THE AMERICAN UNION

VOLUME LXVI—NUMBER 7 | DENTON, MARYLAND, THURSDAY AFTERNOON, SEPTEMBER 3, 1925 | $1.00 Year in County; $1.50 Out of County—In Advance

4TH ANNUAL CARNIVAL BEGINS NEXT THURSDAY

Yes!
We are
Going
To have a
Carnival!
Who is?
The Denton
Volunteer
Fire Company.
At Denton
Beginning on
September 10th
And continuing
Until Saturday
September 19th!

It will be the biggest and the best carnival Denton has ever witnessed. Why? Because the people of Denton and Caroline county have witnessed in the year just passed what it means to have a fire company like the Denton Volunteer Fire Company, that is always on the job when needed, in the shortest space of time and knows what to do and does it when the fire is reached.

Think what it meant to Greensboro to have the Denton boys with their powerful engine on the scene within 12 minutes after the alarm was given with an eight mile run to make. Remember the various times, when in the dead of night, the engine has been out in less than two minutes after the siren sounded. That doesn't look as though the boys were going to sleep on the job, does it?

All right then. They ARE ON THE JOB, Day or Night, whenever they are needed. NOW, it is your turn to be on the job. They want your help NOW, AT THE CARNIVAL. They want your money, but in return they will give you ten days of fun and pleasure while spending your money at the carnival.

The firemen want to wipe out the balance of their share of the engine this year. They cannot do it unless you help. Are you going to shirk your responsibility?

This does not mean the people of Denton, only. It means every one in Caroline county or even the adjacent counties if need be. Every one within a radius of 25 miles can and should help. Come on now, let's go to the carnival.

This year the carnival grounds will be bigger, more booths will be there. In addition to a big merry-go-round another amusement has been secured. One which has never been shown in Caroline county before—A Ferris Wheel. How those boys and girls, as well as the older folks, too, will enjoy taking a ride on this big ferris wheel.

The ferris wheel and merry-go-round will begin about next Tuesday night.

Don't forget! The big carnival will open with the largest parade of fire fighting equipment ever seen in Caroline county. It will start at 7 o'clock. Be on the job on time.

Carnival begins, Thursday evening, September 10th, and continues until midnight, Saturday, September 19th.

ASSURE EARLY START ON DELAWARE BAY FERRY

Five hundred decorated automobiles passed over Sunset boulevard on Saturday afternoon to celebrate the opening of the last connecting link in the New Jersey highways system with the Delaware-New Jersey ferry between Cape May and Lewes.

Mayor Howard W. Jackson, of Baltimore; Congressman Robert G. Houston, of Delaware, and Colonel Jesse Rosenfeld, vice-president of the Maryland and Delaware Coast Railroad, made addresses, stating that the ferry is completely under-written, that the steamship is being made ready and that the only delay would be the time required for New Jersey to erect the landing place at Cape May Point.

TEETH NOT ALWAYS TO BLAME

Should Not Be Pulled Merely Because Doctor Doesn't Know What Ails You

The Rochester (N. Y.) Chronicle of July 8th in commenting on the recent international osteopathic convention said:

"The convention proceedings included * * * one earnest exhortation that caught the eye and seems to be sage and sane advice: 'Fight to the finish to save your patients' teeth. Do not let them be pulled promiscuously just because it is not easy to find out what's the matter, and some one surmises that focal infection might be the cause.' Teeth are good and useful things to have, and, like so many other blessings, brighten as they take their flight and are more keenly missed when they are gone than the possessor had any idea that they would be. Even a dilapidated dental outfit has its uses; and we heard of a citizen with only two teeth left of his congenital equipment who found them a source of comfort and pointed with pride to the fact 'they hit'. The test of any method, medicine, or curative system, is that it can make somebody physically more fit than before."

THE MAGNET

By THE CRACKER

You may cuss our climate and cuss our style, and the most of our notions you may revile, and swear by the peaks of the Andes range that you lost your goat on the sun-scorched plain. You may make your exit with exultant yell, and consign the Shore to Dante's dell; bid adieu to the jiggers, the fleas and gnats, but not for long. You'll be coming back. There's a lure that draws you against your will, the splash of the tide and the whip-poor-will, the sough of the wind through the long leaf pine, the particular kick of our native wine. You may bid farewell and journey afar, but to be drawn back by some guiding star; back to the wash of the ebb and flow, back to the genial Eastern Sho'.

