EDITORIAL NOTES.

The canvas for the gubernatorial nomination next year may be considered formally opened in this State, and promises to be unusually vigorous upon the part of the Democratic aspirants. Although the convention is yet more than a year distant, there are five candidates in the field, Hon. James Hodges, of Baltimore, Col. John Walter Smith, of Worcester, Hon. Murray Vandiver, of Harford, Hon. Spencer C. Jones, of Montgomery county and Governor Brown, who has announced his determination to ask for an indorsement in the shape of a renomination. The Governor is known to be an active fighter in politics and his rivals will doubtless appreciate his fighting qualities and meet him upon common ground. It is not an easy matter to analyze the elements of strength of the various candidates, or predict the outcome of the contest, but of one thing we are sure, that the State would have an excellent Chief Magistrate in the person of any one of the gentlemen above mentioned.

The Centreville *Record* says: "It is likely that Queen Anne's will present a candidate and her sister counties of the district should honor the political draft. The Democratic people of the county are entitled to be heard from before the nomination. Heretofore it has been after the day of election, now it will be before the Ides of November." All the counties are bringing out candidates, and before the meeting of the convention each will have one or two aspirants. But we have hope that when our political friends give due consideration to the subject they will readily accord the honor to a Caroline man. Our claim is by many years the oldest and therefore most just.

It is said, on the authority of the State Department at Washington, that affairs in Hawaii are settling down, after much disturbance. That unhappy little country has been greatly agitated ever since its government was overturned. The prospect of a return of peace is welcome news in the United States. The people of this country were not particularly proud of the part this Government took about two years ago in bull-dozing the peaceful and prosperous little islands of the Pacific.

A recent edition of *Puck* paraphrases the old song about "The Man Who Broke the Bank at Monte Carlo," and prints a counterpart of that worthy who accomplished a much greater feat and broke the bank of Uncle Sam. The man who did it is appropriately named "Pension Fraud." And the worst of it is he has a lien on the public treasury which will keep it "broke" for many years to come.

Collector Shaw on Tuesday appointed Mr. J. Thos. C. Hopkins deputy collector to succeed Mr. Geo. C. McComas. Mr. James A. Diffenbaugh was named as special deputy, and will act in the place of the collector whenever the latter is absent and will have a general supervision over the custom house. State Senator Newman, of Frederick, has been appointed cashier.

When Sub-Treasurer Wellington took charge of the office—a little over four years ago—he received seven millions of dollars in gold from his predecessor. This sum has constantly fallen off, and now as he is about to go out of office there is less than two millions left. The quantity of gold held in the Baltimore sub-treasury is now less than it has been for many years.

The heavy and continued rains of the past two weeks have been disastrous to the strawberry crop of the peninsula, yet very little other damage has been done. Thus when we read of great damage from the deluges in other parts of the country we may congratulate ourselves on our good fortune.

The Department of Agriculture has published a circular stating that the seventeen-year locusts will appear this month. The last visit of these pests was in '77 when they did very little harm.

When President Cleveland goes on a fishing trip as a respite from his duties he does not enlist the Government to pay expenses. He pays his way like other people.

The annual Quantico turtle dinner will be held June 13. This dinner will have general significance from the fact that congressional politics will be discussed.

Mr. M. Vandiver has issued notice to druggists in which he states that liquor cannot be sold even on a physician's prescription without a retailer's license.

The Havre de Grace *Ledger* brings out in a strong editorial the name of Hon. Murray Vandiver, candidate for Governor.

Lloyd Wilkinson, appraiser of merchandise, was sworn in by Collector Shaw on Tuesday last.

LATEST NEWS FROM THE CAPITAL.

Signs are plenty that the republican Senators are ready to give up their useless fight against the tariff bill, and intimations have been given to Senator Harris by their leaders that if he would not carry out his announced intention of compelling long night sessions this week an agreement might be reached upon a date for taking a final vote on the bill.

The Senate investigation committee found Buttz guilty of having attempted to bribe Senators Hunton and Kyle, but no steps have been taken towards criminally prosecuting him. The committee is now engaged in investigating the charges of crookedness on the part of the sugar trust and Senators in connection with the preparation of the sugar schedule of the tariff bill, and, judging from the evidence already taken, these charges are likely to be shown up as outright fakes. For instance, it was charged that the sugar schedule was prepared in the handwriting of Secretary Carlisle, who carried it to a meeting of the Finance committee, and demanded that it be adopted because of obligations the party owed to the sugar trust, and the man who made the charge declined to give his authority. The story was read to Senator Jones, of Arkansas, who was chairman of the sub-committee who arranged the amendments to the tariff bill, which included the sugar schedule, and he was asked by Senator Gray, chairman of the investigating committee, what truth there was in it. "None, whatever," he replied emphatically; "I think I have attended every meeting of the tariff sub-committee this session, but no such scene was ever enacted, nor a demand made by Mr. Carlisle for the protection of sugar. With reference to the charge that Secretary Carlisle prepared the sugar schedule, I would say that my recollection is that I prepared the sugar schedule, in the bill as first reported; the schedule in the last bill reported was put in shape at the Treasury department at my request, in order that the administrative features of the schedule should be in correct form, the suggestion of the rate and all of the essential details of the schedule were from me." There is about the amount of truth in the charges mentioned as in all the rest. The schedule was prepared at the Treasury Department at Senator Jones's request, and some republican clerk employed therein probably told it outside; the rest was imagined. The committee may ask the Senate to order the arrest of the correspondents who refused to give their authority for the charges, but that will accomplish nothing, as they would be certain to continue to refuse. The Senate has several times tried, but never successfully, to compel correspondents to tell where they got information from.

It seems hardly necessary to say that the stories printed in republican papers about the great cost to the government of the little vacation trip of president Cleveland and Secretaries Carlisle and Gresham, on the light house tender Violet, were entirely false. The presence of those gentlemen on the little boat did not cost the government one cent. The Violet made her regular trip, supplying the light houses with oil, etc., and the passengers' table was supplied at President Cleveland's personal expense. The Violet was not even delayed, Mr. Cleveland insisting before the start that the fishing and hunting should only be done while the boat was transferring supplies to the lighthouses, and that rule was adhered to during the trip.

Representative Bryan, of Nebraska, is just as enthusiastic in his advocacy of the building of the Nicaragua canal, as Senator Morgan, of Alabama, but he proposes, in a bill now before the Commerce committee of the House, to do it in a different way. His bill calls for an issue of $70,000,000 in greenbacks, to be used to purchase a controlling interest in the stock of the company and for the building of the canal under the control of a board of eleven directors, eight of them to represent the United States.

The House has laid aside the regular appropriation bills temporarily and will this week try to decide whether the tax on state bank notes shall be repealed or not. Both sides claim a majority.

I have two little grandchildren who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhœa Remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was my myself taken with a severe attack of flux, with pains and cramps in my stomach. One-third of a bottle of this remedy cured me. Within 24 hours I was out of bed and doing my housework.—Mrs. W. L. Dunagan, Bon-aqua, Hickman Co., Tenn. For sale by W. E. Brown, druggist. *
