CLOTHES FOR EASTER

Be Critical in Your Examination of Our Clothes

ORIGINALITY, refinement of style, superior quality, workmanship, and reasonable price combine to give our garments a very high rank in the opinion of critical clothing judges. They are the things that are looked for first when good dressers examine clothes. And they are always to be found in our garments. No matter what particular style, color, pattern or fabric may be most pleasing to you, you can rest assured that it is included in our display. Never have we assembled a more complete or more varied stock. And never have we given such good values at these low prices--$10 to $25.

SILKS SILKS SILKS

Do you want one of the new shades in Messalines, Crepe de Chine, or Taffeta? We have them all, Belgian blue, Sand, Army blue, Battleship grey. Besides these Silks we have Chinas especially designed for Shirtwaists, Voiles, plain and fancy, Organdies, Flaxons, etc.

Don't fail to examine our Ginghams. They are the prettiest patterns that we have ever seen. Best quality, too.

OXFORDS

Our line of Men's Oxfords, Walkover and Douglas, has arrived. The new shapes, the new leathers, the same old good quality---they are all here.

We are anxious for you to see them.

J. L. EVERNGAM - DENTON, MD.

The Denton National Bank

CAPITAL STOCK, $75,000

SURPLUS and Undivided Profits, $126,000

If You Have Money to Deposit We Want It.
If You Want Money We Have It.

The resources of the Denton National Bank—Caroline County's first and strongest bank—grows all the time. We take pride in the fact that it has helped along so efficiently in the development which has marked business affairs in our county since its establishment, thirty four years ago. For years it has been on the honor roll of Maryland banks, and no financial institution in our State can offer better facilities than those afforded by the Denton National Bank.

Administrators, Executors, Trustees and all others with trust funds to handle and safely keep will find our Savings Department a place for prompt and very satisfactory investment, where the interest, FOUR PER CENT. compounded February 1st, May 1st, August 1st and November 1st, is guaranteed.

The public of this and adjacent counties can always find in this bank everything desired to further their interests in a business way.

T. C. WEST, Cashier. *HARVEY L. COOPER, President.*

SUNSHINE POULTRY FARM, R. D. No. 1, **RIDGELY, MD.**
C. P. HOLSINGER & SON, Proprietors.

not alone for the sake of the money which will thus accrue to their accounts, but principally because of the great moral effect which the lesson of economy always has upon the younger generation.

Do they realize the value of a dollar

and what its purchasing power really is? Show them by actual practice that it is false economy, for instance, to save money on food and other necessaries of life and then to spend that very saving in some useless luxury. Explain to them how the large sums will finally double themselves at compound interest, and above all don't forget to give them each a savings bank account.

The Peoples National Bank

DENTON, MD.

ALBERT G. TOWERS, Prest. T. F. JOHNSON, Cashier.

TEUTON FLEET TO FIGHT ALLIES

Anglo-French Renew Bombardment of Dardanelles.

TURKS ARE MASSING TROOPS

General Declares Dr. Green Misrepresented Him in the Protests on Reservist Plan.

London, March 4.—The conflict between the Turks and the Anglo-French fleet for possession of the Dardanelles may develop into a three-cornered fight.

There is a report that an Austrian fleet, consisting of six Austro-German submarines, several torpedo boats and destroyers, has left the Austrian naval base at Pola for the Aegean sea.

Ships in the Aegean sea reported by wireless to Salonika that heavy gun fire could be heard, and it is believed that the bombardment of the Turkish forts in the inner side of the Dardanelles has been renewed.

The attacking fleet is reported to have been divided into three parts. One of these is operating in the Dardanelles, another is stationed in the Gulf of Sarosa, throwing shells across the peninsula of Galipoli, and the third is standing off tre entrance of the Dardanelles in the Aegean sea.

In addition to the 100,000 Turkish troops massed for the defense of Constantinople, all the available heavy guns have been rused to the remaining forts. It is even said that some of the eleven-inch guns were taken from the former German cruiser Goeben for use against the allied fleet. Guns have also been moved southward from the forts around Adrianople and from the Tchatalja forts.

The town of Yeni-Cheir has been set on fire by the shells and destroyed.

Russians Split Turkish Army.

Tiflis, March 4.—The Russian army of the Caucasus, driving the Turkish forces before it, has reached the Khopachas river, the estuary of the Tchoruk, in Armenia.

