EDITORIAL NOTES.

The Democratic County Convention of Talbot county on Tuesday nominated the following ticket: State Senate, Col. Oswald Tilghman; House of Delegates, Ormond Hammond, Frank G. Wrightson and William Collins; Sheriff, Wm. J. Dukes; Surveyor, Thomas F. Chance. The delegates to the State convention are James H. Willis, James M. Wooters, Charles S. Carrington and Harry D. Nutz. The resolutions "regard with pride the position the senators and representatives of this State have taken in arraying themselves on the side of a sound and stable currency;" call upon every man to aid in preventing the lease, sale or disposal of any portion of the oyster grounds to any one, and for a reassessment bill.

The great camp-meeting at Ocean Grove closed on Thursday, the last day of August. Ocean Grove has been, at one time or another, visited by many Peninsula Methodists. It is, perhaps, the greatest camp-meeting in the United States. Like the rest it appears to be growing in popularity, in a social way. As a means for revival work Ocean Grove, like many other camp-meetings, is not successful in a marked degree. A great many ministers of the gospel oppose this annual worship amid sylvian surroundings on the ground that the good habit of going to church is broken. But socially camp-meetings must always be a success, so long as so many good people participate in them.

The Democratic primaries in Talbot county last Saturday were spirited. There was a triangular contest for the Senatorship, the candidates being Col. Oswald Tilghman. General Joseph B. Seth and J. Frank Turner, Esq. The two last named gentlemen had entered into an agreement whereby in case of the defeat of Tilghman Seth should be chosen for the Senate and Turner for the House, and that the position of Talbot county should be decidedly inimical to Senator Gibson. Colonel Tilghman carried every district in the county.

Six thousand Smiths held a reunion on the farm of Peter Z. Smith, near Peapack, N. J., on Wednesday last. There was a grand time, fine oratory, good music and an abundance of peaches and other fruits being dispensed. Such a gathering on the Eastern Shore would, no doubt, be as largely attended. The event recalls the reunion of the Fleming family about two years ago.

Mr. Willard H. Thawley, of this place, a Prohibitionist, says if the Republicans endorse his ticket he will vote it. If they do not do this, but go ahead and "nominate" it, he will not. Some of the Republicans are talking of such an alliance in earnest. In case they succeed in this, what name would they adopt? What would be their platform?

Ex-Comptroller J. Frank Turner's paper, the Easton *Star*, says of Mr. Turner's defeat at the primaries last Saturday: "The result, while disappointing to many of his friends, is not without some satisfaction to him. It has relieved him of the labor and expense of a canvas, which in this county is not a small matter."

Suspended banks resume business and scores of mills which have been temporarily shut down have started operations, and gold dollars by the millions are being shipped from Europe to this country. Under this condition of things it should not take long to restore that confidence which is so essential in business matters.

From the hearty commendation continually heard of the Democratic ticket of Caroline county we are bound to believe that our majority this year will fall little short of three hundred.

Dispatches from the South say that fully five hundred lives were lost in Monday's storm, and the damage to property amounts to many millions of dollars.

Delaware is not the Garden of Eden, but it is next to it. It lies by the side of Maryland.—*Baltimore American.*

Talbot, like Caroline, has nominated a strong and winning Democrat ticket.

OUR MENACING DANGER.

From a long article on "A Menacing Danger" in the Baltimore *Sun* of recent date we take the following:

"One precaution taken in Snow Hill saved most of the land records of Worcester county on which titles are founded. This was the construction of security vaults. In the Princess Anne court-house all the land and chancery records are exposed to destruction by any fire which would involve the court-house of Somerset county. The *True Marylander* says: 'A fire in Princess Anne would most assuredly ignite the clerk's office. In that event our records would be burnt to a book, and the records here are far more valuable than the records of either Worcester or Wicomico, for in our office are the records of those counties before those counties were created.'

"So it would seem that not only Somerset, but the two adjoining counties, would suffer irreparable loss by the burning of the court-house at Princess Anne. Not only this, but to some extent the whole State would be involved, for whatever insurance may exist on property in the town is likely to be distributed. It is criminal, as the *True Marylander* suggests, not to heed the warnings that have been made from the bench with regard to the protection of the records of Somerset. No county seat should be permitted to go without fire-proof vaults in the court-house and protection against fire. The General Assembly should take the matter in hand and appoint a commission clothed with ample powers to insure the necessary protection."

