DENTON JOURNAL.

MELVIN, STEELE & JOHNSON,
EDITORS AND PROPRIETORS.

SATURDAY MORNING, AUGUST 4, 1900.

Democratic Ticket.

FOR PRESIDENT:

WILLIAM J. BRYAN,

OF NEBRASKA.

FOR VICE-PRESIDENT:

ADLAI E. STEVENSON,

OF ILLINOIS.

FARMING DOES PAY.

Many of the Eastern Shore farmers, says the Easton correspondent of the Baltimore *Sun*, are making money, and enough of it not only to enable them to live well, to enjoy the comforts, conveniences and luxuries of life, to educate their children properly and to have their families enjoy the social amenities of life and the relaxation of the summer vacation, but enough left after all this is done to put some by for investment and accumulation. Every year in all the best parts of the Shore tenant farmers are becoming landed proprietors. To some extent owners unsuccessful as farmers are selling farms to successful tenants. In Talbot county at least two-thirds of the farmstead holders of today were, successful tenants. In Talbot county at least two-thirds of the farmstead holders of today were, or their fathers were successful tenant farmers. Some have succeeded by grass and stock raising, some by fruit culture, some by "small farming," as the raising of small fruits and truck stuffs is called, and others by growing wheat and corn. The song of the land has been sung too much by the pessimists that the day is past for raising grain on these farm lands, since it had to be done in competition with the product of the wheat and corn virgin soils of the West. It has been proved again and again that this is not a fact. Of course it took farmers who had been getting along but indifferently well on $1.25 wheat some time and struggle, with disheartening periods, to learn how to grow 75-cent wheat at a profit. But it is done now. The margin, of course, is very small. The growing must be done on a large scale, and the work economically managed. The late Gen. William McKenney, of Queen Anne's, was largely instrumental in setting the pace on the Shore for growing grain on large areas and under one management. He was a great business man with an absolute confidence in the success of Eastern Shore agriculture. He bought land, discreetly and wisely, until he had over sixty farms in Queen Anne's county, and several in Talbot and Kent. One year in regular rotation cultivation he grew and sold 130,000 bushels of wheat and corn. His real estate holdings have not been divided since his death several years ago, and the lands continue to produce large crops. Their productive capacity is increasing; the cost of growing, harvesting and marketing the crops is decreasing.

WELLINGTON AGAINST MCKINLEY.

A dispatch from Washington to the Baltimore *Sun* says: United States Senator George L. Wellington on Monday made a statement partially giving his position in the present campaign. He said: "I am unalterably and forever opposed to imperialism, which I shall fight with all my power. I am opposed to President McKinley because he has deceived me in national affairs, and I shall oppose his re-election. I am not now prepared to state what part I will take in the campaign, but I shall attend if possible the liberty congress at Indianapolis. I do not know whether I will support Bryan or not. There are some things about him which I do not approve. I have never been a negative quantity in politics. When my conclusions are reached and my plans matured the public will be advised of them." Senator Wellington has said a number of times within the past few weeks that he does not believe McKinley can carry Maryland. He was shown the dispatches in the *Sun* this morning, one of which contained the statement that he would take the stump against McKinley. The Senator said the dispatches were correct, as far as he was concerned. It is stated that Mr. Wellington's break with President McKinley is due in part to the latter's intimacy with Senator McComas. The President and Senator McComas served a number of terms in Congress together and became fast friends. Mr. Wellington had the Maryland patronage much his own way until Mr. McComas was made Senator, when the latter got the ear of the President.

Less than twenty years ago stock of the then newly-organized Denton National Bank sold at par. It grew in value under the good management of the officers, and it is now nearing the time when a share will sell for twice the figures of its face, on which it pays easily eight per cent. per annum. The investors in Denton National Bank stock were fortunate. Good opportunities are ever presenting themselves. There are a few thousand dollars' worth of stock of the Denton Shoe Manufacturing Company, soon to be organized on a solid basis here, still available, and the people of this vicinity will do well to take it promptly, lest they lose a fine opportunity for good returns, as well as for the enhancement of the value of all property here and hereabout.

EDITORIAL NOTES.