This advance by the Russians cuts the route of Turkish reinforcements and supplies from Constantinople to the Caucasian frontier through Khopa, Turkish Armenia, and isolates a large section of Turkish territory.

The Russian forces advanced from Batum, on the Black sea near the Turkish border, and were opposed by the Turks at every step. They were assisted by Russian warships, which cleared the shore of Turkish forces and cut off successively several avenues of Turkish communications by sea until only the Khopa route remained.

After a battle of three days this last route was closed effectively.

KILLS WIFE AND HIMSELF

Children Found Parents Dead When They Returned From School.

Camden, N. J., March 4. — Frank Duncan, a farmer of Blenheim, near here, and his wife, Patience, were found dead in their home.

Detectives say that Duncan shot his wife to death and then ended his own life. A revolver was found alongside Duncan's body. The farmer is said to have left a short note, which read: "Financial troubles caused this act."

A daughter, nine years old, and a son, six years old, came home from school and discovered the bodies of their dead parents.

Word was immediately sent to detective headquarters in Camden, and Detectives Doran, Levins and Gibbons, of the murder squad, were sent to investigate the crime.

Blenheim is a small settlement near Blackwood, in the lower end of Camden county.

R. R. INSURANCE IS LEGAL

O. Southwestern eEploye Wins Suit In Compulsory Contribution Plea.

Cincinnati, March 4.—The million dollar insurance fund of the Baltimore & Ohio Southwestern railroad, obtained by contributions from the salaries of its employes, was held to be illegal in Ohio in a decision handed down in the common pleas court.

The court upheld the contention of the attorneys for Joseph Bailey, a switchman, who sued for the amount he had contributed to the fund, claiming that the contributions were compulsory.

Attorneys say that the case will be carried to the United States supreme court, and if the common pleas court ruling is upheld the entire fund will haev to be distributed among those who contributed to it.

THEOLOGICAL STUDENT SHOT

Police Say He Admits He Tried Theft to Defray College Expenses.

Rochester, N. H., March 4.—Walter Marison, a young theological student, was shot and probably fatally wounded while trying, the police allege, to rob the offices of the Gonic Manufacturing company.

The watchman said he found Marison ransacking the office and fired when the young man advanced toward him with a revolver.

Marison, the police stated, admitted that he was looking for money. They said that from the fe wwords he was able to speak, it appeared that he was driven desperate by the need of money to continue his studies for the ministry. The young man is twenty three years old.

Only 17 Vermont Towns Vote "Wet."

Burlington, Vt., March 4.—The number of cities and towns in this state entitled to grant liquor licenses was reduced to seventeen as a result of the elections. This is three less than last year Burlington voted for license by a majority of 25, Rushland by 12 and Vergennes by 2.

DR. W. F. RITTMAN.

Young Scientist Whose Disoveries Will Aid Industry.

Photo by American Press Association.

Dr. Walter F. Rittman's discoveries, which are expected to revolutionize the manufacture of gasoline and toluol and benzol, were pronounced by government scientists and by chemists for oil and powder companies to be absolutely practicable and a source undoubtedly of great economical saving. This young government scientist—he is only thirty-two—gave a technical description of his processes to his colleagues and others. Two companies, one an independent oil concern of Pennsylvania and the other a large gunpowder concern, which had sent their chemists to the meeting, announced at the conclusion of the demonstration that the new processes would be adopted immediately.

GERMAN GUNS RAZE FORTS AT OSSOWIEC

Two Strongholds in Russian Poland Demolished.

Berlin, March 4.—Two of the Russian forts at Ossowiec, in Russian Poland, have been demolished and their guns silenced, according to a dispatch printed in the Cologne Gazette. (Ossowiec is an important fortress in northern Poland, near the Prussian frontier.)

Say Little Damage Has Been Done.

Petrograd, March 4.—A formidable bombardment of the Polish city of Ossowiec has been begun by Field Marshal von Hindenburg's army lying on the Bobr river.

According to semi-official advices, the Germans are expending a vast amount of shells in the cannonade at Ossowiec in return for their defeat by the Russians at Przasnysz.

Latest reports from the front state that the German shells have done little damage. The heaviest German mortars are being used in the bombardment, it is reported from Warsaw.

