EASTON, MD.

Eastern Shore Happenings

Newark, Del., June 27.—Arthur Edward Tomhave, instructor in animal husbandry at the University of Delaware has been appointed to succeed Raymond M. Upton, who was drowned last Sunday, as director of the Rehabilitation School connected with the university.

The work of this school in instructing former service men who were wounded in the service in vocational agriculture will be concluded in September and the school closed. There remain but about 25 men in the school.

William Nutter and Edward Evans, both young Milford men, have rented the bath houses and the dance pavilion at Slaughter Beach and are planning to open them up for the convenience of the public. The boys intend to have an attendant at the bath houses at all times, and on Sundays and holidays will have the dance hall open, selling refreshments for the accommodation of those who visit the beach at that time. As yet the large hotel at the beach has not been opened. It has not been rented as yet, but negotiations are now about closed whereby it will be opened to the public again this summer.

The Sussex County Baseball League, organized Tuesday night of last week, will open the season on Independence Day. Managers of the clubs met at Georgetown on Monday night and reached the decision that the loop should be put into full swing on that date.

The schedule committee made out the schedule for July 4 and 5, and next week will complete their work, W. Everett Manlove, of Milford, has been named a member of the schedule committee to succeed Roy Pettyjohn, who was elected manager of the Milford club last week. The baseball fever is almost as strong in Milford as it was at the time the town was in the Eastern Shore League.

With five hundred laying hens to look after this year, Mrs. Samuel Reynolds, of near Milton, expects to nearly double her record of last year made with three hundred.

She broke all previous records last year from her flock of 300 when she realized an income of $1,562.68.

Last year she sold from 300 hens $832.26 worth of eggs and received $238.85 for chicks hatched. The custom hatching amounted to $138, sale of old hens was $80.57 and broilers $262.

* * *

The B. C. & A. Railway Company has sprung another surprise on the people of Talbot County when on Tuesday morning of last week the new gasoline car made its appearance. This new "train" gives service between Easton and Claiborne, and is quite "nifty" in appearance. It is a passenger coach entirely in charge of one man. It looks very much like a trolley car but has the addition of the usual cow-catcher of the locomotive. These "dinkeys" have been used to advantage on other branches and have given good service. There was also a line between Salisbury and Ocean City the B. C. & A. last year.

The Rehoboth Beach Anglers Club effected permanent organization at a meeting in Wilmington last Friday. Dr. Thomas R. Brown of Wyoming, was elected president; John A. MacManus, Wilmington, vice president; Albert F. Polk, Wilmington, treasurer, and W. T. Tappan, Rehoboth, secretary.

The directors elected are: Dr. G. W. K. Forrest, Mayor of Wilmington; Fred A. Ross, of Wilmington; Dr. Mifflin Wilson and J. Harry Satterfield, of Rehoboth; Dr. Frank L. Grier, of Milford, and the four officers.

Contract for the building of the pier for the club has been awarded and work was scheduled to start on Wednesday of this week. The pier will be finished in about fifteen days after the start of the work. It will extend four hundred feet from the boardwalk at the foot of Rehoboth avenue. John Sharpless is the contractor.

The management of the Kent and Sussex County Fair has announced that they have provided an excellent card for the Fourth of July races, which are to be held at that track. A total of thirty-one horses has been entered to date to race in the six classes on the card for that day. The majority of these horses have been at the track for several weeks, and every entry so far made has been well trained for the event in which the animal will compete. The racing will start promptly at one o'clock in the afternoon, and the program as arranged assures a full afternoon's sport for those persons who enjoy horse racing.

The Treasury Department awarded last week the bid for the construction of the new post office building at Sauisbury to the W. L. Morrison Construction Company, of Washington, at their bid of $67,800. It is understood that the company will have men on the grounds within ten days and that the work will be rushed through as fast as possible.

The specifications called for the completion of the work within one year. Salisbury is thus assured of having a postoffice, the first appropriation for which was obtained by Senator John Walter Smith and Congressman J. Harry Covington several years ago.

The building will be placed on the Government lot on East Main Street almost directly opposite the Odd Fellow's Temple, the Advertiser Building that of Lloyd Richardson.

Raymond Melville Upton, aged 31 years, Director of the Rehabilitation School of the University of Delaware since it was started four years ago by the government was drowned on Sunday afternoon, June 22, at Chesapeake Haven on the Chesapeake Bay while bathing with a party of friends from Newark. After getting beyond his depth Mr. Upton became exhausted and called for help but before assistance could reach him he went under and was drowned. Professors W. O. Mosher, Jr., and G. L. Baker, of the University faculty and Warren A. Singles, treasurer of the Newark Trust Company had motored to Chesapeake Haven in Mr. Singles car.

Mr. Upton had been married less han a year marrying Miss Edna Palmer daughter of Mr. and Mrs. George Palmer, of West Chester, Pa., last December. His wife with her parents were visiting friends in Pittsburgh at the time of the accident.

Write for information. Address Blue Ridge College, New Windsor, Md. 6-26,2m

"Battles Nature"

Helen Cole, society girl of California and New York, dressed in evening gown and silk slippers, plunged into the wilds of New Jersey to prove that she could battle nature and subsist without provisions or equipment. Discussion started at a house party. She was followed by Chas. Carter, another guest.

Diving Made Easy

A. G. Johnson, of Chicago, liked to dive but disliked water in his eyes, ears and nose, so invented this cap, which has proved practical. Those who wear glasses can have special lenses fitted into the cap.

Nominates Coolidge

M. L. Burton, President of Michigan University, delivered the address nominating President Coolidge at Cleveland. The choice of Burton to deliver the speech was a surprise, as he had never been active in politics.
