### WHEN THE TRUSTS QUARREL.

A ray of hope breaks to the tariff-burdened people of this country in the contentions and overreachings of the trust beneficiaries of the Dingley law. Secretary Gage, at the instance of the sugar trust, it is said, has imposed the countervailing duty on sugar imported from countries paying an export bounty, equal to that bounty, as provided in the Dingley law. Germany proposes to retaliate in a way that hits hard some of the other big trust manufacturing concerns which sell their goods at a very large discount from the prices asked in this country, and they are immediately by the ears. In the contention their methods are ventilated. Two bills have already been introduced in Congress, by Republicans, to regulate this outside selling, and others may follow. The Republicans, both in and out of Congress, are becoming restless under the tyrannous rule of the trusts and revolt occasionally and lightly against their taskmasters. A local Republican, of more than local renown, politically and professionally, very recently explained that the selling of manufactured articles in foreign countries at lower prices than at home is confined to patented articles, which were beyond the scope of their patent protection. He would have finished his explanation properly by adding that they were also beyond their tariff protection, and he would thereby have reached the marrow of the matter. The quarrel of the people with the manufacturers is that they are discriminated against, in the matter of buying, in favor of the foreign buyer; that they sustain them by purchase, patent and tariff, and are entitled in return to their favors, when they are scattering them around. It will require a few more burdens for the people before they revolt resolutely. Marcus Hanna's ship subsidy bill, which would put millions in the pockets of favored ship owners, with no return whatever to the people, might help along a little, and additions to the army, not needed, might help a little—might be, indeed, the straws to break the camel's back—but the greed of the trusts is likely to be the most potent factor in arousing the people to the fact that the party of subsidies, large standing armies, and bounties to manufacturers, is a safe one to keep out of power.

### THE TAXPAYERS' RIGHTS.

It seems quite evident that the county commissioners propose to hold fast to the old spoils system of working the county roads as long as possible—until the last ditch, as the saying goes—despite the fact that it has been very clearly shown to them that they can accomplish a great saving of the people's money by abandoning it. This disposition is plainly manifest from the manner in which a very strong petition, from good citizens of the Fifth district, was received at a meeting last week. The majority members of the board seem to regard the earnest wish of more than one hundred and sixty citizens of that part of the county, about a matter which affects their material welfare, as only worthy of secondary consideration when politics is involved. A dozen or so supervisorships of roads, judiciously distributed, "wherever they will do the most good," will be better than the saving of hundreds of dollars to the public treasury. Besides, the commissioners may argue, the yielding to the people of the Fifth district in this matter might be taken as a precedent which in a little while would cause the whole structure of the political county road to tumble. Seeing the savings and the better work, if allowed in southern Caroline, would be almost certain to suggest the same reform to the people in other parts of the county. What would be done about the eighty or more supervisorships and the political power which goes with them! The question is doubtless worrying the majority members. It is said that the taxpayers of the Fifth district have in no wise receded from their demand, nor should they do so. They are right, and the people of the county are with them, even though political plans may "gang agley." The taxpayers all over the county should vigorously maintain their rights and enforce economy in the public service.

### FROM THE NATIONAL CAPITAL.

All the extravagance of the Republican Congress is not connected with big appropriations, although they make the most fuss and are naturally heard the most of. During the debate on the General Deficiency Bill it was shown that sinecures were thick as peas in a pod. It was shown that committee clerks, the moment they do any real work, use their pull with the members to get extra pay therefor, and that they have been succeeding in getting much money in the shape of gratuities simply because nobody made it his business to oppose these petty raids on the public fund. The clerk of one committee claimed, and will get $1,000 extra for reading proof of testimony taken by his committee; clerks of the Pension Bureau, detailed to help the pension committees of Congress, are presented with $500 each in addition to their regular salaries, and clerks who have compiled a few pages from the Congressional Record, in regular office hours, are given from $300 to $2,000 each for extra work. A little dialogue between Representative Cannon, Chairman of the House Committee on Appropriations, who reported the bill, and Representative Loud, of California, shows how carelessly the items are scrutinized before they are presented to the house. Mr. Loud: "Who is William L. Stiles, who is to receive an appropriation as a messenger for the Committee on Accounts?" Mr. Cannon: "Well, if God doesn't know him any better than I do, he is lost." It has recently become known that a man has for a long time been drawing salary as clerk of one of the important committees of the Senate—Foreign Relations—who did not even come to Washington during the session of Congress, to make a bluff of doing the work which was performed by two assistants. Another method of extravagance which has flourished under this Administration is connected with the enormous expenses piled up by some of the departmental bureaus. For instance, when Congress provided for the Bureau of Animal Industry of the Department of Agriculture, it provided for one chief at $3,000 a year, one clerk at $1,500, and twenty inspectors at $10 a day. The expenses of that bureau during the last fiscal year, as shown by the official figures, have grown to nearly a million dollars, as follows: Salaries, $769,329.61; traveling expenses, $22,647.85; miscellaneous, $101,634.48.