In the Carpathians the attempt of the Austrian forces to pierce the Russian front near Lupkow and thus relieve Przemysl, has ended in failure. The Austrians have suffered severe losses in that region, and part of the army has been compelled to retire.

Russians Bombard Czernowitz.

London, March 4.—"The Russian artilelry has omarded Czernowitz, capital of the Austrian crownland of Bukowina," says the Daily Mail's Bucharest correspondent.

"The Austrians," the correspondent continues, "have placed a rigid cordon of military and police around Czernowitz and nobody is permitted to depart toward the Rumanian frontier.

"Reports received in Bucharest say that the Austrians are dealing severely with certain elements in the population. It is reported that numerous secret hangings have occurred and that hundreds of arrests have been made."

BAR SUPPLIES TO WARSHIPS

House Passes Bill to Stop U. S. Vessels Replenishing Belligerents.

Washington, March 4.—A resolution drafted by the department of justice for the state department was passed in the house, designed to prevent vessels from leaving American ports with coal and supplies for belligerent warships at sea.

The resolution would authorize the president to direct customs collectors to withhold clearance from any vessel of American registry or license which he has reason to believe has any intention to carry such supplies.

Doctor Seriously Hurt.

Pottsville, Pa., March 4.—Dr. A. L. Gillars was probably fatally injured by a fall of only three feet while getting over a stile to see a patient in a rural district. His foot caught on a top bar and the fall broke three ribs, which it is feared have been jammed into his lungs. He also has concussion of the brain.

Lancaster Newspaper Changes Hands.

Lancaster, Pa., March 4.—The Lancaster Morning News, owned by the Morning News company, was sold by the receiver, H. E. Kennedy, to Steinman & Foltz, proprietors of the Intelligencer, an evening newspaper, and the Morning Journal, for $5000.

Forty Dead on Mexican Gunboat.

Washington, March 4.—Official dispatches to the state department from Vera Cruz now place the number of killtd in the blowing up of the Mexican gunboat Progreso at forty. Previous reports have put the number between three and thirty.

WOOD DENIES HE FATHERED LEGION

Says He Had no Official Connection With Plan.

TAKES BISHOP TO TASK

Sultan's Forces In Galipoli Under Fire From Squadron—Yeni-Sheir Is Destroyed by Shells.

Washington, March 4.—Major General Wood, in a telegram to Secretary of War Garrison, characterized as untrue statements that propaganda had been issued from his departmental headquarters for the organization of an American legion of reservists.

General Wood's telegram was prompted by protests to the president and secretary of war from Bishop Greer and other members of the American League to Limit Armament against the allege connection of army officers with the plan. He characterized their statements as "audacious."

"I called Bishop Greer up," said General Wood's message, "and asked him his authority, and he replied the press only. I informed him that his statement that propaganda had been issued from these headquarters was untrue and demande that he correct it, and he promised to do so. A more audacious misstatement made without inquiries or investigation has seldom come to my attention, and I have so informed the bishop."

A letter received from General Wood, addressed to Brigadier General H. L. Scott, chief of staff, says in part:

"No one at these headquarters has, or has had, any official connection with the American Legion, so called, of which I sent you the details in my letter of Feb. 27, inclosing it with the circular relating to it.

"I find on inquiry that Mr. Roosevelt was asked to join it at the time ex-Secretaries of War Wright, Stimson and Dickinson were asked—also ex-Secretary of the Navy Meyer and others. I believe that a number of them have joined. Mr. Roosevelt has never communicated with me concerning it, directly or indirectly.

"My connection is limited wholly to an interview two or three weeks ago with two gentlemen who were the founders of the movement, one a former officer of volunteers in the army and the other an editor of one of the Ridgway magazines."

MONTANA OFFENDS JAPAN

Bryan Requests Caution In Prohibiting Women In Oriental Cafes.

Helena, Mont., March 4.—A telegram urging caution in regard to a bill pending in the Montana legislature to prevent white women working in restaurants conducted by Orientals, was received here by Governor S. V. Stewart from Senator Walsh in Washington.

Senator Walsh's telegram said:

"At request of Secretary Bryan I am advising you that Japanese ambassador finds ome objections to bill pending before legislature forbidding employment of women in restaurants conducted by Orientals. On suggestion from the same source, I beg to urge caution about the measure referred to in view of the critical state of affairs internationally."

