PUTNAM'S MONTHLY.

THE subscribers, responding to the repeated and urgently-expressed wish of eminent and judicious persons in various sections of the country, have decided to commence on the first of January, 1853, an entirely original Periodical under the above title.

It is intended to combine the lighter characteristics of a popular magazine with the higher and graver qualities of a quarterly review, filling a position hitherto unoccupied in our literature.

While attractive variety for the general reader is thus obtained, there will be an attempt to secure substantial excellence in each department.

To accomplish this, we intend that the work in all of its mechanical and business aspects shall be such as will meet the views of our most distinguished writers; such a medium as they would *seek for*, in communicating with the world, and such as may tempt some to write, ably and profitably, who have not hitherto contributed to periodicals.

We intend that all articles admitted into the work shall be liberally paid for.

We believe that an ample material exists for such a work, that there is no lack either of talent among our writers or of appreciation on the part of the reading public; and that a properly-conducted periodical of this kind may bring to light much true genius as yet undeveloped.

"Putnam's Monthly" will be devoted to the interests of Literture, Science, and Art, in their best and pleasantest aspects.

Entirely independent of all merely selfish interests or partisan or sectional leanings in its management, it will be open to competent writers for free discussion of such topics as are deemed important and of public interest.

The critical department will be wholly independent of the publishers, and, as far as possible, of all personal influence or bias. Wholesome castigations of public abuses will be allowed a fair field without fear or favor.

An elevated national tone and spirit. American and independent, yet discriminating and just, both to the literature and to the social condition and prospects of both hemispheres will be cultivated as a leading principle of the work.

Special attention will be given to matters connected with social policy, municipal regulations, public health and safety, and the practical economies of every-day life.

When a subject needs illustrations or pictorial example, such illustrations will be occasionally given; but it is not expected that the success of the work is to depend on what are termed "embellishments."

The following among many others have expressed their hearty approval of the plan, and will all give it their general co-operation, while nearly all of them will be contrrbutors to the work:

Washington Irving	Hon. E. G. Squier
Nathaniel Hawthorne	Donald G. Mitchell
Rev. Dr. Hawks	Miss Warner, Author of
Hon. George Bancroft	"Wide World"
Rev. Dr. Robinson	E. P. Whipple
Prof. B. Silliman, jr.	Miss Cooper
Rev. Dr. a yland	Rev. Orville Dewey
Pres. H. P. Tappan	Miss Sedgwick
H. W. Longfellow	George Sumner
W. C. Bryant	Fitz Green Halleck
George Wm. Custis	Rt. Rev. Bishop Potter,
Professor Lieber	of Pennsylvania
R. B. Kimball	Rev. E. H. Chapin
R. Waldo Emerson	Professor Gillespie
Mrs. Kirkland	Prof. Henry Reed, &c.

A full list will be given hereafter.

Price $3 per annum, or 25 cents per number. Terms for clubs, &c. will be given in separate circulars.

Orders received by all booksellers throughout the United States and by the Publishers.

PROSPECTUS
OF THE
Southern Literary Messenger
FOR 1853.

NINETEENTH VOLUME.

Price reduced to Three Dollars, or Four Dollars if not paid before the 1st of July in any year.

IN ISSUING the Prospectus of the Nineteenth Volume of the Southern Literary Messenger, the Proprietors beg to assure the public that no exertions will be remitted on their part to maintain the high character of the work, and to challenge the patronage of all who value sterling literary merit. For eighteen years the Messenger has endeavored to reflect faithfully the Southern mind, while disdaining all narrow and sectional views, and has been alone among the monthly periodicals of America in defence of the peculiar institutions of the Southern States. To this office it will still be devoted, and will be prompt to repel assaults upon the South, whether they come under the specious garb of fiction as in "Uncle Tom's Cabin," or in the direct form of anti-slavery pamphlets. At this critical juncture, while our enemies are employing literature as their most potent weapon of attack, the Southern people will surely not withhold their encouragement from a work whose aim it shall be to strike blows in their defence.