Senator Tillman may have opened the way for many Southern veterans of the Mexican war to get on the pension rolls, when he succeeded in getting a bill pensioning Jim Thomas, a Mexican veteran, which had passed the Senate, through the House, by swearing that not another private pension bill should go through the Senate until it was passed. It is claimed that its passage is practically a repeal of the law barring those Mexican veterans who sympathized with the Confederate cause from the pension rolls.

### EDITORIAL NOTES.

"A young man of capacity, industry and integrity has a field for individual effort such as has never before existed in this country," writes Edward Bok of "The Times of the Young Man," in the March *Ladies' Home Journal*. "And success is neither harder nor easier than it ever was. Success never yet came to the laggard, and it never will. Let a young man be capable; have enterprise, be willing to work, and carry himself like a man, and he goes where he will. His success depends upon himself. No times, no conditions, no combinations of capital can stop a young man who has a determination to honorably succeed, and who is willing to work according to the very utmost of his capacity and sinews of strength.

The Scranton *Times* speaks highly of Cornelius Comegys, Esq., formerly of this county, a candidate for the Common Pleas judgeship of Scranton: "Not less worthy of consideration for the Common Pleas judgeship is Cornelius Comegys, Esq., whose voice is frequently heard in the trial of cases, civil and criminal, and whose ability as a lawyer is best appreciated by his brethren at the bar, who are always conscious of the necessity of making thorough preparation of their cases when he is on the other side."

Admiral Sampson has been putting his pen to paper again in a way that has earned him further contempt with the American people. He now urges a caste rather than a merit system of promotions in the navy. That is not inconsistent with the record he has made, however. It is in line with the famous Santiago message, which will be handed down in history as the most monumental self-assertion on record, to say nothing of the credit-cribbing feature of it.

The long-expected Steel Trust was incorporated at Trenton and Jersey City Monday, under the name of the United States Steel Corporation. It has power to acquire the business of almost every description of enterprise connected with the steel business, extending even to transportation. No geographical limitations are placed upon the trust. The capital is $3,000, but it may be expanded without limit and it probably will be made $1,100,000 in the near future.

The New York *Times* urges the British Government to accept the amended Hay-Pauncefote Treaty. "Its acceptance," declares the *Times*, "Would bring to a fortunate end a situation that gives occasion for anxiety to Englishmen and Americans who set a high value upon the continuance of amicable relations between the two nations."

It is said that the successful politician is one who learns what the people want and bends his energy in that direction. What of the politician who ignores their wishes and will only lend a helping hand when under pressure?

Congress has delegated to President McKinley absolute control of affairs in management of the Philippine Islands. Perhaps we are not drifting toward imperialism?

### MISCELLANEOUS MATTERS.

It has been suggested that a prize be offered for the Maryland country newspaper which has not printed the following paragraph: "There is hardly a married man, except a printer, who does not carry in his pocket the picture of an attractive young woman who is not his wife or his sister. Yes, and we violate no confidence when we say that her name is Miss Annie Wilkins Williams, of Philadelphia, and that her picture ornaments the silver dollars which all of us use when we can get them."—*Exchange.* [The lady named has a number of relatives and friends in Caroline county.]

A letter from Salisbury says: Several farmers of this locality experimented last year in raising peanuts, with much success. Lee Johnson says no other crop will yield more to the acre. "We can grow 75 to 80 bushels, averaging 22 lb. per bush., worth 75c, per bush. This in itself is a paying crop, but in addition are the vines, worth $25 an acre for feeding, being as good as alfalfa. Livestock are very fond of them, and they make excellent feed for milch cows. Mr. Johnson and others intend to go into the business on a large scale.

