Senator Turner, whose speech against the Ship Subsidy bill was alluded to by Senator Frye, as "very amusing" and as showing "dense ignorance" gave Mr. Frye a scoring that he will not soon forget. He compelled him to admit "that there might be errors" in some of his figures as to the working of the bill, and then said that Mr. Frye had a vicious job on his conscience and could not afford to laugh at anybody, and that he had laughed showed that he would laugh in a graveyard at midnight; that the man who had charge of a crime and was pushing a crime and was pushing a steal, had no reason to laugh at anybody. He referred to Mr. Frye as "a gudgeon smelling around in the mud for food and accepting the decayed with the good." During the latter part of the speech Mr. Frye became so angry that he left the Senate chamber and did not return until Mr. Turner finished.

For the weakness and prostration following grippe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly. J. S. Denny.

Reports show a greatly increased death rate from the throat and lung troubles, due to the prevalence of croup, pneumonia and grippe. We advise the use of One Minute Cough Cure in all of these difficulties. It is the only harmless remedy that gives immediate results. Children like it. J. S. Denny.

A number of persons of this town and vicinity who have wrested with the grippe are improving slowly, and it is very slowly because the grip holds fast as a mortgage. There has been much suffering from the disease and it is impossible to name the sick because we would have to mention half of our population.

There is hardly a married man, except a printer, who does not carry in his pocket the picture of an attractive young woman who is not his wife or his sister. Yes, and we violate no confidence when we say that her name is Miss Annie W. Williams, of Philadelphia, and that her picture ornaments the silver dollar which all of us use whenever we can get them.

**La Grippe Quickly Cured.**

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe" says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with the Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by B. E. Cockey & Co.

**Officers Elected.**

The following officers of the Queen Anne's Railroad Company were elected Saturday: President, William H. Bosley; vice-president, Dr. Charles H. Tilghman; secretary, Archibald H. Taylor; treasurer, Robert W. Smith. Members of the board of directors elected, in addition to the officers, were: Wesley M. Oler, David Ambach, John S. Gibbs, Henry C. Matthews, John S. Gittings, Charles H. Tilghman, Jorean Stabler and Frank Eblen, of Maryland; Philip L. Cannon, Dr. H. R. Burton, L. L. Layton and John L. Saulsbury, of Delaware.

**How to Cure the Grip.**

Remain quietly at home and take Chamberlain's Cough Remedy, as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. A new religious sect has been formed in Massachusetts which declares that the millennium is due in 1904. The sect is evidently not worrying over the marked absence of any preliminary signs of the same.

Mr. Roosevelt has been monopolizing the gossip about the nomination for President of the Republican race track for a good while; but after Congress has been in session awhile the blankets may be taken off some other hot pacers.

The Prohibitionists of this county are advertising their ware. As we have no official analysis of their product, and fearing it contains typhoid germ, we will continue to use the old reliable Democratic Brand with its ripe age and mellow flavor.

A New Jersey woman of a hundred ascribes her long life to the fact that she never went to balls, and warns the young girls to take more care of themselves. But the majority of women would prefer, if forced to a choice, to be short on longevity and and long on fun.

Sir Thomas Lipton has again failed to lift the cup, and it will now remain on this side of the ocean until some other champion comes from the Old World. If Sir Thomas makes another trial it will be a display of pluck and persistent energy which can scarcely be expected. "Try, try again" has been his motto, but there must be an end to all things, especially when the trials are so enormously costly as these yacht races are.

Holding the State conventions of the two parties this year near the middle of September will give a shorter campaign than there has been in this State for a general election in many years. Whether this is an advantage or otherwise it is hard to tell. In these days of newspapers the importance of the stump speech has greatly diminished. It is likely that the number of people who change their sentiments or their purpose to vote this or that ticket in consequence of the arguments or eloquence of the candidate or the stump speaker is very small indeed. Nevertheless, the people like to see their candidates, and it is probable that the campaigning of the candidate for Governor or other offices through the State promotes the interest of the voter in the election and causes some to go to the polls on election day who would otherwise stay at home. This year from the nomination of the candidates to election day there will be only six weeks. This will allow not more than a day for each county after deducting a few for Baltimore city. It may be, however, that the active campaigning for the nomination before the parties line up again... ...other, will in ... the