The Messenger will, as heretofore, present its readers with *Reviews, Historical and Biographical Sketches, Novels, Tales, Travels, Essays, Poems, Critiques, and Papers on the Army, Navy, and other National Subjects.*

And while the Proprietors do not appeal to the public on the score of a long list of contributors, they may refer with pride to the following names, as among those who are enlisted in behalf of the Magazine:

Lieut. M. F. Maury,	Rev. C. R. Vaughan,
Prof. H. A. Washington	Rev. J. C. McCabe,
Geo. Frederick Holmes	Dr. S. H. Dickson,
Wm. M. Burwell,	Judge A. B. Meek,
Rev. Sydney Dyer,	Caroline Howard,
Rev. M. D. Hoge,	Prof. Schele De Vere,
J. M. Legare,	Hugh R. Pleasants,
J. A. Turner,	Rev. W. H. Foote,
Mrs. A. P. Dinnies,	Rev. J. H. Bocock,
Miss Margaret Junkin,	Gilmore Simms,
Prof. J. T. L. Preston,	Judge B. F. Porter,
Prof. Geo. E. Dabney,	Mrs. E. H. Evans,
M. R. H. Garnett,	Miss S. A. Talley,
John B. Dabney,	Lucian Minor.

Col. P. St. George Cooke, U. S. Dragoons.

ith a view to ensure a larger circulation of the Messenger, the Proprietors have determined upon a reduction of the price of subscription to Three Dollars per annum, in advance, or Four Dollars if not paid before the 1st of July in any year.

Clubs remitting us fifteen dollars in one letter will be entitled to six copies.

The Proprietors, in making this announcement, appeal to the Messenger's friends every where to sustain them in the step by procuring additional subscribers to the Magazine.

The editorial and critical department of the Messenger will continue as heretofore under the charge of JOHN R. THOMPSON, Esq., and will embrace copious notes on current literature and reviews of all new American or Foreign works of general interest and value. The editor's opinions will be always fearlessly and honestly avowed.

Hereafter the business department will be conducted by the undersigned, to whom all communications of a business nature must be addressed.

FEMALE SEMINARY

IS LOCATED in Frederick City, Md., on a lateral branch of the Baltimore and Ohio Rail Road, three hours ride from Baltimore.

By means of the Magnetic Telegraph, intelligence may be communicated between parents and children almost instantly, if necessary, and in almost all directions.

This Institution has an able and efficient Board of Professors and Teachers, nine in number, and is in successful operation, with a large number of Scholars—it has large, airy and elegant apartments, furnished with such comforts and conveniences as are calculated to promote the happiness and facilitate the progress of the pupils. It has a good library, excellent Musical Instruments, an extensive **Chemical and Philosophical Apparatus**, and it is confidently believed that this Institution offers as many facilities for imparting a thorough, extensive and refined education as any Seminary in the land.

Scholars will be received at any time during the year, and will be charged proportionably from the date of their entrance to the close of the Scholastic year in July.

☞ *For board and Tuition including furnished Rooms, Lights, Fuel, &c., $200 per Scholastic year, payable half yearly in advance.*

Mr. and Mrs. Archer's Academy For Young Ladies,
No. 40, Lexington Street,
BALTIMORE.

THIS Institution has been in successful operation for ten years, numbering on its catalogue, annually, over one hundred pupils, principally from the Southern States. The location is convenient and pleasant, and all the arrangements are those of a well regulated establishment.

We add below a report of the condition of the school as noticed by a committee of examiners, and also the names of several gentlemen who have or have had daughters in the school, to whom reference may be made.

REPORT OF THE COMMITTEE OF EXAMINERS.

The undersigned having been invited as an Examining Committee, to attend the Semi-annual Examination of the classes in the Academy of Mr. and Mrs. Archer, present the following Report, one or more of them having been present from 10 o'clock in the morning until 2, P. M., during three days.

