EDITORIAL NOTES.

In an article commending the South Carolina Interstate and West Indian Exposition at Charleston, the New York *Tribune* says:

"This exhibition is to be representative of the States which may be regarded as commercially tributary to Charleston and of all the West Indian Islands. The States in question are practically the whole Southeast, the 'Old South.' There are 10 States, with yearly mineral products of more than $100,000,000, forest products of more than $130,000,000, farm products of more than $575,000,000, and manufactured products of $1,000,000,000. They would form a great empire in themselves, and they are as yet only beginning to develop their riches.

"But the exhibition will reach beyond State and national bounds, and include other nations and colonies. The 70 West Indian Islands comprise two independent republics—one republic now in process of organization, one large colonial possession of the United States and the colonial possession of four European nations. They lie just off our coast, much nearer to us than to any other great nation, and their trade should be chiefly in our hands. How important their trade is may be seen from recent statistics."

Just over the Cecil county line, at a historical spot known as Cooch's Bridge, on the soil of little Delaware, was unveiled Tuesday a tablet to mark the spot where tradition says the American flag was first carried into battle and received its baptism of blood. Cooch's Bridge was the site of a lively skirmish between the advance guard of General Howe's army, on its way to invest Philadelphia, and a small detachment of American patriots, commanded by General Maxwell, during the Revolutionary War. Chief Justice Lore of Delaware presided at the celebration; the Rt. Rev. Leighton Coleman, Bishop of the Diocese, made the invocation; Mr. Henry C. Conrad gave a graphic description of the event, and brief addresses were made by President-General Walter S. Logan of the Sons of the American Revolution, and others. The property on which the tablet stands was formally presented to the State by the Hon. J. Wilkins Cooch, the owner, and accepted by Governor Hunn.

The United States Government has purchased the Danish West Indies, paying four and a-half million dollars for the group. These little islands may be described as outposts of Porto Rico, and it is thought very little additional trouble will be occasioned by the acquisition of these little neighbors of the new possessions in the West Indies. The population is about thirty-five thousand negroes, and sugar planting is their principal industry.

Mr. Elias Jones, 2037 E. Lombard street, Baltimore, largely aided by interested friends, is preparing a history of Dorchester county. One hundred and twenty-five pages are reserved for family histories of the builders of the county. Any one who may be so interested are invited to prepare brief sketches which will be published free.

J. Henry Plugge, a German settler, who some time ago removed from Nebraska to Talbot county, recently wrote an article for a Chicago paper advising Germans to come to Maryand. He extolled the soil, climate and productions of this State and paid a high compliment to our Immigration Bureau.

The Baltimore *News* urges that the next legislature take up the oyster question again, and says that with proper management the State's waters might be made to pay the State thirty-eight million dollars per year. The good effects of the last oyster law put upon the books have not been tested yet.

The Easton *Ledger* says Senator McComas favors Mr. Mudd for the Senate. With Mr. McComas and Mr. Mudd of the same mind it will not be hard to guess the name of the Senator—if the Republicans succeed in their great efforts to control the legislature.

General Leonard Wood, Governor of Cuba, says the United States is ready to surrender the government of the island to the Cubans whenever they are ready to receive it, and he thinks it will be done in about one year.

The Republicans were wont to cry out, in times past, against all manner of bossism in Maryland, particularly that attributed to certain prominent Democrats. Nevertheless, at that time, they could have double discounted the Democrats at the game of bossism and then beaten them. It was the stock in trade of half a dozen or less Republicans in the several counties to dole out the nomintaions, but no kick was made as long as empty honors only were handed around. The rank and file of that party—those who have never known anything else than political servitude—are quiescent still; but in sundry parts of the State bossism, of a sort offensive to ambitious Republicans, has reared its dragon head, and thereat are aimed the arrows of discontent. In Talbot county the bossism is not much more than a local supremacy of faction; in Dorchester it is a small-numbered corcern, arrogant in its petty authority, with influential abettors, it is said, on the Western Shore, but in Allegany it is the whole thing—a close corporation that makes private gift of public office, and hundreds of Republicans will break away from such conditions this fall.

Citizens of Centreville and vicinity are to be congratulated on their added railroad facilities. We are glad of their good fortune. The new line is a tie which binds the counties of Queen Anne and Caroline, even more firmly together in business and social matters.

It is said that Lieut.-Col. Robert H. Noble, who was a member of General Shafter's staff during the Santiago campaign, will be a witness before the court of inquiry soon to be assembled in Washington.

