work.

At Rehoboth.

The minstrel show and dance given by the Rehoboth Athletic Association Wednesday evening of last week was very successful. Many out of town guests were in attendance and the boys will net enough money to provide the base ball club with uniforms. The association intends to have a first-class base ball team in the field about the 15th, when they expect to meet and vanquish all comers. They have a fine diamond on the new race track, and with Mr. Ewing's help, feel sure they will be very successful.

Charles S. Horn has about completed interior improvements at the Pavillion on the boardwalk. The main room has been extended about thirty feet and a new section added to the ice cream parlor. The decorations are in accord with Mr. Horn's usual judgment, and are very handsome and appropriate.

On Monday of last week the M. D. & V., Railroad started its summer train service. Better late than never. But this train service should be given us during the entire year.

Soft shelled crabs are very plentiful and the price has fallen to twenty-five cents per dozen. The supply has simply glutted the market and they can be bought for almost any price.

Rev. R. H. Adams, of Shaptown, Md., is here making extensive improvements to his Baltimore avenue cottages.

Mr. Walter Burton is making extensive repairs to the Henlopen Hotel and will open the hotel for guests June 15.

Man Coughs and Breaks Ribs.

After a frightful coughing spell a man in Neenah, Wis., felt terrible pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonsful ends a late cough, while persistent use routs obstinate coughs expels stubborn colds or heals weak, sore lungs. "I feel sure its a God-send to humanity," writes Mrs. Effie Morton, Columbia, Mo. "for I believe I would have consumption today, if I had not used this great remedy." Its guaranteed to satisfy, and you can get a free trial bottle of 50-cent or $1.00 size at all druggists.

Canned Water an Adulterant.

The addition of water to canned products will be considered adulteration in the future, except in those cases where a certain amount of water is required for the sterilization of the product, according to a pure food decision signed Monday by Secretary Wilson, of the Department of Agriculture. This law will effect every canner on this Peninsula as well as all parts of the United States. The can in canned fruit products serves not only as a container but also as an index of the quantity of food there," the decision says. "It should be as full of food as is practicable for packing and processing without injuring the quality or appearance of the contents. Some food products may be canned without the addition of any other substances whatever; for example, tomatoes. The addition of water in such instances is deemed adulteration."

THE BEST PROOF.

Given by a Denton Citizen.

Doan's Kidney Pills were used—they brought benefit.

The story was told to Denton residents.

Time has strengthened the evidence.

Has proven the result lasting.

The testimony is home testimony.

The proof convincing.

It can be investigated by Denton residents.

L. W. Sparks, printer, Main St., Denton Md., says:

"In a public statement I gave over a year ago I told how I had been cured of symptoms of kidney complaint by Doan's Kidney Pills. Today I willingly confirm my former words of praise, and can say that my cure has been permanent. I have not suffered from backaches or other symptoms of kidney complaint for some time. I am always willing to say a word of praise for Doan's Kidney Pills."

If your back aches-if your kidneys bother you, don't simply ask for a kidney remedy-ask distinctly for Doan's Kidney Pills, the same that Mr. Sparks had-the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

Hole in the Titanic Model.

A large crate stood on White Star Pier 61 awaiting shipment to England on the Adriatic. It contained a thirty-foot model of a giant ocean liner, and cost $16,000 to build, but it is not of any use for exhibition purposes now. It was a model of the Titanic. This replica is an exact duplication of the sunken leviathan down to the minutest detail. It was sent to this country to be exhibited as a specimen of the unsinkable ship. There is one strange coincidence about the model. There is a large rent at the bow, from keel to uppermost deck, similar to the one that sent the Titanic to the bottom. Also there are davits for twenty lifeboats, but only twelve boats are shown.

They Put An End To It.