HEALTH NURSE KEPT BUSY IN AUGUST

The September meeting of the executive board of the public health committee was held on Tuesday, with a full attendance. Dr. Jones was also present, and suggested that in addition to baby and tuberculosis clinics, there should be added eye, nose and throat clinics. These would be of especial benefit to school children who are unable to get other treatment.

Miss Jackson will spend Thursday and Friday of this week assisting Dr. J. H. M. Knox, who is touring some parts of the state in a health-mobile, holding baby clinics.

Arrangements for tag day were discussed by the committee. Funds that are raised on tag day, are to be applied to the expense of keeping our public health nurse, who is accomplishing much good in the county.

Following is her report for August:

A number of typhoid cases have developed in the county, several of which the doctors have asked that I visit. This I have done, giving help and instruction. I have also given the typhoid vaccine to a number of persons who were exposed to the disease. I also assisted in an emergency case until other help could be secured. I have placed five children in the preventorium this month, five others have returned, much improved, having regained their normal weight.

Assistance was given Dr. Nicklas with two tuberculosis clinics, 22 cases being examined.

On August 14th, I conducted a baby clinic at the farmers picnic at Concord where 35 children were examined by Dr. Macke, of Baltimore. Free literature on the care of babies was given to the mothers. I also assisted Dr. Knox one day at a baby clinic at Queen Anne, held in the health-mobile.

Entrance was secured to the hospital of Dr. Baer in Baltimore for a crippled child from Preston, the Preston club paying for fare, braces, etc. I am kept very busy with visits of instruction, nursing, social service, etc.

H. RUTH JACKSON, P. H. N.

CHOPTANK

Mrs. Mamie McDonald and children have returned home after spending two weeks with relatives in Talbot.

Mrs. Tom Todd, of Andersontown, and Mrs. Walter Sparklin, of Denton, spent Wednesday afternoon with friends in town.

Mrs. J. F. Ledman, of Preston, and Mrs. W. E. Bennett, of Wilmington, spent a part of Friday with their aunt, Mrs. Annie Nichols.

Mr. and Mrs. Charles Andrews spent the week end with their parents, Mr. and Mrs. C. E. Andrews.

Mr. Joseph Phillips has returned after spending a week in Ocean City.

Mr. and Mrs. O. E. Blades are spending a few weeks in Ocean City.

Mrs. Ella Carmine and son, Malcolm, are spending a week in Wilmington.

Mr. and Mrs. Earle Nichols, of Chester, spent Sunday with her parents, Mr. and Mrs. J. B. Jones.

Miss Milligan, of Trappe, is visiting her niece, Mrs. John Price.

Miss Nettie Ross, of Pocomoke, spent the week end with Mr. and Mrs. N. B. Goswellen.

Mr. and Mrs. George Whiteley and daughter, Eleanor, of Windy Hill, spent Sunday with Mr. and Mrs. Frank Whiteley.

Mrs. Bertha Mushaw and son, spent Sunday with Mr. and Mrs. F. F. Whiteley.

Mr. and Mrs. Edward Williamson and children spent Sunday with friends in Crumpton.

Mrs. Addie Stafford, of Preston, and Mrs. D. C. Gulliette and children, of Federalsburg, spent Wednesday with Mrs. A. E. Blades.

SHENANDOAH FALLS 15 MEN ARE MISSING

The United States dirigible, Shenandoah, broke in two and fell near Toledo, O., about 5 this morning, according to radio broadcasts picked up this morning at the home of Mr. J. A. Griffin. The report stated that the big airship skidded for a mile after hitting the earth. Seven members of the crew of 35 officers and men are reported dead and only 20 had been accounted for at 9 this morning.

The Shenandoah left Lakehurst, N. J., Wednesday at 4:02 p. m. on its mid-Western flight of five or more days. Commander Zachary Lansdowne, with 35 men and officers, was aboard.

ORME'S DOGS LEAD AT CAMBRIDGE FAIR

Once again Caroline's own came forth with the laurels of victory when at the Cambridge fair last week, E. T. Orme, of near Denton, took several prizes with his dogs in the dog show.

Orme's Blue Prince took first place in the male class.

Orme's Blue Dot took first place in the female class.