Strollers along the river shore near Cambridge have noticed lately the ravages upon the banks by the constant wearing of the water. Owing to the fact that the Choptank turns almost at right angles around Chancellor's Point, just above the city, the right bank is exposed to the full violence of wind and tide, and the water is cutting away the bank at an alarming rate. Breakwaters erected there by property owners seem to have been only partially successful.

A man who claims to know, in referring to the lack of water in our rivers, says he can account for it. "At this time of the year," he says, "an enormous amount of water is frozen into ice and ice-bergs and have drifted into the ocean. When we have a warm spell of weather, it will cause this ice to melt and the rivers will be swollen to their normal state." He may be right.—*Exchange.*

Grape vines ought to be trimmed before the winter is over. If the vines are young, cut back close to the ground, leaving one cane and two buds. If well advanced, cut back to about a foot of the ground, leaving two or three canes and three or four buds; the older the vine the more buds may be allowed. The fruit is produced on the new wood of this year's growth.

Mrs. Sarah Howell Wilson, who died at the home of her daughter, Mrs. Sallie B. Holmes, in Dover, at the age of 82 years, was buried in the Friends' Burying Ground, adjoining the meeting house at Little Creek. Mrs. Wilson was the widow of Edward Wilson, formerly of Philadelphia, and was connected with many prominent Kent county (Del.) families.

Governor Smith on Thursday announced that he had decided to appoint Mr. Joseph Y. Brattan Police Examiner to fill the vacancy caused by the resignation of Mr. George C. Thomas. Mr. Brattan is a well-known newspaper man, a son of the late Joseph Brattan, a brother of the late Robert F. Brattan, of Somerset county.

Easton lately passed a town ordinance against "crap shooting;" then it made several arrests for offending against the ordinance. But then it discovered that the county would not stand the expenses of a prosecution under a town ordinance and dismissed the prisoners rather than face the prospect of a bankrupt treasury.

Mr. H. J. Walton, of near Bridgeville, caught a hawk in a steel trap last Sunday. It measured three feet and ten inches from tip to tip of the wings.

**An Honest Medicine for La Grippe**

George W. Waitt, of South Gardiner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by R. J. Colston, Denton; Hugh Duffey, Hillsboro; T. W. Smith, Ridgely.

**No Tax on Bank Checks.**

A Washington dispatch says: A complete agreement has been reached by the Republican conferees on the most important item of the War Revenue Reduction bill. On beer the House wins. It fixed a rate of $1.50 per barrel without any discount. The tobacco tax is compromised. The compromise provides a reduction of two cents and forty-hundredths of a cent per pound leaving the rate 9.60. The House also comes out ahead on bank checks. The House repealed the entire tax on checks, but the Senate did not accept this action. The Senate conferees now concede the House provision. The reduction of the Revenue bill will be $7,000,000 on account of this action. The House provision entirely repealing the tax on proprietary medicines is also accepted.

**Remarkable Cures of Rheumatism.**
*From the Vindicator, Rutherfordton, N. C.*

The editor of the *Vindicator* has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. For sale by R. J. Colston, Denton; Hugh Duffey, Hillsboro; T. W. Smith, Ridgely.

**The Three Important Measures.**
*From the Kent News.*

It is not too late to do good. If the Maryland Legislature will go to Annapolis and *economically* pass the three measures proposed, Gov. Smith will have won enough glory to last a lifetime. The greatest curse on the body politic today is bribery and the measure proposed will go a long way toward remedying the evil.

**A Good Cough Medicine for Children.**

"I have no hesitancy in recommending Chamberlain's Cough Remedy," says F. P. Moran, a well known and popular baker, of Petersburg, Va. "We have given it to our children when troubled with bad coughs, also whooping cough, and it has always given satisfaction. It was recommended to me by a druggist as the best cough medicine for children as it contained no opium or other harmful drug." Sold by R. J. Colston, Denton; Hugh Duffey, Hillsboro; T. W. Smith, Ridgely.

**The Old Gander on Guard Hollered.**
From the Kent News.

Mr. William Robinson heard Mrs. White's gander holler. He looked out the window and saw the thief with a goose under each arm. Mr. R. seized his gun and fired it toward the thief, who dropped the geese and escaped.