Hon. A. Leo Knott, a Democratic leader of Baltimore says: "The party in our State is now harmonious. In the last year we elected a Democratic Governor and Legislature, and a Democratic Mayor of Baltimore, whereas in '96 things were just the other way. But this year those who've been outside the organization are with us again. The fact is, McKinley's imperialistic policy has disgusted the Gold Democrats and prevented the rehabilitation of their organization in our State. Democratic State headquarters will be opened tomorrow in Baltimore. All opposition to Bryan has disappeared. Democrats throughout the State will support him with the utmost good faith.

Interviewed on Wednesday National Democratic Chairman Jones says everything is moving along nicely for the Democrats and he is very hopeful of victory. He says the imperial policy of the present administration is more heartily opposed by the great mass of the people than any other important position assumed by any party for many years past. The evident intention of the administration to organize a great standing army is popularly disapproved of.

The movement to be started at Ocean City today looking to the forming of an Eastern Shore development organization should be encouraged by the business men of every county. The advantages offered to thrifty settlers are manifold and business possibilities are many. The counties are all making some progress, but not commensurate with the exceptional opportunities offered.

A favorite way of getting at the sentiment of the people on a question of candidates is to interview the traveling salesmen. They are keen observers, and when their concensus of opinion points to the election of a candidate, as is now clearly indicated by the metropolitan press, it is pretty safe to give them credence. The average salesman has selected Mr. Bryan for the winner this time.

The American general in command of the army in the Philippines continues to report long lists of killed and wounded, and thousands of American citizens are asking, when will this cruel war be over?

The Democrats on Thursday carried the State of North Carolina for their State ticket, and a constitutional amendment requiring an educational qualification for voters, by over 60,000 majority.

Democratic headquarters have been opened in the Eutaw House, Baltimore. Democratic committeemen laugh at the claim of the Republicans that Maryland will go for the g. o. p. this year.

Those who have fruits to preserve this year are lining up against the trusts, too. Sugar has been increased in price.

Hon. Wm. J. Bryan favors the income tax, and the Kansas City convention declares for it.

AT THE NATION'S CAPITOL.

The tendency of this administration to follow the imperialistic policy of government without Congressional authority was again emphasized by the announcement cabled from Madrid—getting news of what our government is doing from foreign capitals, is not pleasing to the average American, although it has become quite prominent under the McKinley regime,—that this government had offered Spain $100,000 for the two islands of the Philippine group which were not covered by the boundary line named in the treaty of peace with Spain. It is the theory of this government that the Executive branch can pay out no money that has not been specifically appropriated by Congress for a particular purpose, but that theory has been departed from several times under the present administration, beginning with the lump sum $50,000,000 placed at Mr. McKinley's disposal to prepare for the war with Spain. That departure was justifiable under the circumstances and was authorized by the unanimous vote of Congress, but there have been other departures which were neither justifiable nor authorized, and this offer to purchase more islands is one of them. It was known last winter that Spain had laid claim to those two islands, but instead of referring the matter to Congress, the administration announced that Spain had been notified that its claim would not be recognized. That was supposed to have ended the matter, until the Spanish government informed the world that this government had offered to pay $100,000 for the islands. If Congress was not Republican in both branches and thoroughly dominated by the imperial administration it would call down this unconstitutional usurpation of authority, and demand to know from what fund this $100,000 is to be taken. There is an emergency fund at the disposal of the administration, but it is certain that those who voted to appropriate it never contemplated the use of any portion of it for the purchase of islands. If this republic is to be preserved as established, a government must be put in power that will follow the precepts laid down by the Constitution, which the Democratic platform pledges Bryan and Stevenson to do. Senator Vest was right when he declared that the great issue of this campaign was republic or empire, with the Democratic party standing for the republic and the Republican party standing for the empire.

"One of the results of Hanna's survey of the situation" said one Republican to another, "has been an urgent request from him to the trust magnates and other large employers of labor who are under obligations to him for legislative favors, to keep down labor troubles and to prevent strikes at any cost, until after the election."

The war taxes are still piling money up in the Treasury. The annual report of the Commissioner of Internal Revenue shows receipts for the fiscal year ending June 30, to have been $295,316,107, an increase over the previous year of $21,831,534. More than $100,000,000 ought to be in the pockets of those who paid it into the Treasury.