The governor referred the message to the house committee having the bill in charge.

NAMED CENSUS DIRECTOR

Samuel L. Rogers, of North Carolina, to Suceed Harris.

Washington, March 4.—Samuel L. Rogers, of Franklin, N. C., has been selected by President Wilson for director of the census, to succeed William J. Harris, of Cedartown, Ga., who was confirmed as a member of the new federal trade commission by the senate.

The president also sent to the senate the following, among other nominations, as postmasters:

Pennsylvania—J. I. Coatesworth, California; Edward D. Noble, Claysville; Albert J. Vernon, Donora; W. A. McAdoo, Kittanning; J. Blaine Wise, Marianna; Joseph W. Martin, Washington.

New Jersey—James D. Magee, Bordentown; Joseph L. Hammell, Burlington; Francis H. Reed, Mount Holly; A. C. Hulfizer, Flemington.

Quart of Whisky Kills Boy.

Philadelphia, March 4. — William Pfiel, seventeen years old, drank almost a quart of whisky and died an hour later in St. Agnes hospital. The youth found the bottle while he was walking along the street with companions. When the boys picked it up they dared each other to drink the contents. Pfiel volunteered.

WERNER HORN.

German Who Tried to Dynamite International Bridge.

BRIDGE DYNAMITER INDICTED

Werner Horn Charged With Illegally Transporting Dynamite.

Boston, March 4. — Three indictments, charging illegal transportation of dynamite in interstate commerce, have been returned by the federal grand jury against Werner Horn, who attempted to destroy the international railway bridge at Vanceboro, Me., on Feb. 2. Federal Attorney George W. Anderson announced.

The maximum penalty for the offense is eighteen months' imprisonment and a fine of $2000.

It is expected that action on the Canadian government's request for the extradition of Horn will be delayed as a result of the grand jury's report. In the opinion of federal atotrneys, the claims of the United States must be satisfied before extradition can be considered.

ANARCHISTS INDICTED FOR DYNAMITE PLOT

Men Arrested in Cathedral Face 25-Year Sentence.

New York, March 4.—Frank Abarno and Charles Carbonne, the two anarchists arrested in connection with the plot to blow up St. Patrick's cathedral, were indicted by the grand jury. Under the law they can be sentenced to twenty-five years, if found guilty.

While New York is ringing with the praises of Amedo Pulignano, the young Italian detective who trapped the anarchists in their attempt to blow up the cathedral and create a reign of error by bomb outrages against capitalists, Pulignano's little Irish bride is fervently praying that he be sent on no more such missions as the one that has just brought him such renown.

"When Amedo joined the force I married him," she said. "One month after we were married Captain Tunney put him on this job. Since then I have seen him never more than an hour at a time, and those times sometimes a week apart. I prayed for him all the time, and I think it was those prayers that brought him through. But I don't want him on any more," she finished quickly.

Anarchist leaders hooted the arrests of Abarno and Carbonne. Emma Goldman, the noted leader, and Dr. Ben Reitman, publisher of Mother Earth, an anarchist publication, said they believed the case was a police "frame up" to get the department "in good" with the public.

SCOTT GOES TO PACIFY INDIANS

Sent to Get Piute Chief Wanted For Murder.

Washington, March 4. — Brigadier General Scott, chief of staff of the army, left here for Utah, to attempt a peaceful settlement with the recalcitrant Piute Indians.

General Scott has a long record, not only as an Indian fighter, but also as a mediator among the Indians, whose dialects he speaks and whose habits he knows thoroughly. War department officials say that he has more influence with the Indians of the west than any other white man. About a year ago he brought the recalcitrant Navajos into camp without bloodshed.

After conferences between officials of the war, justice and interior departments, it was decided to ask General Scott to see if he could not bring the renegade band of Piutes in to giev up their leader, who is charged with murder.

Reports from the Bluff country in Utah, where the band is entrenched, say the roads are bad and the country covered with deep snow. It may take General Scott and his party three days to reach the Indians after they leave the railroad.

Temperance Bill Signed.

Denver, Colo., March 4.—Governor George A. Carlson signed the temperance bill. The measure provides statutory penalties for the enforcement of the statewide prohibition constitutional amendment which becomes effective Jan. 1. 1916.