## The Farmer's Foes

are weeds. Unless they are kept down, they divert the nutrition which the soil provides from the growing crops and ruin their productiveness.

Diseases are to the body what weeds are to the soil. They divert the nutrition which is necessary to sound health, and the body, instead of being strong and hardy, drags out a sickly existence. When the stomach is diseased, and the other organs of digestion and nutrition are involved with it, there is a constant loss of nutrition by the body. The stomache and its allied organs are not able to convert the foods into nourishment, and hence the body and its several organs are deprived of the necessary elements of vitality. What is known as "weak" heart or "weak" lungs, "weak" nerves and other forms of so-called weakness, are generally caused by "weak" stomach. When the stomach and the other organs of digestion and nutrition are cured, then the other diseases are cured with it. Diseases which are caused by a diseased condition of the stomach are cured through the stomach. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and its associated organs of digestion and nutrition. It cures through the stomach diseases of heart, lungs, liver and other organs. It increases the activity of the blood-making glands, so that the whole body is nourished by an abundant supply of pure blood, rich in the bright red corpuscles of health.

There is no alcohol in "Golden Medical Discovery" and it contains neither opium, cocaine, nor any other narcotic. It is strictly a temperance medicine.

Persons suffering from chronic forms of disease are invited to consult Dr. Pierce by letter *free*. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

### Suffered for Years.

"My gratitude to you and your 'Golden Medical Discovery' is so great," writes Mr. Ross Martin, of Arlee, Mason Co., West Virginia, "that I am at a loss to find words to express my true feeling. I had suffered for a number of years with lung and throat trouble, and doctored with specialists, but got no better. Then I decided to try Dr. Pierce's Golden Medical Discovery, and after using it I was greatly relieved. I have all faith that it has saved my life.

"I have one of your medical books and think it a grand work."

### Torpid Liver Cured.

"I was a sufferer from torpid liver for over a year," writes Mrs. Nora Willis, of Wheatfield, Jasper Co., Ind., "and could not sleep, nor eat but very little, and then it would cause me great distress. I tried several doctors but got no relief. Was advised by a friend to write to Dr. Pierce, which I did, and in a few days I received a letter advising me to take his 'Golden Medical Discovery' and also his 'Pleasant Pellets.' After I had taken only half a bottle I was greatly improved. I only took three bottles of the 'Golden Medical Discovery' and two vials of the 'Pellets,' and, thanks to Dr. Pierce and his wonderful medicine, I am as well as ever in my life, and feel that life is worth living after all.

"Last winter I took a severe cold which resulted in pleurisy. Tongue can not tell what I suffered. For two nights and two days I could not move without it nearly killed me. I told my husband I could not endure another night of suffering. The weather was so cold and stormy that it was almost too bad for any one to go six miles to town, but he went, and got a bottle of Dr. Pierce's Extract of Smart-Weed, which gave me instant relief. I can say that for all pains that I have tried it for it has worked like magic. We keep a bottle of the 'Smart-Weed' in the house all the time. I cannot thank Dr. Pierce enough for what he has done for me."

Constipation has almost countless consequences. Dr. Pierce's Pleasant Pellets cure constipation and cure its consequences. They should always be used with "Golden Medical Discovery," when the use of a laxative is indicated.

W. H., No. 3, folio 99, &c., one of the mortgage records of Caroline county, Maryland, the mortgagor having failed to perform conditions required of him by said mortgage, the undersigned, the attorney named in said deed of mortgage, will offer and expose at public sale, to the highest bidder, in the town of Ridgely and on the mortgaged premises on MONDAY, the

## 11th DAY OF MARCH,

A. D., 1901, between the hours of 1 and 2 o'clock, p. m., all those

## FOUR TOWN LOTS

laid down on the plat of the town of Ridgely, as lots 7, 8, 9 and 10, of Block 11, said plat being of record in Liber L. H. G., No 57, folio 57½, one of the land records for Caroline county, having a frontage of 200 feet on First Avenue, west, and running back a depth of 180 feet to an alley. This is the same land deeded to James A. Longfellow by Abraham R. Wright and wife on the 3rd day of January, 1899, the same being of record in Liber C. W. H., No. 64, folio 335, etc., one of the land records for Caroline county.

The improvements consist of