Two unnamed female pups, sisters of Orme's Blue Dot, but of a younger litter took first and third in the puppy class.

Mr. Orme does not consider these winnings as carrying much weight in the dog world, but it must be remembered that Orme's Blue Dot has never failed to be placed every time shown. She took first at Cambridge last year also, at the 1924 show at Baltimore she took the special for best female puppy and at the 1925 show at Baltimore she took first in local females, local meaning owned in Maryland and at the same show took second in open females, open meaning owned anywhere in the United States. In this class were many imported dogs, some of them already champions.

Orme's Blue Prince was only shown once before the Cambridge show, at the Baltimore 1925 show he took third in open males, this class was the largest that ever entered the ring at Baltimore, there being 28 dogs in the class, some of them also already champions brought over from Europe to beat our American bred dogs. This was a real win as competition was never more keen than at the 1925 Baltimore show.

Dr. J. W. Corrigan, veterinary surgeon of Easton, judged at the Cambridge show which was held on Thursday, August 27th.

TEACHERS TO MEET HERE NEXT WEEK

Caroline county schools are planning for a big year and the Board of Education calls the attention of all the teachers to be present at the teachers' meeting next week on Tuesday, Wednesday and Thursday. On Friday all teachers will visit their respective schools and see that everything is in readiness for the following Monday.

All white schools in the county will open on the 14th and the colored on the 28th.

Reports on the progress of the new school building at Burrsville are to the effect that it will be ready for the opening day of school.

HITCH FAMILY HAS REUNION

The first reunion of the Hitch family was held on the lawn of Mount Zion church on the Seaford-Laurel State highway, about 70 descendants of Benjamin Hitch being present. Only three of his eleven children are living, and all were present. They are: Mrs. Ida Jones, Philadelphia; Miss Martha Hitch, Westminster, and Arthur Hitch of Seaford. The visitors brought their luch and a real old family reunion was enjoyed.

Thirty of the grandchildren were in attendance, with the twenty great-grandchildren.

DELMRVIA CAMP IS CLOSED

The Delmarvia camp on the Seaford-Laurel State highway came to a close Sunday, after holding over three Sundays. The camp was a success in every way, it being estimated that approximately 50,000 people attended.

Dr. George W. Cooke, evangelist, preached Sunday morning and evening, and Stanley Sheppard, New York, occupied the pulpit in the afternoon.

DENTON FIREMEN'S CARNIVAL SEPT. 10th TO 19th

FIREMEN'S PARADE NEXT THURSDAY

Will Begin At 7. P. M. Marching Through The Town

Thursday evening, September 10th beginning at 7 o'clock, will be one of the biggest Red Letter Days Denton has ever known.

On that day and hour, the biggest parade of firemen and fire engine equipment ever seen in Caroline county, will march through the streets of Denton and on to the carnival ground, where upon arriving, the fourth annual carnival of the Denton Volunteer Fire Company will begin.

Nine fire companies have responded to the Denton invitation to be present on that occasion and it is likely that one or two others may also be here. Several of the fire companies have expressed themselves that they will also bring their bands with them.

Merchants and others are urged to have floats in the parade.

Every merchant and householder in Denton is asked to decorate their stores or homes with bunting or flags for this gala occasion.

Don't forget, parade starts at 7 p. m., Thursday, September 10th, immediately following which the fourth annual carnival will begin. Every body attend this year.

CONTRIBUTORS TO THE CAMP ROYAL TENT FUND

The contributions to the fund for a tent for Caroline county at Camp Royal were as follows:

Greensboro M. E. Sunday school, $4
Greensboro Baptist Sunday school $4
Williston Sunday school, $1.
Denton Brethren Sunday School $3
Denton M. P. Sunday school $4
Denton M. E. Sunday school $5
Senior Men's class, Denton M. E. Sunday school $2
Junior Men's class, Denton M. E. Sunday school $2
Good Cheer class Denton M. E. Sunday school $2
Preston M. E. Sunday school $5
Preston P. E. Sunday school $1
Thawley M. P. Sunday school $4
Ridgely M. E. Sunday school $4
Ridgely Brethren Sunday school $1
Ridgely Reformed Sunday school $4
Concord M. E. Sunday school $4

A total of $50 was given by the various organizations named above and the Maryland-Delaware Sunday school Association paid $50 which completes the amount asked for.

