INHALATION IN CONSUMPTION, BRONCHITIS, LARYNGITIS, and other Diseases of the Chest, and Throat, successfully treated by the inhalation of Medicated Vapors and Powders, by absorption and constitutional treatment, as practiced at the Stuyvesant Medical Institute, New York City.

The unprecedented success which has attended this method of treating diseases of the Lungs and Throat, has induced us to depart from our usual course, and avail ourselves of the columns of the press, in order to bring it to the knowledge of such as may be labouring under, or predisposed to such affections. The dawn of a brighter day has at length arrived for the Consumptive; the doctrine of the incurability of consumption having at length passed away. We have indubitable proofs in our possession that *Consumption in all its stages can be cured!* in the first, *by transformation of the tubercule into chalky and calcareous concretions;* in the third, *by cicatrices, or scars.* Those wedded to the opinions of the past may assert, that even now, Consumption is incurable; such are behind the age. To all, this great truth must be apparent viz: that the medicines inhaled in the form of Vapor or Powder directly into the Lungs, must be much more effective than that taken into the Stomach, where the disease does not exist. The advantage of Inhalation in Consumption and Throat Diseases is, that medicines in the form of Vapor are applied directly to the Lungs, where the disease exists; the stomach thus left free to aid in restoring health, by administering to it healthy life-giving food. *There is no case so helpless that Inhalation will not reach!* The means, too, are brought within the reach of all, the manner of administering the Vapors being so simple, that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's efforts.

The inhaling method is *soothing, safe and speedy*, and consists in the administration of medicine in such a manner that they are conveyed into the Lungs in the form of vapor, and produce their action at the seat of the disease. Its practical success is destined to revolutionize the opinions of the medical world; and *establish the entire curability of Consumption.*

I earnestly appeal to the common sense of all afflicted with Lung diseases, to embrace at once the advantage of Inhalation, and no longer apply medicine to the unoffending stomach. I claim for Inhalation a place amongst the priceless gifts that nature and art hath given us, that "our day may be long in the land," *and as the only ark of refuge* for the Consumptive; a method not only *rational, but simple and efficacious.*

Such of the profession that have adopted Inhalation have found it *efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases;* in verity, a signal triumph of our ART over this fell destroyer of species.

NOTE.—Physicians wishing to make themselves acquainted with this practice, are informed that, our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee.

The fee in all cases of Pulmonary Affections will be $5,00, on receipt which the necessary medicines and instruments will be forwarded. The fee in other cases will be from $3 to $10. We appeal to our best known Citizens
We offer no mere Mushroom Article, but a Medicine proved by thousands to be the Great Invigorator and Restorer of the system!

FACTS FOR SICK PEOPLE.

WE WOULD NOT GIVE A DOLLAR FOR ALL THE TINCTURE HAMPTON EVER MADE.

THUS spoke a wise and good man; but mark the change! Let the AFFLICTED hear him, and then decide whether to suffer on or be made whole. Ye PROFESSIONAL MEN WITH RUINED HEALTH, HEAR!

Rev. James W. Hunnicutt, the talented and independent editor of that highly popular and extensively read paper, the Christian Banner, published at Fredericksburg, Va., in his editorial of the 18th of May, 1855, thus speaks of

HAMPTON'S VEGETABLE TINCTURE:

"Some time ago we merely alluded to Hampton's Vegetable Tincture, with a promise of noticing more particularly the great relief we have ourself derived from its use. During our collegiate course, owing to sedentary habits, became quite dyspeptic, and were very much troubled with vertigo. For more than twelve years after leaving college, we were laboring seriously under these two afflictions. In the spring of 1853, our general health became so delicate that it was with great difficulty we could attend to the ordinary duties of our profession. Everything we ate immediately turned acid; our digestive organs became wholly deranged; losing as it seemed to us all their activity; we were constantly depressed in spirit; our energy almost forsook us, and nothing but necessity urged us to action.

We had taken strong medicines, observed great particularity in our diet, and all to no purpose. We had dispaired of ever recovering our health, when a female friend of ours importuned us to get a bottle of Hampton's Vegetable tincture, assuring us that we would find great relief from its use. We briefly replied, "we would not give a dollar for all the Tincture Hampton ever made, so far as our own individual health was concerned." We had no faith in it, nor any other medicine in effecting a cure on us. In the kindness of her heart, however, without consulting us about it, she sent and got one bottle and urged us to accept of it, and for her sake as it could not possibly injure us, to use it according to direction. For the high regard we had for her and her act of kindness, we promised to do so. And without the least exaggeration we can truly say that before we had used the contents of one bottle we felt like a new man.

We used, consecutively, from ten to fifteen bottles. We were afraid to give it up, fearing our old diseases might return. Since then, our digestive organs have been uniformly correct, our head clear, and so far as our labors, toils liabilities, responsibilities, and worldly cares will allow, our spirits have been buoyant, and we eat what we please, and as much as we please, and when we please—and all is well. For the sake of the afflicted we make the statement, hoping that others may find the same relief from it that we have. It should be kept in every family. No family should ever be without HAMPTON'S VEGETABLE TINCTURE.

LAWYERS, DOCTORS, BANKERS, MINISTERS, in all the Departments of State, Ladies and Gentlemen in the highest walks of life, as well as those moving in the most humble spheres, speak of the cures on themselves and friends by this wonderful article.

☞ Delicate Ladies and Children will please give it a trial.

To Farmers and Gardners.

THE subscribers offer for sale **10,000** barrels of their New and Improved
POUDRETTE.
Manufactured from the night soil of New York city, in lots to suit purchasers. This article (greatly improved within the last two years) has been in the market for eighteen years, and still defies competition, as a manure for Corn and Garden Vegetables, being *cheaper, more powerful than any other*, and at the same time *free from disagreeable odor*. Two barrels ($3 worth) will manure an acre of corn in the hill, will save two-thirds in labor, will cause it to come up quicker, to grow faster, ripen earlier, and will bring a larger crop on poor ground than any other fertilizer, and is also a preventative of the cut worm, also it does not injure the seed to be put in contact with it.

The L. M. Co. point to their long standing reputation, and the large capital ($100,000) invested in their business, as a guarantee that the article they make shall always be of such quantity as to command a ready sale.

Price, delivered in the city free of charge and other expense—

One barrel,	$2.00
Two barrels,	3.50
Five barrels,	8.00
Six barrels,	9.50