The number of pupils connected with the Institution during the session is about one hundred—from the Southern States, from Baltimore and its vicinity, and a few from the North. The location of the Academy is pleasant and perfectly healthy, and all the domestic arrangements are those of a well-regulated family.—The dignified and respectful behavior of the young ladies, and the urbanity and faithfulness of the teachers, are deserving of the highest commendation.

We found the course of Instruction in this excellent Institution most thorough and complete; the discipline mild and parental, though firm; and the various branches taught by the most accomplished teachers, and that every facility had been afforded for the acquisition of knowledge, which the experience of the present may have offered, or the knowledge and acquirements of the Principals may have pointed out.

The recitations in Grammar and Arithmetic were perfectly satisfactory. The classes in Geography, History and Geometry, recited with great accuracy, and showed that they had mastered these branches; and all the pupils gave evidence that what they had learned, they had made their own. But we were particularly struck with the examination of the first or graduating class, consisting of about ten young ladies, in Logic, Mental Philosophy and French. We have never seen these young ladies surpassed, seldom equalled; and their examination was searching, and continued for some time in each branch. In French they conversed with great ease and fluency; and we were informed that their teacher, an accomplished French lady, never spoke to them in any other language.—Their reading of Corinne was beautiful and spirited, such as would have gratified De Stael herself. Their analysis of the Paradise Lost was, too, most interesting; and we can truly say, that this class will be, wherever they may go, a testimonial of the persevering industry and faithful instruction of Mr. Archer and his associates. We can give no higher evidence of our confidence in this Institution than the fact, that each one of us has, or has had, either a daughter, or near relative, with Mr. Archer, and we do, in conclusion, with great confidence, recommend the Academy as one that will afford to our young ladies a complete and perfect course of instruction, and will prepare them for whatever station they may subsequently fill in their high mission in life.

Valuable Property for Sale.

I wish to sell my HOUSE and LOT at Long Old Fields. The House is a new one—has four good sized rooms and a passage upon the first floor, and in addition to a good Kitchen attached, is capable of having two rooms added upon the second floor. The lot contains *two Acres of good Garden Land*, one third of an acre being covered with a grove of oak trees. The advantages of situation in this case are that the place would make an eligible stand for a Public House—for no road being more used than the one on which these premises are situated. The house stands midway between Washington and Upper Marlboro', Prince George's County, Md.

GREAT MEDICINE FOR Worms in Children and Others.

Smith & Atkinson's American Worm Killer.

THIS medicine has been manufactured by Smith & Atkinson for several years, and has been used with great success by physicians and others, in various parts of the United States, many thousand bottles having been sold, and the universal approval it has met with in all quarters where it has been introduced, proves that it needs only a trial to satisfy the most incredulous of its great value. The size of the bottle has been enlarged, so that it is one of the cheapest as well as most valuable Worm Medicine ever offered to the public; and a person buying this article gets the full value of his money in quantity as well as quality, which is a fact well worth remembering.

Be careful to ask for "*Smith & Atkinson's American Worm Killer.*" and see that the name of SMITH & ATKINSON is on the bottle in raised letters. For sale by

Hampton's Vegetable Tincture!
THE GREAT DISCOVERY OF THE AGE!
READ! READ!! READ!!!

Joy to the World!—Hope for the Afflicted!—More Testimony from Home!

Cure of Consumption, Neuralgia, Pain in the Side, &c.

MESSRS. MORTIMER & MOWBRAY: GENTLEMEN,—It is with pleasure I can testify to the great healing powers of HAMPTON'S VEGETABLE TINCTURE. My wife had been afflicted for three years, laboring under a constant hacking Cough, with a most violent Pain in the right Side, Neuralgia of the Head, and Dimness of Sight; very little rest day or night, and much emaciation, and to all appearances a rapid Consumption inevitable.—We had the most eminent physician in Annapolis, but his medicine did not give her any relief at all, but growing worse if any change in the least; and after having read one of your Pamphlets, in July last, she concluded to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better; her appetite improved, her skin became quite clear, cough, pains, neuralgia, &c., entirely left her, and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of most excellent health.