NEW APPOINTMENTS AT ST. JOHN'S COLLEGE

Alexander Meiklejohn, former president of Amherst College, has been secured as a lecturer at St. John's College, according to the announcement of new members of the faculty made by President Garey, Tuesday. Dr. Meiklejohn will give six public lectures during October on the subject "Education for Democracy," will take part in the advanced courses in philosophy, and will participate in the social and official life of the faculty during that time. He will also assist in the program of introducing freshmen to college aims and methods.

Other new appointments are announced as follows: In the department of English, Prof. Stanley Alden comes from Smith College where he has been in charge of freshmen work. He will direct his new freshman course "An Introduction of Literature." He is a graduate of Colorado College and Harvard, and has studied under Professors Nielson and Stuart P. Sherman. Ford Brown, a University of Washington graduate and associate professor, who took his Doctor of Philosophy degree at Oxford, will be associate professor of English.

Two new assistant professors of chemistry are announced: Dr. Herman Bernhard, a Berlin Ph. D., who has been an instructor at Swarthmore, and Dr. Everett S. Willis, who took his doctorate at Princeton. Dr. Willis has been teaching this past year at Princeton.

In the department of physical education, Raymond W. Rogers comes as professor. He is a graduate of Springfield College, and has been in charge of physical training and track coaching at Iowa State and at Grinnell College.

M. A. Vaccariello, for several years associate professor of romance languages at the Naval Academy, joins the modern language department as associate professor.

Tom P. Brockway, a graduate of Reed College and Oxford, will be instructor in history, and will collaborate with Professor Felix Morley in giving a course in "Current World Problems."

The appointments increase the total number of the teaching staff at St. John's to 26 for the coming year.

DENTON FIREMEN WIN LOVING CUP AT DOVER

THOS. R. GREEN DEAD

Just as we are going to press word was received from Baltimore that Mr. Thomas R. Green died in a Baltimore hospital about 6 this morning.

Mr. Green for many years had been prominent in the life of this community and in Republican circles in the county. His obituary will be published in full in next week's paper.

FIREMEN BOUGHT LOT FOR HOME

On the eve of the fourth annual firemen's carnival under the auspices of the Denton Volunteer Fire Company, that organization announces the purchase of a lot in the heart of Denton on which it expects to erect a fine, new engine house and meeting room in the near future.

About two years ago, now, they purchased a splendid Seagrave engine of 750 gallon capacity and all this time have been renting space in a local garage to house it. It is now the intention of the members of the company to erect their own home and place this splendid fire equipment in it.

At the carnival this year it is expected to raise enough funds to pay off the balance of the firemen's share of the engine and then they will devote their time and energy in raising funds for the new engine house.

Good luck, boys!

LOOKING AFTER THE CHILDREN

Child health conferences were held in nearly every section of the state under the auspices of the Bureau of Child Hygiene of the State Department of Health during the three months, ending August 15th, according to reports from that bureau. Ninety-one places in 20 counties were visited; ninety-five conferences were held and over 2,000 children, ranging in age from babies in arms, to their older sisters and brothers who will enter school this fall, were given a careful physical examination. No medical treatments were given, but children in need of medical or dental care, were referred by letter to their own doctors.

Of the 95 conferencs, nearly half were held in connection with the visit of the Healthmobile, the "Child Health Special," or the "Child Health Bus," as it is called, in Howard, Anne Arundel, Prince George, Charles, St. Mary's and Calvert counties. The "Special" will spend the rest of the season on the Eastern Shore, visiting Queen Anne, Somerset and Wicomico counties, holding child health conferences in each place.

In connection with the child health conferences that will be held during the next few weeks, Dr. Knox, chief of the bureau, said "We hope to reach as many as possible of the five and six year- olds before they are enrolled in school. Our experience has shown that the examinations frequently bring to light some condition that needs correction, something that may seem insignificant now—possibly a condition of the teeth, or it may be a throat that needs looking after, or it may be the eyes that need attention. If these things are attended to now, they may save a great deal of suffering and illness later on."

Two out of every three children examined so far have needed dental attention. The bureau owns portable dental outfits, which are being used in follow-up dental clinics in different parts of the state.

Church of the Brethren Notes

School time s soon here. A number of our young people are preparing to go to college or other institutions of higher learning. We shall miss them but are glad that they have the desire for future and fuller development.