Charles Sable, 30 Cook St., Rochester, N. Y., says he recommends Foley Kidney Pills at every opportunity because they gave him prompt relief from a bad case of kidney trouble that had long bothered him. Such a recommendation, coming from Mr. Sable, is direct and convincing evidence of the great curative qualities of Foley Kidney Pills. For sale by C. H. Redden, Denton.

A Summer School.

A Summer School offering courses in Methods of Teaching and in all subjects required for a Primary and Kindergartner's and an Elementary Certificate, will be conducted this Summer in Georgetown, Del.

It will continue five weeks beginning Wednesday, June 26, and closing on Tuesday, July 30. The sessions of the school will be held in the Georgetown Public School.

The school will be conducted by Prof. E. J. Hardesty, Superintendent of Schools in Sussex county, and by Prof. Geo. S. Messersmith, Secretary pro tem. of the State Board of Education. The instructors, in addition to the managers, will consist of a teacher in Methods of Teaching and School Management, and one in Music and Drawing. A strong effort is being made to secure Miss Adams, Supervisor of Primary Grades, Reading, Penna., as instructor in Methods of Teaching. Miss Adams has a wide reputation as an exponent of advanced and sane primary methods, and her services are in great demand for summer school work. The teacher in Music and Drawing is a graduate of Cornell University as well as of the Training School in the same institution.

Ends Hunt For Rich Girl.

Often the hunt for a rich wife ends when the man meets a women that uses Eelectric bitters. Her strong nerves tell in a bright brain and even temper. Her peach-bloom complexion and ruby lips result from her pure blood; her bright eyes from restful sleep; her elastic step from firm, free muscles, all telling of the health and strength Electric Bitters give a woman, and the freedom from indigestion, backache, headache, fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50c at all druggists.

Frank Baker Indeed a Star.

The Outing Magazine for June contains an intensely interesting sketch on the hard job of the base ball star, in which it is shown that the base paths are not strewn with roses. The author has this to say about Frank Baker:

"Now we shall see the new-born star, the man who beat New York in the world's series last autumn. Of course you know him—J. Frank Baker, the heavily-built six-footer, who, when he wasn't taking Giant spikes at third base, was smashing the curves of their best pitchers to the distant fences. You know, too, that he became a star after pounding Marquard's fast ball far over the fence at Shibe Park and the ver next day smashing Mathewso "fade-away" into the right wi the grand stand at the Polo G He was indeed a star. T papers carried his pho the first page. Sob-sist and told how the gree married the sweethea hood days down at land, where the co with peaches and atrical men came booking on the v was a star."

ROAD NOTICE.

We, the undersigned, citizens and taxpayers of Caroline County, State of Maryland, do hereby give notice to the public that, after the expiration of thirty days, accounting from the 9th day of May, 1912, to wit: on Tuesday the 11th day of June, 1912, we intend to petition the County Commissioners of said Caroline County, to locate and open a public road in the Third Election District of said county, to run one of the following routes:

FIRST ROUTE—BEGINNING on the county road leading from Wesley Church to Anthony's Mill, where the lands of Mrs Sarah Jones and the Jack Satterfield or Wilhelm farm corner, and also intersect the lands of Mrs. Lillie B. Fulton; from thence runs a northerly direction across the lands of the said Lillie B. Fulton, the lands of William T. Beauchamp, the lands of Joseph Hummell and the lands belonging to Caroline County, until it intersects the county road leading from Burrsville to Anthony's Mill, at a point about one-quarter of a mile from the colored school house.

SECOND ROUTE—BEGINNING at the same point as above, and running in a north-westerly direction along the division line between the lands of Mrs. Sarah Jones and the lands of Mrs. Lillie B. Fulton until it intersects the lands of William T. Beauchamp, thence in a northerly direction across the lands of the said William T. Beauchamp, the lands of Joseph E. Hummell and the lands of Caroline County until it intersects the county road leading from Burrsville to Anthony's Mill.

All persons having objections to the locating and opening of said public road are hereby notified to present the counter petitions to the County Commissioners of Caroline County, as required by law.

Signed ...
