DEMOCRATIC TICKET.

FOR CONGRESS:

JOHN WALTER SMITH,
OF WORCESTER COUNTY.

Make but one mark on your ballot and that the X mark with the black indelible pencil in the booth, in the big blank square at the right of the face of "Old Hickory."

CONSIDER HOW YOU SHOULD VOTE.

In the wind-up of this campaign it is well for voters to give serious consideration to the effect of their vote. If you are sincerely favorable to bi-metallism—equal right of mintage for both gold and silver, at the existing ratio—then cast your ballot for John Walter Smith, with full assurance of his earnest advocacy of it in Congress. If you oppose prohibitory protective tariffs, with their accompaniment of class legislation and favoritism, vote for John Walter Smith, and secure an untiring, hustling opponent of them. If you oppose the conversion of this democratic government into a colony-holding empire, with big standing army and expensive navy to guard the far away islands of the sea; if you oppose the dumping into our elective fellowship of hundreds of thousands of savages and semi-civilized people, then vote for John Walter Smith and be sure of a foeman to those projects. If you are in favor of the strictest investigation of the stealing contracts given out to political favorites, vote for John Walter Smith. If you are in favor of sending to Congress from this district a representative of its every vital interest and a sure supporter of every measure and means calculated to promote its material advancement, vote for John Walter Smith. If you wish to vote for a life long Democrat, who has never wavered in his support from the time he cast his ballot, and who has given freely his time and means for his party, and who deserves the support of every Democrat in return, put it in for John Walter Smith.

If you wish to vote for a renegade Democrat, who hasn't gotten warm in his Republican clothes, mark it alongside of the name of Wilbur Jackson. If you are in favor of a representative of this district whose residence and business interests are in Baltimore city; if you are in favor of high protective tariffs which put large money into the pockets of the monopolists, at the expense of the people, which makes the rich richer and the poor poorer; if you favor the single gold standard, with its national debt-increasing capabilities, stagnation in business, low prices, etc.; if you wish a man who has allied himself with a party which favors force bills and legislative subversion of the people's rights; if you wish to vote for a man who puts up a big anti-bribery bluff to hide an intended purchase of a seat in Congress, Colonel Wilbur Jackson will fill the bill in each of these particulars.

One or the other of these two gentlemen will certainly be elected on the 8th of November. Which one of them best represents those principles you desire to see successful?

Make but one mark on your ballot and that the X mark with the black indelible pencil in the booth, in the big blank square at the right of the face of "Old Hickory."

EDITORIAL NOTES.

Over in the Fifth congressional district the colored man is coming to the front, as an independent factor in politics. Charles T. Parker, the nominee of the Mount Winans independent colored convention, whose name Secretary Dallam did not put on the ticket, is out in a circular. He urges colored men to vote independently, and says Maryland has 60,000 black Republicans, 40,000 white Republicans, from 5,000 to 10,000 Independents and Reformers, and 100,000 Jeffersonian Democrats. In the Fifth district about half the voters are black Republicans, and able, numerically, to elect one of their own race over a white Republican and a Democratic candidate.

Republicans throughout the district are coming to the front to protest against the usurpation of their rights in party management and party nominations by renegade Democrats. Party fealty for a quarter of a century counts as nothing in Republican politics against the dollars of the rich convert for office only.

Make but one mark on your ballot and that the X mark with the black indelible pencil in the booth, in the big blank square at the right of the face of "Old Hickory."

Judge Russum ought to pray deliverance from the loquaciousness of his friends. Last week the *Union* gave as an explanation of the Judge's signing the Willis papers that it was a joke deliberately planned by the Judge and Major Stewart. This week the same paper says it was a friendly act that in no way implied that he would endorse or support him. We do not wish to press this matter as it refers to those who signed the Willis papers in ignorance of the legal requirements and effect. In this class the Prohibition candidate for Congress places himself and Judge Russum. It may be asked, however, how is it that the petition which was signed by voters and non-voters in this county had no postoffice address, residence and occupation of the signers, at the time of signing, as some of them say, and had all those things when a copy of it came back from the Secretary of State? A discriminating public must be left to decide which of the many versions of the incident to accept. But we will say, for the benefit of the *Union*, that the law we quoted IS THE LAW and no amount of shilly-shallying will alter it, and the number of explanations it is offering is pretty conclusive proof that the prime object is to avoid the truth.