The Rev. Mr. Arnold and family are spending the week end with friends at Brownsville. They expect to return on Thursday of next week after conducting a misisonary meeting at Hagerstown. But the services at Denton will continue as usual, with the Rev. Mr. Brumbaugh of Greensboro giving the morning sermon on Sunday and the Rev. Mr. Krabill giving the evening discourse.

Sunday, September 13th is to be observed as Harvest day with appropriate services. The friends and public are cordially invited to any and all of these services.

T. B. Clinics

There will be a tuberculoss clinic at Hillsboro in the office of Dr. H. W. B. Rowe on September the 8th from 9 a. m. to 1:30 p. m.

There will also be a clinic in the nurses office at Denton the same day beginning at 2 p. m.

Are Dentonians and Caroline countians proud of the Denton Volunteer Fire Company? Not only the echo comes back "Yes," but in reality it is so. Ever since the organization of this company a few years ago praises have been sung of the good works. Then the boys had a carnival and made a success of that as they have done in each succeeding year. A few months after the first carnival, a splendid new fire engine was purchased. With the aid of this powerful fire fighter the boys gained many victories over the demon fire and won more laurels and more praise.

However, the last word in praise began on Tuesday night when the boys appeared on the streets of Denton just before supper hour and took their engine over to Dover, Delaware's capital city, to assist them in having a splendid big carnival.

The firemne were dressed in the new uniforms which consist of blue serge coats, white duck trousers and white hats with black bands.

In the parade which formed at 7 p. m. the Denton boys with their good looking Seagrave engine followed the Elkton fire company band and firemen at the head of the parade which consisted of some 10 or 12 fire companies.

All along the line of march as the Denton boys came along, following Old Glory and the beautiful new banner which made its first public appearance Tuesday night, the crowds cheered the Denton boys.

An hour or so after the parade was finished, a call was made on the carnival grounds for a representative of the Denton Volunteer Fire Company. Several of our loyal lady backers who were in the crowd located one of the Denton boys and lo, the first prize of the evening, a beautiful silver loving cup, was presented to the Denton Volunteer Fire Company for having the best appearing company in line. My, how the chests of the boys did swell when they heard of and saw the beautiful cup which they had won. How Chief Anderson went proudly through the crowd carrying this beautiful token the remainder of the evening. The writer having been in the line of march cannot say anything from personal observance except of individuals, but all who saw the Denton firemen are agreed that they surely did look fine and were very deserving of the prize which they received.

This evening, the boys will again journey out of town after more laurels and we hope that they come back with them. They will attend the firemen's carnival and be in the parade at Smyrna, Delaware.

Then of course, but you will see that for yourselves, but don't forget! Be sure to see the boys yourself next Thursday evening parade on the opening night of the Denton Firemen's carnival, at Denton.

Parade starts promptly at 7 p. m.

New Time Table on M. & D. C. Ry

New time tables are being distributed by the Maryland and Delaware Coast Railway company effective on September 10th.

Trains leave Baltimore daily at 7:45 a. m. and 4 p. m., arriving at Denton at 11:25 a. m. and 7:53 p. m., respectively, continuing through to Lewes, arriving there at 12:47 and 9:17 p. m. On Sunday the morning train leaves Baltimore at 7:45 a. m., arriving at Denton at 11:50. This train stops at Denton.

Traveling west, trains leave Lewes daily at 7:35 a. m. and 5.02 p. m., arriving at Denton at 9:02 a. m. and 6:25 p. m. and at Baltimore at 1 and 10:15 p. m. On Sunday the train leaves Denton at 5:57 p. m. and arrives at Baltimore at 9:55 p. m.

T. E. SHEA RESIGNS AS TRI-COUNTY SCHOOL HEAD

T. E. Shea, who for the past several years has been principal of the Tri-County High School, has resigned this post to become the head of the High School at Berlin, Md. He will enter upon his new duties the beginning of the school term in September.

TOAD HOLLOW BREVITIES

There wasn't any preachin' at the church Sunday. Dave Gooslum's goat stuck his head through the window Saturday night an' ate up the Parson's pants.

The Parson allows that as soon as he can be seen in public, he'll get Dave's goat.

The folks at the Hollow are all kinda incensed at the goat for breakin' up their Sunday naps.