There was a large gathering of Democratic committeemen at the Eutaw House, Baltimore, on Tuesday last, every county being represented. All the county chairmen reported very bright prospects.

Bradstreet's recently sent letters to all parts of the country to get information about the corn crop, and the replies indicate that the crop will be much better then was anticipated.

There should be no discouraged Democrats in Maryland this year. There is nothing in the prospect to occasion anxiety. And this is the condition in Caroline.

The Trappe *Times* (Republican) says Mr. Dixon and all the other nominees of the Barber convention of Talbot will be defeated in November.

A crisis is now near at hand in South America, and it is thought that serious trouble between Venezuela and Colombia is imminent.

Senator A. P. Gorman has returned from Saratogo.

NATIONAL TOPICS.

The Treasury Bureau of Statistics, and the other departments of the government service, continue to receive proofs of the growing foreign trade of this country, and of the increase of cordial relations between this and other nations. This neighborliness is shown particularly in regard to the adjacent islands of the West Indies. Information from the Treasury Department shows a growing disposition on the part of the island of Jamaica to trade with the United States, until now we have the bulk of the island's commerce. The facts and figures given out have an added interest because Jamaica is a British colony, and the data comes from the British colonial report. The value of exports shows a constant increase from the island to the United States, and where Great Britain has almost a third of the Jamaican exports in 1896 she gets now less than one-fifth, Americans taking the rest. Her imports to the island are also decreasing steadily in proportion to the volume of trade while the United States gain.

Another trade gain for this country is shown in the latest advance sheets of Consular Reports, obtained from the State Department. One of them shows the largest single item of trade between our country and Korea is kerosene, which for the past year amounted to almost a million dollars. The Americans have lately been annoyed by the importation of inferior oil into Korea, in the tins and cases in which their own product had been imported into Japan. Orientals have no respect for unregistered trademarks or laws against adulterations, so the only redress is to employ reliable agents and to maintain a strict surveillance over them. The imports of kerosene other than American amounted to about $100,000; or a little more than one tenth of the American trade.

The Schley-Sampson controversy is attracting but little attention now, and everybody is letting it drop for a breathing spell until the Court of Inquiry convenes at the Navy Yard, September 12. On account of the dearth of news just now the yellow journals are trying to keep the feud alive, but the public is apathetic.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Sold by R. J. Colston, Denton; Hugh Duffey, Hillsboro; T. W. Smith, Ridgely, Md.

Tour to the Pacific Coast.

In view of the great popularity of transcontinental travel under the Personally-Conducted System, as evinced in the recent Pennsylvania Railroad Tour to the Pacific Coast and Canadian Northwest, that company has decided to run another tour to the Pacific Coast, including in the itinerary a visit to the world-famous Grand Canon of Arizona, in the early Fall. The tour will leave New York, Philadelphia, Baltimore, Washington, and other stations on the Pennsylvania Railroad east of Pittsburg, on Monday, September 23, and reach New York on the homeward trip Tuesday, October 22.

As in former tours to California under the auspices of the Pennsylvania Railroad, a special train, composed of the highest class of Pullman equipment, will be utilized during the entire trip. Excellent meals will be served in the dining cars attached to the train during the entire journey, except during the stops at San Francisco and Chicago. An observation car will appeal to all who delight in scenery. Few trips afford so great a diversity in Nature's beauties as the one outlined below. Westward bound, the tourist will pass through the wild slopes of the Colorado Rockies, around the Great Salt Lake, and over the fastnesses of the Sierra Nevada. After visiting all the beautiful resorts on the sunny California slopes, the eastward journey will be through the Arizona desert to the Grand Canon of Arizona. Its beauties cannot be painted in mere words. Magnificent in coloring, awful in its depths, it stands among the natural wonders of the world. Thence across the plains to St. Louis, and eastward through Illinois, Indiana, Ohio, and Pennsylvania, the tourists reach their destination just thirty days after leaving home.

The various transcontinental lines having made low rates on account of the General Triennial Convention of the Protestant Episcopal Church, the Pennsylvania Railroad Company is enabled to offer this superb vacation trip at the low rate of $185 for the round trip from New York, Philadelphia, Baltimore, Washington, or any point on Pennsylvania Railroad east of Pittsburg, one in a berth; and $165 for the round trip, two persons occupying the same berth. The rate from Pittsburg will be $5 less.

Diagrams are now open and as the number who can be accommodated will be strictly limited, names should be registered immediately.

For further information and descriptive pamphlet, apply to George W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

Reception in Honor of Q. A. R. R.