An exchange notes the fact that two years ago New York, which is almost an empire in itself, gave President McKinley not only its full electoral vote but a popular majority of 200,000. Yet today, to give an illustration of how political matters have changed, it seems to be an assured fact that Judge Van Wyck will be elected Governor over his Republican opponent Roosevelt, in spite of his war record. In many other States, which were solidly Republican two years ago, the outlook, to say the least, is very uncertain. Does it require much study to understand this great change which has been wrought in two years? We think not. This is simply the landslide which will overcome the Republican party this fall as an outburst of public indignation which the people feel against the outrages of the war and the spread of imperialism. On these two important questions the Republicans have been weighed in the balance and found wanting.

The numerous friends and patrons of the Queen Anne's Railroad are gratified at the increasing prosperity. A new steamer is soon to be built for the Queenstown-Baltimore ferry and additions of new rolling-stock will be purchased. The success of the new line has been assured from the start, but its best friends have been surprised at the large business so soon developed.

The latest prediction fixes the end of things terrestial for March, 1899. Notwithstanding the mathematical exactness upon which these calculations seem to be based, those who believe in the words of Our Saviour, remarks an exchange, need have no special uneasiness upon the subject—"The day and the hour no man knoweth."

The Baltimore *Sunday Herald's* last edition gave photographs of all the Democratic and Republican Congressional candidates in Maryland. There is not a better looking one than Col. John Walter Smith.

Maryland has a law which goes into effect at the beginning of next year, giving men equal right of dower in the property of the wives as the wives now enjoy in the property of their husband.

A JOURNAL correspondent, writing from Laurel, confidently predicts the success of the Democrats next Tuesday. He says Handy will carry the State by fifteen hundred majority.

Democrats, do your duty next Tuesday, and the result will be the return of this congressional district to its natural position, in the Democratic column.

The object of the law is to enable you to vote a secret ballot and it is not in the power of anybody to follow and find out how you vote.

From New Zealand.

REEFTON, New Zealand, Nov. 23, 1896. I am very pleased to state that since I took the agency of Chamberlain's medicines the sales have been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It so pleasant to take that we have to place the bottle beyond the reach of the children. E. J. SCANTLEBURY. For sale by Hugh Duffey, Hillsboro; R. J. Colston, Ridgely and W. E. Brown, Denton.

LOOK!—Don't fail to see Barrow's samples of wheat fertilizer before buying. The largest and finest line that has ever been in Preston, comprising 14 different brands, from the highest to the cheapest grades, at prices and terms to suit the purchaser. Office, Main street, Preston, Md.

Points for Merchants.

"It isn't such a good thing to write good ads.; it is mainly a question of taking time enough and giving the matter the requisite amount of thought. Do not buy little tin signs to tack upon back fences; do not disfigure the farmers' fences with your name and address. If your business isn't large enough to justify extensive advertising, better confine your work to the columns of the best paper in town. It is a pretty sure thing the best people in town—those who trade is most desirable—are the ones who take the best paper. Its circulation is made up of the cream of the community, and you had better get all the trade you can out of that circulation before you turn to something else. When you put your ad. in the best newspaper in your community you are addressing the wide-wake, progressive part of the community. You are skimming the cream. Generally speaking, the best newspaper will attract the best people, the intelligent people, the people who have money in their pockets to buy what they want and need. A man may have the best store and the best stock in the world. His prices may be among the lowest but he will not sell a dollar's worth unless he succeeds in making people believe he has and does these things. Advertising is the quickest and best way to impart this information. The first advertising that is done is merely preparatory. It introduces the advertiser to his public; it gains acquaintances for him."

The Judges' Resourcefulness.

From the Chestertown Transcript.

Ex-Judge George Mitchell Russum has discovered when too late that his conspicuous concern for the success of the nomination papers of would-be-free-silver congressman Willis has placed him, in what would for any other man than ex-Judge Russum, be an embarrassing position. Mr. Russum, the constitutional candidate of his party, and member of the Republican State Central Committee for his county, is not less for his resourcefulness in politics than in the law. But like many others he has fallen into the meshes of his own deception, and when questioned as to his signature to the Willis nomination papers, like a cornered Yankee answers by asking questions.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by Hugh Duffey, Hillsboro; R. J. Colston, Ridgely and W. E. Brown, Denton.

The "Whyness" of It.