The much pre-judged and pre-boomed peach crop is now reaching us. All down the line mutterings are heard that the prices are low. It is, however, yet too early to kick on the market as poor and wormy fruit only has gone in. The feeling is general that the crop estimate of the railroad people is tremendously excessive, but it is well enough to let it go out that we have peaches enough to throw at the heads of timid buyers. —*Smyrna Call.*

Once no one wanted a potato. After they heard of them and tried them they wanted them and have since continued to use them. There are today many other articles as well adapted for general use as the potato, but not wanted because not known. Perhaps you have one yourself. Newspaper advertising rightly done will make a good market for a good thing.

The farmer doesn't have to solicit the patronage of anyone. He doesn't have to enter into competition and strive with his neighbor like the merchant; he doesn't have to depend on donations, reluctantly doled out, like many ministers; in fact he can be the most independent man on God's green earth if he manages his affairs in a business like manner.—*Exchange.*

To fry tomatoes, put two tablespoonfuls of butter in a frying pan, and add to it a tablespoonful of finely chopped onion. Cook the onion until it is yellow and remove it. Cut the tomatoes in halves, let a little of the juice drain from them, place them in the pan, and cook for five minutes. Turn them and cook them five minutes longer.

Pastorfield's line of 10c dress ginghams all go for 7½c.; best apron ginghams 5½; all calicoes 4½c; white plaid muslins as low as 5c; beautiful light shades of outing cloth 7½c; handsome black satteens reduced ½, all-wool serge only 35c. These goods will not last long at these prices. Hand up your plate.

Wheatley's camp-meeting, in Dorchester, a few miles from the Caroline county line, is in progress. The number of tent holders is larger than usual.

The popularity of Rehoboth is growing everyday.

Chances Better Than in '84.

From the Baltimore Sun.

In the Cleveland-Blaine campaign, in 1884, there seemed far less prospect for the election of the Democratic ticket in the early part of the campaign than there is at the present time for Bryan. In point of fact Cleveland was beaten absolutely until the Rev. Mr. Burchard came along and saved him. It is far too early in the game to make any predictions at this time. A Burchard may appear, and there are many who believe that the Hon. Theodore Roosevelt will be the Burchard of 1900. His speech at St. Paul is a fairly good starter.

School Examiner Crouse.

From the Easton Star-Democrat.

Prof. Wm. S. Crouse, formerly principal of the St. Michaels High School, and who was elected to fill the unexpired term of Prof. M. B. Stephens as School Examiner of Caroline county has been elected for a full term. A better selection could not have been made, and Prof. Crouse will fill the position to the satisfaction of all concerned.

DIED.

WEBBER—Gertie Bessie Webber, age 22 years, died July 24th, 1900, at the home of Daniel Adams.

Through all pain at times she'd smile,
A smile of heavenly birth;
And when the angels called her home,
She smiled farewell to earth.

Heaven retaineth now our treasure,
Earth the lonely casket keeps;
And the sunbeams love to linger
Where our sainted Gertie sleeps.
—BY HER SISTER.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhœa Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another does in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by Hugh Duffey, Hillsboro; R. J. Colston, Denton.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sample bottles at W. E. Brown's, Denton, Md., or Rickards & Co's., Marydel, Md.

If our farmers want a good stand of grass instead of sorrell, all they need to do is to apply the "LeGore Combination Lime" on wheat this fall; it will also increase the wheat crop one-third. The analysis of the soil after an application of this lime shows that it unites ammonia, phosphoric acid and potash in the soil and attracts nitrogen from the air, freely; but the increased crop proves it much more satisfactory to the farmer. The extra growth of grass, corn and wheat that it produces will convince the most skeptical. For prices, testimonials and any further information, address, LEGORE COMBINATION LIME CO., LeGore, MD.

A lame shoulder is usually caused by rheumatism of the muscles, and may be cured by a few applications of Chamberlain's Pain Balm. For sale by Hugh Duffey, Hillsboro; R. J. Colston, Denton.

If you want to buy fertilizers cheap and grow a big crop of wheat, give us your order for Baugh & Sons Co's goods. They are independent of trusts. STEWART & JARRELL.

MULES.

I have arrived home with a load of Western Mules, weighing from 950 to 1100 pounds Ages from 4 to 6 years. All broken. They are on the farm where I live, near Oakland, two miles from Ridgely. THOMAS MITCHELL.