The business men of Centreville under the auspices of the Business Men's Association, will tender an informal reception in the town of Centreville to the Directors and Officials of the Queen Anne's Railroad Company on Thursday next, Defenders Day. This courtesy to the company is in recognition of the benefits that will accrue to the commercial interest of the town and community by the building of the branch road from Queenstown to Centreville, thus giving the town facilities enjoyed by very few towns of the State. Definite plans have not been fully completed but it is probable that the reception will be held either at the Arlington House or Town Hall Thursday afternoon. The officials will be met at the new depot by carriages and under the escort of the Centreville Cornet Band. Committees and subscribers will be published later.
—*Centreville Observer.*

Schools will be opened on Monday, September 23.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhœa Remedy and he said 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale by R. J. Colston, Denton; Hugh Duffey, Hillsboro; T. W. Smith, Ridgely.

Reward Offered.

Mr. George C. Moore, Queen Anne, offers ten dollars reward for the return of his bay (or brown) mare, which strayed or was stolen from his premises on the night of August 23. The animal weighed 1,100 pounds. May be easily identified by a peculiar motion of hind feet which twist outward when walking.

Mr. W. J. Murphy, having failed to comply with the terms of sale of the store at Hobbs, the public is notified that we will continue to sell at reduced rates until further notice. The stock is still for sale to a reliable party.

Proposals for Wood and Coal.

OFFICE OF THE SCHOOL BOARD,
Denton, Md., Aug. 14, 1901.

Sealed proposals, marked "Proposals for Fuel," for sufficient merchantable and well-seasoned wood, which, when added to whatever may now be on the school grounds, shall together make five cords for each room, will be received at this office till 2 p. m., of September 10, 1901.

The bidder must state what kind of wood he offers and, if successful in securing the award, must cord the wood in four-foot lengths on the school grounds not later than October 1st. The wood must be examined and measured by a trustee of the school, who will be required to certify to the quantity and quality on the bill for same, which must be made out on uniform fuel blanks to be furnished by this office.

At the same time proposals will be received for No. 1 Lehigh Valley white ash Stove Coal for the following schools: Henderson, 5 tons; Greensboro, 12 tons; Ridgely, 14 tons; Denton 18 tons; Hillsboro, 5 tons; Preston, 10 tons. The coal must be weighed by a trustee of the school or by some one selected by the School Board.

Fuel bills are payable in October.

OEHM'S ACME HALL,
THE MEN'S AND BOYS' STORE.

Do You Realize

How modern methods of high-salaried-artist cutters and expert tailors have affected the manufacturing of ready-to-wear clothing?

Do you realize that today you can see the most attractive examples of this clothing at our store? Suits of Dependable and Fashionable Clothes that outclass nine-tenths of "Custom-made."

These suits are the latest summer weight Cassimeres, Cheviots and Worsteds, some half-lined and cloths soft and fine. Then the inside tailoring: back of the snug collar, the graceful the smooth edges, is the staying, stitching and shaping that make the suits fit well and hold their shape.

Prices always lowest compatible with quality. Men's fine summer suits $8 50 for $10 and $12 suits. $10 for $13.50 and $15 suits. Boys' suits—$5. $6.50 and $7.50 for $3 75, $6.50, $7.50 and $10 suits for $5 00.

Also full lines of everything the well-dressed man or boy wears. Shoes, Shirts, Hats, &c., under one roof.

A LARGE LOT OF
STOVES
—AT THE—
Burrsville Hardware Store.

Ten different kinds of Steel, Wrought Iron, and Malleable Iron Ranges; One Sledge Hammer kind—the kind you can beat on with a sledge hammer, but it is not made for that purpose; it is made to cook with. Nine other kinds fully as good. Some of the latest improved patterns, picked from 25 of the leading manufacturers of the United States. All are asbestos lined. Will save one-fourth the fuel; made so as to hold the heat inside in hot weather and let the heat out in cold weather, when not baking. Guaranteed first class, and sold at a very low price.

Repairs for 40 Kinds Cook Stoves.

Furniture, Carpet, Matting, Oil Cloth, &c. Poultry Netting, Heavy Wire Netting for yard, lawn and cemetery fencing.

Ready-mixed Paints 35c to $1.60

To close out the following I will sell at
15 to 50 Per Cent. off
the regular price: Leather Top Carriages; Steam Cookers; Long Handle Pruning Shears; Second-hand Coal Stoves; Double Heaters; Truck Harrows; Parlor Furniture.
