STATE CENTRAL COMMITTEE.

WE OUGHT TO HAVE WATER-WORKS.

Our town's needs, in the way of improvements, have often been urged in these columns, and be believe with some effect. The advancement, however, in material progress, is not as rapid as our public-spirited citizens hope to make it and it behooves us all to continue our efforts. One of the most essential needs is a water supply, and the only solution of the matter is the erection of water works as hundreds of other towns of like importance have long since done.

The legislature of 1896 recognized the necessity for a water plant here, and Chapter 390¼ authorized its construction and provided for the issue of bonds to an amount not exceeding ten thousand dollars for the purpose. It is thought by those familiar with the construction of such plants that the outlay here need not be more than six thousand dollars. Towns of nearly twice the area of Denton have been well equipped for about ten thousand dollars.

In no instance, we believe, have proper enterprises in this direction failed to meet the expectations of the taxpayers who appreciate the value of lower rates of insurance which are immediately obtainable after standard works are put in. Fully as great, to those who will have them, are the advantages of water throughout the home. The saving of labor is an item of importance, amounting, taking the year through, to a considerable sum to many householders. Would such an entereprise involving an outlay of say six thousand dollars be profitable in Denton? This question, we think, can be safely answered in the affirmative, provided a hundred, or even half that number of our property owners, including the custodians of public property wake up to our real needs and give it the support which it deserves.

A GOOD OFFICER RETAINED.

The people of Caroline county are to be congratulated that School Examiner M. Bates Stephens has been continued in that important position. The commissioners have the commendation of a vast majority of the patrons of the schools, in every part of the county, for their favorable consideration of their appeal for Mr. Stephens' retention. It is not saying too much when we place Mr. Stephens amongst the foremost school executives of the State, and it does not disparage any applicant for the position to say that, all things considered, his displacement would have been a loss to the school interests of the county. His efficient work has brought them through whatever of experiment they may have encountered to their present high standing, and signal recognition of that fact is given in his retention in office. It would have been possible, but it would also have been out of keeping with the reputation of the gentlemen who then composed the board if it had declared null and void its action two years ago—appointing Mr. Stephens for four years—simply because of the political sentiments of the majority of the board. In this day of office-seeking and office-giving for political reasons, it is refreshing to see broad-mindedness and watchfulness of the public welfare rise above partisan demands, as in this case. Again we say the people are to be congratulated on the retention of a well-tried and efficient public official.

EDITORIAL NOTES.

The call for the primary elections will be found at the head of our columns to-day. The selection of a candidate for Congress is sufficiently important to awaken the interest of every Democrat in the district. It now seems pretty certain that there will be no great contest for the nomination, but that ought not to prevent us from sending the strongest possible delegation to represent Caroline county in the Ocean City convention, on the 25th of this month. In some event Caroline might be pleased to present the claims of one of her sons to the nomination. It could not be amiss to have the most representative Democrats of the county compose our delegation to the Congressional convention.

The *Herald* and the *Marylander*, the two Democratic papers published at Princess Anne, have been consolidated, and will hereafter be published every Tuesday under the name of the *Marylander and Herald*. We wish the consolidated paper success.

Peace seems to be almost within sight. Spain has accepted in all essential points the terms proposed by President McKinley, and it seems probable the minor contentions will be speedily settled by a joint commission. As treaty-making is extremely slow business it is probable that months will elapse, if there is no serious disagreement over details, before the work is finally consummated. Peace, with victory, will be heartily welcomed in every part of this country.

Reorganization of various school boards throughout the State occured on Tuesday last, and special interest centered in the examinerships. In Carroll, Dewees L. Farrer; in Howard, Philip T. Harmon; in Baltimore county, Z. P. Ebaugh; in Dorchester, Josiah H. Kerr, and in Allegany, John E. Edwards, were chosen examiners. Mr. Kerr succeeds Dr. J. L. Bryan, who has held the position for thirty years. In Queen Annes, L. L. Beatty; in Talbot, Alexander Chaplain were continued in office.

It is no wonder that those who hanker after public office are heartily in favor of the United States taking possession of the Philippine Islands and making territories of them. There are nearly two thousand of these islands, and a governor, district attorney, marshal and possibly other officers for each would open a field that would exalt the pleasurable expectations of the hungerers after office to the highest degree.—*Ex.*

The statement is made that articles of peace have been signed between Senators Wellington and McComas, the condition precedent being that Senator Wellington is to have the support of his colleague in his fight for the chairmanship of the Republican State Central Committee. With McComas' help the Duke can make it.

Mr. Stevenson Archer, Ex-Treasurer of the State of Maryland, died at the City Hospital, in Baltimore, on Tuesday last. His remains were interred at Bel Air on Thursday. Mr. Archer was an able and prominent lawyer. He served four terms in Congress, and years ago was one of the political leaders of the State.

Persons who are kicking over the one cent stamp tax apparently don't remember that under the old internal revenue law of 1862 a tax of $1 was levied upon gold watches, 50 cents upon silver watches and $10 on carriages. There were various other provisions in that law which make the present seem trifling.

The dedication of the Key memorial, an event of national interest, will take place at Frederick next Tuesday.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by Hugh Duffey, Hillsboro; R. J. Colston, Ridgely; W. E. Brown, Denton.

August Brings the Furniture Sale

AWAY BACK in the spring of 1885 we talked of furniture—and furniture shortcomings—and the shortcomings of the then furniture sellers.

We promised better furniture and better methods. The methods were easier changed than the furniture, and we had a long up-hill siege to the plane of really dependable furniture. There was some elegantly made furniture, even years ago, but it was the high-priced exception. It is yet, with the general furniture store—though the better methods of making we have enforced have made it possible for any dealer to better his stock if he will.

In 1890 the August Trade Sale of Furniture was first held. Its planning had taken months of work beforehand.

The August Trade Sale had common sense for its basis. The furniture business here developed had called for large facilities, extending to separate delivery service. Mid-summer came, and furniture selling practically stopped. Re-furnishing was the work of mid-autumn—then came a great wave of business.

We knew the regular course of selling was more profitable to us and most convenient to you. But the summer sleepy-time to the manufacturers was bothersome. If they could only meet expenses!

Furniture makers hailed the scheme of a Trade Sale with delight—coupled with the fear of its failure. But we took thousands of dollars' worth at much under current prices.

And the sale was a success.

It is a success yet. And this ninth annual event brings another great stock here and makes the usual economy possible.

It has been our purpose—and achievement—to make $2 do the work of $3 in furniture buying in August.

And standards never lower here.

Whether at home, or by seaside, or in mountain haunt, it is time to give a little attention to one's furniture needs—even the prospective ones—because it pays to do so.

If you are not ready for the goods purchased, we will hold them for September or October delivery.