Property for Sale.

I have several desirable farms in Caroline county, a residence in the town of Hillsboro, and a store and residence in Ridgely for sale. I have also for sale or rent a hotel in Hillsboro.

Scarecrows.

The term is almost a misnomer, now-a-days. For the "century-living crow" has been schooled by experience. The scarecrow dosn't scare him. Investigating ornithologists say that he can tell a gun from a stick and can count up to seven. Evidently the crow has progressed from the ignorance of his ancestry.

The crow is in some things in advance of the human family. There are scarecrows which scared our grandfathers, and which are just as fearsome to us. In spite of the fact that some scientific investigators say, "There's nothing to be afraid of. A scarecrow can't hurt you," the bulk of men and women still believe the scarecrow is a powerful and destroying fetish.

This attitude is most marked in relation to certain forms of disease. In diseases of the lungs and respiratory organs, for instance, it is the custom to assume that there is no cure for the cough, no help for the hemorrhage, no healing for the lungs. The scarecrow, *Consumption*, is set up, often taking the form of some inexperienced and unskillful practitioner who denies hope or help to the victim of disease.

Yet the records go to show that stubborn coughs have been cured, that persistent hemorrhages have been stopped, and that weak lungs have been made strong by the use of Dr. Pierce's Golden Medical Discovery.

TESTIMONY TALKS.

All the claims in the world for the curative virtues of a medicine will not equal one testimony to the actual fact of cure. Thousands of testimonials like the following have been received from persons cured of lung "troubles," bronchitis, hemorrhage, obstinate coughs, etc., by "Golden Medical Discovery:"

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Felton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon, for I felt so awfully bad. Had a bad cough, spit blood, was very short of breath; in fact, could hardly get my breath at all sometimes. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do a small washing. I worked in the canning factory this fall, and I feel like a new person. I thank the good Lord, and also Dr. Pierce for making this good medicine. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took thirteen bottles of the 'Golden Medical Discovery' and four vials of Doctor Pierce's Pellets."

There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine, and all other narcotics.

Sometimes a dealer will offer a substitute for the "Discovery," claiming it to be "just as good." The substitute pays him more profit, that's why. Protect yourself from unscrupulous dealers by insisting on Dr. Pierce's Golden Medical Discovery.

21 CENTS' WORTH

Of knowledge wouldn't amount to much, you'd think. But for just 21 cents invested in one-cent stamps (to pay expense of mailing *only*), you can obtain knowledge which it has taken hundreds of years and millions of money to acquire. Dr. Pierce's Common Sense Medical Adviser covers the field of medicine and hygiene from the day of Galen to the present hour. The 1008 pages of this great work are full of facts vital to human health and happiness. The book is given away, being sent entirely free on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers or 31 stamps for the cloth bound book. Address Dr. R. V. Pierce, Buffalo, N. Y.

WANAMAKER'S. | WANAMAKER'S.

Philadelphia, Monday, July 30, 1900.

August Furniture Sale at Wanamaker's

begins August 1st.

Every kind of furniture you want you can buy at a reduction—the average is a third off.

There is not a single exception in any line of furniture, from kitchen chairs to the most elaborately carved and upholstered parlor suite.

Some are marked a half off, some third, some quarter, some still less, but the average is a third.

The tags tell the story. Whatever has a blue tag on it is reduced; whatever hasn't, isn't.

75,000 pieces in the sale, and in our two stores (New York and Philadelphia) $750,000 worth of furniture will go for about $500,000.

The furniture is all honest well-made furniture, and some is superbly fine.

John Wanamaker

OEHM'S ACME HALL.

"Oehm" clothing for men is a distinctive sort of clothing. There's stylishness about it that is rarely attained in ready-to-wear clothes. It's because we make all our own clothing—employ the best tailors all the year 'round, so that "Oehm" suits are made in the exact same way as are the clothes a tailor makes to order—same carefulness of detail, same skillfulness in making. But we show five patterns to any tailor's one; we use ten times as much cloth, and can afford to buy in a wider variety. "Oehm" clothing costs no more than the ordinary sorts—$7.50, $10 $15 to $20 for suits that tailors sell for double.

Shoes, hats, and furnishings for men and boys, too.