The same danger which menaces property titles in Somerset is ever present in Caroline, notwithstanding the frequent recommendations of the courts, the grand juries and the public press.

Wanamaker.

PHILADELPHIA Monday, August, 28, 1893

"No one to blame but yourselves for the low prices and little profits," says one of our greatest producers of merchandise. "If you had kept up old prices and not given your customers the whole of the confidental rebates and almost all the discounts all hands would have been making more money."

Guess it is so. We are guilty of dividing the loaf with our customers. Our idea of business is to be of the greatest possible service to those who choose our store to deal in.

Whatever we can save to them in better qualities and lower prices, fuller sizes, more careful workmanship is bound to be to our advantage in the end.

It is the long run we are counting on. No shouting or hurrahing, but putting our statement in plain clothes and still being old-fashioned enough to believe that pointing out defects in goods is better than allowing our customers to discover them and be aggrieved.

We commenced that way in 1877, and we keep on that way, except that our manner of dealing grows more and more liberal, and we do everything that can be done consistently for the greatest good of all our customers.

We allow return of all goods, except Mattresses that might be slept on, good for medical purposes, tooth brushes and such like, and think we serve our patrons best by these few exceptions.

We go to the farthest extreme in providing every safeguard for those who deal here as to qualities and values. The confidence the people give us shall never be misplaced.

For years we have been passing out from one of the leading mills of this country a grade of All-wool plain and mixed Suitings that has become famous all over the United States.

Full 54 inches wide *and every fiber wool.* Wonderful how the loom men can sneak cotton into a Dress Stuff—comb it into the woolen yarns, sometimes. But this manufacturer never lets any cotton enter his door. And he chooses the wool with jealous care; fine wool, long fiber, clean and bright.

One dollar a yard has been the best price we could make on this Dress Stuff, no matter how big the lot taken.

But now comes a pleasant surprise, the price is

SEVENTY-FIVE CENTS.

And for the choicest line of colors we ever had. Mainly mixed effects, but there are beautiful

browns	greens
navy blues	garnets
plum	black

In all 19 colorings.

CHAPTER 313.

AN ACT to add an additional section to Article four of the Constitution of this State.

SECTION 1. *Be it enacted by the General Assembly of Maryland,* Three-fifth of all the members of the two houses concurring, that the following section be, and the same is hereby proposed, as an amendment to the Constitution of this State; and if adopted by the legal and qualified voters thereof, as herein provided, the same shall supercede and stand in the place of Section thirty-nine of Article four of said Constitution.

And the General Assembly may reapportion, change or enlarge the jurisdiction of the several courts in said city.

SEC. 2. *And be it further enacted by the authority aforesaid,* That the foregoing section hereby proposed as an amendment to the Constitution shall be, at the next general election to be held in this State, submitted to the legal and qualified voters thereof for their adoption or rejection in pursuance of the direction contained in Article fourteen of the Constitution of this State; and at the said general election the vote on said proposed amendment to the Constitution shall be by ballot, and upon each ballot there shall be written or printed the words "For the Constitutional Amendment," or "Against the Constitutional Amendment," as the voter may elect, and immediately after said election due return shall be made to the Governor of the votes for and against said proposed amendment, as directed by said fourteenth Article of the Constitution.

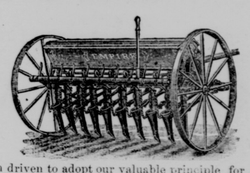
We want to explain to the farmers who are now getting ready for wheat seeding some of the many good points of the most popular grain and fertilizer drill on the market. Of course we refer to

THE EMPIRE.



OWING to the reputation that the Empire has won for accurate and reliable distribution of all kinds of grain and all brands of Phosphate, many manufacturers have been induced to copy and imitate several points of merit embodied in its construction.

Several of the older manufacturers are using our principle for distributing grain, and have paid us tribute for a number of years.

Others have imitated closely our style and manner of painting. Others have been driven to adopt our valuable principle for distributing phosphate. Others have adopted our old style of grain distribution that we have discarded. One has gone so far as to adopt our name, "Empire," that has been used exclusively for years, although never protected by trade-mark.

Now, all of this is very flattering to us, as "imitation is the sincerest flattery." But is it not the best evidence in the world that they all regard the Empire as a model, to be followed as closely as possible?

Buy the drill that is acknowledged by competitors to be the best in the market, except their own.