Kent News.

The whyness is in the judge's anxiety for the election of Jackson. He wants to fool Democrats into voting for Willis knowing that every such vote is a half vote for the Republicans.

FOUND—On Main street, Denton, on Sunday of last week, a silk cape trimmed with beads. The owner may call at this office and get it.

American Dress Goods

The American manufacturer has the knack of combining good styles and good wearing qualities at very little cost. It's surprising how far the money goes in buying among these dress stuffs. For instance, these costs on lengths needed for entire dress—

8 yard dress pattern of 32 inch all-wool Cheviot for $1.60—only 20c a yard.
7 yard dress pattern of 38 inch part-wool Armure for $1.40—20c a yard.
7 yard dress pattern of 36 inch part-wool Covert Cloth for $2.10—30c a yard.
7 yard dress pattern of 36 inch all-wool two-toned Cheviot for $2.63—only 37½c a yard.
7 yard dress pattern of 36 inch all-wool plaid Cheviot for $3.15—or 45c a yard.
7 yard dress pattern of 40 inch all-wool Covert Cloth for $3.15.

A Rare Bargain in Black Goods Rough cheviots are in high favor this season, and a particularly bright lot came to us lately at half their worth—

A trade accident was the cause. The cheviots are in a rough canvas weave, dyed a lively, lustrous black. While they last, the price is

37½c a yd. instead of 75c

And there are many other splendid sorts of Black Goods to see. Here are—

Serges in 50 qualities
Cheviots in 100 qualities

The best we could find in every grade.

A strong north light brightens the black goods section and makes buying easy.

36 inch Black Serge at 31c a yard.
Excellent Black Serge at 45c a yard; then values range up to $1.75 a yard.
Black Cheviots in serviceable weight at 50c a yard.
Excellent Black Cheviots at 75c and $1 a yard; then up to $2.50 for the English and French black goods.

Women's Shoes There are thirty-two styles of women's winter shoes at $5 alone. Some are very mannish—and withal, sensible; for they are damp-proof, and have thick soles and low heels. But with a wholesome regard for those not inclined to extreme styles, we have lots of very decidedly feminine shoes—even to the dainty turned soles.

This Wanamaker shoe business is one of the wonders of retailing, with yearly sales in excess of those of any other shoe store on earth—save possibly one. Such selling don't come by chance. The shoes must be meritorious; buying them must be safe. It is safe—for we know the shoes we sell—from the tanned skins to the last work of finishing—and we guarantee them in the same big liberal way that we guarantee other goods.

There are a hundred and thirty-two styles of women's shoes in the new lines for winter—chiefly at $3, $4 and $5 a pair.

Housekeeping Linens A walk through this Linen Store brings you face to face with the world's best linens—the purest, best woven flax that crosses the Atlantic. Snowy satin-faced damasks arrayed side by side with the strong sturdy linens that wear till the purchase time is long since forgotten.

Of course, the story is too long to tell of the variety shown—that must be seen. A hint or two may help—

DAMASK SETS—

At $5.50 a set—Handsome bleached Damask Sets, comprising one dinner cloth, 70x88 inches, and one dozen 20 inch napkins to match. Several choice patterns to make selection from.

At $5 a set—Fine all-white German Damask Sets, comprising one knotted fringe cloth, with pretty open-work effect, and one dozen doilies to match.

TOWELS—

At 16c each—Heavy Devon all-white Huck Towels, with hemstitched ends; 18x33 inches.

At 25c each—Large, well-made and substantial German grass-bleached Huck Towels that you might match at 40c. All white or neatly bordered. Hemmed ends. 22x40 inches.

Bed Clothing These handsome, comfortable coverings for beds represent the top-notch of goodness in their various sorts and grades. The vast buying power of this house accounts for the unusually easy prices.

At $1 each — Fine large crochet Bed Spreads in pretty Marseilles patterns. Ready hemmed.

At $1.85 each—Handsome satin finish Bed Spreads in a range of beautiful patterns. Full double-bed size and ready hemmed.

At $3.75 each—Light-weight, but warm Quilts, filled with reliable down and covered with finest figured sateen, in several rich and dainty colors. The full size; with corded edges.

At $4 a pair—Good well-made White Blankets of pure well scoured wool filling, on a light cotton warp. They weigh 5½ pounds and measure 72x84 inches.

John Wanamaker.