I have seen also its beneficial effects on several other ladies of Annapolis, and I think I can say from what I have seen of the Medicine, I do not believe its Curative Powers can be equalled. A sense of duty to the afflicted has induced me to drop these few lines for their benefit. Respectfully,

EDWARD SANDS,

Master of the Schr. Geo. Barber, Annapolis Packet, No. 3 Tobacco Warehouse, Light Street Wharf. BALTIMORE, May 1, 1852.

Let the whole Afflicted World, read the Testimony of a Lady after thirty-eight years of suffering.

NORTHAMPTON, Co., April 13, 1852.

Messrs. Tyler & Adair: "I have been afflicted with Rheumatism at times from my twelfth year, I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless, I have tried various remedies to very little effect; last October I was attacked in my shoulders, sides, back and hips, I could not rest day or night, I could not move any part of my body without crying with pain, at this time I also tried many remedies internal and external without receiving any relief; I was at last advised to try "Hampton's Vegetable Tincture," before I had taken one bottle of which, I felt much better, and as I continued taking it, I felt strength coming into my back and limbs, and my stomach strengthened and revived every way—I have taken five bottles and am much better than I ever expected to be. I intend to use it whenever, I need it, and would recommend it to the afflicted, believing it unequaled. Yours,

ELIZABETH BAGWELL.

Messrs. Mortimer & Mowbray: Mrs. Elizabeth Bagwell is a lady of the highest respectability, wealthy and influential—the cure in her case speaks volumes in favor of this wonderful Tincture, several other persons we have heard of, have derived great benefit from its use in our county: we are entirely out of the article, and have daily anxious enquires to know when we will receive another supply. We expect large sales of it from the present demand, and want you to send us a box as soon as possible. Yours, TYLER & ADAIR.

Cure of the venerable and eminent Doctor Dunan's son of Baltimore City.

COUGH VERTIGO.—Rheumatism, of 15 years standing, cured. Testimeny of one of our best known citizens:

BALTIMORE, Feb. 9, 1852.

Messrs. Mortimer & Mowbray—It is with real pleasure that I am able to attest to the general healing and curative power of Dr. Hampton's Vegetable Tincture. Some time during last November I was taken with a very bad and serious cough, I was advised to take Cod Liver oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I used it all my cough had left me. Permit me also to state that for the last fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture and a kind Providence.

You are, my friends, at liberty to use this as you may think proper, and believe me. Yours, very respectfully, G. DUNAN.

N. B. I can be seen at any time at the Mayor's office. This is the testimony of thousands who have used this wonderful tincture.

Home Testimony, the World cannot Produce Better in favor of any other Medicine.

Rev. Vernon Eskridge, U. S. N., Portsmouth, Va., Aug. 18, 1852. Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy. I am respectfully, yours,

VERNON ESKRIDGE,
Chaplin U. S. Navy.

Astounding effects!!—The whole afflicted World Read!!!—A lady restored after two years sickness.

NORFOLK, Dec. 6, 1851.

Messrs. Mortimer & Mowbray—Hampton's Vegetable Tincture is certainly working miraculous results here, in the way of cures, but there seems to be a diffidence on the part of those cured to give a certificate, which, in justice to the afflicted should not exist. I could mention a dozen cases of importance in which it has been successful in curing the worst kind of diseases; but it appears to cure them so easily, and its effects are so magical, they do not appear to be able to realize it, though they are perfectly satisfied they are cured.

I will mention two cases which have lately come under my notice. A lady who had been confined to her bed for between one and two years, and on whom the doctors had been attending during that time, without any success, was induced to try the Tincture, and after taking the second bottle she was enabled to be up stirring about her house—a thing she had not done for two years, as I was informed by her husband, who called on me, in perfect ecstacy, and said he had at last found the much needed panacea. I think he will furnish you with a certificate of the strongest character.

Another gentleman informed me that he had a very valuable negro woman so far gone by disease that he would have taken twenty-five dollars for her, but the first bottle was so effective that he felt confident of a perfect cure. Yours, respectfully,

JOHN R.
